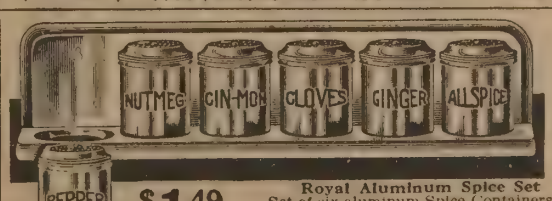
486 F 1277—No. 9. Capacity, 8 quarts. Shipping weight, 7 pounds.....**$4.98**



A Teakettle like this will last a lifetime. Cast in one piece—not a crevice where dirt and dust can stick. Aluminum is an economy—it lasts long and heats quickly and evenly, saving fuel. Cover of kettle is attached so it can be moved from one side to the other without being entirely removed. Handle will either stand upright as shown in illustration, or will lay flat. Black wood grip and black wood knob on cover. Kettle can easily be filled through large spout. Use of this kettle is not advised where water contains much alkali, as it affects the metal.

Royal Angel Food Cake Pan

For baking angel food, sunshine and sponge cakes. Diameter, 10¼ inches; depth, 4 inches. Shipping weight, 2 pounds.

86 F 1396.....98¢

Self Basting Roaster

For Tender, Juicy Roasts

$1.59 The special construction of the snug fitting cover insures perfect self basting. All the rich juices are kept in the meat—no shrinkage and no waste. Just put your meat in the oven and forget all about it until dinner time. Your roast will be cooked perfectly. As the roast cooks vapor forms and collects on the grooves in the roaster cover. These savory drops of moisture fall back in a steady shower on the meat, basting it perfectly.

Sanitary and as easy to clean as china. It is entirely seamless. Has no cracks or corners. Made in heavy imperial blue enamel. Size, 19 inches long; 11¾ inches wide; 8¼ inches deep. Shipping weight, 8 pounds.

486 F 717.....**$1.59**

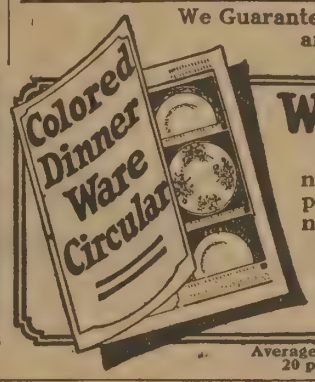
Imported Grecian Key Border

The famous DeLuxe shape is used in this dignified Grecian Key design of genuine H. & Co. Bavarian China Dinner Ware. The decoration is simple and neat, yet artistic enough to be pleasingly attractive.

The Grecian Key is drawn in delicate black lines between two gold borders—a design that looks well on any table. The edge of each piece is finished with a narrow gold band and the handles are daintily traced with gold.



Our price is extremely low for an imported dinner set so beautifully decorated. The few pieces of this set shown above, show the beauty of the shapes and the charming decoration. **For list of pieces in various sets, see top of page.**

Write For Your Copy

Before deciding on your new dinner set, you may want to see the pattern in detail. Our special Dinner Ware Circular contains in actual colors the detailed design of each of our colored patterns. A postal card saying "Send Dinner Ware Circular" will bring it to you.

Ward's Dinner Ware Is Attractive and Practical

ON Pages 427, 428, 429, 430 we offer a complete and varied selection of Dinner Ware. Practical plain white dishes are shown as well as light, dainty china of fine quality.

In choosing our dinner ware we have considered carefully the appearance of the entire set on the table. We do not carry gaudily colored patterns, but only those patterns that are conservatively decorated.

Our American as well as our Imported Dinner Ware is the best of its kind obtainable. And because of the large quantities we buy direct from the makers, we can quote these extremely low prices. Make a substantial saving by purchasing a complete set at our low prices.

The pieces for our various sets have been selected carefully. No useless pieces have been included. As in accordance with the most modern table appointments, our sets include bread and butter plates instead of individual butter dishes.

You risk absolutely nothing by buying your dishes from us. We guarantee safe delivery and will replace without charge any pieces broken in transit.

On the opposite page we give a list of the various pieces included in the American Dinner Sets shown on Pages 428 and 429.

Imported Dinner Ware is shown on Pages 427 and 430.

Average shipping weights: 10 pieces, 20 pounds; 20 pieces, 30 pounds; 30 pieces, 40 pounds.

All White Embossed Dinner Ware

For the large family, boarding house or institution, nothing is more serviceable than this durable, plain white ware. Although it is comparatively light in weight, it will stand rough handling. A neat embossing trims the edges and handles. Our prices speak for themselves. In comparing our prices with others, remember that our **American semi-porcelain is the best obtainable.**

Colonial Bright Gold Band Set

A pretty Dinner Set of our regular highest grade American semi-porcelain, decorated with a one-quarter inch bright gold band and an inner gold threadline. The handles are traced with gold. It is quite unusual for a dinner set, banded with gold, to be priced so low. **For list of pieces in various sets, see top of Page 429.**

Attractive Conventional Rose Pattern

A new adaption of the always popular rose design. Pink roses are combined with small blue flowers in a graceful, conventional pattern daintily outlined in black. Blue line tracings skillfully applied by hand to edges and handles give a touch of individuality. Our highest grade American semi-porcelain ware, very favorably priced. The above illustration shows the various pieces included in our 36-piece breakfast set. But, like our other American dinner ware, this is furnished in four different sets.

Our Daintiest Conventional Pattern

A colorful conventional pattern in which bright shades of pink have been used with such skill and daintiness as to give the Set the richness and elegance of imported dinner ware. The pink border is broken at intervals with sprays of roses and violets. Handles half covered with gold. Edges finished with gold. The body is our high grade American semi-porcelain. **For list of pieces in various sets, see top of page.**

This dinner ware is carried in stock with all initials excepting Q, U, V, X, Y, Z. Dishes with these initials are made to order, requiring a delay of five weeks, and are shipped from Central Ohio.

When you buy your Dinner Ware at Ward's, you get our special Dinner Ware Service. If at any time you wish to replace any pieces and do not find your pattern shown in our Catalogue, send us a sample and we will do our utmost to match it for you.

55 Piece Dinner Set — $12.35 — Service for 12 Persons

Dainty Basket Pattern

The daintiness and simplicity of good taste make this an especially desirable set for your table. Graceful baskets filled with pink roses, forget-me-nots and gardenias form the delicately colorful design. The edges and handles are hand decorated with narrow bands in the popular periwinkle Blue. The body is our usual high quality American semi-porcelain ware. **For list of pieces in various sets, see top of page.**

Our Lowest Priced Conventional Design

This Set appeals to the woman who likes a simple, effective table setting. While the border is quite narrow—an ivory background with garlands of pink roses and foliage—it has touches of black which give strength to the design. The edges and handles are gold traced. The body is our usual high grade American semi-porcelain ware. **For list of pieces in various sets, see top of page.**

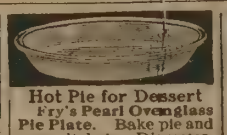
Fry's Genuine Ovenglass



NO more black baking dishes to wash. With Fry's Ovenglass you can watch the food cooking and then at just the right moment put it on the table, piping hot in the same dish. And the dish is easy to clean—simply wash it like you would a tumbler. There are no seams where dirt can gather.

Best of all it never wears out. Years of service will find Ovenglass the same beautiful, new looking utensil as when you bought it. The hottest oven will not affect it or cause it to crack or chip. Meats cooked in Ovenglass will retain all their savory juices and flavor. Bread or cake will bake evenly and thoroughly. Saves fuel too, for Ovenglass holds the heat. When you buy Ovenglass, you make a real investment. With ordinary care it will last a lifetime. Makes a useful gift.

Pearl Ovenglass Bread Pan

Ovenglass enables you to see through the dish how your bread or cake is baking. It distributes the heat evenly and cooks food thoroughly. Bread baked in Ovenglass will be light and evenly browned. Size, 9 by 5 by 2¾ inches. Shipping weight, 4¼ pounds.

Lamps That Rest Your Eyes

Save Half Your Oil Bill

Gives a Shadowless Light

$8.48

Neat Embossed Design—Nickel Plated

Angle Lamps are the choice of people who want comfort at the lowest cost. The flame burns at an angle, throwing the brightest light downward through the clear glass globe while the opal glass chimney spreads a soft mellow light to the upper part of the room. You read and work in perfect comfort. No changing of your position to get better light, because there is nothing under the flame to cast a shadow.

Easy to Light. Simply raise the burner and apply the lighted match. No chimneys or globe to remove. Angle lamps may be burned low or to full height without flicker, odor or smoke.

Cuts Your Oil Bill in Half. The Angle Lamp burns 20 hours on one quart of oil while average lamps burn only 10 hours on this quantity. The oil pot may be lifted out for filling without removing chimney, globe or burner—it is not even necessary to extinguish the light.

This lamp is finely nickled and polished, with embossed oil pot holder. Bottom globes of plain clear glass and chimneys of white ribbed glass. Fitted with number 3 flat wick burners.

Two-Burner Hanging Lamp

Burns 10 hours with one filling of 1 quart of kerosene. Shipping weight, 26 pounds.

450 F 966.....**$8.48**

Three-Burner Hanging Lamp

Burns 15 hours with one filling of 3 quarts of kerosene. Shipping weight, 30 pounds.

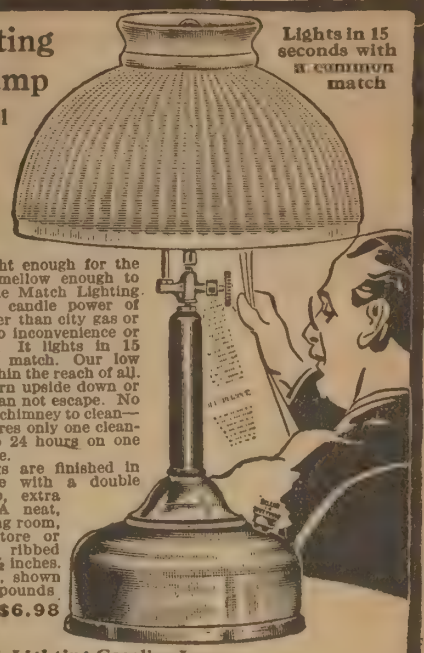
Single Burner Wall Lamp

Oil pot holds 1 quart of kerosene. Burns 20 hours. Shipping weight, 18 pounds.



450 F 965.....**$5.48**

Match Lighting Gasoline Lamp

With Ribbed Opal Glass Shade

$6.98

Lights in 15 seconds with a common match

Enjoy good Light. Bright enough for the finest work yet soft and mellow enough to be restful to the eyes. The Match Lighting Gasoline Lamp gives 300 candle power of bright, steady light, brighter than city gas or electricity. And there is no inconvenience or waste of time lighting it. It lights in 15 seconds with an ordinary match. Our low prices place these lamps within the reach of all.

Perfectly safe—it will burn upside down or in any position. Gasoline can not escape. No greasy wick to trim or dirty chimney to clean—no smoke, no smell. Requires only one cleaning a month. Burns 20 to 24 hours on one filling of 2 quarts of gasoline.

The base and trimmings are finished in polished nickel. Complete with a double mantle burner, air pump, extra generator and wrench. A neat, plain lamp, suitable for living room, dining room, bedroom, store or office. Diameter of white ribbed shade, 10 inches. Height, 19½ inches.

Uses mantle No. 50 F 956, shown below. Shipping weight, 15 pounds.

450 F 951.....**$6.98**

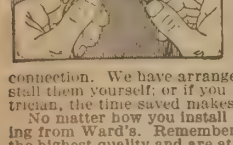
Books containing many interesting games for home entertainment are shown on Page 328

Beautiful Lighting Fixtures for Every Home



You already know the advantages of Electric Light in your home. But have you ever stopped to consider that unless you have the proper fixtures, you are losing a large part of the service that electric light current brings to you? Properly selected lighting fixtures not only make your home more attractive, but they also make it far more comfortable and add to the pleasures of your home life.

A Wide Choice of Styles and Finishes

You will find shown on these pages a complete selection of Lighting Fixtures that will suit the needs of practically every home. One example of our low prices is shown at the right. There are other values just as great on this and the following pages.

If you are building a new home or remodeling your present one, give proper attention to the matter of lighting equipment. Look through these pages and see at what low prices you can have beautiful fixtures in every room in your house.

Ward's Fixtures Easy to Install

Ward's fixtures come to you completely wired and ready to install. Each fixture is equipped with solderless connections, which make for convenience and speed. To install Ward's fixtures, all you need do to make the connection is to insert one end of the feed wire in the solderless connector, tighten the setscrew, wrap with tape, and you have a positive—Underwriters' approved—connection. We have arranged our fixtures so that you can easily install them yourself; or if you prefer to have the work done by an electrician, the time saved makes the cost of the work very low.

No matter how you install your fixtures, you save money by ordering from Ward's. Remember too, that all our lighting fixtures are of the highest quality and are attractive in any home. Select the fixtures that you need for your home, from these pages, and prove to yourself that Ward's prices for quality fixtures are very low.

$16.50 Complete 7-Piece Lighting Fixture Set for 5-Room House

TAKE advantage of the low prices on this complete set and equip your home with modern Electric Fixtures. This attractive set will add greatly to the appearance of your home; and this is an unusual opportunity to obtain a high grade, handsome set of seven fixtures at a low cost.

The four-light, semi-indirect Shower 363 F 8005, with three side lights is suitable for living room or dining room. The Bowl Fixture, 363 F 8001, without side lights is suitable for living room or parlor. Diameter of bowl, 15 inches. The Pendants, 363 F 8002, are suitable for hall, kitchen or bedrooms. The Bracket, 363 F 8003, is suitable for any room. The Ceiling Light, 363 F 8004, may be used for hall, porch or bath room.

Fixtures are fitted with satin finished white Alabaster glassware embossed in handsome design, except ceiling light, which has frosted ribbed crystal glass ball shade. All metal parts are solid brass. Hanging fixtures are 36 inches long. All sockets have keys to turn light on or off, except those inside bowls and ceiling light. Fixtures come to you completely wired and ready to install. Bulbs not included.

Aluminum Alloy Ivory and Polychrome Fixtures

THIS Ivory and Polychrome finish is the most beautiful that we have yet seen for lighting fixtures. The charm of the embossed design is brought out in an attractively tinted finish which will not crack, chip or peel, but will retain its luster. Polychrome has rapidly established its popularity as an attractive interior decoration. It harmonizes well with the furnishings of almost any room. It is particularly effective in rooms decorated in lighter colors, such as bedrooms, sun parlors and breakfast rooms. These fixtures are made of cast aluminum alloy (except chain, which is brass). Aluminum alloy brings out the embossing nicely and when treated with a polychrome finish, retains its bright and fresh appearance for many years. Polychrome is a combination of tints: Pink, blue, yellow and green. Wired complete.

Candle Bracket
Embossed Wall Shield, ivory and polychrome finish. Two electric candles, wires complete. Bulbs not included. Keyless sockets. Shipping weight, 5 lbs.

Solid Brass Velvet Brown and Gold Fixtures

Wired Complete Ready for Installation

Good taste without extravagance is possible with these Fixtures. Finished in beautiful Velvet Brown and Gold. Here are combined attractive design with richness of finish—the two most desirable qualities in fixtures; and yet the prices are moderate.

There is lasting satisfaction in having fine fixtures such as these in your home. A beautiful dark russet brown is used as the basic color, and is combined with a burnished gold effect in distinctive embossed patterns. The contrast is very effective and attractive. And the finish is permanent—it will not scratch easily, nor will it tarnish or lose its color. The Alabaster white glass shades are softly tinted in brown shadings to match the metal parts. The bodies of these fixtures are extra large size, of solid brass construction with cast brass arms richly chased.

Ceiling Light

Ceiling band of genuine brass. Finished in the new velvet brown and gold. A very attractive Ceiling Light for hall or bedroom. Bulb not included. Ship. weight, 6 lbs.

$35.95 Velvet Brown and Gold Finish

Handsome 8-Piece Set

A Combination of Bright Gold Against Velvet Brown

ONE of the greatest values we have ever been able to offer our customers in a complete set of high grade Lighting Fixtures. Solid brass construction throughout, assuring long wear and satisfactory service. Finished in a beautiful velvet brown and gold that will make an attractive appearance in the home. Fixtures are fitted with satin white crystal glass shades embossed with floral design and attractively tinted in pink and green. Our exceptionally low prices include fixtures completely wired and ready to install, with glasswear as shown. All hanging fixtures and brackets have key sockets to control the light; ceiling light and light inside the bowl are controlled by a wall switch, and are fitted with keyless sockets. Prices do not include bulbs. Turn to Page 438 for a complete selection of high grade bulbs at lowest prices.

Why You Save Money When You Buy Fixtures from Ward's

To understand how Ward's Lighting Fixtures are offered at such surprisingly low prices, you must know something of the enormous business which we do. Since we order lighting fixtures in such large quantities, we are naturally able to select from the best manufacturers in the field and to obtain the lowest possible prices from them. Furthermore, we make a very careful study of the general market conditions, and buy our lighting fixtures when the prices of raw materials are favorable.

Quality the Keynote

Ward's Lighting Fixtures have met with favor in thousands of homes because we consider quality first, rather than low prices. By this we mean that we never sacrifice quality in any way in order to lower our prices. All price reductions are made possible either by favorable market conditions or because we take advantage of some opportunity in the manufacturing line. Regardless of what fixture you select from these pages, you are assured of the best quality in every detail.

Approved by Board of Underwriters

UNDERWRITERS' LABORATORIES, INC. INSPECTED ELECTRIC FIXTURE

Every fixture sold by Montgomery Ward & Co. is approved by the **Board of Underwriters**, which is a guarantee to you that the fixture is properly constructed from the standpoint of both mechanical and electrical construction. You are thus assured of proper workmanship, proper design, and proper attention to the safety of your home.

Genuine Brass Fixtures with Frosted Crystal Glass Shades

THE Patrician is an unusually beautiful pattern. When you see the quality of these fixtures you will be highly pleased with them. The handsome Patrician design embossed on genuine brass with its rich velvet brown finish, makes an appropriate setting for the daintily colored glassware. You would go far to find a pattern more decorative than the Patrician.

The glassware is frosted in satin crepe finish, with the wild rose pattern raised in rich relief. The embossing is so skillfully done that the flowers have a delightfully natural look. The rose and green colors in the floral design are tinted by hand on the inside of the glassware, to shed a dainty glow. The color contrast—bright gold against brown—sets off the general appearance of the fixtures. The wide variety of styles offered in this pattern gives you a large choice in the selection of fixtures for every room in the house. And at the low prices you can easily afford to have the kind of fixtures that make your home bright and cozy. Wired complete, ready for installation.

Bronze and Gold Finished Fixtures with Decorated Opal Glass Shades

BRONZE and Gold Finished Fixtures are among the newest and most popular. This color combination is especially pleasing, and will add refinement and a warmth of color to your home. Shades are decorated in a primrose pattern, and make a very pleasing appearance. They are hand tinted and are of high quality, white satin finished opal glass.

All metal parts of these fixtures are of genuine brass with dark bronze body, and are embossed with a burnished gold design. This finish does not tarnish or show signs of wear. Arms are heavy cast brass in handsome bold relief design.

Prices include glassware as shown. All fixtures are wired and ready to hang. Fitted with key sockets except bowl and ceiling lights, which are controlled by a wall switch. Ball bulbs not included.

See Page 438 for Electric Light Bulbs.

Health Building Violet Rays in Your Home

For treating rheumatism, headache, colds, constipation, insomnia, neuralgia, catarrh, bronchitis, sore throat, lumbago, skin and scalp affections and many other common ailments.

Violet Rays are used by leading physicians, hospitals, sanitariums and beauty specialists. They penetrate to the innermost tissues, help relieve pain, to stimulate vital organs, to relieve congestion and aid nature in restoring normal glowing health. The one obstacle has been that frequent treatments are desirable and many could not find time or afford the expense. Now everyone can, at our low prices, have his own outfit for home use. Many ailments can be checked at the start before they become serious. Cases of long standing can be treated daily as long as necessary at less than cost than one or two visits to a specialist. The cost of the current used is very small so the low cost of the outfit is practically the only expense. Outfits are supplied complete with facial and body electrode, 7 feet of cord with plug for lamp socket and instructions for treating eighty-eight of the more common ailments.

63 F 1553—Outfit for home use only, 105 to 115 volt. Complete.... $8.95

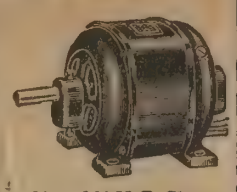
63 F 5868—With 1 inch copper point. For medium heavy work.....$4.25
Postage, 12¢ extra



Buying right is the easiest way to save. You buy right at Ward's

Induction Repulsion Motors

1, 2, 3, 5 H. P. Sizes

Induction Repulsion Motors are the best type to use where a large amount of power is required to start the load. These motors are especially recommended for use on lighting circuits as they do not draw an excessive amount of current when starting and therefore do not flicker the lights. For operating pumps, cream separators, blowers, washing machines, etc., as well as for general heavy duty they can not be excelled. Horse power ratings are based on 40° centigrade temperature rise. Our prices are very low.

¼ and ½ H.P. Sizes

You may depend on these Motors to give long, satisfactory service under severe conditions where an ordinary motor would not give satisfactory service. The larger sizes illustrated above are built for heavy duty. They are equipped with slide rails so belt can be kept tight without changing position of motor base. Wound rotors. Rugged commutator short circuiting device. These motors have a starting torque of over 200 per cent of the running torque. Black enamel finish. Connections arranged so motors are interchangeable on 105 to 120 or 210 to 230 volt, 60-cycle single phase alternating current.

Article Number	H.P.	Speed R.P.M.	Pulley Diam.	Pulley Face	Ship. Weight	Each

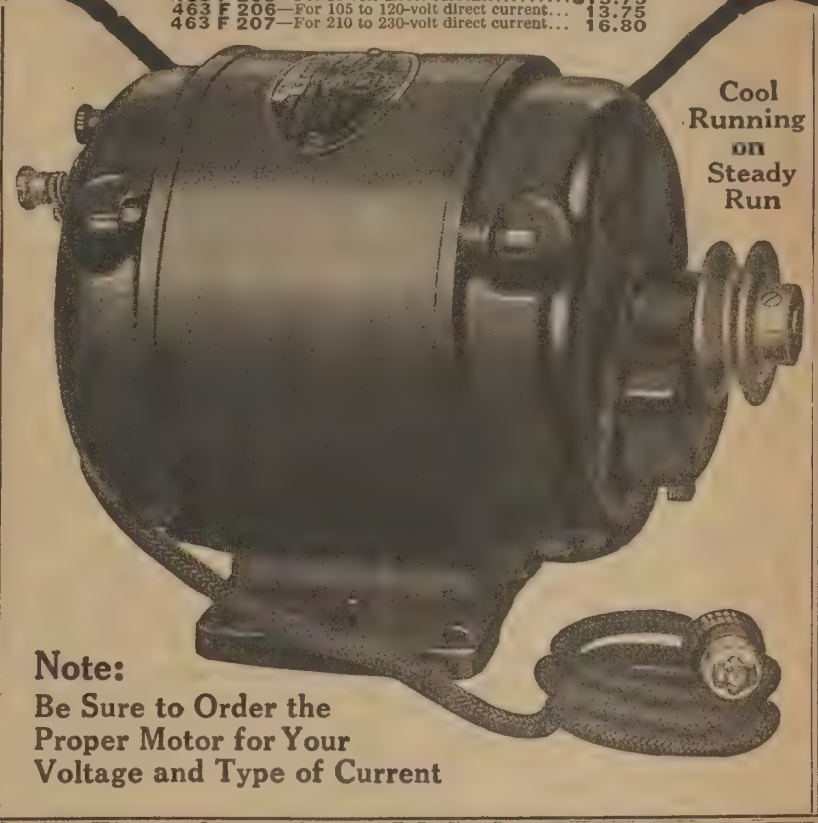
Shipped from Eastern Missouri

Induction Repulsion Motors, ¼ and ½ H. P. These smaller sizes are especially suited for running washing machines, pumps, cream separators, churns, etc. They have a starting torque of from 400 to 600 per cent of the running torque but draw so little current they do not flicker the lights. Do not drop below 1725 revolutions per minute under full load. Cool running even on steady run. Heavy steel shaft, ½ inch on ¼ H. P.; ¾ inch on ½ H. P. Bronze bearings, oiled by wick feed. No pulley or cord included. For 110 (105 to 120) or 220 (210 to 230) volt, 60-cycle, single phase current. Shipping weights, 40 and 60 pounds.

463 F 210—¼ H. P..... $19.95
163 F 212—½ H. P..... 36.50



Special Utility Motors

This sturdy splashproof Motor will help you to do easily a hundred odd jobs around the house and farm which now are drudgery. It will do them well, too, and will pay for itself over and over again in the good service it will give. The price is low—most dealers have to pay as much for a motor of this fine quality. If you have a hand power washing machine with a balance wheel, one of these Motors will turn the wheel, even with a large washing in the machine. This does away with the back breaking work of operating the washer by hand.

These motors are just the thing for driving churns, cream separators, pumps, fan mills, or for any other work requiring not over ¼ horse power. Motor ends are enclosed except for ventilators. Shaft is of special heavy steel. Large size bronze bearings, oiled from self closing oil cups on motor end frames. Belt can be kept tight without moving motor bolts. Operates from socket or receptacle except 32-volt which requires separate circuit. Fitted with ten-foot cord, attaching plug and 1¾-inch grooved pulley for ⅜ inch round belt. Speed, 1740 revolutions per minute. Shipping weight, 39 pounds.

Save on Farm Lighting Plant Equipment

Powerlite Generator

Direct Current

A large, sturdy Generator with a capacity of 40 volts, 25 amperes, 1000 watts when operated at a speed of 1800 revolutions per minute. It is of the four-pole type insuring high efficiency, continuous service and an even flow of current. The rating given is the continuous load capacity and the generator can deliver 25 per cent more current than its rated capacity, without excessive heating. The Powerlite Generator has large ring oiled bearings, cast from heavy, high grade, special composition metal. Equipped with a sliding base so that the belt slack can be taken up without moving the floor fastening. In order that we may determine what size pulley you should have, we must know the speed of your engine. Also the diameters of the fly wheel and driving pulley. Give us this information when sending your order and we will supply the pulley on the generator of the proper diameter without extra charge. Voltage can be regulated by field rheostat listed below.

Regular pulley equipment: Diameter, 4 inches, face, 4 inches. Shipping weight of generator complete, 150 pounds.

163 F 189—
Generator only, as described above..... $49.50
63 F 1200—Field Rheostat for use with above generator. Shipping weight, 3 pounds..... $6.95

Powerlite Storage Battery

Big Value

These strong, rugged batteries are the logical ones to use when it is necessary to replace the batteries on your farm lighting plant. They are made for any 32-volt system regardless of make or the type batteries now in use. The cells are of heavy construction and will give full rated capacity. The jars are heavy, first-quality glass and will stand more than the usual amount of rough usage without breakage. It will mean a distinct saving to you to buy your replacement batteries from us. All batteries are new and covered by the liberal guarantee outlined below. Price includes 16 complete cells of batteries, with necessary connecting bolts and straps. All sets carefully crated and packed and guaranteed to arrive in perfect condition. Shipping weights, 520 and 930 pounds per set.

Article Number	Battery Size: 8-Hour Discharge Rating Amp. Hr.	Battery Size: Intermittent Rating Amp. Hr.	Complete Set
263 F 141	80	120	$ 98.00

Shipped from Southeastern Wisconsin

263 F 141 has 7 plates, 5¾ by 7; 263 F 144 has 11 plates, 5¾ by 8⅝.

Battery 263 F 141 has a capacity of 2560 watts and will light 16 20-watt lamps for 8 hours. Battery 263 F 144 has a capacity of 5120 watts, or just twice as much as 263 F 141 battery.

Our Battery Guarantee

We guarantee these Batteries to give lighting service for 5 years when installed and operated according to our instructions, and if they are recharged not oftener than twice a week. If, for any reason, the battery proves defective or does not give good service within the 5-year period, we will make an adjustment allowance toward the purchase of a new battery on the basis of time in service.

A Quality Generator at a Low Price

$19.75

For charging batteries, lighting lamps, operating motors, etc. Delivers 40 volts, 7½ amperes at 1750 revolutions per minute. Will charge from 2 to 5 six-volt batteries or may be connected directly to a 32-volt lighting circuit to supply current for 10 twenty-five-watt lamps. For home lighting plant, garage or battery service stations. Solid construction. Priced to save you money. Shipping weight, 39 pounds.

163 F 190.....$19.75

Direct Current Charging and Lighting Generator

$9.95

Charges Storage Batteries

Delivers current to charge any 6-volt starting or lighting battery without adjustment or regulation. Also may be attached directly to lighting circuit of tractor or motor boat or for any other purpose where 8-volt current of about 8 to 10 amperes is required. Has base for convenient attaching to flat surface. Size, 6 inches high; 7½ inches wide and 8½ inches long. Fitted with pulley 2¼ inches in diameter. Delivers 8 volts, 8 amperes against battery resistance when driven at a speed of about 2250 revolutions per minute. Amperage increases with speed.

463 F 290—With pulley for ⅜ inch round belt and with low voltage cut out to disconnect battery when voltage drops below 7 volts. A perfect protection to battery and generator..... $9.95

Extra Quality Buffer and Grinder

$21.95

Keeps your tools in shape. Fine for buffing and polishing. Pulley permits it to be used as a general utility motor. One of the best constructed buffers and grinders. For heavy duty work. Strongly built. Extra heavy shaft. Fitted with 5 by ½ inch emery wheel and 5-inch buffer. Pulley diameter, 2¼ inches. Sets solidly on 18-pound base. Does not require bolting down. Switch on base controls current. Complete with 10-foot cord with plug to attach to any lighting socket or receptacle of 110 volts direct or alternating current. Price is very low. Shipping weight, 65 pounds.

163 F 188.....$21.95

Robbins & Myers Electric Power Stand

$19.50

32-Volt Type For Farm Lighting Plant Direct Current

110-Volt Type For 60-Cycle Alternating Current

Labor and Money Saver

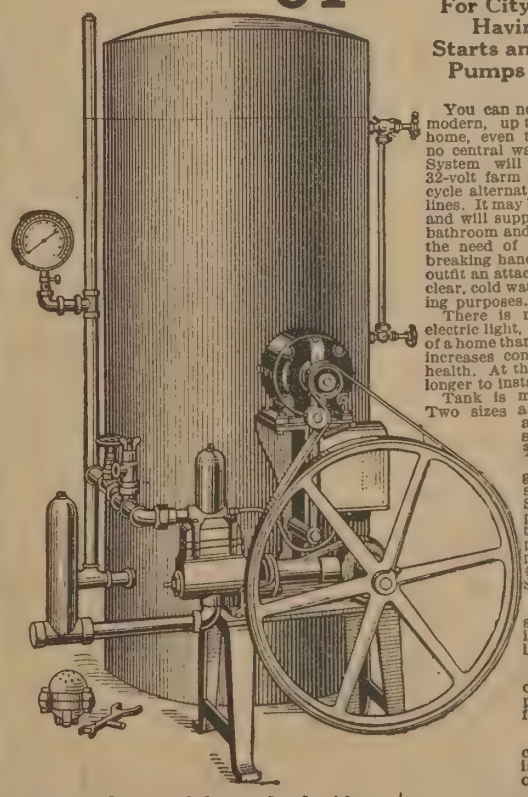
A special arrangement with the manufacturer makes it possible to offer these useful motors mounted on stands at such low prices. We consider them one of the most useful devices for the man who requires electric power for the operation of small machines in the home and around the farm.

These Electric Power Stands operate churns, washing machines, cream separators, pumps and similar machines. A great time and labor saver. Sits solidly on three rubber tipped, iron legs. Adjustable rod attaches to machine to be driven to keep belt tight. You need one of these high grade power stands to help you with the slow, tedious jobs in the laundry and dairy. Shipping weight, 75 pounds.

For 32-Volt Farm Lighting Plant Current. Has combination flat and grooved pulley; diameters, 4½ and 3½ inches for round belt and 2 inches for flat belt. Speed, 300 revolutions per minute. Nine-foot cord with attaching plug.

163 F 25.....$19.50

Lakeside Power Stand



For 105 to 120-Volt 60-Cycle Current. For use on central station alternating current. Similar to 32-volt type but pulley arrangement differs. Motor speed, 1730 revolutions per minute. Fitted with combination flat and grooved pulley; diameter, 2 inches, which revolves at 1750 R. P. M. Reducing gear on opposite end, fitted with combination pulley; diameters, 2 and 4 inches for flat and round belt. Speed, 290 revolutions per minute.

163 F 230.....$31.50

Automatic Electric Water Supply System

Very Low In Price $81.75

For City and Country Homes Having Electrical Power Starts and Stops Automatically Pumps Water When Needed

You can now have all the conveniences of modern, up to date plumbing in your own home, even though you live where there is no central water supply. Our Water Supply System will work equally well on either 32-volt farm lighting systems or 110-volt 60-cycle alternating current from central station lines. It may be connected to the well or cistern and will supply clean, fresh water to kitchen, bathroom and barn or dairy. Does away with the need of carrying water and with back-breaking hand pumps. We include with each outfit an attachment which allows you to draw clear, cold water direct from the well for drinking purposes.

There is no modern convenience, except electric light, which adds more to the pleasure of a home than running water. It lightens labor, increases comfort and tends to improve the health. At these low prices you need wait no longer to install your own water system.

Tank is made of galvanized sheet steel. Two sizes are supplied—42-gallon size for average size homes and 80-gallon size for larger homes. Inlet takes ¾ inch pipe.

Pump is specially designed to give continuously satisfactory service. Cylinder is brass lined. Suction and discharge lines of pump are fitted with air chambers to prevent pounding and insure proper intermittent service. Capacity, 180 gallons per hour against 45 pounds maximum pressure. Suction connection, ¾ inch.

An automatic switch starts and stops motor as the reserve supply in tank requires. Motor is specially suited to pump duty.

Valves and Gauges. We include a relief valve, shut off valve, pressure gauge, water gauge and fresh water valve.

Special Note: These outfits can not be used where the pump is over 22 feet above the surface of the water in the supply source.

What It Costs to Wire a Six Room House

Average Cost of Wiring Six-Room House

FOR the home of ordinary size using knobs and tubes for supporting the wires, the cost will average about $3.00 per room for materials, or about $18.00 for a six-room house. Using flexible armored conduit or BX (the best method), the cost will average about $4.50 per room for materials, or about $27.00 for a six-room house. Anyone can do the wiring with the aid of the instruction book we supply; but if you hire the work done, the labor cost will be approximately 50 per cent as much as the material cost.

You will be pleasantly surprised to see how very little it costs to wire your house for electricity.

All of Ward's Wiring Materials are approved by the Board of Fire Underwriters, Inc.

Pull Chain Socket

Has ⅛ inch cap; 8-inch chains. Most convenient type where socket is out of reach. Shipping weight, each, 3 ounces.

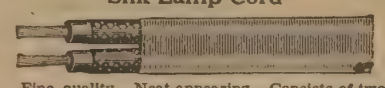
Save Money on Approved Wire



Cuts Show Wire Sizes from 4 to 26 Gauge

How to Select the Proper Wire

Size 14 wire should be used for branch circuits or for small homes and for all ordinary lighting and supply circuits. For larger homes or where power or heating devices are used, we recommend that the main lines be wired with size 12 or 10, and that the service wires from the power lines be No. 12 or larger for small homes and No. 10 or larger for larger homes.

Silk Lamp Cord

Fine quality. Neat appearing. Consists of two Number 18 stranded wires insulated with rubber and cotton and covered with braided silk. Shipping weight, per 100 feet, 5 pounds.

Safe, Reliable and Powerful Light

Gives Wide or Narrow Ray

$2.38

Throws Light Great Distance

You have been wanting a good, dependable Flashlight for a long time. Here is good news for you. You can have this fine Flashlight for only a little more than an ordinary flashlight costs. Remember that it always pays to buy the best even though it costs a few cents more. Every man needs a good, dependable flashlight. The farmer will find constant use for it around the barn and for general use after dark. For campers and hunters, it is a necessary part of the equipment.

This light has features that make it better than any other light. It can be **focused**—you can make the flashlight throw a wide flood of light or a narrow, powerful beam by simply turning the cap on the back end. Think how handy this is when you want to see an object some distance away. By adjusting the flashlight until it is set for extremely long distance you can see distinctly objects 300 feet away. Excellent for reading signboards when driving at night. An extra bulb is furnished and is carried inside the case. No matter if your bulb does burn out on a dark road—you are always prepared. Equipped with switch for flash or continuous use. Fresh, strong battery included. Brass case, polished nickel plated—or plain black fiber case with nickel plated trimmings.

63 F 2038—Black fiber case.....**$2.18**
63 F 2039—Polished nickel case.....**2.38**
Postage, 8¢ extra

Extra Powerful Miners' Type

$1.44

Quality Light Priced Very Low

The powerful reflector in this Flashlight throws a broad ray a long distance. Switch for flash or continuous light. Bulb and mirror reflector protected by heavy lens. This flashlight is a useful article for men requiring a bright light. Always handy for use.

Children playing with a flashlight escape the chance of injury by fire. Housekeepers can go to the farthest corner of their attics and cellars with the assurance that a bright light will enable them to see their way.

Hunters and fishermen know that this style of flashlight gives them a bright, steady light when they need it most.

Nickeled brass case or black fiber case, nickel trimmed. Complete with battery and lamp.

94¢

Powerful Bull's-Eye Lens

For all around use and hard wear this Flashlight is handy, and economical.

Convenient size for carrying in your coat pocket. A handy article to keep in a door pocket of your automobile.

It gives you a steady, bright light that is perfectly safe. It will not go out at just the minute you need it the most.

No danger of a flashlight setting fire to anything. It can be held near inflammable material without danger.

Tourists and sportsmen need a flashlight as a part of their equipment.

Policemen, firemen and trainmen find it very handy for their work.

Makes a very suitable gift at Christmas or any other time.

Switch for flash or continuous light. Nickel plated brass or black fiber case, nickel trimmed. Fresh, strong battery included.

Postage, per hundred, 2¢ extra

Bridging Type Standard Telephones

Bridging Telephones are recommended for any kind of telephone service—private exchange or party line—and are specially designed for use on either long distance or short party lines. Outside of cities and large towns telephone service is usually secured by bridging telephone party lines.

Modern Desk Telephone

A modern, up to date Telephone that you can install on any rural bridging line. Has all the best features of the telephones used in big cities. May be placed in any convenient position and used while seated or standing. Generator and ringer mounted in finely finished oak case. Improved transmitter stand, black enamel finish. Particularly fine for desk use as it leaves one hand free for writing. Handsome in appearance and very compact. For Stands and Stools for use with telephones see Furniture Section. Refer to Index.

Popular Wall Type Telephone

Don't waste your time and strength walking. Install one of our Telephones on the telephone line in your neighborhood and handle your business over the phone. Every home should have a telephone—in case of emergency it may save your life, your money or your property. Our telephones are high grade instruments and will give long, satisfactory service.

If there is no line in the neighborhood, you and your neighbors can have your own private line. For use on any bridging or private line of any length.

Easily installed, complete directions included. Oak cabinet, finely varnished and polished. Equipped with solid back transmitter, bi-polar receiver, lightning arrester, adjustable ringer movement with 2½-inch gongs, powerful generator with laminated magnets; each bar consisting of three distinct magnets tempered and magnetized separately. Every 5-bar generator has 15 magnets and every 6-bar generator has 18 magnets. Length, 20 inches; width, 9 inches. Shipping weights, 32 to 38 pounds.

Shipped from Northern Indiana

Important Points to Remember

If a line is already in operation in your neighborhood, and you wish to connect with it, no matter if the instruments already in use are not of our make, you may use our telephones.

When constructing a bridging party line or when installing an instrument on a line already in operation, all of the telephones on any one line must have ringer movements wound to the same resistance. Our Bridging Telephones are made with ringer movements of either 1000, 1600, 2000 or 2500 ohms resistance. Therefore before ordering your telephone, find out the resistance of those already installed on the line and order your telephone with ringer movement of the same resistance.

Details of Construction

The Generator is constructed on strictly scientific lines and retains its power permanently without deterioration. Each bar of the generator is made up of three distinct magnets so that every 5-bar generator has 15 magnets and every 6-bar generator, 18 magnets. This method is superior to the solid bar constructions, as the generator is enabled to supply more power and retain its efficiency longer. The entire generator is self-contained and mounted in the box in such a manner that it may be removed instantly.

The 5-bar generator is standard with power more than enough for any line of standard construction. For all ordinary lines it will give perfect satisfaction. The 6-bar generator is especially recommended for long, heavily-loaded lines, and will ring strongly where many other generators could not penetrate.

The Ringer Movement in our Telephone will ring loudly and clearly. Its construction is so planned and the parts so balanced that continued use will not soon decrease its efficiency.

The Transmitter is of the long distance, solid back type and gives the best of service. It transmits low articulate sounds distinctly over the longest lines. This transmitter, if not tampered with, lasts indefinitely and requires little attention or repairs.

The Receiver is bi-polar and equipped with laminated magnets. This construction insures an absolutely permanent receiver, which may be relied upon at all times. The shell is extra heavy, the binding posts are concealed inside the case, the cord is heavy and will wear well.

The Lightning Arrester. When properly connected it positively protects the telephone against lightning. It is enclosed in a metal casing. We agree to replace any parts of the telephone damaged by lightning provided telephone has been properly installed.

Repairs

We furnish repairs for any of our telephones at any time. If you have one of our telephones which needs repairs and you do not find the parts you need on this page write for our telephone repair parts list.

Our Telephones Are Guaranteed

We guarantee that every telephone will be exactly as described and give perfect satisfaction, or you may return it and receive back all money you have paid, including transportation charges. If any part proves defective, we will replace or repair it without charge. This guarantee applies to the complete instrument and all its parts.

563 E 382—2½-inch belt drive pulley, make and break coil mounted in arch $10.65

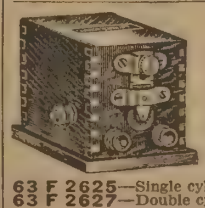
Eveready Jump Spark Magnetos

563 F 385—With 2½-inch friction drive pulley without spark coil. Each $9.65
563 F 387—With 2½-inch belt drive pulley for ⅜ inch round belt. No spark coil $10.35
Postage, 28¢ extra

Lighting and Ignition Switches

For use on low voltage circuits. Unbreakable metal base. Brass contacts and switch blade. Insulated handle.

63 F 2680—Single throw ..... 16¢
63 F 2682—Double throw ..... 22¢
Postage, 2¢ extra



Make and Break Coils

Steel case coil for use on engine with make and break ignition. Not affected by water or weather. Low current consumption. Size, 2¼ by 2½ by 6½ inches.

63 F 2635—Without switch. Each ..... 75¢
63 F 2637—With switch, as shown. Each ..... 82¢
63 F 2636—Coil without switch, to operate direct from 32-volt farm lighting plant current. Each .. $1.10
Postage, 12¢ extra

Jump Spark Coil

Economical in battery consumption and positive in action. Genuine Tungsten contact points. Oak case, small enough to fit any ordinary battery box. Operates on 4 or 5 dry cells, connected in series or on 6-volt storage battery.

63 F 2625—Single cylinder coil $2.59
63 F 2627—Double cylinder coil 5.25
Postage, single coil, 14¢ extra; double coil, 20¢

Private Line Telephones

$6.70
A Pair

These Telephones will withstand much usage and maintain steady, dependable service for many years. They are ideal for connecting various rooms in the home, from house to barn, or several buildings on the farm or nearby farms. A press of the button calls the party wanted. Complete instructions included, so system is easily installed.

Set consists of two complete telephones for points within 500 feet. Made entirely of metal, black enameled. Operate on 4 ordinary dry batteries. Makes an ideal home telephone. Carries the voice clearly and costs very little to operate. No batteries or wire included. Only two of these telephones used on a line.

63 F 1165—Per pair (2 telephones) ... $6.70
Postage, per pair, 16¢ extra

Transmitters

Long distance, solid back transmitter without arm. Will transmit lowest articulate sounds over long distances. Very sensitive and well constructed. Safe for replacements, permanent or temporary. Used on any make telephones.

63 F 1130 ..... $1.87
Postage, 6¢ extra

63 F 1132—Transmitter mounted on pony arm, as used on compact cabinet phones $2.60
Postage, 8¢ extra

Receivers

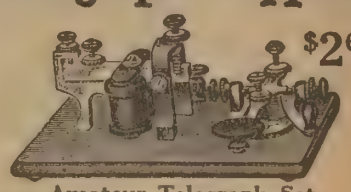
Standard Model, Bi-polar Telephone Receiver. Equipped with laminated magnets. This construction insures an absolutely permanent receiver. Shell is extra heavy. Binding posts concealed inside case. Cord is heavy and wears well. Same as used on all our phones. May be used on any make of telephone.

63 F 1140 ..... $1.34
Postage, 8¢ extra

63 F 1141—Receiver Shell only ..... .46
Postage, 6¢ extra

63 F 1142—Cord with spade tips on one end and solid tips on other. Length, 36 inches .. 24¢
Postage, 2¢ extra

63 F 1143—Cord with spade tips on both ends. Length, 36 inches ..... 24¢
Postage, 2¢ extra

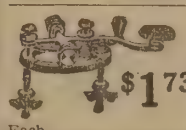


Insulated Telephone Wire

Consists of two twisted size 19 copper wires, each covered with rubber insulation and cotton braid. Well made. Very flexible.

63 F 1217—With dry insulation for inside wiring. Per 100 feet $1.25
63 F 1218—With saturated braid for outside wiring. Per 100 feet $1.25
Postage, 12¢ extra

Telegraph Supplies



$2.65

Amateur Telegraph Set

Full size Key and Sounder mounted on a polished oak base. A good instrument for beginners. Prices include up-to-date Operator's Manual containing Morse code; instructions for telegraphing, and other information.

63 F 1715—With 4-ohm sounder $2.65
63 F 1719—With 20-ohm sounder 2.98
Postage, 10¢ extra

$1.73

Lever Key

Steel lever highly nickel plated and polished. Same quality as used on professional combination sets.

63 F 1739—With legs to go through table. Each $1.73

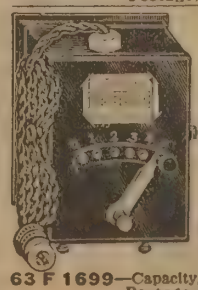
Postage, 6¢ extra

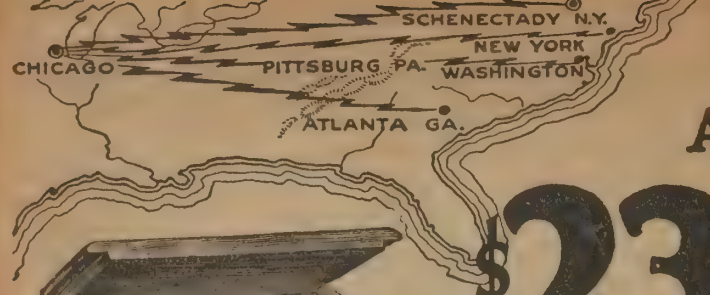
Special Transformers



$2.39

Special Type Transformer

Operates only when connected to alternating current line of 100 to 130 volts, 60 to 133 cycles. Special Transformer 75-watt capacity. Produces from 2½ to 27½ volts in 2½-volt steps. An efficient, small, neat and compact device that will operate trains and motors, bells, buzzers and low voltage lamps. Equal in quality and efficiency to any transformer made. Fitted with 7-foot cord and attaching plug.



63 F 1695 ..... $2.39
Postage, 14¢ extra

Standard Type Transformer

Operates only on alternating current of 100 to 125 volts, 60 to 133 cycles. 100-watt Transformer produces 2 to 28 volts; 150 watt, 2 to 28 volts in steps of 2 volts each, and in addition can produce constant voltages, so that a number of different voltages can be drawn at the same time. Fitted with cord and attaching plug.

63 F 1697—Capacity, 100 watts $3.98
Postage, 24¢ extra
63 F 1699—Capacity, 150 watts $5.35
Postage, 30¢ extra

The Ultra-Airline

A Long Range Vacuum Tube Receiving Set

$23.50 Complete In Every Detail Nothing Extra To Buy

One of the biggest values in radio—a complete Radio Receiving Set that will bring in distant stations, for less than $25. It has always been our desire to bring Radio within the reach of everyone and when you listen in on this set you will say we have succeeded. The Ultra-Airline is a vacuum tube receiver and is priced so that anyone can now afford to enjoy the pleasures that Radio brings.

The Ultra-Airline brings into your home all the benefits of radio broadcasting. You can hear musical concerts, songs by famous singers, dance music from the big orchestras of the cities, sermons, stock and weather reports and the latest news items of the day, sometimes even before they are published in the newspapers. And you can choose the type of entertainment you desire most for you can tune out the stations you do not wish to hear and tune in the program you wish from some other station. Our customers have reported receiving programs from 500 to 1500 miles with this set. The Ultra-Airline is very selective and is extremely easy to tune even for those who have had no previous radio experience. It is an excellent Radio set for anyone to own.

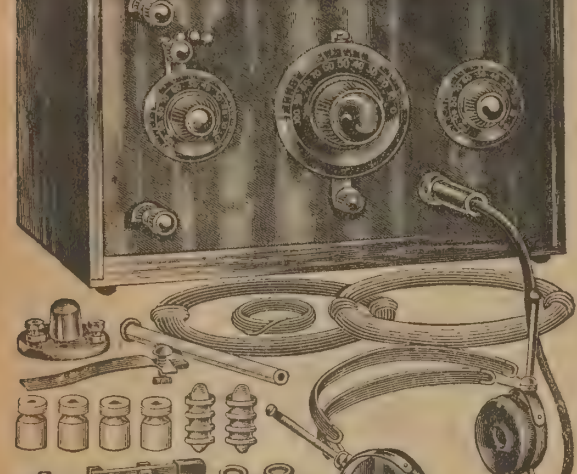
The complete instrument is mounted in a mahogany finished cabinet and the controls which are only three in number are mounted on a genuine bakelite panel, 6 by 7 inches. The tuning is accomplished by means of a high-grade variable condenser that is fitted with a vernier control to give accurate and extremely fine selection of wavelength.

What the Outfit Includes

Everything you need is included, nothing extra to buy. The complete Ultra-Airline Outfit includes the receiving set described above and in addition the following equipment: A high-grade headset of 2000 ohms total resistance with a radio plug; a dry cell "A" battery of 4½ volts; a 22½-volt "B" battery and a complete antenna equipment. This antenna equipment includes 150 feet bare copper wire for the aerial, 25 feet of heavy insulated wire for the ground, a coil of insulated wire, a ground clamp, a double throw single pole switch, a lightning arrester, two porcelain antenna insulators, four porcelain knobs with screws, two screw eyes and a complete book of instructions.

563 F 636—Complete outfit..... **$23.50**
Postage, 44¢ extra

563 F 616—Tuner only; no tubes or other equipment included..... **$13.95**
Postage, 16¢ extra



Two-Stage Amplifier $15.00

For only a few dollars you can add this Two-Stage Amplifier to your Ultra-Airline or Airline Special and then the concerts will be received so loudly that a loudspeaker may be added and entertainment provided for the entire family. The amplifier is in a mahogany finished cabinet; size, 7 by 7⅝ inches. The controlling rheostat is mounted on the bakelite panel as are also the jack and binding posts. The amplifier requires two C-299 or UV-199 tubes, 45 to 90 volts of "B" batteries and two "A" batteries—all of which are listed on following pages.

563 F 637—Amplifier only; no tubes, batteries or loud speaker included **$15.00**
Postage, 14¢ extra

563 F 634—Same as above but for use with 6-volt and C-12 (WD-12) tubes **$15.00**

Airline Special

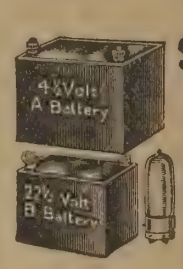
Complete Receiving Set

Licensed Under Armstrong Patent No. 1,113,149 for Amateur and Experimental Use

The Airline Special is licensed under the Armstrong patents and is regenerative. This feature alone makes the set much more sensitive to distant stations and brings in much louder signals than those received on non-regenerative sets.

The Airline Special Receiver is mounted in a handsome mahogany finished cabinet and all the controls are mounted on a genuine bakelite panel. The tuning is controlled by a high-grade variable condenser equipped with an attractive dial and fitted with a vernier control that makes it easy to tune in the distant stations. Stations 500 to 1500 miles away are brought in clearly and loudly. The set will tune in all classes of stations between the wavelengths of 180 and 600 meters.

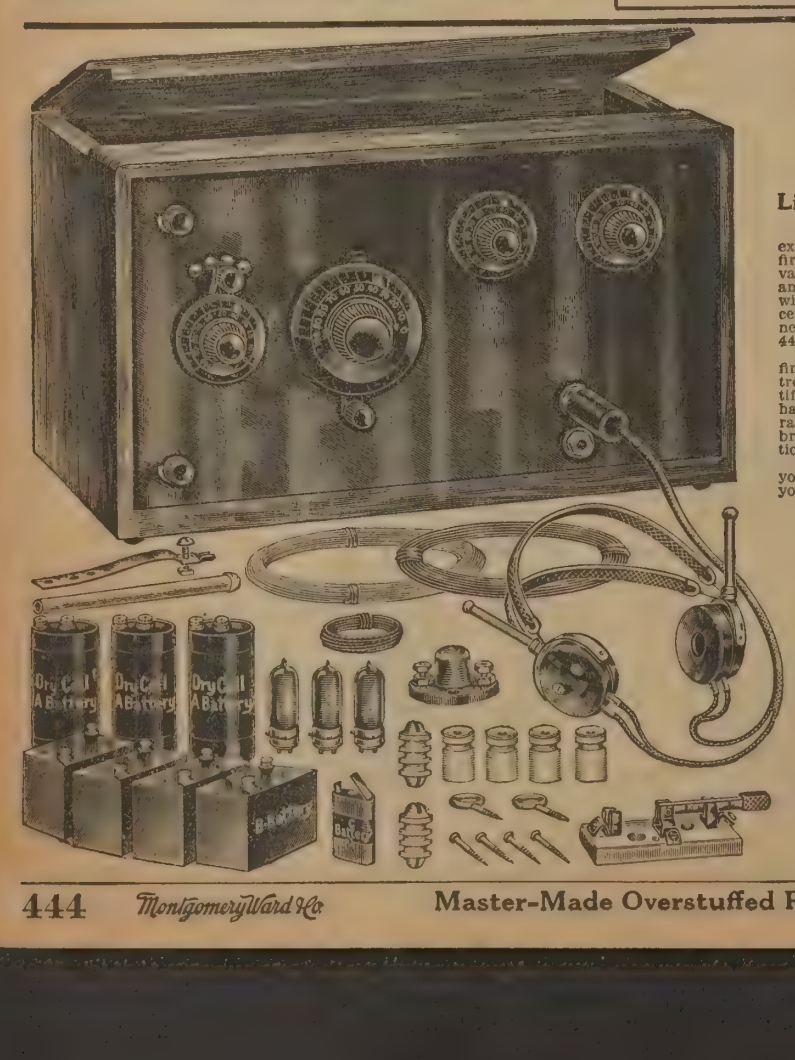
The complete outfit includes the Airline Special Receiver with t following equipment:



A standard vacuum tube—either a C-299 or UV-199 dry cell tu or C-300 or UV-200 storage battery tube, depending on the equipme chosen, a high grade 22½ volt "B" battery, a 2000-ohm double hea set 63 F 5168 described on Page 446, two 4½-volt dry cell batteri or a 6-volt 40 ampere hour storage battery, depending on equipme you select and a complete antenna equipment consisting of 150 fe bare copper wire for the aerial, 25 feet insulated wire for the groun 2 porcelain aerial insulators with screw eyes, four porcelain knobs w screws, a ground clamp, a lightning arrester, a single pole doub throw switch and a porcelain tube. We include a book of instruction

$39.75 Airline Special Complete with Storage Battery Equipment

This type equipment is recommended for those who want the greatest possible volume of sound and who can have a storage battery charged without a great deal of trouble. Storage battery tubes are slightly more sensitive to weak signals and will therefore bring in the distant stations more loudly. Ship. weight, complete, 60 lbs. **Not mailable.**



663 F 639—Complete outfit..... **$39.75**
563 F 640—Tuner Detector only; no tubes, batteries or other equipment included..... **$19.90**
Postage, 16¢ extra

$32.50 Airline Special Complete with Dry Cell Equipment

Recommended for those who cannot easily care for a storage battery, although the volume is not quite as great as with storage battery sets. Dry cell "A" battery is designed especially to operate vacuum tube filaments. Long life and quiet operation are its features. Shipping weight, 35 pounds.

563 F 642—Complete..... **$32.50**
563 F 670—Tuner Detector only; no tubes or other equipment..... **$19.90**
Postage, 16¢ extra

Airline DeLuxe

Complete Receiving Set

Licensed Under Armstrong Patent No. 1,113,149 for Amateur and Experimental Us

The Airline DeLuxe is the ideal Radio Set, as it combines extreme receiving range and volume of sound with low first cost. The Airline DeLuxe is a three-tube set using a vacuum tube as detector and a two-stage audio frequency amplifier. This combination brings in the distant stations with sufficient volume to operate a loud speaker so the concerts may be enjoyed by the entire family, without the necessity of using headsets. For Loud Speakers see Page 446.

The complete set is mounted in a hand rubbed mahogany finished cabinet in Adam Brown (dark brown). The controls are mounted on a genuine bakelite panel with a beautiful, glossy black finish. Tuning is simple and can be handled by anyone, even those who have had no previous radio experience. The vernier control makes it simple to bring in the more distant stations even when nearby stations are broadcasting.

You may choose the type of equipment best suited to your needs. If you can conveniently charge a storage battery you will want the storage battery type equipment while those who live where it is difficult to charge a battery w want the dry cell type. Both types are entirely satisfacto but the storage battery set will give somewhat louder signa

The complete outfit includes the following equipme The Airline DeLuxe combined tuner, detector and amplif with three C-299 (or UV-199) dry cell tubes or one C-3 (or UV-200) detector tube and two C-301A (or UV-20 amplifier tubes, depending on the type set selected: 90 vo of high grade "B" battery; three 1½-volt standard dry c batteries or a 6-volt, 80-ampere hour storage battery, 2000-ohm headset, 63 F 5168 described on Page 446; standard radio plug and a complete antenna equipme This includes 150 feet bare copper wire for the aerial, feet heavy insulated wire for the ground, a roll of insulat wire for connecting the instruments, 2 porcelain insulato 2 screw eyes, four porcelain knobs with screws, a lightn arrester, a ground clamp, a single pole double throw swit and a porcelain tube for bringing the aerial wire into t house. We also include a complete book of instructi covering the installation and operation.

$69.00 Airline DeLuxe Radio Set Complete with Storage Battery Equipment

Consists of the Airline DeLuxe combined tuner-detector and amplifier with headset and antenna equipment. This includes one C-300 (UV-200) and two C-301A (UV-201A) tubes; 90 volts of "B" battery and a 6-volt, 80 ampere hour storage battery. Shipping weight, complete, 90 pounds. **Not mailable.**

663 F 638—Complete outfit..... **$69.00**

Master-Made Overstuffed Rockers are built for comfort. They are shown on Page 360

The Airline Console - Complete Receiving Set

With Five Tubes - Two Stages Radio Frequency, Amplification Detector and Two Stages Audio Frequency Amplification

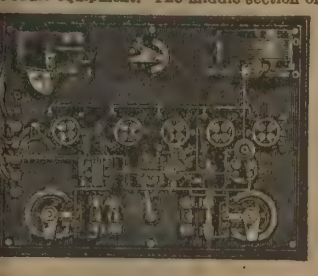
When you buy a Radio Set for your home, you naturally want one that combines long distance receiving and volume of tone with beauty of design and finish. We have long realized the demand for a radio set which was completely enclosed in an attractive cabinet and which would be a pleasing piece of furniture as well as a satisfactory radio set. We combined the efforts of a large phonograph manufacturing company with the experience of radio engineers who design radio sets of the highest quality. The result is the Airline Console. The cabinet is a full size console phonograph cabinet, hand rubbed to a piano finish in mahogany. You will be proud to have the Airline Console in your parlor or living room, as it will add greatly to the appearance of any room.

The radio set used in the Airline Console is a five-tube combination, giving two stages of radio frequency amplification; a vacuum tube detector, and two stages of audio frequency amplification.

The voice or music as it is received is loud and clear when it comes from the Loud Speaker, which is built into the middle section of the cabinet. This loud speaker horn is of all wood construction and produces perfect tone quality with large volume. The opening is covered with a fancy grill. A piece of gold colored silk behind the grill adds a rich touch to the appearance.

What the Airline Console Will Do

The Airline Console will bring to your home all the benefits of present day broadcasting. You can have new and different entertainment every evening. Music from famous orchestras, grand opera, vocal selections, band music, organ music, sermons, speeches, stock market and weather reports—all these are yours with the Airline Console; and the set is so sensitive that you may choose your entertainment from any one of a number of broadcasting stations which may be in operation at the same time. These programs will be received with sufficient volume so they may be heard throughout a large room and enjoyed by the entire family.



Reliable reception over distances of 500 to 2000 miles will be obtained with the Airline Console under average favorable circumstances, although this distance is by no means the limit of the set.

You will find after you have had your set for a few days, it is very easy to tune; and that with a little practice, stations hundreds of miles away can be brought in clearly and loudly. There is a wonderful fascination in listening to an unseen singer in some far distant city whose voice is carried to you through the air. There is something about the mystery of radio that holds the interest of every member of the family.

Details of Construction

Mounted in a full size console phonograph cabinet, finished in mahogany and hand rubbed to a beautiful finish. The door on the left side opens to permit the installation of the storage batteries and dry cell "B" batteries inside the cabinet, where connections are quickly and easily made to the radio instruments. The opposite side of the set can be used for storing headsets or other pieces of radio equipment. The middle section of the top of the console is easily raised to permit tuning of the set. All tuning controls are mounted on a black ebonized panel with a genuine bakelite subpanel, which may be raised if desired for an inspection of the instruments. Tuning controls on the Airline Console have been made as simple as possible, so that anyone can handle the set.

The illustration at left shows the interior view of the Radio Set and shows the five-tube sockets with rheostats and filament control resistances. It also shows the tuning condenser and the potentiometer. This potentiometer is used to give increased volume to the music or voice, and also provides an adjustment to preserve pure tone quality. The radio frequency transformers used in the Airline Console are especially selected for maximum efficiency for wavelengths of 200 to 550 meters, which gives reliable reception on all classes of broadcasting stations on the new wavelengths. The audio frequency transformers give the greatest possible amplification without distortion. This combination assures you of the greatest receiving range and with the maximum volume of pure tones. One of the first things that will impress you when you buy the Airline Console is the perfection of the workmanship throughout. This not only applies to the cabinet work and finish on the console, but applies also to the radio instruments. All sets are tested and approved on actual radio signals before they are shipped. We do this to make sure the set you buy will perform satisfactorily in your home.

What the Outfit Includes

The complete outfit includes the Airline Console Receiving Set with complete antenna equipment; and a high-grade 2000-ohm headset with radio plug. The vacuum tubes furnished are either four C-301A (UV-201A) and one C-300 (UV-200); or five C-299 (UV-199) dry cell tubes. With the storage battery tubes we supply a 6-volt 80-ampere hour storage battery; and with the dry cell tubes, a set of high-grade dry cell batteries; 90 volts of "B" battery are supplied. The Loud Speaker is complete with a high grade loud speaking unit.

663 F 574—Complete with storage battery tubes and storage battery equipment. Shipping weight, 225 pounds **$175.00**

563 F 575—Airline Console only, for use with your own storage battery tubes and equipment. No tubes, batteries, loud speaking unit or other accessories included **$125.00**

563 F 617—Same as above, except with dry cell tubes and dry cell equipment. Shipping weight, 200 pounds. **$166.00**

563 F 618—Airline Console only, for use with your own dry cell tubes and equipment. No tubes, batteries, loud speaking unit or other equipment included **$127.00**

The Airline Grand Complete Receiver

A Four Tube Radio Frequency Set with Built In Loud Speaker

The Airline Grand has been developed to meet a demand for a radio set that is extra sensitive to distant stations, and will bring them in louder than three-tube sets such as the Airline De Luxe and others of its type. The circuit used provides for tuned radio frequency amplification, which is admitted to be the best method of building up weak signals from distant stations. We are proud of what we have accomplished; and if you could see the finish of the cabinet and the construction of the radio set, you would want one immediately for your home. But we are proud of the Airline Grand, not so much because of the beautiful finish as for the results the set brings. Music from the distant broadcasting stations is reproduced with all the clearness of the original artist. This clearness of tone is due to the use of radio frequency amplification and to the construction of the loud speaker. The owner of an Airline Grand is not bothered with the disterted tones that are so common in the ordinary receiving set. We consider the Airline Grand the ideal set. Ideal because it is handsome in appearance; ideal because it is so efficient, and ideal because the price is so low that it is within the easy reach of almost every home.

$119.00

The Clock Shows When to Listen In

Details of Construction

One of the features of the set is the mahogany eight-day clock, which is mounted on top of the cabinet. This clock enables you to tell at a glance just when to listen in for the various broadcasting stations. When the announcer at your favorite station says, "We will continue our program at 9:15," you can be ready when it begins. The Airline Grand is mounted in a beautiful cabinet, hand rubbed to a fine furniture finish in Adam brown (dark brown) imitation mahogany. Length of cabinet is 22¾ inches; height, 16½ inches. This cabinet is divided into two sections—upper and lower. In the upper section is the radio apparatus mounted on a bakelite panel; size, 7 by 21 inches. The circuit used is a four-tube radio frequency circuit providing for one stage of tuned radio frequency amplification, vacuum tube detector, and two stages of audio frequency amplification. The two-stage audio frequency amplifier gives the set the necessary volume to operate the loud speaker. All tuning controls are located on the face of the panel in convenient positions and the set is surprisingly easy to handle. This is a decided advantage to people who have had no previous experience in radio. In the lower section of the cabinet is the special loud speaker horn, which is built entirely of wood and fiber for good tone quality and volume. The loud speaking unit is specially selected for quality and loud reproduction. The front of the loud speaker opening in the cabinet is covered with a silk grill of rich appearance.

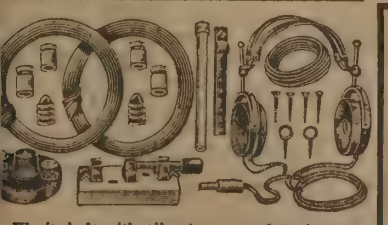
Prices of Airline Grand Sets With Loud Speakers

Includes four 22½-volt "B" batteries; one 6-volt 80-ampere hour storage battery; one C-300 or UV-200 detector tube, and three C-301A or UV-201A amplifier tubes; antenna equipment and headset. Shipping weight, 120 pounds.

663 F 604—
With storage battery equipment.. **$119.00**

563 F 611—Tuner, Detector and Amplifier only, in cabinet. No tubes, batteries, loud speaking unit, headset, clock or other equipment. **$53.00**

Postage, 64¢ extra



Includes two 45-volt tapped "B" batteries, and four Cunningham C-299 or Radio Corporation UV-199 tubes; antenna equipment and headset. Shipping weight, 70 pounds.

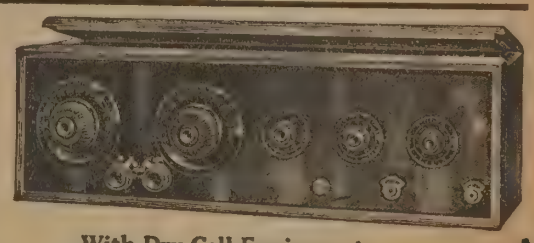
563 F 605—
With dry cell equipment..... **$108.00**

563 F 612—Tuner, Detector and Amplifier only, in cabinet. No tubes, batteries, loud speaking unit, headset, or other equipment... **$54.50**

Postage, 64¢ extra

We include with all sets a complete Antenna Equipment consisting of 150 feet copper wire; 25 feet insulated wire for ground lead; porcelain tube; two porcelain insulators; four porcelain knobs and screws; two screw eyes; lightning arrester; single pole double throw switch; ground clamp; and a high-grade 2000-ohm headset with radio plug; also a complete book of instructions.

Storage Battery Equipment



This type of equipment is recommended if you have some convenient means of charging a storage battery. Batteries may be charged from the ordinary house lighting circuit by means of the Battery Charger shown on Page 449, or they may be charged at a regular battery service station for a very small sum. Radio sets using storage battery tubes have a slightly longer receiving range, and produce louder signals than the dry cell type. For the slight difference in cost, we recommend the storage battery type.

Dry Cell Equipment

The recently perfected dry cell tube makes it possible for anyone to have a high-grade radio set, even though they may have no means of caring for a storage battery. Dry cell tubes are almost as sensitive to distant stations as the storage battery type; and in addition, have the advantage of operating on standard dry cell batteries. A single set of dry cells will give from several weeks to several months of service before they are worn out, and can be replaced at a very low cost.

Airline Grand With Standard Cabinet

$82.00 With Dry Cell Equipment

For those who desire a high grade Radio Frequency Receiver in a standard cabinet, we recommend the Airline Grand. Exactly the same in construction as the model above, but not equipped with the clock nor loud speaker. This makes an ideal outfit for use with any of the Loud Speakers shown on Page 446; or you can use a loud speaking unit with an adapter on your phonograph. The set is mounted in a highly polished Adam brown (dark brown) mahogany finished cabinet. The circuit used provides one stage of tuned radio frequency amplification, detector, and two stages of audio frequency amplification.

With Storage Battery Equipment

663 F 606—Airline Grand with storage battery equipment and antenna equipment shown at left; also headset and book of instructions. Shipping weight, 115 pounds **$93.00**

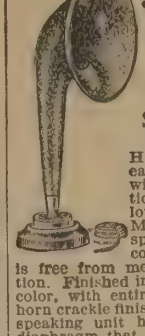
Loud Speakers Fill The Home With Good Music



$6.75

High Grade Loud Speaker Priced Low

This Horn, in actual comparison, has shown itself equal—and in many cases even better—than horns selling at much higher prices. Produces clear loud tones, free from distortion. Finished in a glossy black with a felt covered base. Made of heavy metal. Furnished in two sizes. Size 1 is 16 inches high, with horn 8¾ inches in diameter. Size 2 is recommended for large rooms; height, 24 inches; horn diameter, 13 inches. Complete with attaching cord and built-in unit.

563 F 743—Size 1.....**$6.75**
Postage, 20¢ extra

563 F 744—Size 2...**$10.95**
Postage, 30¢ extra

$21.00

Atlas Loud Speaker

The Atlas Horn has earned its wide reputation for clear, loud tone. Made of a special fiber compound that is free from metallic vibration. Finished in a rich dark color, with entire surface of horn crackle finish. The loud speaking unit has a double diaphragm that is adjustable so that you can get the best tone value for your particular set. Height, 22 inches; diameter of horn, 10¼ inches. Complete with attaching cord. One of the best and most popular horns on the market.

563 F 742.....**$21.00**
Postage, 16¢ extra

$32.50

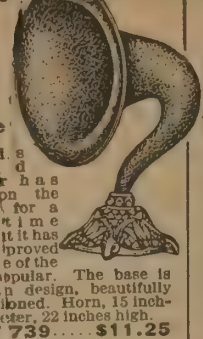
Magnavox Loud Speaker

The Reproducer Supreme

The nationally famous Magnavox with the new crackle enamel finish. Works on a patented principle that reproduces voice and music loudly and clearly. Mounted on a base with binding posts for easy connection to radio set. Height, 28 inches; diameter of horn, 14 inches.

563 F 690—Type R3 for use on storage battery sets. Requires connection to "A" battery **$32.50**

563 F 701—Type M1 for use on dry cell tube sets. Uses no battery current.....**$32.50**
Postage, 38¢ extra



$22.50

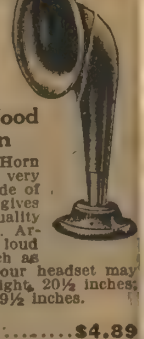
New Baldwin Loud Speaker

Known for Its Tone

After a long series of tests, we do not hesitate to pronounce the new Baldwin one of the finest Loud Speakers we have ever heard. Built like a violin, with an all wood Compound tone chamber and horn. This wood construction brings out all the fine shading of the music and removes all traces of mechanical reproduction. The Baldwin attaches to any radio set having two steps of audio frequency amplification. Permits a room full of people to listen to the concerts. Height, 22 inches, diameter of horn, 15 inches. Complete with unit and 5-foot cord.

563 F 718.....**$22.50**
Postage, 34¢ extra

$11.25



Our Biggest Value

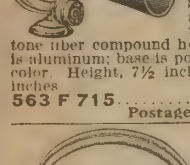
This Loud Speaker has been on the market for a short time only, but it has already proved to be one of the most popular. The base is Egyptian design, beautifully proportioned. Horn, 15 inches diameter, 22 inches high.

563 F 739.....**$11.25**
Postage, 24¢ extra

You can save money by ordering this horn complete with a Baldwin Unit. Tone quality is excellent and has very large volume.

563 F 747—Complete with unit **$16.25**
Postage, 26¢ extra

$4.89



Make Your Own Loud Speaker with This Wood Fiber Horn

A low priced Horn that will be found very satisfactory. Made of wood fiber that gives pleasing tone quality without distortion. Arranged to take a loud speaking unit such as shown below. Your headset may also be used. Height, 20½ inches; diameter of horn, 9½ inches.

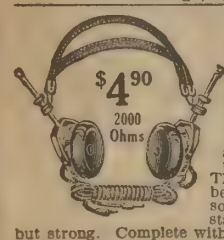
563 F 738—Without unit.....**$4.89**
Postage, 16¢ extra

We are now in position to furnish these horns complete with Baldwin Unit, at a special low price. When attached to a set having two stages of audio frequency amplification will entertain the whole family.

563 F 748—With unit..**$9.95**
Postage, 18¢ extra

Murdock Loud Speaker

An especially attractive value in a good Loud Speaker. Consists of an adjustable loud speaking unit attached to a true tone fiber compound horn. Curved neck of horn is aluminum; base is polished composition. Black color. Height, 7½ inches; diameter of horn, 7¼ inches.



563 F 715.....**$4.55**
Postage, 14¢ extra

Baldwin Type C Amplifying Headset

For those who wish to hear the far distant stations, we recommend the Baldwin Receivers. Their special construction makes them reproduce signals that could not be heard with ordinary headsets. Baldwin receivers may properly be called the "Standard of the World." Mica diaphragm sensitive to faintest signal. Shells and caps of molded bakelite. Six-foot cord with standard radio plug attached.

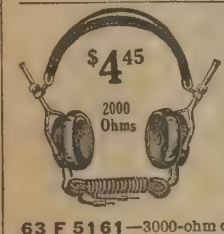
63 F 5164—Per set.....**$10.90**
Postage, 8¢ extra

Brandes Matched Tone Headset

Carefully matched in tone so that when used in a loud speaker the result is clear and free from distortion. This also helps in the reception of weak signals. These receivers have been used for years in some of the best radio stations. Light in weight but strong. Complete with six-foot polarity indicating cord.

63 F 5380—Superior type, 2000-ohm. Per set.....**$4.90**

63 F 5381—Navy type; 3000-ohm. Per set **6.50**
Postage, 8¢ extra

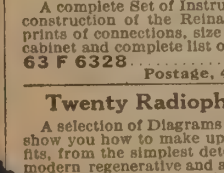


Reliable Murdock Headset

Made by an old, reliable manufacturer of radio apparatus. Molded composition cases and caps. Strong, permanent magnets. Reproduce signals loudly and clearly. Comfortable headband. Six-foot cord. A special value at our price.

63 F 5162—2000-ohm double headset..**$3.55**

63 F 5163—3000-ohm double headset..**3.90**
Postage, 8¢ extra



Frost Headset

A splendid value at our low price. These Headsets have been in use for several years and have proved satisfactory. Molded composition cases and caps. Very sensitive. Comfortable headband. Six-foot cord.

63 F 5160—2000-ohm double headset....**$4.45**

63 F 5161—3000-ohm double headset..**5.35**

63 F 5167—Frost No. 161, 2000 ohms; aluminum shells, molded caps.....**$3.58**
Postage, 8¢ extra

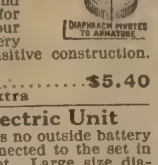
Coil for Reinartz Circuit

Wound with silk covered wire, with correct number of turns for best results. Easy to install and connect; 200 to 600 meters.

63 F 5501.....**98¢**
Postage, 6¢ extra

How to Build a Reinartz Set

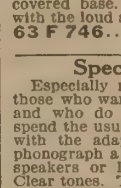
A complete Set of Instructions on the theory and construction of the Reinartz receiver, with blueprints of connections, size and layout of panel and cabinet and complete list of parts needed.



63 F 6328.....**39¢**
Postage, 4¢ extra

Twenty Radiophone Diagrams

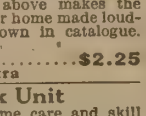
A selection of Diagrams and Hookups which will show you how to make up wireless telephone outfits, from the simplest detector circuit to the most modern regenerative and amplifying set. Consists of 24 blueprint diagrams including Cockaday, Reflex, Reinartz and Neutrodyne.



63 F 6348.....**39¢**
Postage, 4¢ extra

Baldwin Type C Loud Speaker

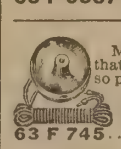
You do not need to pay high prices for a Loud Speaker. Buy one of these units and build your own. Our price is very low and will save you money. Best unit for homemade loud speaker or our adaptophone shown here. Very loud, clear tone. Special sensitive construction. Three-foot cord.



63 F 6367.....**$5.40**
Postage, 6¢ extra

Western Electric Unit

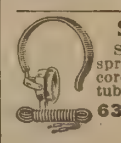
This Unit requires no outside battery current, and is connected to the set in place of the headset. Large size diaphragm, permitting great volume without rattling or spoiling the tone value. Mounted in a solidly built case with felt covered base. We recommend this unit for use with the loud speaking cabinet shown on this page.



63 F 746.....**$10.75**
Postage, 8¢ extra

Special Amplifying Unit

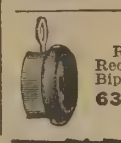
Especially recommended for those who want a loud speaker and who do not feel able to spend the usual amount. Used with the adaptophone shown above makes the phonograph a loud speaker. For home made loudspeakers or loud speakers shown in catalogue. Clear tones. Three-foot cord.



63 F 5387.....**$2.25**
Postage, 6¢ extra

Murdock Unit

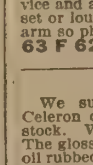
Made with the same care and skill that have made the Murdock Headsets so popular. Designed for use with home made loud speakers or with phonograph attachments. Complete with cord. Loud, clear tones.



63 F 745.....**$2.69**
Postage, 6¢ extra

Single Receiver Headset

Sensitive 1000-ohm Receiver, covered spring headband; 3-foot connecting cord. Intended for crystal or vacuum tube sets.



63 F 5383—Per set **$2.28**
Postage, 8¢ extra

Watch Case Receiver

Regulation watch case type Telephone Receiver. Molded composition base. Bipolar type. Resistance, 75 ohms.

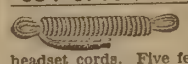
63 F 5384.....**$1.05**
Postage, 4¢ extra

Adaptophone

Made of soft rubber. Large opening at one end to hold any receiver or loud speaking unit. Other end is shaped to fit end of loud speaking horn or any similar use. A very useful device and a big value. Permits attaching any headset or loud speaking unit to any phonograph tone-arm so phonograph acts as a loud speaker.

63 F 6299.....**39¢**
Postage, 4¢ extra

Radio Panels



We supply Formica, Bakelite or Condensite Celeron on your order, depending on which is in stock. Will not warp nor absorb moisture. The glossy black finish is easily sandpapered and oil rubbed to a velvet finish.

You Need an Extra Headset

When your radio set is equipped with one headset only one person can enjoy the concerts. The radio set should be a family pleasure. Two or more Headsets may be connected to the radio set without a noticeable loss in strength of signals. If you have no headset you will save money by buying this one. This excellent headset is offered at a very reasonable price. Equal in sensitiveness to many headsets selling at much higher prices. Light in weight and of substantial, durable construction. Every detail has been worked out carefully and only the best materials are used. The workmanship is the best, resulting in a neat appearing, nicely finished product. Headband is covered with webbing and will not catch or pull the hair. May be worn for hours without fatigue. Easily adjusted to fit your head. Five-foot cord. Will give satisfactory results on any receiving set whether it is an expensive tube set or cheap crystal outfit. You are sure to be well satisfied.

63 F 6363—Double mounting.....49¢
63 F 6365—Triple mounting.....69¢
Postage, 3¢ extra

Freshman Resistance

Gives easy control of grid voltages. Knob gives easy, accurate adjustment from 0 to 5 megohms.
63 F 5343—Without condenser.....48¢
63 F 5344—Same as above, except fitted with high grade .00025 mfd. grid condenser.....69¢
Postage, 4¢ extra

Dubilier Grid Condenser with Resistance Mounting

Clips to hold grid resistance. Mounted on standard Dubilier Grid Condenser. No resistance included.
63 F 6466—Capacity, .0001 mfd.....37¢
63 F 6467—Capacity, .00025 mfd.....37¢
63 F 6468—Capacity, .0005 mfd.....37¢
Postage, 3¢ extra

Circular Grid Condenser with Grid Resistance

Combined Grid Condenser and Resistance. Capacity, .0003 mfd.; resistance, 2 megohms. Hole in the center for quick mounting.
63 F 6357.....49¢
Postage, 3¢ extra

Circular Grid Condenser

Mica insulated Grid Condenser. Aluminum conductor plate. Bakelite end plate. Diameter, 1⅞ inches.
63 F 6359.....29¢
Postage, 2¢ extra
Variable Grid Resistance. For use with above condenser. Same size and shape. Fits over condenser in same screw holes. Resistance variable from ½ to 1½ megohms in steps of ½ megohm.
63 F 6361.....39¢
Postage, 2¢ extra

Rheostat and Potentiometer with Knob and Dial

An especially high grade set of instruments with knob and dial control. Resistance wire wound on molded bakelite form. Dial markings engraved, enameled.
63 F 6778— 30-ohm rheostat.....$1.19
63 F 6779—300-ohm potentiometer... 1.80
Postage, 6¢ extra

Rheostat and Potentiometer

Durable, well made Rheostat with wire resistance wound on heat resisting molded composition base. Furnished without knob.
63 F 6506—6-ohm for C-300 and UV-200 tubes.....45¢
63 F 6507—10-ohm for C-11 and C-12 tubes, or for C-301-A and UV-201-A tubes where three or more tubes are controlled by one rheostat..47¢
63 F 6508—20-ohm for C-301-A tubes..49¢
63 F 6509—30-ohm for C-299 and C-301-A tubes.....51¢
63 F 6518—50-ohm for C-299 tubes.....53¢
Postage, 6¢ extra
Potentiometer to match. Resistance, 375 ohms.
63 F 6519.....65¢
Postage, 6¢ extra

Bradleystat Graphite Vernier Rheostat

Resistance is controlled by varying pressure on graphite discs. New universal model for use with all tubes. Resistance can be varied to equal 30, 60 or 120 ohms.
63 F 6406.....$1.74
Postage, 6¢ extra
Bradleymeter Potentiometer. Same appearance and design as above, but high resistance for controlling plate voltage.
63 F 6469—Resistance, 200 ohms....$1.89
63 F 6470—Resistance, 400 ohms.... 2.89
Postage, 6¢ extra

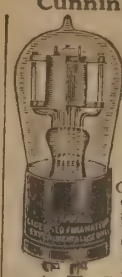
Filkostat

One of the newest devices for controlling the filament current. In actual test in the laboratory this instrument has shown its ability to give an absolutely accurate control of any tube on the market. This makes it possible to set the detector current at exactly the correct point for best results. With C-300 and UV-200 detector tubes this is a great advantage, as it helps to bring in the distant stations with great clearness. The Filkostat is made with special resistance element that is constant in resistance and almost indestructible.
63 F 6517.....$1.90
Postage, 6¢ extra

Cunningham C-11 and C-12 $5.95

The C-12 fits any standard socket for 6-volt Tubes.

We know that you can save money by buying Vacuum Tubes at Ward's because we buy them in large quantities and are able to sell them at a lower price. Take advantage of this saving when you need new tubes for your set.



Equally efficient as either detector or amplifier. Uses one standard dry cell as "A" battery. **Specifications:** Filament voltage, 1.1 volts. Filament current, ¼ ampere. Plate voltage, 22½ to 45 for dectector, 45 to 100 for amplifier. Full directions with each tube.
63 F 5196.....$5.95
C-11 Tube, same as C-12 but uses special socket. See sockets listed on this page.
63 F 5195.....$5.95
Postage, 6¢ extra

Cunningham $5.95 C-299

The C-299 Tube works equally well in detector or amplifier. It is not critical in adjustment. As a detector the C-299 uses 22½ volts of "B" battery. As an amplifier 45 or more will give excellent results. Operates from 3 dry cells in series. Plate current is only .06 of an ampere. For use with high plate voltages a "C" or grid battery should be used. Full details as to operation furnished with each tube. Requires special socket.
63 F 5197...$5.95
Postage, 6¢ extra

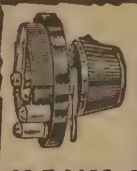
Cunningham C-300 $4.58 C-301A $5.95

Standard Cunningham detector and amplifier tubes. C-300 6-volt filament; C-301-A, 5-volt filament. The C-300 detector draws 1 ampere and the C-301A amplifier draws .25 ampere. These tubes are for use with a storage battery although the C-301-A may be used with dry cells.
63 F 5198—C-300.....$4.58
63 F 5199—C-301A..... 5.95
Postage, 6¢ extra

Our Tube Guarantee

Every Vacuum Tube sold by Montgomery Ward & Co. is individually tested in a radio set on actual radio signals. Only the perfect tubes are sent to our customers. We guarantee these tubes to reach you in perfect condition and we will replace any damaged tubes. Vacuum tubes contain a piece of very fine wire called filament which lights up when the battery current is applied to the tube, just as the lights in your home light up when you turn the electric switch. In time, filaments in both the vacuum tube and the electric light bulb burn out, but there is no way to tell how long either will last. For that reason we can not guarantee the vacuum tube for any definite length of time as the manufacturer of the tubes can not guarantee them to us. Therefore vacuum tubes with burned out filaments can not be returned for credit or exchange.

Single Knob Vernier Rheostat



Resistance wire wound on heat resisting, composition base. Two windings—one for rough and one for fine adjustment. Panel mounting; 6-ohm resistance. 1½-ampere capacity. With neat, attractive dial.
63 F 6407.....$1.19
Postage, 6¢ extra

Fine Adjustment Rheostat

Revolving drum type. Contact arm is stationary and turning knob revolves resistance element which is wound on circular form. A very smooth operating, fine adjustment rheostat. Pigtail connections.
63 F 6809—6-ohm for C-300 tubes...$1.05
63 F 6810—20-ohm for C-301A tubes. 1.19
63 F 6811—30-ohm for C-299 tubes.. 1.19
Postage, 6¢ extra

Rheostat

A panel mounting, knob and pointer Rheostat. Resistance wound on heat resisting, composition base. Neat appearing.
63 F 6401—Resistance 6 ohms.....41¢
63 F 6400—Resistance, 10 ohms.....44¢
63 F 6408—Resistance, 20 ohms.....48¢
63 F 6403—Resistance, 30 ohms.....53¢
63 F 6415—Resistance, 50 ohms.....59¢
Postage, 5¢ extra

Panel Mounting Potentiometer

To match above Rheostats.
63 F 6444—Resistance, 200 ohms.....69¢
63 F 6447—Resistance, 400 ohms.....69¢
Postage, 6¢ extra

Vernier Rheostat

The two windings—one for rough and one for fine adjustment—are on heat resisting composition base. One knob controls both adjustments; 6-ohms, 1½ amperes. Neat appearing.
63 F 6453.....95¢
Postage, 6¢ extra

To be connected in series with 6-ohm rheostats.
63 F 6442—15-ohm for use with C-301A or UV-201A tubes.....32¢
63 F 6443—25-ohm for single C-301A, UV-201A, C-299 or UV-199 tubes.....32¢
Postage, 3¢ extra

All Meter Coupler

For single circuit regenerative sets. Bank wound primary covers all waves from 200 to 2500 meters. Wound with silk covered wire. Tapped for connections to switch points. To be used with a variable condenser in series with the aerial. Shaft, ¼ inch.
63 F 6320.....$4.75
Postage, 12¢ extra

Variometer

Designed for use with coupler listed below. Silk covered winding on fiber composition frame. Shaft, ¼ inch. Very efficient.
63 F 6303.....95¢
Postage, 6¢ extra

Tapped Coupler

Designed to match the above variometer. Wound with silk covered wire on a fiber compound form. Table or panel mounting. Shaft, ¼ inch. Wave length range, 150 to 550 meters.
63 F 6302.....95¢
Postage, 8¢ extra

180° Coupler

Wound with cotton covered wire on Formica form. Primary tapped for fine tuning. Table or panel mounting. Wave length range, 150 to 550 meters. Has ⅜ inch shaft. Designed for use with 63F5641 variometer.
63 F 6309.....$2.38
Postage, 8¢ extra

$1.95 Bakelite Variocoupler

Primary tapped for fine tuning. Wound with cotton covered wire on genuine Formica form. 180 degree coupling; ¼ inch shaft. Wave length range, 10 to 550 meters.
63 F 6313.....$1.95
Postage, 8¢ extra

2-Gang Sockets

Double Socket for use in either detector and one stage amplifier or 2-stage amplifier. Two well made sockets with metal arms for panel mounting. Binding posts plainly marked. Strong contact springs. Can also be used for table mounting.
63 F 6423.....99¢
Postage, 6¢ extra

3-Gang Sockets

Same as above but with three Sockets instead of two. For use in detector and two-stage amplifier. All metal sockets well insulated and strongly made. Table or panel mounting. Saves you time and money when you build your three tube set.
63 F 6424.....$1.39
Postage, 6¢ extra

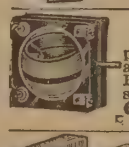
29¢ Molded Socket

Molded of genuine bakelite. Screw holes for easy mounting. Binding posts plainly marked. Strong contact springs, reinforced slot. For C-12, WD-12, C-300, UV-200, C-301A and UV201A tubes.
63 F 6431.....29¢
Postage, 3¢ extra

Porcelain V. T. Socket

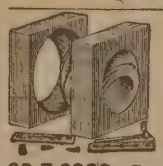
Made entirely of glazed white porcelain. High dielectric strength. Practically unbreakable. Positive contact. Easily mounted on panel or base. For amplifier, detector or power tubes.
63 F 6419.....33¢
Postage, 6¢ extra

Standard V. T. Socket



The base is molded of bakelite for strength and high insulating properties. The tube into which the vacuum tube fits is metal, polished nickel finish. Binding posts are molded into base and plainly marked. A fine socket at a low price.
63 F 6434.....59¢
Postage, 6¢ extra

Combination V. T. Socket



Solid metal, polished nickel finish. Fiber insulation. Panel or table mounting. Strong and very handy.
63 F 6435.....39¢
Postage, 6¢ extra

Molded Variometer

Stator and rotor molded composition. Will not shrink or warp and holds windings firmly in place. Range 150 to 600 meters. Has ¼ inch shaft. Table or panel mounting.
63 F 6310.....$2.95
Postage, 12¢ extra

Variometer Parts

Includes all parts, except wire, necessary to make complete variometer. Solid genuine mahogany. Wood form for winding stator coils included; ¼ inch shaft. With these parts you can easily make a high grade instrument.
63 F 6322—Complete.....$1.19
Postage, 8¢ extra

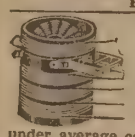
Variocoupler Parts

Includes necessary parts, except wire, to make an efficient variocoupler. Can be used with two variometers to make a short wave receiver.
63 F 6325—Complete.....95¢
63 F 6326—Rotor ball only.....30¢
63 F 6327—Stator tube only.....38¢
Postage, 6¢ extra

Special Variometer

This is one of the most efficient and neatest appearing Variometers on the market. Molded into a strong unit that will be a big help to you in building your set. The forms will not warp nor shrink and the windings will not come loose. Positive contacts prevent noise in set. Stator windings split with winding post connections. Wave length range of 180 to 550 meters and will receive from long distances when used with the variocoupler at the left and a vacuum tube detector; ¼ inch shaft.
63 F 6304.....$3.65
Postage, 12¢ extra

5-Watt Transmitting Tubes



For the transmission of phone and C.W. signals. Filament voltage, 7.5. Plate voltage, 350. Fits standard socket. Also used as power amplifier.
63 F 7015—C-302.....$7.60
Postage, 6¢ extra

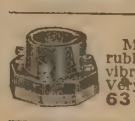
Cunningham Rectifier Tubes

Rectifier tubes for use with above transmitters. Filament, 7.5 volts. Plate voltage, 550 volts.
63 F 7020—C-316.....$7.60
Postage, 6¢ extra

Our DeLuxe Coupler

This Variocoupler was given thorough tests in our radio laboratory during the past winter months. When used in a single circuit set with detector and 2-step amplifier, stations from 500 to 1500 miles away were heard under average conditions. Wound with silk covered wire on a fiber composition tube. Arranged for panel mounting. Shaft diameter, ¼ inch.
63 F 6300.....$2.50
Postage, 12¢ extra

Wood Form Variometer



Well built with stator and rotor forms wound on kiln dried wood. 180 to 600 meters. Shaft ⅜ inch. Table or panel mounting. Priced low.
63 F 5641.....$1.95
Postage, 8¢ extra

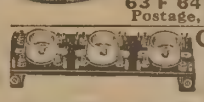
Combination VT Socket

Panel or table mounting. Metal shell set in molded bakelite base. Metal sub-base to bolt to panel. Connections plainly marked.
63 F 6433.....98¢
Postage, 6¢ extra

C-299 Tube Socket

Molded bakelite with a layer of soft rubber on the bottom to prevent vibration. Ideal for portable sets. Very neat appearing.
63 F 6439.....49¢
Postage, 4¢ extra

C-299 Tube Socket



Molded composition, bayonet slot reinforced. Soldering lugs and binding posts plainly marked. Strong, positive contact springs.
63 F 6479.....79¢
Postage, 6¢ extra

C-299 Tube Socket

Molded bakelite. Reinforced at bayonet slot. Strong contact springs. Binding post connections.
63 F 6495.....39¢
Postage, 2¢ extra

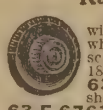
C-299 Gang Socket

Nickel plated brass Bakelite base. Mounted on rubber cushions; plainly marked.
63 F 6501—Single socket.....$ .45
63 F 6502—Two-gang..... .89
63 F 6503—Three-gang..... 1.19
Postage, 6¢ extra

Adapter for C-299 Tubes

Use your C-299 tubes in any standard socket with this adapter. Molded composition with strong contact springs.
63 F 5203.....42¢
Postage, 4¢ extra

Vernier Control Knob



Knob with soft rubber face. Mounts next to dial by drilling one hole.
63 F 6930.....48¢
Postage, 3¢ extra

Vernier Control Knob

Knob with soft rubber face. Mounts next to edge of dial by drilling one hole. Spring presses rubber against dial.
63 F 6931.....17¢
Postage, 2¢ extra

Radio Dial and Knob

Made of polished black composition with finely engraved scale in contrasting white enamel. Metal bushing with set-screw. A very handsome dial and knob. 180 degree scale graduated 0 to 100.
63 F 6766—3-inch diameter for ⅛ shaft.....19¢
63 F 6767—3-inch diameter for ¼ shaft..19¢
63 F 6768—3½-in. diameter for ⅛ shaft..31¢
63 F 6769—3½-in. diameter for ¼ shaft..31¢
Postage, 3-inch, 2¢ extra; 3½-inch, 3¢

Same design Knob and Dial as above, but smaller and scale is engraved 0 to 100 over 270 degrees. Diameter, 2 inches.
63 F 6764—For ⅛ inch shaft.....14¢
63 F 6765—For ¼ inch shaft.....14¢
Postage, 1¢ extra

Knob to Match Above Dials

Polished black composition with fine corrugated sides. Metal insert molded into knob and fitted with set screw to hold knob in place. For switches, rheostats, etc. To fit ⅛ threaded shaft.
63 F 6700.....5¢
Postage, 1¢ extra

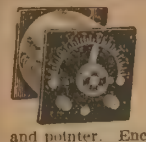
Hard Rubber Dial and Knob

Molded of one piece black hard rubber, highly polished, 180-degree scale, 0 to 100.
63 F 6740—3-inch, for ⅛ shaft 39¢
63 F 6741—3-inch, for ¼ shaft 39¢
Postage, 4¢ extra
63 F 6742—4-inch, for ⅛ shaft..... 49¢
63 F 6743—4-inch, for ¼ shaft..... 49¢
Postage, 5¢ extra
Same as above, but smaller and scale engraved 0 to 9 over 270 degrees; 2¼ inches diameter.
63 F 6728—For ⅛ inch shaft..... 37¢
63 F 6729—For ¼ inch shaft..... 37¢
Postage, 4¢ extra

Knob to Match Above Dials

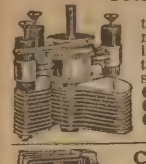
Polished black rubber with fine corrugated sides. Neat and attractive. Molded knob and fitted with set screw.
63 F 6706—To fit ⅛ inch shaft.....15¢
63 F 6707—To fit ¼ inch shaft.....15¢
63 F 6708—To fit ⅛ threaded shaft... 15¢
Postage, 2¢ extra

Airline Bakelite Dials and Knobs



Genuine bakelite molded in one piece. Ten sided Knob gives easy tuning control. Engraved 0 to 100. Clean cut figures. Very attractive.
63 F 6744—3¼ inches for ⅛ shaft.....49¢
63 F 6745—3¼ inches for ¼ shaft.....49¢
63 F 6746—4 inches for ⅛ shaft.....68¢
63 F 6747—4 inches for ¼ shaft.....68¢
Postage, 6¢ extra

Smaller Dials same as above, except with scale 0 to 10 over 270 degrees. Diameter, 2½ inches.
63 F 6748—For ⅛ inch shaft.....42¢
63 F 6749—For ¼ inch shaft.....42¢
Postage, 4¢ extra

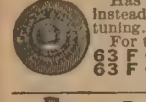


Variable Condensers

Variable Condenser
Table Mounting Type

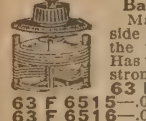
Plates stamped from sheet aluminum. Accurately machined spacers insure perfect centering of plates. Square formica sheet ends with engraved scale. Regulating dial and pointer. Enclosed in dustproof glass case.
63 F 6480—21-plate size .0005 mfd.... $2.25
63 F 6481—43-plate size .001 mfd..... 2.75
Postage, 10¢ extra

Coto Coil Condenser



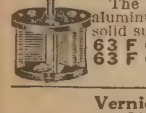
A panel mounting Condenser that is right, both electrically and mechanically. Solid cast aluminum bearing support. Wear taken up automatically. ¼ inch shaft. Priced very low.
63 F 6489—.0005 mfd $2.60
63 F 6490—.0007 mfd 2.90
63 F 6491—.001 mfd. 3.20
Postage, 8¢ extra

Crosley Variable Condenser



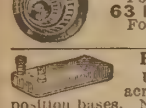
An entirely new idea in Condenser design. Has two plates which are opened and closed like the leaves of a book. Rated at .0005 mfd., but maximum capacity is about .0008 mfd.; ¼ inch shaft.
63 F 6511.... $1.95
Postage, 7¢ extra

Dubilier Variadon



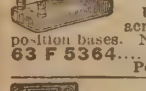
Has adjustment over 340 degrees instead of only 180. Fine for close tuning. Knob and pointer included. For table or panel.
63 F 6512—.0004 mfd..... $2.10
63 F 6513—.001 mfd..... 2.90
Postage, 6¢ extra

Balanced Vernier Condenser



Made with half the plates on one side and half on the other balancing the weight so plates will not slip. Has vernier for fine adjustment. Very strong and accurately made.
63 F 6514—.001 mfd.... $5.45
63 F 6515—.0005 mfd..... 4.80
63 F 6516—.00025 mfd..... 3.90
Postage, 8¢ extra

Murdock Condensers

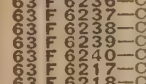


The old reliable Murdock with the aluminum plates cast permanently in solid supports; ¼ inch shaft.
63 F 6493—.001 mfd $2.60
63 F 6492—.0005 mfd..... 2.25
Postage, 10¢ extra

Vernier Condenser Dial

Gives very fine adjustment. Makes a vernier out of any variable condenser.
63 F 6504—
For ¼ inch shaft..... $1.95
63 F 6505—
For ¼ inch shaft..... 1.95
Postage, 6¢ extra

Fixed Receiving Condenser



Used as stopping Condenser or across telephones. Molded composition bases. Nickel plated binding posts.
63 F 5364..... 39¢
Postage, 4¢ extra

Micadon-Type 610

A high grade, mica insulated Condenser mounted in a composition case and fitted with binding posts for easy connection.
63 F 6215—.01 mfd..... $ .99
63 F 6216—.02 mfd..... 1.19
Postage, 5¢ extra

Micadon-Type 601

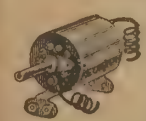
Same high grade construction as above but not in molded case.
63 F 6236—Capacity, .0001 mfd..... 29¢
63 F 6237—Capacity, .00025 mfd..... 29¢
63 F 6238—Capacity, .0005 mfd..... 29¢
63 F 6239—Capacity, .001 mfd..... 32¢
63 F 6240—Capacity, .002 mfd..... 32¢
63 F 6217—Capacity, .0025 mfd..... 32¢
63 F 6218—Capacity, .003 mfd..... 39¢
63 F 6219—Capacity, .004 mfd..... 39¢
63 F 6220—Capacity, .005 mfd..... 49¢
63 F 6221—Capacity, .006 mfd..... 59¢
Postage, 3¢ extra

Freshman Condensers

A well known mica insulated Condenser that is very popular.
63 F 6200—Capacity, .001 mfd..... 38¢
63 F 6201—Capacity, .0025 mfd..... 35¢
63 F 6202—Capacity, .005 mfd..... 49¢
63 F 6203—Capacity, .01 mfd..... 69¢
Postage, 4¢ extra

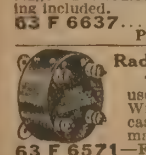
Midget Condensers
63 F 6204—Capacity, .00025 mfd..... 18¢
63 F 6205—Capacity, .0005 mfd..... 18¢
63 F 6206—Capacity, .0008 mfd..... 21¢
63 F 6208—Capacity, .000025 mfd..... 21¢
Postage, 2¢ extra

Eyelet Condenser



A well made Condenser with eyelets at ends for making connections.
63 F 6349—Capacity, .006 mfd..... 14¢
63 F 6353—Capacity, .002 mfd..... 8¢
63 F 6351—Capacity, .001 mfd..... 7¢
63 F 6355—Capacity, .0005 mfd..... 6¢
63 F 6382—Capacity, .00025 mfd..... 6¢
63 F 6383—Capacity, .00025 mfd. With india ink leak..... 9¢
Postage, 1¢ extra

Acme Radio Frequency Amplifying Transformer

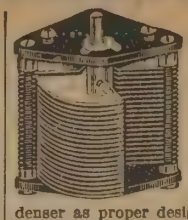


The use of one or more of these Transformers in the proper circuits will increase your range and make the use of a loop aerial possible. Iron core type. Bakelite case.
63 F 6475—Single stage. Wave length range, 100 to 350 meters, amateur wave..... $4.58
63 F 6476—
200 to 600 meters. First stage..... 4.58
63 F 6477—
200 to 600 meters. Second stage..... 4.58
63 F 6458—
200 to 600 meters. Third stage..... 4.58
Postage, 6¢ extra

Coto Coil Radio Frequency Amplifying Coil

This is one of the most efficient radio frequency transformers obtainable. It will bring in the long distance stations that can not be heard by ordinary methods. Suitable for use in one or more stages. Specify whether you want first, second or third stage transformers. Full directions for connecting included.
63 F 6637..... $5.50
Postage, 6¢ extra

Radio Frequency Transformer



This Transformer is designed for use on all broadcast wavelengths. Windings are mounted in a molded case. All connections plainly marked.
63 F 6571—For first stage amplifier. $3.48
63 F 6572—For second stage amplifier. 3.48
Postage, 6¢ extra

Venier Type Complete with Knob and Dial

It is often almost impossible to bring in signals from broadcasting stations at a great distance unless your set is equipped with a Vernier Variable Condenser. These vernier condensers are fitted with a single movable plate in addition to the regular plates. This plate is controlled by a separate knob which extends through the center of the regular knob and dial. This feature permits very fine capacity changes, enabling the closest tuning possible. The plates are made of hard aluminum, accurately cut and evenly spaced. Insulation is genuine bakelite. Fitted with attractive knob and dial engraved 0 to 100 and filled with contrasting white enamel. Order one for your set at once.
63 F 6111—12-plate .00025 mfd..... $2.38
63 F 6112—22-plate .0005 mfd..... 2.68
63 F 6113—42-plate .001 mfd..... 2.98
Postage, 8¢ extra

Plain Type

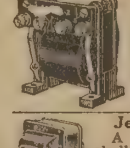
For the man who builds his own set we offer this plain type Variable Condenser which is furnished without dial, knob or pointer permitting selection of any style of control. Much of the success of the set you build depends on the variable condenser you select. Good materials alone, do not make a good condenser as proper design is also very essential. These condensers are constructed with this thought in mind.

Made with bakelite insulation and heavy aluminum plates with a lock nut for adjustment. Have ¼ inch shaft. When you build a set, use one of these.
63 F 6486—43-plate .001 mfd.... $1.59
63 F 6485—21-plate .0005 mfd.... 1.35
63 F 6484—11-plate .00025 mfd.... 1.25
63 F 6488—For use as vernier, 5-plate .95
63 F 6483—For use as vernier, 3-plate .69
Postage, 8¢ extra

Erla Radio Frequency Transformer

Mounted in a neat metal case.
63 F 6559—For 1st stage.. $3.25
63 F 6560—For 2d stage... 3.25
63 F 6561—For 3d stage... 3.25
63 F 6562—For reflex circuits 3.95
Postage, 6¢ extra

Radio Frequency Amplifying Transformer



This is the All American Transformer that has proven so satisfactory. Air core type with windings in pancake form. Binding posts plainly marked for easy connections. Fits standard socket. Diagram of connections with each transformer.
63 F 6639..... $3.90
Postage, 6¢ extra

Radio Frequency Transformer

Has a compensating winding to overcome capacity effects. Bakelite case.
63 F 6546—
For 201 A and 301 A tubes.. $1.79
63 F 6547—
For UV-199 and C-299 tubes. 1.79
Postage, 6¢ extra

Acme Audio Frequency Amplifying Transformer

Free from distortion and howling. Carefully designed and well built. Panel or table mounting. Binding posts marked.
63 F 6473..... $4.38
Postage, 6¢ extra

Jefferson A. F. Transformer

A well known Transformer of the shell core type. Mounted in a metal case with black enamel finish.
63 F 6588..... $2.48
Postage, 6¢ extra

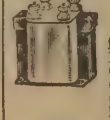
Our Special A. F. Transformer

Windings carefully insulated. Core is made of special steel. Binding posts for connections.
63 F 6568—
Ratio 6 to 1. First step... $2.28
63 F 6569—
Ratio 3½ to 1. Second step, 1.95
Postage, 6¢ extra

Federal A. F. Transformer

This Transformer has given good results for many years. Ratio, 3 to 1. Fully mounted and very compact.
63 F 6429..... $4.85
Postage, 6¢ extra

Audio Frequency Transformer



Well designed and carefully made closed core type. Gives good amplification without howling. Enclosed in metal case. Binding posts plainly marked. Table or panel mounting.
63 F 6474—6 to 1 ratio. $2.70
63 F 6570—3½ to 1 ratio 2.45
Postage, 6¢ extra

All American Audio Frequency Amplifying Transformer

Designed for use with Radiotron and Cunningham tubes. Winding ratio of 10 to 1. Specially constructed. Produces maximum amplification without distortion or howling. For C-301, C-301-A, UV-201-A and UV-201 tubes.
63 F 6582—Type 1; 10 to 1 ratio..... $3.95
63 F 6583—Type 2; 5 to 1 ratio..... 3.95
63 F 6584—Type 3; 3 to 1 ratio..... 3.75
Postage, 6¢ extra

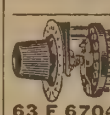
Thordarson Amplifying Transformer

Large size silk covered wire. Windings carefully designed for best results. Free from howling and distortion. Connections plainly marked.
63 F 6563—6 to 1 ratio... $3.95
63 F 6564—3½ to 1 ratio. 3.58
Postage, each, 6¢ extra

Inductance Coils

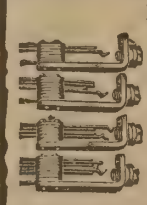
These Coils have low radio frequency resistance and distributed capacity. Can be used in many circuits. Meter range given is with .0005 condenser across inductance.
63 F 5435—100 to 340 meters. 25 turns..... 41¢
63 F 5436—120 to 470 meters. 35 turns..... 44¢
63 F 5437—170 to 650 meters. 50 turns..... 48¢
63 F 5438—220 to 960 meters. 75 turns..... 56¢
63 F 5439—300 to 1300 meters. 100 turns... 69¢
63 F 5440—470 to 1980 meters. 150 turns... 85¢
Postage, 4¢ to 6¢ extra

Box Type Loop



Complete wood frame and stand with wire and binding post connections. Size of loop, 2 feet on each side. With radio frequency sets distances of 200 to 300 miles and sometimes more are picked up with loop sets. Especially desirable in congested localities.
563 F 650..... $2.95
Postage, 16¢ extra

Indoor Loop Antenna



This loop was designed to meet the requirements of those persons desiring to receive radio messages without the use of an outside antenna. Very sharp tuning can be obtained with it. Interference can be practically eliminated. Comes taken apart complete with all necessary parts and wire. Directions for assembling and using included. Height, 28 inches.
563 F 654..... 89¢
Postage, 14¢ extra

Inductance Switch and Dial

Save the trouble of drilling unnecessary holes with this back mounting Inductance Switch which comes complete with dial and knob. Requires but one hole.
63 F 6704..... $1.29
Postage, 6¢ extra

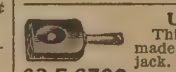
Radio Jacks

Especially designed for radio work. Very compact, carefully constructed, finely finished. May be mounted on panels up to ¼ inch in thickness. Contact points are silver.
63 F 6780—
Open circuit..... 38¢
63 F 6781—
Closed circuit..... 45¢
63 F 6782—2-circuit.. 49¢
63 F 6783—3-spring. Single circuit. Filament control..... 59¢
63 F 6784—5-spring. Two circuit. Filament control..... 69¢
Postage, 3¢ extra

Two-Cord Plug

When you use two headsets don't have a number of unsightly connections which may cause a lot of trouble. Use one of these two-cord Plugs and get the phone cords out of the way. This is a well made plug that has space for two sets of cords. Connections are quickly and easily made.
63 F 6792..... 59¢
Postage, 3¢ extra

Three-Plug Adapter



With this Adapter you can plug in three headsets. May be mounted on table or side of cabinet. Very convenient.
63 F 6794..... 89¢
Postage, 4¢ extra

Pacent Duojack

Fits under head of binding posts and has holes for two phone plugs. Adjustable to fit any set of binding posts.
63 F 6786..... 89¢
Postage, 4¢ extra

Universal Radio Plug

This Plug is extremely well made and will fit any standard jack. Easy connections.
63 F 6790..... 39¢
Postage 3¢ extra

Radio Plug

Designed for use in connection with radio Jacks. Large spaces for attaching cord. No soldering. Length, 2⅛ inches.
63 F 6785..... 32¢
Postage, 3¢ extra

Control Switch

Replaces three filament control jacks and plugs. Switches phones, loudspeaker from detector, first or second step by simply turning knob. Complete with blueprint of connections.
63 F 6798..... $2.48
Postage, 8¢ extra

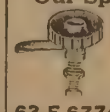
Back Mounted Switch

Mounts by drilling only one hole. Switch has ten switch points to which connections may be soldered.
63 F 5616..... 69¢
Postage, 6¢ extra

Switch Lever Set

A high grade switch lever with ten switch points and two switch stops. Fits any panel up to 5/16 inch thick. Polished black knob, metal parts brass polished, nickel finish.
63 F 5615..... 35¢
Postage, 4¢ extra

Inductance Switch



An attractive Switch Lever which will find many uses in the radio set. Black composition knob. Nickeled spring lever.
63 F 5617..... 13¢
Postage, 1¢ extra

Double Binding Post

Very useful in making two connections from the same terminal—either for batteries or for connecting two sets of phones. Also for many other uses where two connections are required. A handy device on any set.
63 F 5606—Each..... 9¢
Per dozen..... 90¢
Postage, each, 1¢ extra; per dozen, 6¢

Our Special Inductance Switch

High grade smooth working Switch. Black polished composition knob, nickel finished phosphor bronze spring and bushing. Panel bushing adjustable to any thickness up to 5/16 inch.
63 F 6774..... 18¢
Postage, 2¢ extra

Mounted Inductance Coils

Wave length range in table is based on .001 mfd. condenser in parallel. Coils are mounted on standard plugs to fit standard mountings.

Article Number	Number Turns	Approx. Wave-length Range	Each
63 F 5485	25	130- 250	$ .87
63 F 5486	35	180- 450	.93
63 F 5487	50	250- 700	1.02
63 F 5488	75	400- 900	1.04
63 F 5489	100	500-1000	1.10
63 F 5490	150	600-1200	1.15

Unmounted Coils
Same as above but without mounting plug.

Article Number	Number Turns	Approx. Wave-length Range	Each
63 F 5470	25	130- 250	36¢
63 F 5471	35	180- 450	40¢

Complete Units

Detector units have rheostat and socket, amplifier unit has a good transformer. Other units consist of detector and amplifier units combined.
63 F 6104—Detector unit..... $1.95
63 F 6107—Amplifier unit..... 4.85
63 F 6105—Detector and one stage amplifier unit!..... $6.35
63 F 6106—Detector and two-stage amplifier unit..... $10.95
Postage, 12¢ extra

Back Panel Mounting

Put your Honeycomb Coils behind the panel with this mounting. Bakelite insulation. May be fitted dial and knob. No dial included.
63 F 6544..... $4.45
Postage, 10¢ extra

Triple Coil Mounting

Takes three standard honeycomb coils of any size. Center coil stationary, outer coils adjusted by knobs and shafts. Lock in any position. Bakelite construction. Metal parts are nickel finish. For panel mounting.
63 F 6537..... $3.58
Postage, 8¢ extra

Two-Coil Mounting

Same as above, except for mounting only two coils. Has one stationary and one adjustable mounting. This mounting used in Flewelling Circuit.
63 F 6538..... $2.85
Postage, 8¢ extra

Coil Mounting Strap

Made of fiber. Sold only in 2-foot lengths.
63 F 5466—Per 2-foot length.... 15¢
Postage, 2-foot length, 2¢ extra

Mounting Plug

A well made Plug nicely finished. Takes any standard coil plug.
63 F 6545..... 89¢
Postage, 4¢ extra

Movable Coil Mounting

Can be swung to any position desired. Complete with anti-capacity handle.
63 F 6548... $1.09
Postage, 6¢ extra

New Style Binding Posts

Specially constructed with non-removable, knurled knob. May be mounted on any panel up to 5/16 inch thick. Fitted with copper lug and lock nut. Tumble plate, nickel finish.
63 F 5613—Each..... 8¢
Per dozen..... 80¢
Postage, each, 1¢ extra; per dozen, 6¢

Binding Posts

Metal parts of brass, polished nickel finish. All have ⅜ inch long 6/32 screws with washers. Sizes given are from bottom of shoulder to top of knob and do not include screw.
63 F 5602—Style 1. Length 13/16 inch. Each, 4¢. Per dozen (small)..... 36¢

Postage, 3 lengths, 4¢ extra

Good Variable Condensers help to make your home made radio set a success

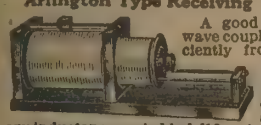
$23.75

Electric Drill

You will do better and cleaner work in less time with this Drill than you ever can do with a hand drill. Takes any round shank drill up to ¼ inch. Can be used on any house lighting circuit of 105 to 120 volts, direct or alternating current. Case polished aluminum. Controlling switch in handle. Weighs only 4 pounds. Six-foot cord and plug. Will give years of satisfactory service. This is an exceptional value.

63 F 5825.....**$23.75**

Postage, 16¢ extra



Navy Type Receiving Transformer

Primary inductance controlled by units and tens switches. Secondary has 12 point control; 150 to 4000 meters. Formica panels. Metal parts nickel plated and polished. Mahogany finished woodwork. Use with crystal or vacuum tube detectors.

563 F 600.....**$9.40**

Postage, 54¢ extra

Arlington Type Receiving Transformer

A good long and short wave coupler. Operates efficiently from 200 to 4000 meters. Fine for receiving time signals. Primary controlled by slider. Secondary inductance varied by a 10-point switch mounted on a formica panel. Silk covered windings. Brass metal parts polished and lacquered. Mahogany finish. Base, 18 by 6 inches.

563 F 601.....**$5.95**

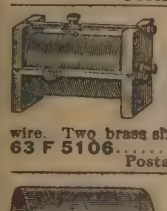
Postage, 32¢ extra

Junior Loose Coupler

For wavelengths of 180 to 600 meters. Slide control primary and tapped secondary. Rubbed mahogany finish. Brass parts nickel plated. Base size, 12 by 3½ inches. A very efficient tuner for code or phone.

563 F 5103.....**$3.25**

Postage, 10¢ extra



Two-Slide Tuning Coil

Machine spaced enamel copper wire winding. Non-shrinkable tube. Control is by means of two smooth working sliders. Mahogany finished end pieces. Range up to 1000 meters on average antenna. Length, 8¾ inches.

63 F 5104.....**$2.48**

Postage, 10¢ extra

Two-Slide Tuning Coil

An excellent Coil for beginners, at a bargain price. Will tune in amateur, broadcasting and commercial stations. Is 8 inches long. Wood ends, mahogany stained. Enameled wire. Two brass slider rods with sliders.

63 F 5106.....**$1.78**

Postage, 10¢ extra

Cardboard Tubes

For making tuning coils, loading coils, etc. Will not shrink. In 1 foot lengths only.

63 F 6565—Diameter, 3 inches.....**15¢**
63 F 6566—Diameter, 3½ inches.....**17¢**
63 F 6567—Diameter, 4 inches.....**19¢**

Postage, 2¢ extra

Slide Contactors

For ⅛ inch rod. Stiff spring insures, positive contact when moved over wire.

63 F 6532—2 contactors.....**18¢**

Postage, 2 contactors, 2¢ extra

⅛-Inch Slider Rods

63 F 6575—Length, 8 inches. 2 rods....**16¢**

Postage, 100 feet, 10¢ extra; 500 feet, 34¢

Braided Antenna Cable

A braided Cable consisting of 16 strands. Fine for loop aerials for radio frequency. Handy for experimental work or for transmitting connections. Not recommended for outdoor aerials.

63 F 6246—Per 100-foot coil.....**$2.10**

Postage, 100 feet, 10¢ extra

Copperweld Antenna Wire

This is an ideal Wire for long aerials. Made of steel and covered with a thick layer of copper. Stronger than pure copper and just as efficient. Easily soldered. Does not break from ordinary strains. Size 14.

63 F 5154—Per 100-foot coil.....**44¢**

Postage, 100 feet, 4¢ extra

Connector Block

Allows antenna wires to be firmly connected to the lead-in wire. Solid brass throughout. No soldering.

63 F 6604.....**19¢**

Postage, 2¢ extra

Ground Clamp

Makes firm connection to any water, gas, or steam pipe up to 1½ inches.

63 F 6606.....**5¢**

Postage, 1¢ extra

Molded Composition Insulators

These Insulators have been used for radio purposes a number of years. They are molded of a shellac base composition which gives good service as an insulator. Have galvanized wrought iron eyes for attaching wires.

Article Number	Diam. Inches	Length Inches	Strgth Lbs.	Electric Value Dry Volts	Electric Value Rain	Each
63 F 5630	2½	3¼	250	40,000	25,000	25¢

Postage, 3¢, 4¢ and 10¢ extra

Porcelain Strain Insulator

Strong and well made of corrugated porcelain. About 2¾ inches long by 1¼ inches diameter. Ideal for receiving aerials.

63 F 6643—Each.....**6¢**
Per dozen.....**49¢**

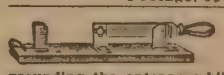
Postage, each, 1¢ extra; dozen, 8¢

Leading In Insulator

A very well made device especially desirable because of its small diameter. It is only necessary to drill a 5/16 inch hole to insert insulator. May be used to bring lead through wall, partition or window sash. Made of molded hard rubber compound and fitted with threaded brass rod through center and two nuts on each end.

63 F 6644—For walls up to 4 inches....**31¢**
63 F 6645—For walls up to 9 inches....**69¢**

Postage, 4 and 6¢ extra



Lightning Arrester

This device is a protection to your apparatus during electrical storms when the ground switch is not thrown. It is easily mounted and requires no attention whatever. The Arrester has no effect upon Radio signals but effectively grounds any heavy current induced by an electrical storm. Mounted on porcelain base.

63 F 6613.....**69¢**

Postage, 8¢ extra

Ground Switch

This is a very high quality 600 volt 100-ampere Switch for grounding the antenna while not in use. Single pole, double throw. Asbestos composition base. Passed by Underwriters' Laboratories. Size, 2¼ by 13¼ inches.

63 F 5359.....**$1.95**

Postage, 14¢ extra

A good Loud Speaker doubles the value of your radio receiving set. See Page 446

Ward's Runrite Oil for Fords

38¢
A Gallon
In 50-Gallon Wood Barrels

Fords need a Special Oil. They carry high speed motors cooled by the thermo-siphon system. Temperatures are higher than in most motors. If they are to operate efficiently, they must have a suitable oil. Ward's Runrite is exactly such an oil. This special oil for Fords has successfully passed every laboratory and road test for lubricating qualities at high temperature—and thousands of customers use it the year around.

Ward's Runrite Oil is so low priced that many Ford owners will want its quality proved to them. Send us your order for two gallons or more of Runrite Oil. Refill your crankcase with it, and run your Motor a sufficient number of miles to test it thoroughly. Then if you are not pleased with Runrite in every way, we will refund both your purchase price and any transportation charges you may have paid. **You won't be out a single penny.**

You will find Runrite Oil for Fords helps your motor to deliver maximum power from a minimum amount of gasoline—more mileage to the gallon; lubricates perfectly at all speeds and temperatures, and is ideally suited to the splash system of lubrication. Why not order a barrel today—and save yourself some real money? The standard Montgomery Ward & Co. guarantee is your protection.

All sizes except 1-gallon cans shipped from Chicago or Eastern Pennsylvania; 1-gallon cans from Chicago only. See shipping weights below.

Does Your Ford "Chatter"?

If your Ford "chatters," look at your transmissi bands. Do not blame your cylinder oil—that has nothi to do with it. You will undoubtedly find that your bra band linings are worn or glazed so they grab in one sp and slip in another. As a remedy for this, we would su gest installing a good set of Non-Chatter Transmissi Bands such as our Denonco, No. 61 F 2360, shown Page 470.

An oil that will stop "chattering" is likely to be injurio to the engine.

Why risk having engine trouble when all you need is a new brake lining?

Ford Owners, Read

"I have been running a Ford on a 30-mile mail route for over six years, and have used a good many different kinds of oil. Runrite Oil for Fords is equal to any I have ever used, and a good deal better than I can buy locally at $1 a gallon."
J. C. Montgomery, Toulon, Ill.

"Before using Runrite Oil, my spark plugs had to be cleaned about every fifty miles. After I put Runrite in I didn't have a spark plug out from the first of August until this spring, and I ran the car fully as much."
Carl Bates, Rockton, Ill.
Printed with Customers' Permission

Ward's Runrite Automobile Oil

As in everything at Ward's, **quality** is the first thought in the selection of our Oils. Have the advantages enjoyed by thousands of our automobile customers: Smooth running, cleaner spark plugs; thorough lubrication of all moving parts at any temperature, and unusual mileage on gasoline as well as on Oil. Ward's Runrite has passed the severest tests of our Laboratory experts as well as actual use on the road; and the tremendous volume of business we do annually enables us to give you the benefit of substantial savings. Why not prove this better performance and greater saving at our risk? Order enough Runrite to fill your crankcase. Test it out thoroughly—compare it with any oil you can buy. Then if you are not entirely satisfied with the results, we will refund your money in full, plus all transportation charges.

Satisfied Motorists

"Runrite Oil is the best I have ever used, and it is also the cheapest. Have used 100 gallons of it and have had no engine trouble whatever."
Morris Strommen, Blanchardsville, Wis.

"My engine had carbon knocks in it before I started using Runrite Oil. Since using it, it runs like a new motor."
Geo. W. Self, Kent, O.

"Runrite Oil is equal to any dollar oil I have ever used. It wears longer and there is no spark plug trouble."
Otto Hammelman, Otterbein, Ind.

Ward's Runrite Tractor Oils

For tractor use, you need the best oil obtainable. Ward's Runrite Oil for Tractors has been refined to meet all heavy duty operating conditions to your full satisfaction. It stands up under the hardest kind of tractor work, reducing friction and lubricating every moving part thoroughly. If you never have used Ward's Friction Runrite Oil for tractors, you will be very agreeably surprised at the unusual saving you make at no sacrifice of quality. A trial will convince you, and you can make it entirely at our risk—every cent refunded if you are not satisfied. Furnished in three grades: Medium, heavy and extra heavy. Medium for Fordsons.

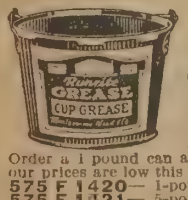
Fiber or Sponge Grease

A spongy, fibrous and heavy Grease which clings to the moving parts and lubricates well at all times. Reduces friction and prolongs wear. Will not leak. Preferred to ordinary grease.

475 F 1462—10 lbs. in iron pail	$1.30
475 F 1463—25 lbs. in iron pail	$3.00
175 F 1464—50 lbs. in iron pail	$5.50

Denatured Alcohol



Poison! Must not be taken internally. Not mailable. Prices subject to market changes.

For use in spirit lamps, percolator heaters, and for thinning shellacs.

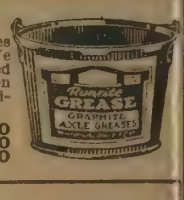
For use in making non-freezing solution for auto radiators. Use 2 per cent alcohol for two degrees below zero, 40 per cent alcohol for 2 degrees below. Shipping weight, per gallon, 12 pounds.

675 F 7656	—1-quart can	24¢
675 F 7657	—1-gallon can	75¢
175 F 7658	—5-gallon can. Per gallon	70¢

Special Cup Grease for Fords

An exceptionally good grade of Cup Grease of the proper grade for Ford cars. It can be used either in screw cups or compression cups. This cup grease is thoroughly tested and backed by Ward's guarantee. It is used and recommended by thousands of Ford owners throughout the country. Order a 1 pound can and try it out. You will find that although our prices are low this is as good a cup grease as you could desire.

575 F 1420— 1-pound can	$ .15
575 F 1421— 5-pound can	.62
475 F 1422—10-pound can	1.10
475 F 1423—25-pound can	2.40



Ward's Runrite Cup Grease

Use Medium for Auto Cups

Runrite Cup Grease is furnished in three different grades: Soft, medium and hard. The soft is intended particularly for pillow blocks and crossheads. The medium is made especially for automobile use, but can be used satisfactorily for general purposes. The hard is for heavy open bearings and grease cups. The medium grade can be used on autos having regular grease cups or compression lubricating system

Size Pail	Soft	Medium	Hard	Per Pail
1 pound	75 F 1400	75 F 1405	75 F 1410	$ .16
10 pounds	475 F 1402	475 F 1407	475 F 1412	1.15
25 pounds	475 F 1403	475 F 1408	475 F 1413	2.75
50 pounds	175 F 1404	175 F 1409	175 F 1414	4.90

Graphite Axle Grease

Made with a graphite base that gives better lubrication and lasts longer. We freely recommend its use on slow speed bearings and pumps, as well as for axles on buggies, wagons, etc. Its lubricating qualities are lasting. It does not run readily.

575 F 1490— 1 pound box	$ .10
475 F 1492—10-pound pail	.90
475 F 1493—25-pound pail	2.00

A Full Line of High Grade Auto Paint Is Shown on Page 544

Differential Compound for Fords

A semi-solid Compound which does away with rear axle noises. When applying be sure to have the rear axle thoroughly cleaned. This is best done by using a little kerosene. Then pack in about 1½ pounds of this special compound. Renew about every 1000 miles. Every Ford owner should have a supply of this high grade lubricant.

575 F 1451 — 5-pound can	$ .65
475 F 1452—10-pound can	1.25
475 F 1453—25-pound can	2.85

Pure Neatsfoot Oil

For use on all kinds of leather articles such as belting, harness, boots, gloves, etc. It preserves and softens the leather and adds to its wearing qualities. Easy to apply.

575 F 7519— 1-quart can	$ .65
575 F 7518— 1-gallon can	2.20

Shipping Weights of Oil and Grease

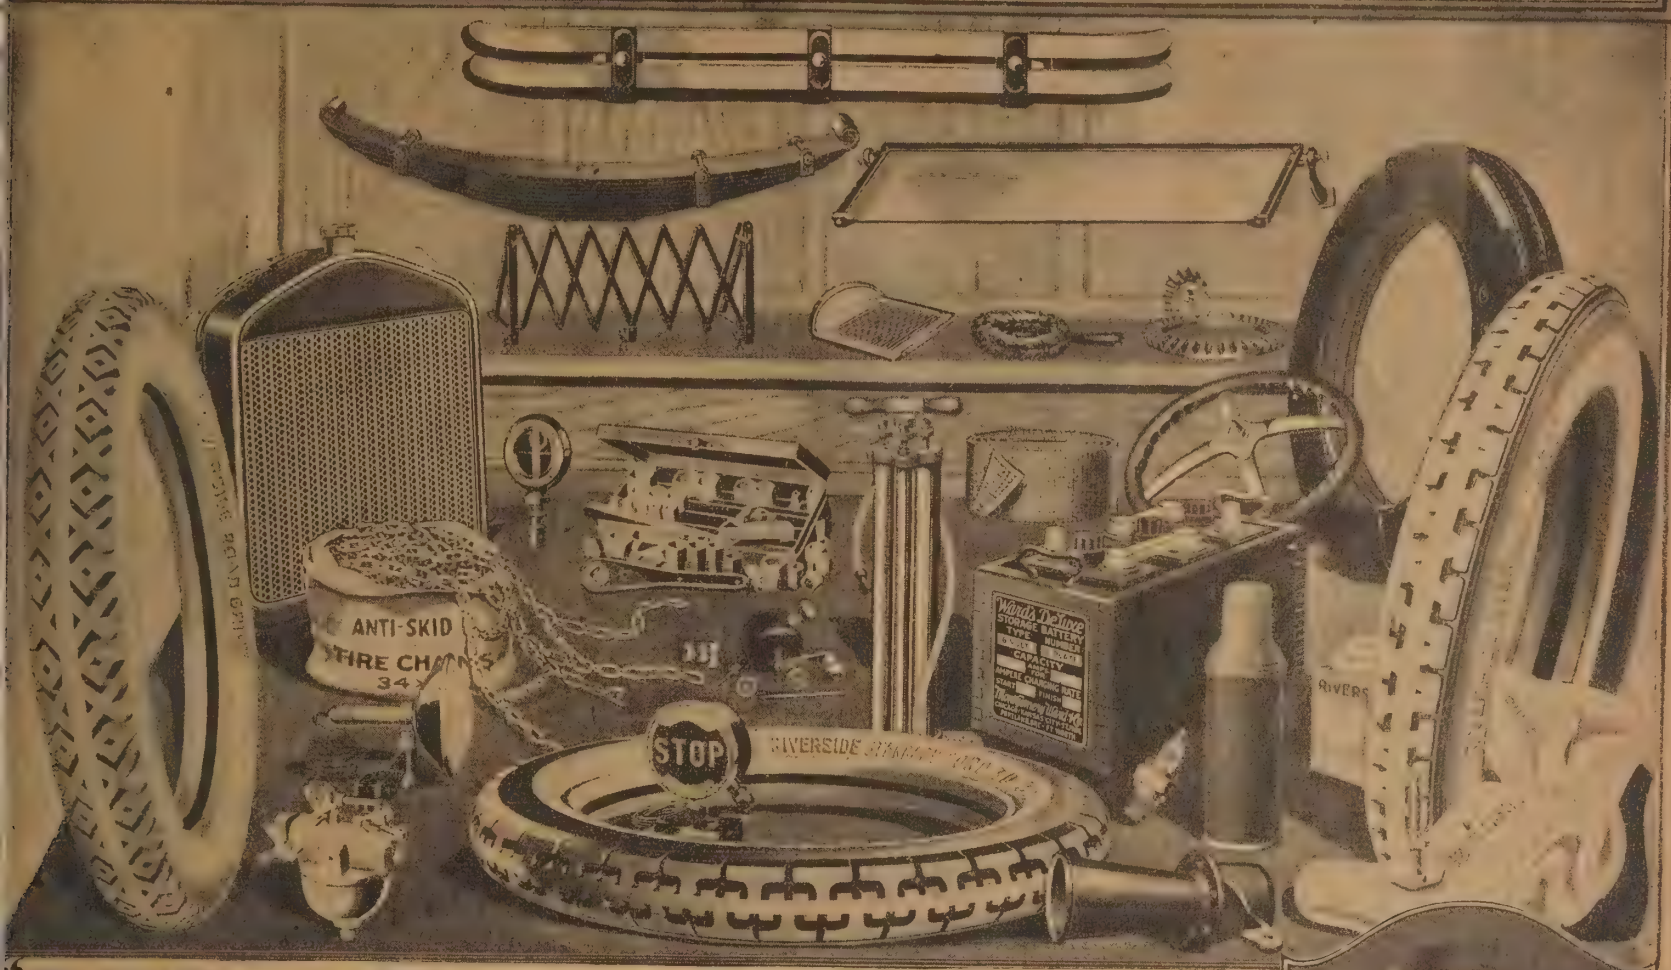
Specially Refined Kerosene Oil



Because of its high test this double refined Kerosene gives satisfactory service in incubators, oil stoves, oil lamps, tractors, and all other articles which require a high grade oil. In incubators, oil stoves and oil lamps you will find you can turn the wick higher without smoking. Gives a steady, uniform light or heat at all times. Tractor owners who use kerosene will be pleased with the increased power they can get from this double refined grade. Our prices, which include the container, are extremely low. Compare them with the prices of other double refined kerosenes and be convinced.

Your Auto Supply Store

"I Want Every Auto Owner to Send Us a Trial Order"

SINCE the early days of the one cylinder car I have been studying and co-operating with manufacturers to help them improve the Quality of Tires and Accessories. I have placed many orders for great quantities of raw materials and finished articles often ranging from 25,000 to 100,000 of a single article at a time. All of this was done to give you the lowest prices possible on Quality Goods. But in all these years I have never seen or heard of such remarkable values for motorists as are shown on the next 22 colored pages of this catalogue. Many prices are actually a great deal less than the wholesale prices to dealers and every article is backed by our 52-year reputation for honest dealing.

A. B. Cooley

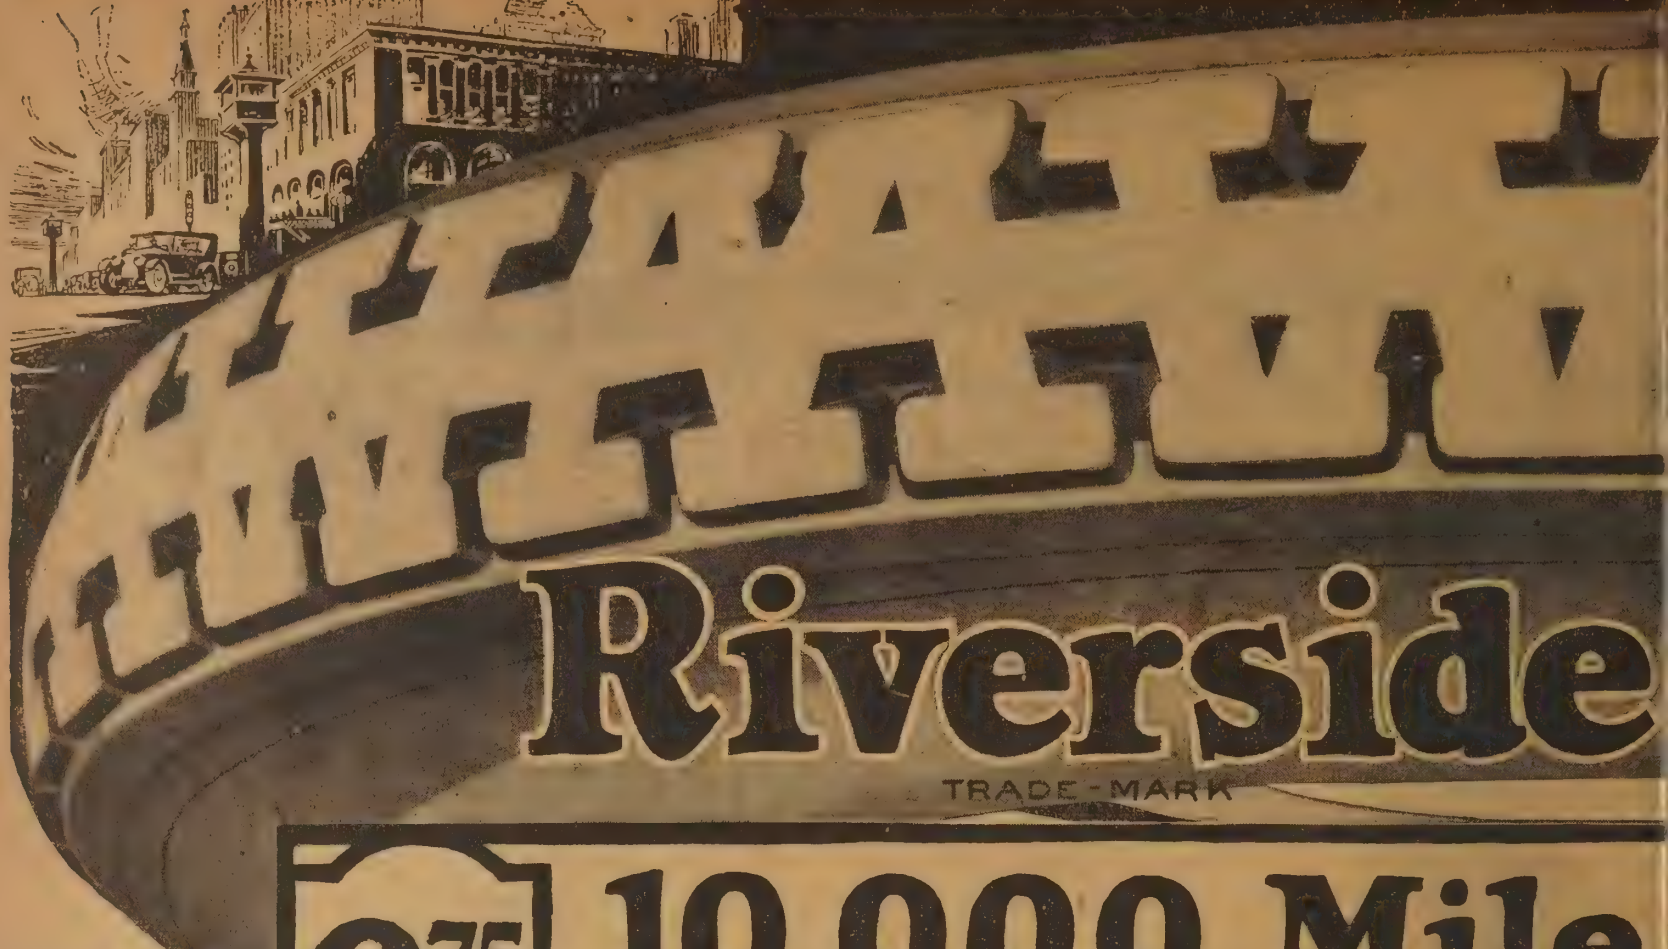
A. B. Cooley
Manager Auto Accessories Dept.

Here is My Plan
To Prove You Save Money at Ward's

I am so confident that we can save you many dollars and that you will continue to buy all of your Tires and Supplies from Ward's that I want you to send us a Trial Order for whatever you need—and you don't risk a cent by doing it. It doesn't make a bit of difference where you live, whether 20 miles or 2,000 miles from our store, I want you to send us an order in the usual way for Tires, Tubes, a Battery, Spotlight, Tire Chains, a Carburetor or any other articles you need with the strict understanding that if you have not saved money, or **if for any reason you are not entirely satisfied you may return the articles and we will refund every cent of your money and all transportation charges.** Only Quality will stand such a test as that—we have the Quality and are not afraid to prove it. Did you ever hear of a fairer offer than this in your life? If "Seeing is Believing" we are ready to show you that Ward's is the Best Place and the Safest Place in the United States to buy Auto Tires and Supplies. Send us your next order for Auto Supplies no matter how small or how large it may be.

This is Why
Ward's Prices are Lower Than All Others

There is **no secret** about the reason why our Prices are so much lower than others ask for the best Quality Auto Supplies. The answer is simply **good common business sense.** We buy direct from the manufacturers in such great quantities that they are mighty glad to sell to us at their very lowest prices. Manufacturers would rather sell us 25,000 to 100,000 of one article than send out several high priced salesmen who may travel several months trying to sell the same quantity in small lots to several hundred dealers. **We pay cash, too.** Every time you buy an article that has been handled and sold by branch houses, jobbers, sales agents, and by dealers, you have paid several profits and handling expenses that do not make the article any better. They only make the price higher. You wouldn't expect to drive out to a farm and pay as much for potatoes, corn or any other products as you would pay in a big city after 4 or 5 profits and expenses have been added to the farmer's price, would you? Well, this is exactly the same situation on Auto Supplies. We sell direct to you with only **one small profit** added instead of the 3 to 5 profits generally added.



Montgomery Ward & Co. Has Saved Auto Owners Millions of Dollars

Thousands of customers have written to us telling how many dollars they saved by buying Riverside Tires and Tubes, De Luxe Batteries, Brake Lining, Tire Chains, Radiators, Top Recovering Outfits from us. During 1923 more than 2,000,000 auto owners sent us orders—and saved millions of dollars. Auto owners all over the country have told us that they saved from $7.50 to $15.00 on each Tire by purchasing Riversides—and that the Riversides went thousands of miles farther than any tires they ever used **regardless of price.** Other motorists have told us that they never buy any auto supplies without first looking up Ward's price—and after comparing prices they send their order to us. This is a good habit—use Ward's prices as the basis of comparison. Why should you pay $10 more for a tire, $9 more for a battery, $6 more for a bumper or $2.50 more for a spotlight when it only takes a few minutes to make out your order and send it to Ward's?

How a 2¢ Stamp May Save You $10 to $50

Thousands of garage men and dealers are now buying their tires and auto supplies by **mail.** Why?—Because they are able to buy for less from firms who sell by mail than they can from firms who send out salesmen. **They realize that buying by mail is the most economical way.** If they buy by mail why shouldn't you? Why should you pay $10 to $50 more simply to have somebody else write out an order and mail it—when you can do the same thing yourself and save that money? Your letter goes on the same train and your merchandise comes back through the same post office, express office or freight depot. If you put your order in the post office at the same time the dealer sends his order to a jobber or wholesaler you will probably receive your goods first. In many cases you will pay less for the same Quality article than the dealer does. Buying by mail from Ward's is growing more popular every day. Study these tire and auto supply pages carefully; then you will see why it pays to buy from Ward's where the saving on a pair of tires and a few supplies often amounts from $10 to $50.

Valuable Books for the automobile mechanic are shown on Page 326

Bigger, Stronger and Better Cord Tires Direct to You at Less Than Wholesale Prices

RIVERSIDE Oversize Cord Tires for 1924 are the **best tires** we have ever offered y They are big, heavy duty, full oversize Cord Tires of the very finest construction and a to be compared only with the highest priced tires on the market. Actual measurements pro that Riversides match up in size, construction and quality with the most expensive cords y can buy. A recent comparison of **Riverside prices** and wholesale prices showed we sell th Riversides to you for less than many dealers' cost for tires of equal size, weight and co struction. Riversides cost you less because you only pay **one small profit** above the ma facturing cost.

$9.75

30x3½ Oversize Cord

Write Your Own Tire Order— and Mail It to Ward's

The mail order method of selling merchandise has proven so economical that there are now many firms selling by mail exclusively to the dealer. In reality, nearly all tires are ordered by mail. Even though the dealer should give his order to a salesman—the salesman mails it to the branch house or factory. Montgomery Ward & Co. originated the mail order method of selling merchandise 52 years ago—today the savings to be made by ordering by mail from Ward's are greater than ever. On a single tire you can save several dollars—and on a pair or more the saving will generally buy gasoline and oil for many weeks. It only takes about 3 minutes to write an order—and it only costs 2¢ to mail it so why should you pay several dollars more than Ward's prices? Decide now your next tire order will go to Ward's.

Use Riverside Cord Size Tubes in Riverside Oversize Cord Tires

Oversize Cord Tires such as the Riverside 10,000 Mile Cords need bigger size tubes than fabric tires. The Riverside Brown Pure Rubber Cord Size Tubes are larger, stronger and heavier so they fit all the big size cord tires without being stretched out of shape or strained.

To get full mileage from tires you must use the best inner tubes, so we build Riversides so strong and of such fine material that we know they will prove a big help in increasing your tire mileage by keeping your tires at full pressure for a long period.

The Only Real Difference between Riversides and Expensive Tires Is the Price

If you stand a Riverside Tire alongside a high priced tire it is just as big. If you measure them the Riverside will be as large—possibly larger. If you weigh them the Riverside will be as heavy. The tables on the opposite page give you the actual measurements of the Riverside Oversize Cords and the high priced cords when cut in two. In every comparison Riversides are the equal of the expensive tires. The materials cost just as much as those used in other tires because we use the best rubber and selected quality cord and fabric. Riversides cost just as much to make because they are built by experts in a factory with the most up-to-date equipment. Actual measurements and the mileage-records from our customers prove the **only real difference** is the price—and you save this difference because you only pay one small profit when you buy Riversides.

Riverside Oversize Cord Tire Prices

Cl.—Regular Clincher. SS.—Straight Side. Flaps furnished with all SS Cord Tires.

The 30x3½ (SS) Straight Side Tires is not suitable for clincher rims. It is for use on such cars as the Chevrolet Superior, Overland 4 and other light cars using this new style rim.

Save $5 to $25 On Each Tire

A comparison of Riverside Prices with the latest prices of any of the other well known tires shows an actual saving of more than $5 to $25 on each tire. Think of the big saving this means to you on two or three tires. Then there is also the important advantage of Montgomery Ward's definite mileage guarantee which gives you complete protection on your purchase. We sell Riverside tires on a mighty small one profit basis at the rate of thousands each day. Big quantities and the cutting out of several profits usually required in selling tires are the chief reasons why our prices to you are so extremely low. But we could not sell Riversides at any price if they were not good tires. Quality is the foundation of our success—and Riverside Tires are Quality Tires all the way through and we give you a guarantee that means complete protection.

Don't Pay More Than Riverside Prices

Figure out the cost per mile before you buy y next tires. Just because you pay several do more for another tire than you do for River is no reason you will get more mileage. Pa extra profits to jobbers, salesmen, agents dealers doesn't mean extra miles for you. M tires have three or four extra profits and hand expenses added to their costs. Riversides do You only pay one small profit above manufac ing cost on Riversides. Remember, Montgom Ward & Co. has been in business for over 52 y and has a reputation of always giving its tomers a square deal.

Riverside Tires Have a Stronger Guarantee

A reliable guarantee is the buyers' protectio quality. If any other tire was better than Ri sides doesn't it seem reasonable the maker w give a stronger guarantee? There is not a tire on market, backed by a firm that has been in busi as long as Wards, that has as strong a guarante protect the users. Besides saving you several do on each tire, Montgomery Ward & Co. give greater protection for your money. We absolu guarantee every Riverside Tire is first quality. guarantee the materials and workmanship to b finest. And above all, we give you a **Definite M age Guarantee** that gives you the fullest pro tion that possibly could be asked for. You d guess about service when buying Riversides— know because Ward's guarantee is absolutely pendable.

10 Years Experienc in Directing the Manufacture 2,500,000 Riverside Tire

Experience is the best teacher. The Rive Tires you get today are the perfected result of long years of experience in directing the maki more than 2,500,000 Riversides. We have s thousands of dollars for testing tires. We watched the mileage records of Riversides i parts of the country. We have made the most ough tests of processes for toughening rubber. of this experience has helped us to make the pr Riversides better Tires. Montgomery Ward & can not afford to sell poor tires—and never will never sacrifice Ward's high standard of qualit make a low price. When you buy Riverside you can feel certain your money has bought best value it is possible to obtain. When ne better methods of making tires are developed can depend on it that Ward's will use them in ing Riversides.

Printed by Permission

Iowa

"About three years ago I ordered two Riverside Cord Tires, and will say they have given me the very best satisfaction. Have had no bother, and after using them three years on our five passenger car, they are yet in good condition."

G. F. Binning,
Greeley, Ia.

Pennsylvania

"I am enclosing check for another Riverside Cord Tire and Tube. I have had four of them. Took the first one off last week after running over 14,000 miles over all kinds of roads. I got this tire April 21, 1922. I am using them on a Sampson truck weighing 3,275 pounds, and have loaded as high as fifty-one cases of eggs running from 53 to 68 pounds to the case."

Robert C. Schmid,
Lickdale, Pa.

Michigan

"I have been a user of Riverside Tires for the past four years, and the best record I can give—I have as yet my first tire to send back for adjustments. One of my Riverside tires is four years old and is running yet. I have tried several different highly advertised makes alongside of Riversides, and have not as yet found a superior.

Walter M. Schworm,
Nessen City, Mich.

Ohio

"The Riverside Cord Tires you sent me have given excellent service. Have gone 10,000 miles over all kinds of roads and are still good, dependable tires."

J. E. Becker, Marietta, O.

"Riverside Cord Tires have given me perfect satisfaction. I drove two tires on the rear wheel of a Cadillac all last year, and in July of this year drove to Michigan, making the return trip—5,150 miles—on loose gravel roads. Expected a blowout every minute but got back with Ashland air in the old Riverside tire."

W. I. Wiley, Ashland, O.

West Virginia

"I purchased one 32 by 4 Riverside Cord in August, which was run on my touring car during the fall and winter over rough, frozen, dirt roads. It has been in service almost continuously, and shows very little wear in spite of the fact that it has run in the neighborhood of 8,000 miles without a single puncture."

J. B. Wilt. Parsons, W. Va.

Always use chains when roads are slippery. Anti-skid Tire Chains are shown on Page 457

Montgomery Ward & Co. Is the Greatest Retail Distributor of Quality Tires in the World

MONTGOMERY WARD & CO. is today the very largest retail distributor of high quality tires in the world. Last year more than 700,000—nearly three-quarters of a million—Riverside Tires were sold direct to auto owners. These motorists bought Riversides because they saved money. Often the saving was from 10 to $18 on each tire. Many customers ordered three to ten Riversides at a time because they knew from experience that to pay more dollars would not buy more miles than Riversides give.

Let Us Prove to You Right at Your Home That Riverside Tires Are Better

We will send Riverside Tires to your home so you can inspect them—measure them and compare them with any or all others without your risking a cent. So great is our faith in all Riverside Tires that we will send them to you *no matter where you live*—it makes no difference whether it is 20 miles or 2,000 miles from our store. You are the sole judge of quality and value without anybody to bother or influence you. Simply send us your order with remittance for as many Tires as you need, either Cords or Fabrics. Feel the big thick tread; see how the tread has been raised to make them more skidproof. See how Riverside Oversize Cords are so much bigger and stronger than lots of the cords which are being brought out by many manufacturers.

You Don't Risk a Cent

We invite you to make this examination of Riverside Tires so you can see with your own eyes that they are actually better and bigger than you ever would believe without seeing them. If for any reason you do not want to keep them send them back and we will return your money and all transportation charges. Do not buy any other tires or pay any more until you have seen these new Riversides.

The Safest Place to Buy Your Tires

Montgomery Ward & Co. has been in business 52 years—and is here to stay. Since we started selling Riverside Tires hundreds of different makes have come and gone. When you buy Riversides you know you will get exactly what is promised—you take no chances. Your satisfaction and your future business mean more to us than the sale of one or two tires—that is why we protect you with a definite, honest, mileage guarantee. Each Riverside Tire is its own salesman—we know Riversides must go farther and give you better service for your money than other makes or you will not order more. This is the hardest test that can be put to a tire—it must make good on quality alone—words or excuses won't do. Riversides have made good—that is the reason why our sales have grown so tremendously.

Make This Test on Your Own Car

We are so confident that Riverside Oversize Cords will give you better service and greater mileage for your money than any tire you ever used that we want you to prove it on your own car. Put on just one or two Riversides at first opposite the tires that have pleased you best and check the mileage carefully. See how Riversides outlast other tires—how they give less trouble and how they cut down expenses. Our reputation—our success and our future business with you depends on your satisfaction. You take no chances by making this test as our guarantee completely protects you. It is this test that has built Riverside sales to their present high mark. Every month more car owners are ordering Riversides—because they have made good—by actual road performance for the man who pays the bill.

Riverside Definite Mileage Tire Guarantee

Every Riverside Tire is absolutely guaranteed to be first quality. If a defect should develop, we will replace or repair the tire on the basis of 10,000 miles service for Oversize Cords; 8,000 miles service for Standard Cords; and 6,000 miles service for Road Grip Fabric Tires.

Tire Facts

That Will Open the Eyes of Millions

All of the very finest Cord Tires are very nearly the same in size, weight and construction. **And Riverside Oversize Cords are the very finest quality cord tires you can buy regardless of price.** Actual measurements—actual weights—actual service according to records kept by thousands of users show that Riverside Oversize Cords are the equal in service and construction to the highest priced tires on the market.

Here Are the Facts. We bought several of the highest priced, nationally advertised cord tires from dealers and cut them in two. We measured them—we weighed them—we tested them on pulling machines to see how strongly they were vulcanized—and in every test and measurement Riversides were the equal and in many instances actually larger and stronger than the others. Remember this—all of these tires have just about the same number of pounds of rubber—they have exactly the same number of plies of cords. We buy the finest rubber and cord materials on the market—just as they do. **Study the tables below very carefully.** They prove that Riversides cost just as much to make—that Riversides are as strongly built. The only real difference is the price—which is lower because **you only pay One Profit above the manufacturing cost when you buy Riversides.**

Comparison of Riverside 32x4 Cord With 4 Expensive Makes

Illinois

"The two Riverside Tires I bought about a year and a half ago were great. One went 18,127 miles and the other 17,636 miles. Only had two punctures. Riverside Cords have given me several thousand miles more service than I ever got out of any other tires, and I have been driving for more than ten years."
E. G. Henderson
Edgebrook, Ill.

"The great satisfaction I have derived from the use of Riverside Cord Tires inspires me to place them first amongst all tires. I have used a set of four on my Haynes touring car for twenty-four consecutive months, at an average of 1000 miles per month, over all kinds of roads."
J. P. O'Callaghan.
Chicago, Ill.

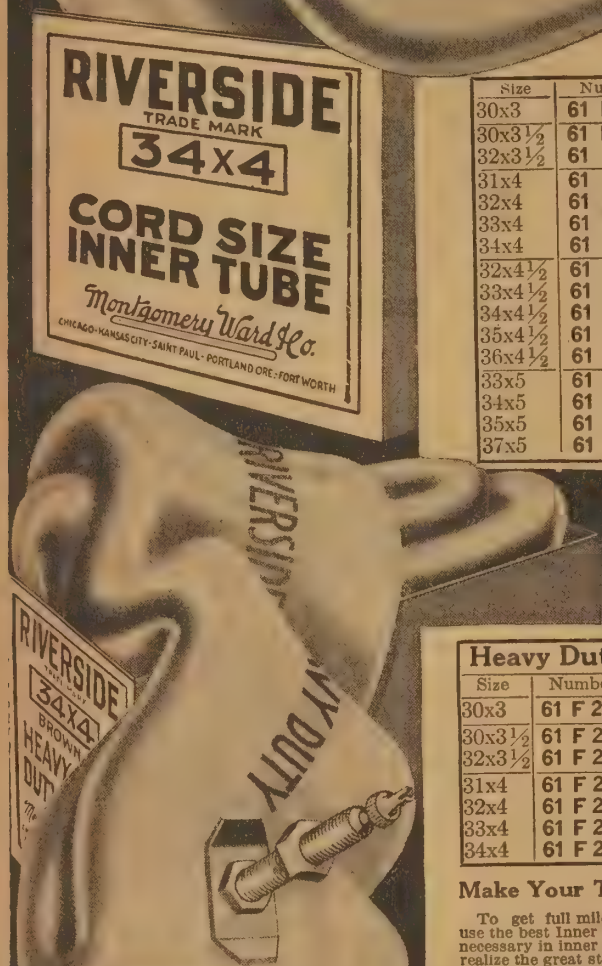
Wisconsin

"I am perfectly satisfied with your Riverside Tires and Inner Tubes. Have been using Riverside tires for several years, and I would not use any other tire."
Albert Hill.
Embarrass, Wis.

"I have used Riverside Tires for several years and have got as much or more wear from them than from any tire I have used; and at a great saving in dollars and cents." Edward C. Earl.
Columbus, Wis.

Indiana

"I have four Riverside Fabric Tires on my car that have given me better service than any two I have ever used before. I bought my first Riverside because Montgomery Ward & Co. has always given me a square deal on everything I have purchased from them. I am more than pleased with the service from Riverside tires."
Roy W. Stocker.
Cromwell, Ind.



Texas

"I am a rural mail carrier at this office and use a car for mail delivery, and have had a chance to try different makes of tires; and must admit that Riverside Cords stand up the best. I have some rugged route to travel, but Riverside Cords certainly stand the daily grind. In my opinion they are the best tires made. I certainly must give them credit." P. P. Baron,
Fayetteville, Tex.

Larger—Stronger—Heavier—Brown Color

Oversize cord tires need special Riverside Cord Size Inner Tubes. So that you may get better service and longer mileage from Riverside 10,000 mile oversize cord tires and other oversize cord tires, we have developed the New Riverside cord size inner tubes. They are built larger, stronger and heavier so they fit these tires perfectly without being stretched out of shape or strained to fill the extra space. The rubber used is a select grade, the very finest quality. The minute you feel this new Oversize Inner Tube you will notice the extra thickness and weight. The rubber is so elastic that if you stretch it you will notice at once the great liveliness and springiness seldom found in ordinary tubes.

Every Oversize Cord Tire Should Have This Special Size Tube

Don't take chances with regular standard size tubes in oversize cords—they are too small and the excessive stretching makes the tubes too thin. Oftentimes the use of standard size tubes in oversize cords tears out the valve stems. Place Riverside cord size tubes alongside the standard size tubes, and you will see they are considerably oversize. Then feel the rubber and stretch the tube. We do not believe you ever have used a tube that is so thick and strong. Put them in the casing and see how they completely fill the space with a few pounds pressure. Riverside Cord Size Tubes are fully guaranteed to give every user of Oversize Cord Tires complete satisfaction.

Ideal Combination for Service

Actual service records from thousands of customers show that Riverside Oversize Cord Tires and Tubes are going farther and giving less trouble than any they have ever used. Most of these motorists have owned cars for years and drive over rough country roads where tires are put to the hardest tests. We offer you Riverside Oversize Cord Tires and Tubes as the ideal combination for obtaining long mileage and greater freedom from trouble.

For Oversize Cords Only

Riverside Cord Size Tubes are designed especially for oversize cord tires and should not be used in fabric tires or standard size cords. Users of standard size tires should use Standard Heavy Duty Inner Tubes which are of the finest quality in this size, and you will find in comparison with other standard size tubes they are much thicker and stronger.

Riverside Brown Standard Size Heavy Duty Tubes

Make Your Tires Last Longer

To get full mileage from tires, you must use the best Inner Tubes. Quality is just as necessary in inner tubes as it is in tires. We realize the great strain that is put on inner tubes, so build Riversides so strong and of such fine materials that we know they will prove a big help in increasing your tire mileage by keeping your tires at full pressure for long periods.

Heavy Duty Inner Tubes Are a Great Success

Riverside Brown Heavy Duty Tubes are the best grade in the standard size. Pure Para Rubber is used in their construction. They are built thicker and stronger than any tube we ever have seen. The extra thickness is a big help in preventing pinches, and it allows them to stretch far more than ordinary tubes. Troubles from porousness are practically unknown. Put Riverside Heavy Duty Tubes in fabric tires and standard size cord tires and get more mileage and satisfaction. Only because we sell thousands of these tubes each week in the year can we give such low prices for such remarkable quality.

Riverside Gray Standard Size Inner Tubes

Riverside Standard Gray Inner Tubes

Standard Size and Quality Gray Tubes for much less than the usual prices. Made of very good grade rubber and built by the laminated (layer on layer) process. For those desiring a good low priced tube, they will prove an excellent value. We are confident you will find these tubes far superior to any others offered close to our prices. We have sold many hundred thousands of them, and they always have proven a remarkable value. However, for those desiring the very best inner tubes, we recommend our Heavy Duty and Cord Size Tubes. Our sales of Riverside Tubes are so great that it is necessary to have new shipments almost daily from the factory—so you are always certain of brand new tubes.

Heavy Duty Truck Tires

12,000 Mile Guarantee

We guarantee Riverside Heavy Duty Truck Tires to be the very finest quality; and to be greater in size, weight, thickness of tread; and to have as many plies of cord as other truck tires selling for $10 to $25 more.

Since we announced our new Riverside Heavy Duty Truck Tires about a year and a half ago, several thousand truck owners have taken advantage of the big savings our prices give them. Surely to save $40 to $120 is worth a few minutes of your time. Remember that paying extra profits does not buy extra miles. You only pay one small profit at Ward's, so you get the very best quality truck tires at prices which are actually less than most dealers have to pay for tires of equal quality.

These are specially built, extra oversize truck tires with extra plies of cords—not just oversize passenger car cord tires. The extra thick treads are specially built with great big heavy blocks of rubber which reach far down on the side walls to give better traction on rough, muddy, sandy or snow covered roads; and also protect the side walls against rut wear. We want you to see these tires and compare them with any or all others. It makes no difference where you live, send us your order with remittance for as many as you need. Examine them thoroughly; and if for any reason you do not want to keep them, send them back and we will return your money and transportation charges. We want to prove to you these are the best truck tire values to be found anywhere.

Special Truck Size Inner Tubes

These are special, extra large Cord Size Inner Tubes made of the finest pure rubber. Brown color, much heavier and stronger than the usual tubes.

Why Ward's Can Sell You the Very Best Truck Tires for Less than the Usual Wholesale Prices

The direct way is the most economical way, whether it is driving a truck or riding on a train or buying tires. You wouldn't drive around the block if a direct road through the center was just as smooth, would you? Exactly the same reasoning applies to buying your truck tires.

Buying by mail direct from Ward's is the **most economical way**—and our prices prove it. We actually sell you these big giant size Heavy Duty Truck Tires by mail for less than the manufacturer himself could afford to ask if he were to try selling them direct to the user. Our prices to you are less than most dealers' costs on tires of equal quality. You ask why. It is because our selling cost is so much lower. We have spent millions of dollars in building an economical way of selling **quality** merchandise direct to the user.

You Get a Stronger Guarantee, Too, for 12,000 Miles' Service

We guarantee every Riverside Heavy Duty Truck Tire against all defects in material or workmanship on a 12,000 mile service basis. If a defect should develop we will repair or replace the tire on this basis, charging only for the miles you received.

$25.85

Ford Truck Owners!

Our price on this big, special 32 by 4½ Riverside Heavy Duty Tire for your truck is less than many ask for ordinary passenger car tires of this size. These Riversides have 8 plies of extra strong cords, where many others use less plies; the treads are heavier and thicker; the weight is greater. And in every other comparison you will find this Riverside tire gives you most for the money. Shipping weights: tire, 38 pounds; tube, 4½ pounds.

464 F 110—32 by 4½ Heavy Duty Truck Tire....**$25.85**
61 F 247—32 by 4½ Special Truck Size Tube..... **3.35**

Save your tires by vulcanizing small holes in time. Vulcanizers are shown on Page 456

Riverside TRADE MARK Standard Cords 8,000 Mile Guarantee

Cord Tires at Usual Fabric Prices

RIVERSIDE Standard Cords are the finest type of cord construction, made slightly oversize so they may be used on cars now using fabrics, Junior cords, or other standard size cords. We guarantee Riverside Standard Cords to be equal in size, construction and service to a great many cords sold at several dollars above our prices. **We also guarantee these tires for 8,000 miles service.** Cord tires are now acknowledged by all to be the best. Their construction assures greater mileage and greater freedom from trouble. We now offer Riverside Standard Cord Tires fully guaranteed for 8,000 miles, for less money than many ask for the same size fabric tires without a definite mileage guarantee.

Riverside Cords Are Better So Change to Cords Now

There are several reasons why cord construction is better than fabric—but the two big reasons are that they give longer service and less trouble. This is due principally to the fact that in cord construction there is a great deal less friction—and friction heat burns out tires in much the same manner as overheating ruins motors. Each cord is saturated and insulated by a coating of rubber. In all fabric tires there is a criss-cross weave construction and there is greater friction. You have our guarantee for quality and better service on a high grade cord at the usual fabric prices.

Ward's Take the Lead with Standard Cords

Standard Size Cord Tires have become very popular during the last few months. Nearly all the large factories are now making this size—but Ward's as usual was in the lead. We have been selling Riverside Standard Cords for more than a year—and we know they will give remarkable service to users of this size tire. We absolutely guarantee these tires to be the equal in size, construction, weight and quality to others selling for several dollars more. In fact, as far as quality is concerned these tires are every bit as good as the highest priced cords on the market—the only real difference is in the size.

Riverside Tire Guarantee

Every Riverside Cord and Fabric Tire is guaranteed to be first quality material and workmanship, and to be free from defects for the mileage specified. If in any case defect should develop, we will replace or repair the tire on the mileage basis shown.

Use Riverside Heavy Duty Tubes in These Tires

To get the best service from any standard size cord or fabric tires we advise the use of our Brown Heavy Duty Tubes as they are stronger, thicker and heavier than most tubes. Do not use cord size tubes as they are for oversize cord casings such as the Riverside 10,000 mile Cords.

Riverside TRADE MARK Fabrics 6,000 Mile Guarantee

Montgomery Ward & Co. Has Sold Very Nearly 3,000,000 Riversides

Our sales of Riverside Tires are now close the 3,000,000 mark. This means much to to owners. It proves to you Montgomery ard & Co. is the place to buy your tires thout having to pay the several extra profits d expenses usually charged before the tires ch you. It proves to you that we have had ars of experience and know how to build es that mean satisfaction to the user.

It proves that more auto owners all over the United States are learning daily that their money will buy more when they use Riversides. Riversides have made good on the hardest real test that can be given a tire. They have made good; for the men who carefully watch the cost per mile and drive on all kinds of road. They have satisfied several hundred thousand and we guarantee Riversides will satisfy you.

If You Want Fabric Tires Buy Riverside Road Grip

For more than ten years Riverside Fabric res have been saving money for motorists. verside Road Grip Tires are one of the lest and best known fabric tires on the rket. The road grip tires you receive lay are the improved product of our long perience in directing the making of nearly 00,000 Riversides. They are built by perts, in excellently equipped factories and guaranteed to be full size, full weight and give 6,000 miles service. We positively do t and will not sell the so called "seconds" unguaranteed tires for they would not give the service or satisfaction you have a ht to expect from Ward's.

Riverside Road Grip Tires Have Heavy Non-Skid Treads

Our Road Grip Tires have tough, springy, thick treads covered with hundreds of road gripping, non-skids that give a good hold on wet, muddy roads and slippery pavements. This extremely effective combination of figures is our own trade-marked design. Every movement of the wheel is protected—the tires roll easily, yet the angles hold firmly so your motor's power is not lost due to the rear wheels spinning. We know and guarantee that all motorists who use fabrics will be satisfied with Road Grips. Our 6,000-mile service guarantee completely protects you and makes certain you will get full value.

Little Wear in 1½ Years

"I am well pleased h the Riverside ord and Fabric es. I have used se tires continuly a year and a f, driving my car ctically every day, mmer and winter, d the tires show y little wear."
lliam H. Krapf, Ann Arbor, Mich.
Printed with Mr. apf's Permission

Deliveryman Prefers Riversides

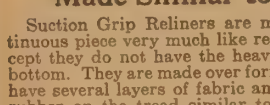
"The Riverside Tires are all right. I have been in the delivery business for ten years and find that the Riverside Tires last longer than other tires that cost more money."
Charles Cassen, Petersburg, Ill.
Printed with Mr. Cassen's Permission

Use Reliners to Make Tires Last Longer

$1.95

Suction Grip Reliners

Old tires which are ready to blow out, often can be made to last for thousands of miles more service. Sensible as halfsoling shoes, as they brace up and strengthen the old casing and protect the inner tube. The extra thickness they give the tread stops ordinary tacks and usually bends small nails. Slip them in as easily as an inner tube; the suction grips help prevent them slipping. Many times you may use the same Reliner in two or three tires.



Made Similar to Tires

Suction Grip Reliners are made in a continuous piece very much like regular tires, except they do not have the heavy beads at the bottom. They are made over forms like a tire—have several layers of fabric and a cushion of rubber on the tread similar to regular tires. The edges at the bottom are tapered or thinned down so they make a continuous smooth surface for the inner tube. We guarantee Suction Grip Reliners against defects in material or workmanship.

Carry these Reliners in Your Car, Ready to Put In When You Change Tires

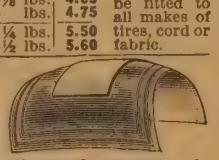
Punctureproof Reliners

Ward's Punctureproof Reliners are made of especially toughened, lively elastic rubber with two layers of non-rusting flexible metal plates firmly imbedded in the center. These two layers of plates are separated by rubber, one layer overlapping the other so they do not touch. The sides and ends of the reliner are tapered to a feather edge to protect the inner tube.



The metal plates prevent nails, tacks, wire and other sharp articles from reaching the tube, for when they strike the plates they bend over.

Super Service Fabric Reliners

$1.10

Very Good Grade Reliners Considerably Below the Usual Retail Prices

Every day auto owners are throwing away good tires that could often be saved and thousands of miles added to their life if these reliners were used in time. If the sole of your shoe gets thin you have it half soled.

Using an inside protector in your tire is just as sensible an idea. Look over your old tires—see if they are bruised or worn in spots, then order these reinforcements to put inside. Don't wait until you have a blowout—that is too late. Thousands of auto owners have found these Reliners a sure method of cutting tire costs way down and obtaining unusual freedom from trouble. Made of fine grade fabric, layer on layer, completely saturated and bound by high grade rubber. Easy to put in casing and being self cementing, they become practically inseparable. Shipping wts., 2 to 4 lbs.

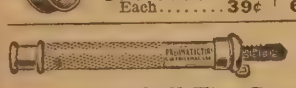
Smooth Action Rebound Absorbers

Set of 4 $11.95

Make Riding on All Kinds of Roads More Pleasure



You know how there are certain stretches of road you always avoid if possible. It is bad enough for you in the front seat, but those in the rear seat often hit their heads against the top. That is because your springs are not properly controlled—they have no check to stop the quick wide spreading action that throws the body upwards. Our Smooth Action Rebound Absorbers prevent this sudden recoil after striking bumps and ruts enabling you to travel over roughest roads in comfort. Also lessens spring breakage. A set of these Absorbers costs less than a pair of broken springs. These are very high grade, strongly built, patented jolt preventers of which we have sold many thousands. We sincerely believe them to be the best value obtainable in a device of this kind and know you will be entirely satisfied. Easy to attach and adjust to the weight of your car. All necessary fittings included with complete instructions. Shipping weight, per set of four, 20 pounds.

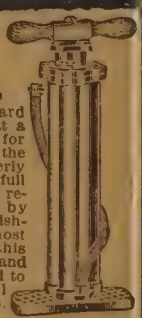
Pumps

$1.89

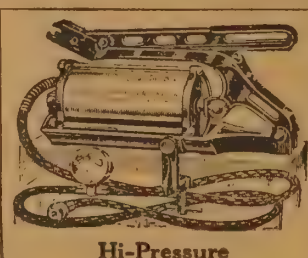


Rose Tire Pump

Pumps large size tires to a high pressure with surprising ease. The patented valve principle, shown in the cut-out illustration, makes it easy to operate under all pressures as it eliminates back pressure on the upward movement and gives full compression at every stroke with but little friction. Foot rest folds up. Made of 18-gauge seamless steel tubing which will stand hardest service and last a good many years. Length, 21½ inches. Diameters, 1¼ and 1½ inches. Shipping weights, 3½ and 4 pounds.

61 F 1653—1¼-inch size.... $1.89
61 F 1650—1½-inch size.... 2.30

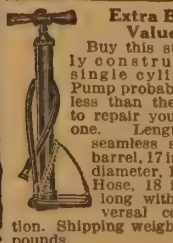
$1.85



Big 3-Cylinder Pump

A big, husky, powerful, standard size three-cylinder tire pump at a lower price than is often asked for the one-cylinder type. This is the same style of pump we formerly sold for $3.25. It will fill tires to full pressure in about half the time required by pumps furnished with most cars. Buy this good pump and be prepared to meet all emergencies.

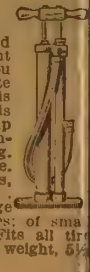
This is our best bargain in this style pump. Shipping weight, 8 pounds.



61 F 1652..... $1.85

Hi-Pressure Running Board Pump

This new Hi-Pressure Pump is the biggest value we have offered you. It has a larger cylinder than pumps selling for much more—size 6½ by 3 inches. It has a quick adjustable folding handle and permanently attached swinging clamp. You can pump the biggest tires with this Hi-Pressure Pump. The base is malleable iron set solidly on the running board. The tested hose is about 7 feet long. At this exceptionally low price we do not believe there is an equal value anywhere. Shipping weight, 8½ pounds.



61 F 1623—Without tire gauge. $3.75
61 F 1624—With airline gauge. 4.25

Extra Big Value

Buy this sturdily constructed single cylinder Pump probably for less than the cost to repair your old one. Length of seamless steel barrel, 17 inches; diameter, 1¼ in. Hose, 18 inches long with universal connection. Shipping weight, 2½ pounds.

61 F 1647..... 65¢

Two-Cylinder Tire Pump

You will find exactly the right Pump to suit you in our complete line and each one is a big value. This two-cylinder pump is made of seamless drawn tubing. Substantial base. Length of barrels, 16½ inches. Diameter of large barrel, 1½ inches; of sma one, ⅞ inch. Fits all tir valves. Shipping weight, 5½ pounds.

61 F 1654..... $1.1

Buy Tires on the basis of cost per mile—get Riversides. Shown on Pages 452 to 455

When It Rains Put On Chains

Better Tire Chains for Less Money

Our sales of Tire Chains are so great we are in a position to place orders for large quantities when market prices are favorable—and we do it. You will find our prices on quality chains are 20 to 35 per cent less than generally asked. Surely this saving is worth your time to write your own order and mail it to us. If, when comparing Ward's Chains with any others you should feel that the saving is not sufficiently large, remember—you are invited to return them and get your money back if they are not satisfactory. We know the quality and know it will satisfy you.

We have tested all kinds of chains and offer you the Standard as one of the best, longest wearing chains on the market, at a very low price. They are made of case hardened steel chain which is far superior to the soft steel used in many chains selling near our prices.

Driving on wet streets or through mud, snow and sand without tire chains is very dangerous.

All of our tire chains are full size, and are cut extra large so they will fit cord or fabric tires for the sizes mentioned. This is a feature not often found in other chains.

These Road Grip Chains are a great improvement over the usual standard type chains as they have extra heavy, extra big, new design cross chains. The three center links are of a figure eight shape with a great deal more surface to grip the road. This larger surface is also easier on the tires and gives longer life to the whole chain. The cross chains are specially hardened which, combined with their oversize construction, means longer wear and greater safety. We believe these new Road Grip chains to be the best value on the market.

Standard Tire Chains Fit Either Cord or Fabric Tires

Be Careful

Driving on wet, muddy, slippery roads without chains is very dangerous even though you are a careful, experienced driver. If you slide into a ditch just once, or bang up against the curb or another car or have to be towed out of a mud hole it will undoubtedly cost you several times more than a pair of chains. Don't take chances when you can buy good chains for such low prices.

Road Grip Tire Chains Fit Either Cord or Fabric Tires

Bumpers

The Very Latest Type Parallel Bar Spring Bumpers

Whenever there is something new on the market that has demonstrated its usefulness, you can depend on Ward's to furnish it to you at a lower price. But we never experiment at the customer's expense. We must know the article is right first. These new two-parallel bar, oil tempered chrome vanadium steel spring Bumpers are a great improvement. They give full width protection that safeguards the fenders, tires, lamps and radiators in a manner that is impossible with the single bar types. And these bumpers will greatly improve the appearance of any car. These bumpers have two oil tempered wide bars that will stand a terrific blow without showing any effects of the bump. Special clamps hold the bumpers solidly to the frames. The arms are of extra heavy oil tempered steel. This is one of the finest bumpers you can buy, regardless of the price. We supply special fittings for each car. **Be sure to state make, year and model of car, and if front or rear.** If two spare tires are carried, so state on orders for rear bumpers. Bumpers for nearly all cars are ready for prompt shipment, but a few extra days may be needed for assembling those that require unusual fittings. Average ship. wts.: Large sizes, 42 pounds; Medium sizes, 33 pounds.

Extra Strength 2-Inch Bar Bumper for All Cars

361 F 575—All baked black enamel.....**$11.95**

State make, year and model of car, and if front or rear.

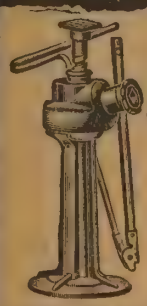
$1.95 Each — **$1.40 Each**

Tire Covers

Make Spare Tires Last Longer and Look Better

Covers protect spare tires against the effects of sun, rain and mud, and make the spare look much neater and also make the whole car more attractive in appearance. These covers are designed to fit tires on demountable rims which are slipped over the carrier, such as used by Buick, Ford, Dodge, Hupp, Chandler, Chevrolet, Paige, Overland and many other cars. Covers fit any make of tire. Strong snap buttons hold them snug. A special slide adjustment on the sides of the covers makes them snug fitting on either fabric or cord tires. Ship. weights: 1½ to 2¼ lbs.

White Striped Covers



Made of strong, serviceable, waterproof black enameled duck with two attractive white beading stripes.

All Black Covers

Low priced, durable, waterproof all black enameled drill covers. Very neat looking.

Jacks

Long Handle Jack

$1.79

You won't have to crawl under the bumper, spare tire or body and get all muddy and covered with grease when you have this Jack. Length of handle, open, 29 inches; closed, 16 inches. Screw type jack. Made of malleable iron and is strong enough to handle the very large cars, weighing up to 4000 pounds. Ball bearings make this an exceedingly easy acting jack. Shipping weight, 9 pounds.

61 F 1615.....**$1.79**

$1.10

Double Duty Auto Jack

Don't risk having your car slip by using a flimsy Jack. Buy this safe, speedy, ratchet type, malleable iron jack. Simple construction, exceptionally easy to operate. Fitted with step bar giving extra range for adjustments. Adjustable from 10 to 16 inches, foot lift from 6 to 11 inches. The lifting pawls are heavy and spring mechanism simple and positive. Footlift is very helpful for cars with low front axles. For cars up to 3600 pounds. Handle included. Shipping weight, 5½ pounds.

61 F 1613.....**$1.10**

Giant Foot Lift Jack

If you own a big heavy car or want the best in Jacks get this big strong heavy duty Jack. It will handle any car with ease. You will like it well and it will give service for many years. Height of foot, 4¾ to 10¾ inches. Lift of top, from 11 to 17 inches. For all cars up to 5000 pounds. Shipping weight, 12 pounds.

61 F 1605...**$2.59**

Light Car Jack

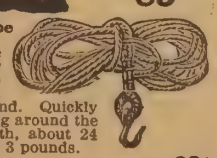
Light weight, easy acting and strong. Excellent Jack for Fords, Chevrolets and other light cars. Height, 10 inches. Long removable handle. Shipping weight, 5½ lbs.

61 F 1908.....**98¢**

Reliable Truck Jack

Latest screw type—lifts heaviest loads easily. For quick adjustment the gear can be spun to the desired position. Adjustable from 11 to 15 inches. Lifting capacity is 3 tons. Ship. wt., 9 pounds.

61F 1614 ..**$2.19**



Reliable Jack

Winged handle engages wheel teeth. Move lever to reverse. Screw is of ⅞-inch steel. Lift 10 to 16 inches. For cars up to 2000 pounds. Shipping weight, 4½ pounds.

100,000 Auto Owners Saved Money by Buying De Luxe Batteries in 1923

De Luxe Battery sales increased 700 per cent in two years. Quality and honest prices built this business. More than 100,000 auto owners saved money by buying De Luxe Batteries last year. Greater factory capacity and bigger purchases place us in a position to give you still greater value this year—**and we are doing it.** We do not, and will not, sell rebuilt or cheap batteries for they won't give the service Ward's customers rightfully expect. Don't forget that Ward's sells only brand new, fresh Batteries, first quality, fully guaranteed. Batteries that are actually giving better and longer service than many of the highest priced batteries, according to letters and reports from thousands of users. Buy a De Luxe Battery because you save money and know you can depend on the Montgomery Ward & Co. guarantee.

One-Piece Solid Rubber Battery Boxes

One of the most important improvements in batteries is the new De Luxe Seamless Solid Rubber Box and Jars, all made in one piece. It is much stronger than the wood box—it will not warp, spread or come apart—it is not affected by mud, slush or snow. The walls of the jars are very heavy and thick, completely eliminating breakage from road shocks or bumps. The handles are also a solid part of the box—no screws to loosen. De Luxe Solid Rubber Boxes are far superior to wood boxes and well worth the slight difference in cost. This construction adds only about 5 pounds to the weight. When ordering batteries in rubber boxes, be sure to state the catalogue number and price shown in the last two columns.

You Take No Chances When Buying a Battery from Ward's

You can buy a battery from Ward's by mail with exactly the same feeling of certainty that it will do everything you expect of it, as though you were right here at our store to examine the battery. Where could you find better proof of honest dealings, quality merchandise, of low money saving prices and quick service than the fact that more than 5,000,000 customers sent us orders in 1923, and more are doing it this year? Where could you find greater proof that we **know** the battery business than the fact that we sold considerably more than 100,000 De Luxe Batteries in one year? We sell more batteries in a day than most dealers sell in two or three years. We have received thousands of letters from our customers saying that De Luxe Batteries give them better service than any they have used, regardless of cost or make. Remember, we have been in business 52 years and are here to stay—and guarantee you satisfaction.

Extra Profits Do Not Buy Extra Service

We have eliminated the many extra profits and handling expenses that is forced on the buyer by the old way of selling. **We have proved that paying several profits does not buy better goods.** Figure it out for yourself. We sell to millions of people from one store instead of having thousands of stores, each of which sells to only a few in its own little district. Our only salesman is our catalogue. It works day and night without paying big railroad bills or hotel expenses or high rents. Compare battery prices and you will see how the De Luxe saves you several dollars.

Save $7.50 to $20 By Using De Luxe Batteries

When you stop to consider that Montgomery Ward & Co. sell 100,000 batteries in one year, isn't it reasonable that we should be able to buy the best materials at the lowest market prices? Instead of having many salesmen, dealers and service stations, we sell direct to thousands of car owners and eliminate these extra profits and expenses that are bound to raise the selling price many dollars. Before buying a battery make a careful comparison of prices and guarantees. Remember, some batteries are guaranteed only 90 days.

We guarantee that De Luxe Batteries are first quality in every way—that they have the same number of plates as your original battery—that the separators are properly treated. In many ways they are superior in construction to batteries usually selling for several dollars more.

Does It Pay to Repair old Batteries

By the time the average battery has reached the age where it is necessary to require rebuilding or where neglect has almost ruined it, the cost of rebuilding often amounts to several dollars. Then you have a made over battery with many parts that may give out unexpectedly. Why take chances with such a battery when you can buy a brand new De Luxe Battery with a reliable and definite guarantee of 18 months' service (one year for Fords) for only a small amount more? If you figure the cost on a guarantee service basis you probably will find you save dollars by purchasing the De Luxe. And you will feel better and get far greater pleasure on every trip because you will know you have a new powerful battery that will not fail you. Every De Luxe Battery is brand new—made of first quality materials and shipped fresh from the factory.

Direct to You at Wholesale Prices

To let you know just what we are doing to save you money we recently made a comparison of De Luxe prices with those that dealers pay for their batteries. This comparison showed we were actually selling batteries with an equal guarantee direct to you for less than wholesale prices. The De Luxe Battery you get is made of materials just as fine—it is built as carefully—and it will last as long as the batteries the dealer sells—we not only say this but **we guarantee it.** We let you prove it by using the battery on 60 days' trial. This trial plan of proving battery quality was originated by Montgomery Ward & Co., and it has already saved motorists several hundred thousand dollars. Let us send you a De Luxe Battery on trial.

Quality

Montgomery Ward & Co. has always been noted for its high standard of quality. That is why it has lived and grown for 52 years. Last year more people sent their orders to Ward's than during any other year in our history. Did you ever hear one of Ward's customers say he was mistreated? Never. Ward's always **make good** their promises. This is just as true on a battery for your car as it is on any other article we sell. We could fill pages explaining how the plates are made—how the separators are cut from selected stock—how the fine rubber jars are electrically tested, but after all is said you must depend on our word as you can't see inside. We give you our word that De Luxe Batteries are the very finest quality; and, furthermore—for your protection—we **guarantee this quality on a service basis.**

It Only Takes 3 Minutes to Write an Order for a De Luxe Battery—See How Many Dollars You Save

Did you ever stop to think that the batteries generally offered to you probably were bought by mail? The only real difference is that somebody else made out the order and mailed it to a jobber and you pay an extra profit. Why not make out your own order and mail it to Ward's—then you save the difference? If you and a dealer were to mail your orders at the same time for batteries you would probably receive your De Luxe Battery from Ward's before he received his from the jobber or branch house. For your convenience, we enclose order blanks and envelope. Simply write out your order, enclose a check or money order and mail it. In a short time your battery will be at the station—and you will be several dollars ahead. If your battery is old or weak, don't wait until the last minute—order your De Luxe Battery in time so you will not have to pay several dollars more elsewhere.

Riverside Tires give you "Most for Your Money." They are shown on Pages 452 to 455

Shipped Fully Charged

Guaranteed 18 Months

De Luxe Storage Batteries are fully guaranteed for a period of 18 months (one year on Batteries for Fords) against any defects in material or workmanship. Any De Luxe battery which develops trouble due to a defect within these periods will be repaired free of charge or replaced on a service basis. When Ward's give you such a strong guarantee surely there is no reason why you should pay more elsewhere.

Made for All Cars

We can furnish De Luxe Batteries for all cars; so if your make is not shown on this page, write and we will quote you a price. Specify name of car, year, model, and name of starting system. Also give voltage, length, width and height to the top of the handles of the old battery. If possible tell us all that appears on the nameplate.

Shipped to You Fully Charged —Ready To Use

When you order a De Luxe Battery from Ward's you can depend on it that your battery troubles are over for several months, if you give it just ordinary care as required by any battery. When it leaves the factory it is fully charged so all you have to do is put it in your car and step on the starter. A few minutes of easy work and you have saved a great many dollars. Dealers buy their batteries by mail, why shouldn't you? We guarantee safe delivery—we guarantee quality—we guarantee service. Decide now your next battery will be a Ward's De Luxe.

Change Your Own Battery

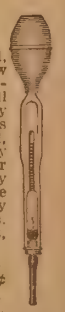
Each De Luxe Battery is specially designed to fit exactly in the space provided by the car manufacturer and the terminal posts are arranged so your wires can be easily connected. In most cases it is as easy to change a battery as it is to change a tire, so you can do it yourself without paying any charges.

Ford Owners

The same fine De Luxe quality which has given such satisfactory service to thousands is put into these De Luxe Batteries for Fords. Before making a final decision on your next battery accept our 60-day trial offer then you will see why our sales have grown so rapidly. Guaranteed one year. Shipping weight, 55 pounds.

For Liberty Starter; 6-volt, all models, 1919-24.

261 F 4731 ..... $10.45



Best Quality Hydrometer and Outfit

Don't ruin your battery due to neglect. Use an acid testing Hydrometer Outfit which shows accurately the efficiency of your battery. This is a very handy and convenient outfit. The jar is used for distilled water and is sealed by rubber disc on the hydrometer, keeping out dust and dirt. Hydrometer is of the very best type, protected by rubber disc at bulb and rubber shoulder at lower end, preventing breakage from rolling off bench or running board. Use this outfit regularly. Shipping weight, outfit 2½ pounds; hydrometer, only 1 pound.

61 F 3843—Outfit **$1.10**

61 F 3842—Hydrometer only ..... **65¢**

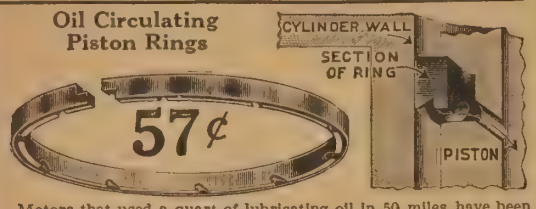
Acid Testing Hydrometer

A good, accurate, low priced instrument that will give satisfactory service. This is the standard, most generally used hydrometer at a remarkably low price. The float has easily read figures. Shipping weight, 1 pound.

61 F 3844—Hydrometer ..... **42¢**

61 F 3854—Glass float to fit numbers 61 F 3844. and 61 F 3842. Shipping weight, 3 ounces .. **19¢**

Solderless Battery Connections



A pair of new non-corrosive solderless Battery Connections that should be on every straight or tapered post battery. Fits all size cables. A splendid help for getting full current to the battery and more power to starter, lights, and ignition. Battery will last longer and give less trouble, than is possible with terminals that corrode. Made of flexible composition brass that will stand the strain of opening or closing. Only pliers or wrench needed to connect. Furnished in pairs that fit any size positive or negative posts of either straight or tapered shape. Shipping weight, per pair, 12 ounces.

61 F 4193—Per pair ..... **33¢**

How to Order Piston Rings

We carry in our stock ready for immediate shipment, Oil Circulating Piston Rings, Oil Groove Piston Rings and Quick Seating Step Cut Piston Rings in the sizes shown. When ordering standard size piston rings mention the catalogue number, name of ring and size, for example if you want Oil Groove Rings, 3 by 1/16, write your order this way: 61 F 8970—12 Oil Groove Piston Rings—3x1/16. If you want a .005 oversize for 3 by 1/16 ring, write your order 61 F 8972—12 Oil Groove Piston Rings, 3x1/16—.005 oversize.

Oil Circulating Piston Rings

Motors that used a quart of lubricating oil in 50 miles have been fitted with these **Oil Circulating Piston Rings** and then driven 300 miles on a quart. We absolutely guarantee these rings will save oil and gasoline and stop oil "pumping" and fouling of plugs in any motor where the cylinders are not out of round. **Only one oil circulating ring needed on each piston;** placed in the lowest groove. You only drill a few holes through the pistons at the lower grooves, simple instructions furnished. The knife edge of the oil grooves on these rings collects the surplus oil from the cylinder walls on the down stroke of the piston. This oversupply of oil which generally gets up into the combustion chamber to cause carbon and foul plugs is now drained back into the crankcase by way of the special oil circulating slots in the rings and small holes through the pistons. Shipping weights: 2 to 5 ounces.

Special Sizes of Oil Circulating Piston Rings

If the size or oversize of the Oil Circulating Piston Rings you want is not shown above we can ship them direct to you from the factory in Southwestern Michigan in any size you desire up to 5 by 3/8 inch standard size or any of the following oversizes: .0025—.005—.010—.015—.020—.025 and .03125 at the same price, 57¢ each. When ordering any of these special size Oil Circulating Piston Rings be sure to mention catalogue number 261 F 8992. For example: 261 F 8992—12 Oil Circulating Piston Rings 4 1/2 by 1/4. If an oversize ring is desired be sure to mention the oversize in addition to the standard size.

Oil Groove Piston Rings Quick Seating Style

A groove in each ring holds a quantity of oil, thus forming a film that prevents excessive oil working up past the pistons and seals compression so there is a big saving in gasoline and oil. The groove is cut on an angle so that on the down stroke it pushes surplus oil back toward the crankcase. Your motor will run better and you will not have spark plug trouble due to the pistons "throwing oil." Shipping weight, each, 2 to 5 ounces.

Guaranteed Piston Innerings Stop Piston Slaps

If your motor is weak—if it uses too much gasoline and oil—if your cylinders are worn and the pistons slap, use these Nu-Power Innerings. Save the expense of reboring, fitting new piston rings, etc. Simply place the innerings under any make of one-piece piston rings. They expand the piston rings outward against the cylinder walls so you are certain of increased power and a big saving in gasoline and oil. Made of fine imported steel. Will not lose their springiness. Use one innering under each piston ring. Innerings also may be used under piston rings up to 1/64 inch oversize. **Sold only in sets of six.** For four cylinder cars, order two sets; for six cylinders, order three sets. **Order same size as piston rings.** Shipping weights: 2 to 5 ounces.

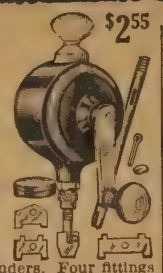
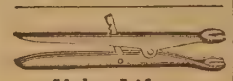
Special Innerings



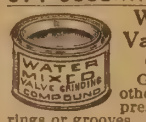
We can furnish you Innerings direct from factory in Chicago, in sizes up to 5 inches in diameter and 3/8 inch wide at the same price, 6 for 79¢. If the size for your motor is not shown above send us your order mentioning the catalogue number 261 F 8900 and the size of the rings you use. For example: 261 F 8900—6 Innerings, 4 1/2 by 3/8—79¢; or 261 F 8900—12 Innerings, 4 3/4 by 3/8—$1.58.

Supplies to Give More Power – Greater Safety



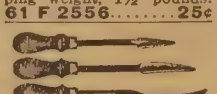
Valve Grinder 45¢

A quick acting, easily operated grinder which will fit valve heads of all cars whether slotted or drilled with two holes. Long shank. Length, about 19 inches. Made of steel, 4 fittings included. Shipping weight, 1 1/2 pounds.
61 F 9324.....**45¢**



Quick Action Valve Grinder $2.55

Handle always turns in one direction. Makes a perfect, smooth seat; leaves no rings or ridges. Made of malleable iron and steel. Grind valves in about one-third the time usually required and do a better job than with ordinary grinders. Four fittings with six ends for all valves. Shipping weight, 4 1/4 pounds.
61 F 9333.....**$2.55**



Valve Lifter

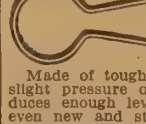
Simply push this handy lifter under the valve spring, grip the handle and raise to height required. The ratchet holds it in any position, requiring no holding while removing valve pin. Steel construction. Length, 11 inches. Shipping weight, 1 1/2 pounds.
61 F 2556.....**25¢**

Water Mixed Valve Grinding Compound

Grinds faster than other kinds with same pressure. Leaves no rings or grooves. Beginner can do an expert job. Ship. wt., per can, 6 oz.
61 F 9302—Per can.....**25¢**

Bearing Scrapers

Well made of forged steel with carefully ground edges and have hardwood handles. Three standard sizes in set. Shipping weight, per set, 1 1/4 pounds.
61 F 9171—Set of 3.....**85¢**



Valve Grinding Compound

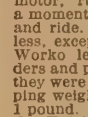
A fast cutting compound for valves. Double end box; one end contains fine, the other coarse grade. Contents, 4 ounces. Shipping weight, per can, 7 ounces.
61 F 9308—Per set.....**18¢**

Carbon Scrapers

For removing carbon from top of the pistons without taking off the cylinder head. Length, over all, 13 1/4 inches. Ship. wt., per set, 1 pound.
61 F 9173—
Set of three.....**35¢**

Piston Ring Compressor 15¢

Made of tough, springy steel. A slight pressure on the handle produces enough leverage to compress even new and stiff rings. Average shipping weight, 10 ounces.
61 F 9194—For 2 1/2 to 3 in. rings..**15¢**
61 F 9195—For 3 to 3 1/2 in rings..**15¢**
61 F 9196—For 3 1/2 to 4 in. rings..**15¢**
61 F 9297—For 4 to 4 1/2 in. rings..**15¢**



Worko Carbon Remover

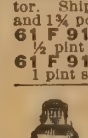
To clean out the carbon simply remove the spark plugs from the cylinders, insert two Worko tablets, replace the plugs, start the motor, run it slowly for a moment, get into your car and ride. Worko is harmless, except to the carbon. Worko leaves your cylinders and pistons as clean as they were when new. Shipping weights: 8 ounces and 1 pound.
61 F 9176—24 tablets.....**70¢**
61 F 9177—72 tablets.....**$1.47**

Mormiles Gasoline Tablets 39¢

They give more miles per gallon from gasoline than ever before and reduce carbon. Show a wonderful improvement in your motor, both in power and speed. Mormiles keep your spark plugs clean by utilizing all the available gas. Positively harmless. Contain no acid or chemical to injure your motor in the slightest. Box contains 100 tablets, which will treat 100 gallons. Shipping weight, 5 ounces.
61 F 9185—Box of 100.....**39¢**

Radiator Cement

A metallic chemical cement. Repairs radiators, cracked water jackets, pipes, etc. Resists heat, water, oil or grease. Simply pour in article to be fixed. Guaranteed not to affect circulation. Shipping weight, 10 ounces.
61 F 6964.....**40¢**



Johnson's Carbon Remover

Put a few drops in the spark plug holes. Guaranteed not to injure any part of the motor. Shipping weights: 1 and 1 3/4 pounds.
61 F 9181—
1/2 pint size can.....**59¢**
61 F 9182—
1 pint size can.....**95¢**

X-Liquid Radiator Cement

For repairing water leaks in metal pipes, radiators, etc. Will not injure metal or rubber. No danger of clogging. Shipping weights, 1 1/4 and 1 3/4 pounds.
561 F 9322—1/2 pint size....**60¢**
561 F 9213—1 pint size for large cars.....**$1.20**

Magic Solderine

Magic Solderine is a fire and waterproof preparation. Will mend leaks in radiators, pipes and other articles without the use of heat. Simply cover place to be mended with Solderine and your repair is made. A child can use it. Keep a tube of Magic Solderine in your tool box and another one at home. Shipping weight, 6 ounces.
61 F 9193—Tube..**17¢**

Iron Cement

Scientific chemical compound which when mixed with water becomes like iron after drying. Excellent for leaky radiators, water jackets or articles about the home. Shipping weights: 8 and 16 ounces.
61 F 9890—Small.....**19¢**
61 F 9891—Large.....**29¢**

Challenge Brake Lining

Recent investigations show that a very big percentage of the accidents today are caused by poor brakes. Probably no one thing causes so much uneasiness to the auto driver as the knowledge that the brakes may not hold. Put aside this uncertainty by lining your brakes with this Challenge Lining. In an emergency it will lock the wheels or, with a light pressure on the brake, bring your car to a slow stop without jerking. This Lining is used as regular equipment by several car manufacturers. Challenge Lining is made of a fine staple, fibrous asbestos yarn closely interwoven with brass wire. It will not char or burn from friction heat, nor does it soften or become hard like many linings. The utmost care is used in treating Challenge Lining with compounds that have proven successful on the hardest tests covering a period of several years. It is practically heat proof, oilproof and waterproof. To help our customers save more money and time we include with each order for brake lining an illustrated book showing the easiest and best ways for putting on linings, according to methods used by the best mechanics. Shipping wt. per foot, 4 to 9 ounces.

Nickel Chromium Steel Motor Valves

Power, speed and economy depend largely on the Valves. One or two warped valves or bent stems can upset the performance of the finest motor. If your motor is not "hitting" right put in these valves and you can depend on getting good service. They are made of the highest grade nickel chromium steel with a bright ground finish on the seat and stem. The lower ends are tempered and hardened so they will not flatten out the way many valves do. Every valve is guaranteed to fit perfectly and is a quality equal to valves selling at much higher prices. Ship. wt., each, 4 oz.

Slip-Over Quick Detachable Socket Wrench Set

This set is equal in service and construction to many sets selling for more than double our price. It has two different quick detachable type handles, 1 extension rod and 9 exceptionally heavy hardened sockets turned from solid bar steel. The sockets are held on the handles and extensions by friction ball contacts that lock in place. With this outfit you can handle many jobs in half the time required with ordinary wrenches. It takes only a moment to change sockets or handles so you are sure of a combination that will easily handle nuts or bolts in the most inaccessible places. Shipping weight, complete set, 3½ pounds.

61 F 9744—Complete set..... $2.85

Nut and Tap Wrench Set 35¢

Stamped from a special grade of steel and hardened to stand severe usage. The openings will fit most of the popular size nuts and tap shoulders. Wrench openings: ¼ and 5/16; ⅜ and 7/16; ½ and 9/16; ⅝ and ¾; ⅞ and 1 inch. Tap openings: 5/16, ¼, 7/32, 11/32, and ⅜ inch. Ship. weight, per set, 1 pound.

61 F 9524—Set of 5.. 35¢

27¢ Adjustable Wrench

Adjustable, drop forged Wrench is very strong and of high quality. Length, about 8¾ inches. Opening, 1¾ inches. Every tool kit needs this type wrench. Shipping weight, 1 lb.

Rex High Pressure Greasing System

$3.69

To get the best service from your car it must be greased. Grease lessens wear so parts last three or four times longer, makes the car ride more smoothly; eliminates the squeaks and saves you many dollars in repair bills. The Rex Greasing System consists of a grease gun that will exert 2000 pounds pressure (with one hand) without leaking, and a complete set of fittings to take the place of the old grease and oil cups. Gun holds enough grease to take care of several bearings—and does the job quickly. It forces the old grease and grit out so you have new, fresh grease that makes the bearings work freely and quietly. Non-leaking swivel joint with threaded coupling to connect to the Rex fitting enables you to reach all bearings easily. Outfits are complete with gun and all fittings for cars shown. **When ordering, state catalogue number, and make and model of car. All outfits except 61 F 4203 are shipped from Northern Illinois.** Shipping weight, 4 to 6½ pounds.

Handy Socket Wrench Set

Due to the high cost of making repairs and adjustments many owners are doing this work themselves. Loose nuts and bolts cause excessive wear which means new parts. Here is an outfit that will cut down high costs for you. The sockets in this outfit will fit practically every bolt and nut on all autos; and with the use of our new improved flat ratchet handle, you can tighten loose parts and make adjustments in a great deal less time than with ordinary wrenches. The outfit consists of socket wrench; an assortment of 30 casehardened, cold drawn, pressed steel sockets ranging in size from 5/16 to 1 9/32 inch; a universal joint (permitting the use of the wrench at any angle up to 90 degrees); one long extension bar, permitting wrench to reach into engine or crankcase; also a long socket for removing spark plugs. Shipping weight, per set, 10 pounds.

61 F 9537—Complete set..... $5.75

Master Socket Wrench Set $9.75

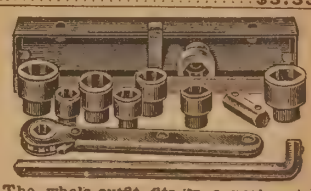
For Those Who Want the Very Best

You Will Keep This Set When You Sell Your Car

The set for the boss mechanic or the critical auto owner who insists on having the best, who demands that every nut or bolt be properly tightened. Hard-to-reach connecting rod nuts, brake band and clutch adjustment are easily handled. The Master Set contains one flat ratchet handle; one 8-inch drop-forged pipe wrench; one pair pliers; five flat wrenches (10 openings); one cotter pin extractor; one folding screwdriver; one universal joint; one long extension rod; one offset socket wrench; handle; one spark plug socket, 3½ by 4 inches long; 38 guaranteed pressed steel sockets. Strong steel box of convenient size to carry in car. Shipping weight, set, 15 pounds.

61 F 9733—Complete set..... $9.75

Challenge Socket Wrench Set $3.35



Sockets of fine grade pressed steel. Held in handle by spring tension, which prevents dropping out when in use. Set consists of 14 sockets, fitting almost all sizes of bolts, nuts, set screws, etc. Universal joint and extension enable one to reach into cramped difficult places at any angle without trouble. The set is in a strong wooden box and can be carried in the car. Shipping weight, per set, 8½ pounds.

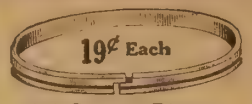
61 F 3548..... $2.00

Supplies for Fordson Tractors

and Spark Plugs for Many Other Tractors



Sure Cool Water Circulators for Fordsons

Don't take chances of getting stuck out in the field and being delayed for hours by letting your engine overheat. We absolutely guarantee this big husky water circulator will keep a steady stream of water flowing around the cylinders as long as you have a fair supply in the radiator. It will keep your motor at a normal heat on the hardest pulls where without it you might be stalled. It will pay back its cost in the saving of oil and repair bills—and keep the motor cool at times when the radiator alone would fail. The Circulator takes the place of the connection between the cylinder head and tank. Shipping weight, 27 pounds.

61 F 9949—Ea. **$1.25**

Dailey Governor for Fordsons

Automatically Controls the Speed

$4.75

An easy turn of the adjusting nut above the spring on the governor sets your engine speed so it will run at an even rate regardless of the load, whether used for pulling or belt work. Just open your throttle wide—set the governor and it regulates the motor automatically by means of the velocity of the air on the little perforated plates. As the load gets light the governor shuts off the gas supply at the throat opening or opens it as the load becomes heavy. There is only one moving part and it will not get out of order. The Dailey governor does all that any governor will do regardless of price and the cost is so small every Fordson owner should have one. Easy to install as you simply remove top plate from carburetor and replace it with the governor. Shipping weight, 12 ounces.

Rest while you ride. You don't sit on a stool in the house because it is not comfortable. Here is a thick steel back rest that will make thousands of Fordson owners happy. It is curved to fit the back. Easily attached to the seat by bolts which we furnish. Gray color. Height, 12 inches. Shipping weight, 6 pounds.

61 F 9941.....**$1.50**

De Luxe Guaranteed Auto Springs

Finest Quality Auto Springs at the Very Lowest Prices

Every spring is graphited and painted black. All springs are guaranteed to match the original springs on the car in load depression.

It takes the very best quality Spring made to live up to a guarantee of satisfaction when backed by Ward's. De Luxe Springs are made of extra fine grade steel which is properly heat treated and tempered in oil under scientific control. Careful inspections and tests are made during every important operation. Special expensive testing machines are used on all springs to prevent defects passing through; this means a great deal to you, as a slight flaw in a spring may mean a quick replacement, a loss of time, laying up the car, and more work for installation. We guarantee De Luxe Springs to be A1 quality and to be an exact duplicate of your original springs in size, in number of leaves and in the arching.

A Spring 36 by 1¾ means that the spring measures 36 inches between centers of eyes and that the width is 1¾ inches. Measurements shown are without load. Order by article number only. If the style of car is not mentioned, the spring fits all touring, roadsters, sedans or coupes.

No. Lvs.=Number of leaves in spring.

Note If the make of your car is not listed here, write and we will quote prices.

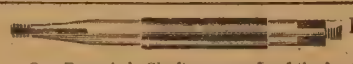
Ride Easy



$3.95 A Set

Spring Oiler Covers

Stop Squeaks

The reason your car rides hard is because your springs get rusty and the leaves don't slide. Look at your springs and see—then order these Spring Oiler Covers and after you use them a couple of weeks you wouldn't drive without them. These Boots are made of heavy rubberized fabric with an oil chamber at the top which allows the oil to feed in between the spring leaves while you ride. Each set of boots fits perfectly—you just lace them on—squirt oil in the oil chamber and in a few miles you'll feel the difference. Besides making your car ride smoother they stop squeaks and keep the springs clean. Average shipping weight, per set, 2 lbs.

Automatic Spring Oilers

25¢ Ea.

Your car can't ride smoothly unless you oil the springs. The old way to do the job was to jack up the car and spread the leaves apart. The new way is to put on a set of these Automatic Spring Oilers and squirt a little oil in the reservoirs once in a while. Each oiler consists of a strong metal cover with an oil reservoir at the top and thick pads of felt on the sides. As you ride along the flexing action of the springs draws oil in between the leaves which keeps out rust and lets the leaves slide freely so the car always rides smoothly. Every auto needs spring oilers—it is the only practical way to keep your car easy riding. Put two oilers on each spring as shown. Simply measure width of springs and order by catalog number. Shipping weight, each, 6 ounces.

De Luxe Heavy Duty Spark Plugs

We made a big special deal with one of the oldest Spark Plug manufacturers to build a plug that has all of the best features that our experience of many years has taught us were necessary for better motor service. Here it is—the De Luxe Heavy Duty. The base of the plug is extra heavy steel construction, splendidly finished in gun metal blue. The sparking point has a wide thin edge that gives a series of sure fire sparks instead of one little spark—and this knifelike edge retains enough heat so it serves to burn off carbon, removing a big cause of misfiring.

They are So Much Better

We Want You to Try Them for 30 Days

We could fill a page telling you how good these plugs are—how the French Town No. 775, U. S. Government Standard porcelain surpasses others—how the heavy fiber cap over the porcelain prevents breakage by hammer or by outside short circuits caused by water or oil—how the two-piece, easy cleanable construction is the best. Then there is the semi-conical center core which combines the strength of the conical type and the carbon resisting qualities of the petticoat design. The center pin or electrode is made of nickel manganese that will not warp or corrode, and the outer electrode is set at an angle so oil will drip off and not reach the firing points. But we do not want you to take our word for the service these plugs will give. We want to prove to you these Heavy Duty Plugs are better by letting you use them on your own car. Send us your order in the regular way—put the plugs in your motor—see how they improve the power and speed—see how much easier your motor starts. Make every kind of test and then, if after 30 days you should feel you do not want to keep them, send them back and we will return your money and all transportation charges. Sets of 4 furnished in service kits.

Ignition Tester Free with Set of Four De Luxe Heavy Duty Plugs

Besides giving you this greater spark plug value we will include with all orders for a set of 4 De Luxe Heavy Duty Spark Plugs an Ignition Tester similar in action to the Spark C but smaller in size. Shipping weights, one plug 6 ounces; set of 4, 1½ pounds.

Riverside Giant Spark Plug

The body is turned from solid hexagon steel scientifically treated and copper plated. The stone colored "775" porcelain is carefully selected. Electrode and double sparking points made of high resistance especially treated alloy. Terminal takes either the regular open end, round or slip-on connection. Owing to their double point construction, Riverside Giant Plugs give remarkable good service in motors that "throw oil." Shipping weight, each, 6 ounces.

Pumps and Jacks that make tire changing easier are shown on Page 457

Spotlights, Stoplights and Warning Signals to Make Driving Safer

Universal Spotlight

$1.85

Fits Open or Closed Cars

A Spotlight is such an important convenience that no driver should travel at night without one to guide him safely. We have been working and experimenting for months to get a light that would meet the demand of the thousands of motorists who have been waiting to buy a strongly built, effective spotlight at a low price.

This light will completely satisfy you. The black enameled body is the popular convex shape fitted with 4½-inch convex type lens that makes this a neater lamp than those generally sold at anywhere near this price. The handle has a switch at the end.

The lamp may be quickly detached for use as a trouble lamp for working about the engine or tires. Another big important feature is that we use a 21-candle power tipless bulb with a focusing device that practically eliminates the black or shady spots so common with low priced lamps. The attaching clamp fits all windshield side bars on open cars and a special bracket is also included with each lamp that will fit all closed cars. Furnished complete with 5 feet of wire. Nickel rim. Shipping weight, 2¾ pounds.

61 F 6805— 6-volt type.....$1.85
61 F 6806—12-volt type.....1.90
61 F 6807—For Ford magneto.....1.98

$2.95 Brite Lite Long Distance Spotlight

An exceptionally fine Lamp of much larger size than is generally sold at this low price. Several of the finest features of spotlight construction are used in this model. It has a focusing device that gives a narrow beam or wide flooding light. The body is strongly made, highly enameled black, with a neat nickel rim. The 5½-inch convex shaped lens and convex body with a highly polished reflector are designed to throw a more powerful light than is usual with a lamp sold near this price. Universal type clamp fits all standard windshield frames. Powerful mazda bulb. Detachable for use as a trouble lamp by loosening one thumb screw. Furnished complete with cord. Shipping weight, 3¼ pounds.

61 F 6798—6-volt type...$2.95 **61 F 6799**—12-volt type...$3.00
61 F 6800—18-volt for Ford magneto.....$3.05

Safety Stoplight

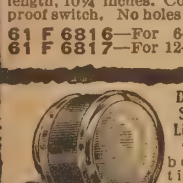
Bang! There goes a fender, tire carrier and radiator just because he didn't have a stop light to warn the car behind. He put on his brakes but forgot to put out his hand so two cars went to the repair shop. This Stoplight warns when the driver forgets. Simply place the Stoplight on the fender or attach it to the license holder, connect the wires and fasten clamp and wire to the brake or clutch pedal and it's always on the job to warn those back of you the moment you touch the pedal. The 4½-inch lens is bright red with the word "Stop" large enough to be easily seen, day or night. Waterproof switch. All necessary wire and fittings furnished. Shipping weight, 2 pounds.

61 F 6781— 6-volt type...$1.15
61 F 6783—12-volt type.....1.15
61 F 6789—Special for Ford magneto.....1.15

Dandy Stoplight

For the motorist who wishes the utmost in style in addition to dependable service in a Stoplight we offer this brand new model with a convex shaped body that is far superior in appearance to the usual types. A combination bracket is furnished so this lamp may be attached to the back of any regular tail light that is fastened by one or two bolts or it may be attached to the license bracket or fender. Diameter of lens, 4¼ inches. The body has a bright black enamel finish with a nickeled cap over special bulb holder and also a nickel rim. Shipping weight, 2¼ pounds.

61 F 6810—For 6-volt.....$1.95
61 F 6811—For 12-volt or Ford magneto.....1.95



Combination Stop Signal, Tail Light and License Holder

The black enameled body of the lamp is 4½ inches in diameter by 2 inches deep. Front frame which surrounds the neat oval red tail lamp and the crescent shaped green stoplight is nickel plated. White enamel interior. Clear glass lens, 1 by 3½ inches, illuminates license plate. Stop signal and tail light separate with individual bulbs. Offset license bracket is heavy steel with black baked on enamel finish. Fits any car. Total height, 6¾ inches; length, 10¼ inches. Complete with wiring, 2 bulbs and trouble-proof switch. No holes to drill. Shipping weight, 2¾ pounds.

Auto Siren

A great many accidents occur because the warning signals are not loud or distinctive enough to be heard. It takes something different than the usual horn to get attention. This Siren is different—it penetrates above noise and sounds its melodious signal in a way that commands attention on crowded city streets or on country roads. Attaches to the exhaust manifold. Operates by the simple pull of a cord attached to dash or steering column. Costs nothing to operate. Does not in any way interfere with the mechanical operations of your car. Has standard pipe thread. Full instructions for attaching included. Shipping weight, 1 pound.

61 F 3436.....$1.00

Motor Driven Electric Horn

A small electric motor rotates against the horn diaphragm, giving an exceptionally strong tone which is easily varied by adjustment on back. Furnished in all black finish. Length, 10½ inches. Shipping weight, 5 pounds.

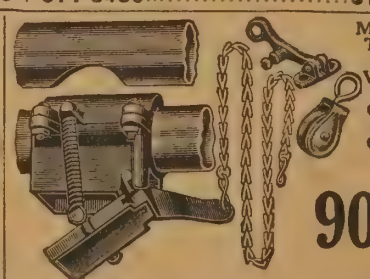
Push Button

Made of polished hard rubber and metal. Attached to steering wheel spider or any flat surface. Shipping weight, 3 ounces.

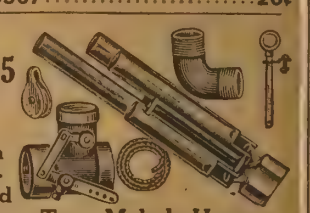
61 F 3367.....20¢



Cut-out Outfit

A Cut-out is a great help in locating engine troubles as it enables you to pick out missing cylinders when testing the plugs. On hilly country roads many motors develop more power and heat up less when the cut-out is open. At our extremely low price no auto owner should be without a cut-out. This outfit is easily installed; 4-bolt type, insuring perfect fit. Complete with locking pedal and cable, ready for attaching to car. Fits cars with pipe having outside diameter shown. Shipping weight, 3 pounds.

61 F 3438—For Maxwell and other cars with 1⅝-inch exhaust pipe.....70¢
61 F 3439—1¾-inch for Buick, Hupmobile, Oldsmobile and others.....75¢
61 F 3440—2-inch for Chevrolet 490 and Baby Grand, Dodge, Studebaker, others..80¢



Motor Testing Valve or Cut-out Outfit 90¢

An improved type, close fitting, easily attached Cut-out with a new design valve that lets each explosion come clear. You can quickly tell if the motor is missing when you pull the lever. Extreme care is taken in machining valve and clamps so they fit tightly, thus eliminating any hissing or leaking which is common with many cut-outs. Strong coil springs hold the valve tightly closed. In every detail this is an excellently constructed outfit. Furnished complete with throw lever, chain and pulley. Measurements are outside diameter. Shipping weights: 3½ to 5 pounds.

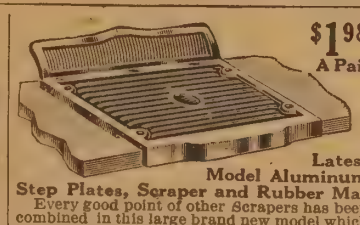
Slip Over Seat Covers For Many Popular Cars



We have removed the side of the car in the illustration to give you a better idea of how simply and neatly these Slip-Over Seat Covers fit. An entirely new method has been used to fasten these covers to the cushion so they fit as smoothly on the seat and back cushions as many of kinds that sell for $25 to $50. The women will be delighted with clean covers as their dresses will not become marked or spotted as often occurs with the old-dirt hiding leather cushions. Besides this, the covers are made of a medium dark durable, washable material with a very neat stripe pattern. Anyone can easily put them on with material furnished. They may be quickly removed for washing. Shipping weight, each, 3 pounds.

Latest Model Aluminum Step Plates, Scraper and Rubber Mat

Every good point of other Scrapers has been combined in this large brand new model which is as beautiful as it is serviceable. The frame work, scraper and high rear guard are heavy aluminum with an exceptionally bright finish. The center is a ribbed rubber mat, which in combination with the foot scraper, enables you to clean your shoes thoroughly even though you walked through mud. A great help for keeping inside of car clean. Size, 8 by 11½ inches. Shipping weight, per pair, 4½ pounds.

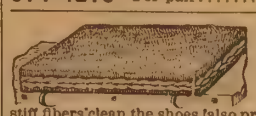
61 F 3503—Per pair.....$1.98

$1.59

Attractive Low Priced Aluminum Step Plates with Ribbed Rubber Mats

This model is built along lines similar to our finest plates shown at the left, but is not quite as large nor as finely finished. The scraper arrangement and ribbed rubber mat are very serviceable features. The high rear guard protects the side of the car as it serves as a kick plate. A pair or set of four of these plates will greatly improve the looks of your car. Size, 7½ inches wide by 9¼ inches long. Shipping weight, per pair, 3½ pounds.

61 F 3501—Per pair.....$1.59

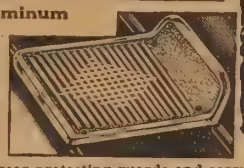


Plain Type Aluminum Step Plates with Ribbed Rubber Mat

$1.55 A Pair

Latest design and most serviceable type Step Plates with heavy ribbed composition rubber mat set in uminum frame. Splendid foot scraper. High rear guard prevents scratching the finish of the car. Size, about 10 by 9 inches. Screws furnished. Shipping weight, per pair, 4 pounds.

61 F 4210—Per pair.....$1.55



Cocoa Mat

A strong closely woven well bound Mat. The stiff fibers clean the shoes, also prevent slipping. Size, 8 by 12 inches. Fasteners furnished for attaching to all wood or metal running boards. Shipping weight, each, 1½ pounds.

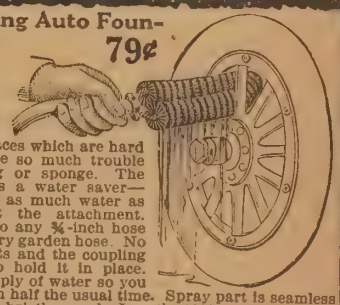
Running Board Mat

18¢



Made of heavy composition rubber with strong ribs, prevent slipping and protects the running board. Aids in keeping floor of car clean. Size, 7¼ by 11¼ inches. Shipping weight, each, 1½ pounds.

61 F 3798—Each.....18¢

Quick Cleaning Auto Fountain Brush

79¢

Saves Time
Saves Labor
Saves Water

Gets at those places which are hard to reach and cause so much trouble when using a rag or sponge. The Fountain Brush is a water saver—doesn't use nearly as much water as the hose without the attachment. Quickly attached to any ¾-inch hose coupling on ordinary garden hose. No loose movable parts and the coupling has a shoulder to hold it in place. Gives a steady supply of water so you can clean the car in half the usual time. Spray part is seamless brass. Best China bristles used. Length, 10½ inches; width, 5 inches. Shipping weight, 12 ounces.

61 F 9604.....79¢

Use Riverside Tires

Auto Top Repair Strip

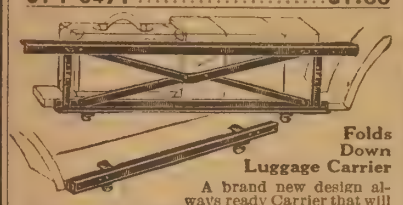
Tourists' Equipment



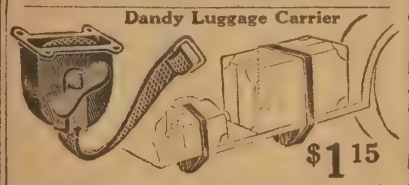
Running Board Luggage Carrier — $1.35

A very strong, all steel folding Carrier priced exceptionally low because we bought thousands while the price of steel was low. Adjustable from 10 to 60 inches. Fits all running boards. Has end braces and rigidly attached clamps. Size folded, 10½ by 19 by 4 inches. Shipping weight, 11¾ pounds.

61 F 6468.....**$1.35**

De Luxe Model. Built stronger, heavier and higher than ordinary models. Adjustable, 10 to 72 inches. Shipping weight, 14 pounds.

61 F 6471.....**$1.80**



Folds Down Luggage Carrier

A brand new design always ready Carrier that will hold all sizes of packages. The framework is a thick steel heavily riveted. Just fasten it to the edge of the running board and leave it there. When not in use it folds down flush with the board so it is not in the way. When you have packages to carry, an easy pull raises it up into position. When the packages are removed fold it down.

Many motorists put on two. Height, raised, 10 inches. Shipping weight, 11 and 15 pounds.

461 F 6473—Length 45 inches.... **$1.40**
461 F 6474—Length 60 inches.... **1.95**

Dandy Luggage Carrier

$1.15

Dandy luggage carrier that will hold a big camping outfit, suitcase or even small boxes—always ready for instant use. Strap is tightened around the packages, or wound up in case by a few turns of the handle. Heavy web strap, 4½ feet long. Locking device holds strap tight. Fits all cars. Steel case is only 4 inches deep, 2½ inches wide and 4½ inches long. Will not strike objects on the road. Simply screw the case to the under side of the running board and attach little clamp on the floor and the carrier is ready for several years' use. Does not need to be removed. Shipping weight, 4½ pounds.

61 F 6821—For Wood running board.. **$1.15**
61 F 6822—For Steel running board... **1.15**

$1.89 Luggage Cover

A heavy waterproof rubberized fabric cover with metal eyelets. May be used with any type carriers. Protects luggage against water, mud and dust. Size, 4 by 6 feet. Shipping weight, 1¾ pounds.

61 F 6820.....**$1.89**

Tourists' Running Board Trunk

Trunk is made of 3-ply veneered wood, covered with black enameled sheet steel with the corners reinforced with heavy metal. Locks, catches and swing handles are nickel finished so the trunk is a handsome addition to any car. Size, 30 by 12 by 15 inches. Easily attached to any running board with two bolts included. Suit cases well lined throughout; covered with black duck, leather corners. Good locks, catches and handles. Shipping weights: 45 and 55 pounds.

161 F 6455—Without suit cases.. **$ 8.95**
161 F 6456—With two suit cases. **16.45**

$3.45 Initial Locking Radiator Cap

The very latest model Keyless Motometer Locking Cap—the heavy bar type, beautifully nickel plated—with your initial on the front. Special automatic locking device prevents cap being removed when once attached. Motometer is securely locked in the hinged cap which tips back for filling radiator. This is the neatest, strongest built, keyless locking radiator cap at the lowest price we know of. You will appreciate its improved features. Total width 8¼ inches. **When ordering, be sure to state the car, year and model; also the initial you want.** Cap has hole to fit all Standard and Universal model Boyce Motometers or Motor-Eye. Heat indicators not included. Shipping weight, 2 pounds.

61 F 3352—Carried in stock for 90 popular cars—1921, 1922, 1923 and 1924 models. **$3.45**

Lunch Kit with Vacuum Bottle — $1.59

A Lunch Kit which should be in every home, for it will come in handy numberless times. If you are going on a trip you wont' have to fuss with baskets or bottles. This kit will serve for both and will do it much better than the old way. It may be used for the children's school lunches or the men's lunches when working away from home. Consists of a one-pint Vacuum Bottle in a light, durable, enameled metal carrying case; two clasps; hinged cover. Length, 10½ inches; height, 7 inches; width, 4½ inches. Lower part serves as a lunch box and is large enough to hold food for two persons. Top of bottle serves as a drinking cup. The bottle is unusually convenient for mechanics, farmers and school children because in it may be carried the hot drinks which make the packed lunch so much more enjoyable. Shipping weights: Outfit, 3¼ pounds; kit only, 2 pounds; bottle only, 2 pounds.

61 F 6639—Complete outfit.....**$1.59**

61 F 6621—Quart size.. **1.79**

$2.75 Favorite Hot or Cold Water or Food Jug

Get more pleasure out of your auto trips, picnics, parties, fishing trips or work away from the house, by using this brand new Hot or Cold Jug. It keeps food or liquids at nearly their original temperature for several hours. The inner part is a heavy earthenware heat retaining composition protected by a thick metal cover with swinging handle. Soups, coffee, milk, water, meats, ice cream—in fact, nearly all food or drinks can be kept more wholesome and delicious by carrying them in this jug. The large 3-inch opening makes it easy to fill or clean. Boiling hot water will not break it. A large aluminum cap on top makes this one of the neatest looking jugs at any price. Shipping weight, 12 pounds.

461 F 6401.....**$2.75**

Corrugated Vacuum Bottle — $1.69

Equal to the highest priced nickel plated Bottles. Extra strong metal case heavily nickel plated. The body of the bottle is corrugated so you have a non-slipping holding surface—a great convenience for motorists. Neck protrudes above metal casing, preventing contents from coming in contact with metal case when pouring. Screw top serves as drinking cup. Shipping weights: 2¼ and 3¼ pounds.

61 F 6601—Pint size.....**$1.69**
61 F 6602—Quart size..... **2.49**

$5.70 Stanley Non-Breakable Vacuum Bottle

One of the very finest articles for motorists. It is all steel construction—guaranteed unbreakable. You can put it any place in the car and never need to fear breakage for it is built so strongly that even though it was dropped on a cement floor it wouldn't break. This means lifetime service. It keeps liquids hot 18 hours, or cold for 40 hours. You will want to take it along on every trip. Each bottle has a long lasting bright black enamel finish with a nickel plated cup and base. Shipping weights: 2, 3 and 6 pounds.

61 F 6611—Pint size.....**$ 5.70**
61 F 6609—Quart size..... **6.30**
61 F 6610—2-Quart size..... **10.50**

Glass Inner Bottle or Vacuum Bottle

Our Glass Inner Bottles are of standard construction so you can depend on their heat retaining qualities. They fit all the vacuum bottles shown on this page except bottle in Lunch Kit 61 F 6639. They also fit the well known Icy-Hot Vacuum Bottles. Shipping weights: Pint size, 1 pound; quart size, 2 pounds.

61 F 6607—Pint-size bottles.....**$ .83**

Auto Baby Crib — $2.35

Take mother and baby along, and let them both be comfortable. This crib is made of heavy dark gray auto cloth material over a metal frame. It is suspended from the top bows by springs that absorb the shock and rock baby to sleep. It is 33 inches long, 14 inches wide and 10 inches deep. Shipping weight, 4 pounds.

61 F 3547.....**$2.35**

Rives Neverslip Pedal Pads — 69¢

Rest your feet while you drive. It is a lot easier to push on the Rives soft, springy, non-skid rubber pads than on hard, slippery pieces of iron that allow your feet to slip off possibly causing serious accidents. Your car rides on rubber tires—let your feet rest on rubber pedals. We have never seen a man who has used these pedals for 15 minutes who would think of taking them off. Rives pedals are made of real, live, springy rubber that will give long, safety-first service. Only pliers are needed to put on Rives Pedals as flexible, easily clamped metal strips are vulcanized into the rubber and it takes only a moment to bend them around the iron pedal. Include a pair in your next order. Average shipping weight, per pair, 12 ounces.

61 F 5706—Fits all Chevrolet 490 and Superior Models. Per pair.....**69¢**

With one 7 by 14 glass light, 1923..... **3.65**

Glass Lights for Rear Curtains

A great improvement over ordinary celluloid Lights as they are easy to clean and do not break or crack like the old style. Every Ford owner should have a set as they give a great deal better rear view so an inside mirror may be used. Good clear glasses, same size as original celluloid lights, are fitted in metal frames. Easily attached to curtain with a screw driver and the small bolts furnished. Priced much lower than the usual prices on these lights. Shipping weight, per set, 1 and 2 pounds.

61 F 2041—Set of 2, 1923 and 1924 style, with frames. Per set.....**55¢**

Ward's Re-Covering Outfits Are Easily Put On

First take out tacks at the front and rear of the old top and pull it off. Do not remove the bow padding. Then take Ward's Economy Re-Cover and slip it right over the bows and frame. It is cut to fit so any car owner can do an entirely satisfactory job in a short time. Now is a good time to get your car ready for winter—so be sure to include one of these Economy Top Re-Covers on your next order.

$6.25

Neat Striped Seat Covers for Fords

Most Ford owners prefer this dark, durable striped pattern instead of the light colored materials. The seams are strongly sewed and the arm rests are reinforced with heavy patent finish duck. You can remove the covers to clean them so they can always be kept neat, giving complete protection to the daintiest dress or suit. Covers are included for all the doors. The touring car set has pockets in three door covers. The roadster has a pocket in the right door cover. Both the sedan and coupe door covers have pockets. Shipping weights: Roadster and coupe, 4 pounds; sedan and touring, 8 pounds.

Improved Door and Dash Panels

Complete with Pockets

Many Ford owners put these on brand new Fords because they look better and furnish convenient places to carry small tools, cloths and other necessary articles which are usually carried under the seat where they are unhandy to get at. These panels are made of long lasting, fine looking, grained black fiber board. Each door panel has a dandy pocket. Openings for door handles are metal bound. Tacks furnished. Shipping weights: Touring, 3 pounds; roadster, 2 pounds.

61 F 2570—Complete set of five panels for all touring cars, 1917 to 1923.....**$2.95**

Lower Prices on Well Known Supplies

Get the habit of ordering your Automobile Tires and Supplies from Ward's. You will be surprised how many dollars you will be ahead in a few months. Two million auto owners sent us orders in 1923.

$9.75 Without Shell — $10.35 With Shell

The Greatest Radiator Value We Have Ever Seen or Heard of Don't Pay More for Any Radiator Until You Have Accepted Our 30-Day Trial Offer

These Radiators are so much better than any we have ever seen at anywhere near our price, that we want every Ford owner in the United States who has a leaky or damaged radiator, to compare it side by side with others. We know it will satisfy you—that is why we give you a stronger guarantee for actual service than others do on radiators that sell for many dollars more. Months of testing and use in all parts of the country proved these radiators so far superior to most others, that we placed an order for a great many thousands. We believe this order to be the biggest radiator order ever placed by a firm selling at retail.

30 Days Trial On Your Car To Prove It

You can use this radiator 30 days to convince yourself that it will do all that can be expected from any radiator, regardless of price. You don't risk a cent. This 30-Day Trial Offer is, we believe, the fairest radiator proposition ever made to Ford owners. Simply send in your order in the regular way, enclosing remittance. Put the radiator on your Ford and use it. If, at the end of 30 days, you should feel for any reason that it is not equal in every way to any radiator on the market, return it and we will refund the purchase price and all transportation charges you have paid.

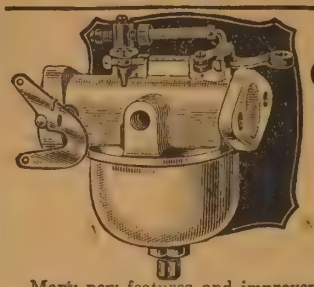
Guaranteed 18 Months Against Breakage Caused by Freezing

This new Radiator is so strongly built that we guarantee the core a full 18 months (a year and a half) against breakage caused by freezing. If in any case freezing should injure the core within 18 months, we will give you a new core without charge.

Shipping weights: Complete radiator, 45 pounds; without shell, 40 pounds.

Complete Radiator with Shell

161 F 1899—For 1917-1923 Fords..$10.35
161 F 1900—For 1916 and older Fords 11.75
161 F 1910—For 1924 Fords..... 11.25



Radiator without Shell

161 F 1901—For 1917-1923 Fords..$ 9.75
161 F 1912—For 1924 Fords.....10.55

Buy This Radiator Because It Is Better and Stronger

We absolutely guarantee this Radiator is better built and stronger than many radiators selling for several dollars more. It has heavy, seamless, one-piece brass tanks at both top and bottom. Many other radiators have cheap steel tanks that rust out and break apart. Our radiators have rustproof bronze cores, with more tubes than are generally used in radiators of this type which brings the water into contact with greater cooling surfaces There is no iron used where it will come in contact with the circulating water, except water connections which are malleable castings heavily tinned.

If your radiator leaks or is damaged, it will undoubtedly save you much money if you buy this brand new, guaranteed radiator rather than to bother around trying to fix the old one. Generally, when a radiator needs repairing in one place it is only a short time until some other place gives away. By the time you get through paying repair bills and figure the time you waste on the old radiator, it will probably cost you more than this new one.

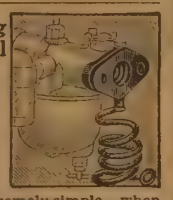
Nu-Power Carburetor $3.95

Saves Gasoline Starts Quicker Makes Fords Run Smoother

Many new features and improvements make the 1924 Nu-Power the biggest Carburetor value we ever have had for Ford owners. We have made hundreds of tests with many different Fords and in every instance the Nu-Power Carburetor saved gasoline and made a remarkable change in the operation of the motor. The engines started instantly when cold or hot and ran so smoothly without a jump or jerk that you would have thought you were in a different car. Your motor will start quicker—run smoother—pick up faster—and give less trouble from adjustments than is possible with any carburetor near our price. The float used is made of brass and is guaranteed non-leakable. Simplified adjustments and the elimination of the troublesome needle valve make it nearly troubleproof. Fits all Fords. Shipping weight, 2½ pounds.

61 F 2167.....$3.95

New Kingston Economy Carburetor $4.50



Model L4K With Strainer

Similar to Carburetor used as regular equipment on Fords. Strainer keeps all dirt out of carburetor. Many tests have shown mileage of 26 to 30.6 miles per gallon, on touring cars, coupes and roadsters, and from 21 to 25.4 miles to the gallon on sedans. Improved spray nozzle. Shipping weight, 3 pounds.

61 F 2153.....$4.50

Quick Starting Automatic Coil

Attached in a few minutes between carburetor and intake manifold. When you step on the starter the automatic coil heats the gasoline so the engine starts immediately in the coldest weather. It is extremely simple—when foot is removed from the starter button current is shut off—no switches used. Saves your battery—saves gasoline and prevents delays. Shipping weight, 7 ounces.

61F2081—For Fords with starters.$1.00

The More You Buy at Ward's, the More You Save

Make Driving Easier, Save Gasoline

We absolutely guarantee these improved patented Extension Levers to be the best you can buy at any price. They make Ford driving so much easier and safer because they are larger and fit the finger comfortably. You need not loosen your grip on the wheel to operate these handy levers as with the ordinary short Ford levers. Prevent accidents. Made of the best grade aluminum, highly polished. Fastened over regular levers in less than a minute. Fit all Fords—every size steering wheel—and all size hands. Every Ford needs a pair. Order now—use them 30 days—money back if not entirely satisfied. Shipping weight, per pair, 6 ounces; each, 3 ounces.

61 F 2039—Per pair.....39¢
61 F 2189—Each.....20¢

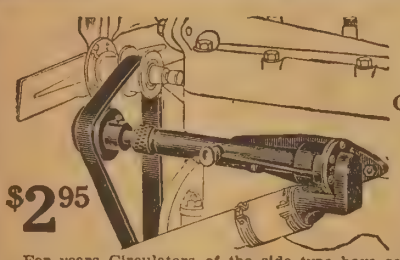
Carburetor Adjuster

A very good low priced Adjuster. Dial on dash shows position of needle valve. Easy to install. Fits all models, closed and open. Shipping weight, 10 ounces.

61 F 2179—..... 50¢

Anco Hot-Spot Manifold $3.75

Breaks up the gasoline so the pistons do not draw in raw gas to choke the engine, foul the spark plugs or carbonize the valves. Notice how the expensive cars feature Hot-Spot Manifolds—they are a necessity. You will notice a great improvement in your motor almost instantly. Fits all Ford cars. Put on with monkey wrench. Shipping weight, 12½ pounds.



461 F 2178.....$3.75

Force Feed Oiler $1.40

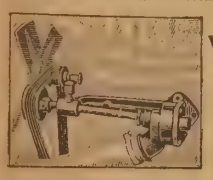
Put this sure acting system on your Ford and remove the chances of being delayed or stalled on a trip by burned out bearings, scored pistons and cylinders, which often mean repair bills of $40 to $65. The Ford oiling system has an oil pipe inside the motor, which carries oil by gravity feed, from the rear to the front. In many cases the pipe becomes clogged by small particles of worn transmission lining or dirt. With this Force Feed System the oil is driven to the front by the centrifugal force of the flywheel. It is positive acting at all times. You can see the oil flow by simply removing the breather cap. The outfit consists of a new magneto plug with an oil outlet, an outside oil pipe and a breather pipe extension with all fittings. You can put it on yourself in a few minutes. No drilling. Shipping weight, 1 pound.

61 F 2059.....$1.40

Now Every Ford Owner Can Have a Good Water Circulator at a Low Price

$2.95

For years Circulators of the side type have sold for $7.50 to $12. We got in touch with several manufacturers and placed big orders—then down came the price. Our reward was tremendous sales—thousands a month instead of hundreds. Buy this circulator and improve your Ford, too. On hot days when other Fords are stuck by the roadside with the radiators boiling over, your Ford with this circulator will travel along without a sign of overheating. You will be able to travel faster—you will use less lubricating oil and you will like your Ford more than ever. A special grease cup lubricates the shaft. You will also find this circulator a valuable aid in preventing engine troubles. Easily attached. Special fan belt furnished. Attachments included to fit all Fords. Shipping weights: Circulator, 10 pounds; belt, 4 ounces.

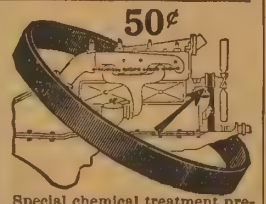


61 F 2139.....$2.95
61 F 2128—Extra leather Belt for this circulator ..... .45

Head Type Water Circulator $1.85

New design water Circulator which greatly increases circulation. Fords that would overheat within 4 or 5 miles have been run with this device for 100 miles without a sign of overheating even on the hottest days. Overheating ruins engines—stop it with this circulator. Easily attached in place of top water connection. Complete with belt. Shipping weight, 2¼ pounds.

61 F 2154 — For 1917-1924 Fords only.....$1.85
61 F 2127—Extra leather Belt for this circulator ... 29¢



Improved Water Circulator Pump

Rotary Pump forces water through circulating system at a rapid rate. Keeps your Ford cool on hottest days. The forced circulation will help save much lubricating oil. Exceptionally well constructed with bronze bearings. Made by one of the very largest manufacturers of water pumps. Easily installed—instructions included. Complete with belt and fittings. Shipping weight, 10 pounds.

61 F 2142—Fits all Fords, 1909-1924.$5.35

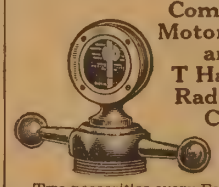
Positive Action Foot Accelerator for Fords

Nearly every other car on the market except the Ford has a foot Accelerator as it makes driving easier. This one is easily attached in a few minutes and you have foot control of the gas and greater freedom of the hands. A foot rest next to the pedal holds your foot steady on all kinds of roads. Its action does not affect the hand throttle. All parts strongly made and designed for easy action and simple attaching. Shipping weight, 1 pound.



61 F 2033.....95¢

Our Best Accelerator

A dependable, smooth acting, easily installed Accelerator of the finest type. An exceptionally long spring gives a tension on the pedal so there is no jerking or irregular running of the motor on rough roads as is customary with some accelerators. Every part is made of the highest grade materials making this one of the best you can buy at any price. No boring or tapping. Shipping weight, 14 ounces.

61 F 2097...$1.85

Complete Motometer and T Handle Radiator Cap $2.89

Two necessities every Ford owner will appreciate! The Motometer is the new, improved Midget model, exactly like the larger models except a smaller size. Nickel and black finish. Radiator cap is 6½ inches wide. T handle style with bright nickel plate finish greatly improves the appearance of the front. Much handier than regular cap. Shipping weight, each, 10 ounces.

61F3608—Motometer only.....$2.69
61F3597—T Cap only.. .29
61F4228—Motometer and cap. Shipping weight, 1½ pounds $2.89

Eagle Radiator Cap

40¢

Very attractive. The flying eagle perched on the highly polished nickel plated T-handle cap gives a handsome appearance and dresses up the front. Easy to unscrew and prevent burning the fingers. Will not rust. Size, 6½ inches from tip to tip and 2¼ inches high. Shipping weight, 14 ounces.

61 F 4221.....40¢

Universal Dash Oil Gauge

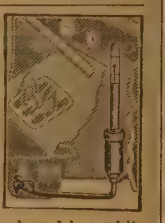
Don't take chances of burning out your bearings. Use this Gauge and be on the safe side. It's always in sight and always accurate. Connect it to the lower petcock and you'll never again crawl on your knees in the dirt and grease to test the oil supply. This gauge is sure acting and thoroughly dependable. Will last a lifetime as it has no floats, no wires or metal working parts to wear out. We have made a big reduction in price. Fits all models. Shipping weight, 1 pound.

61 F 2801.....$2.05

Keyless Locking Radiator Cap with Indian Head Emblem

Newest model Keyless Motometer Locking Cap for Fords. Nickel plated, bar type shape—attractive. The automatic locking device prevents cap or motometer being removed. Cap is hinged so it tips back for filling radiator. To release or close the cap you just pull or push the spring catch. Hole drilled for Midget Motometer. Fits all Fords; 6¾ inches from tip to tip. Motometer not included. Much handier than ordinary caps. Shipping weight, 1½ pounds.

61 F 4225.....$1.89

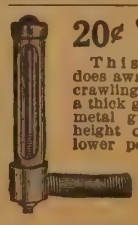


Snap Lock Radiator Cap

79¢

It does away with troublesome screwing and unscrewing. Touch the snap lock and spring opens the hinged lid. Press lid down and it locks. Open or closed in a second. Neat T-handle style, black enameled. Gasket prevents water leakage. Shipping weight, 14 ounces.

61 F 2045.....79¢



Clear View Dash Oil Gauge

Simple, economical and decidedly convenient. The oil barrel, made of heavy brass, is connected to lower petcock hole. An extra large cork float registers the exact oil level by means of a red enameled indicator. Near the top of the heavy brass tube projecting through the floor board is a white enameled portion with a heavy glass window to show location of indicator. Built of excellent materials. Shipping weight, 2 pounds.

61 F 2098.....79¢

20¢ Good Low Priced Oil Gauge

This quickly attached gauge does away with the dirty work of crawling under the fender. It has a thick glass tube, protected by a metal guard, that shows exact height of oil. Simply unscrew lower petcock and replace with gauge. Petcock screws in base of gauge. Shipping weight, 5 ounces.

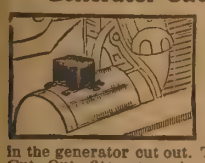
Supplies Which Will Improve All Fords

A great many of the articles on this page are the most popular of their kind; and you will note by comparison with other prices, that Ward's show you a substantial saving on each article. You will always find it pays to trade at Ward's.

Riverside Giant Spark Plug

A great big, sturdy Plug that will give years of service. The heavy body is turned from solid bar hexagon steel, scientifically treated and copper plated. The stone colored porcelain is especially selected. Electrode and sparking points made of high resistance, especially treated alloy. Owing to their double point construction, Riverside Giants give remarkably good service in motors that throw oil. Special ½ inch extension type. Shipping weight, each, 6 ounces.

61 F 9018—Each..... **32¢**



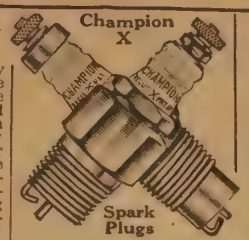
Splitdorf Spark Plug

Splitdorf Plugs have been favorites with many motorists for years. They have a heavy mica core protected by a porcelain sleeve which withstands terrific heat; ½ inch for Fords. Shipping weight, each, 6 ounces.

61 F 9023—Each. **59¢**

Generator Cut Out

If your ammeter indicator hand remains on zero or wobbles, the trouble usually is in the generator cut out. This reliable Cut Out fits present screws and wiring without alterations. Shipping weight, 9 ounces.



61 F 2355..... **65¢**

Guaranteed Ammeter

Same type as on Fords. Flush mounting flange, diameter 3 inches. Registers charge and discharge up to 20 amperes. Diameter of body, 2¼ inches. Face and dial black enamel finish. Shipping weight, 1 pound.

Thomas Ignition System for all Fords $7.95

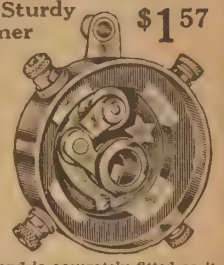
A reliable, positive acting Ignition System, similar to those used on the higher priced cars. Made of the finest materials and guaranteed to give perfect service. The distributor is the large car type, with no rollers or raceway to wear down or short circuit; and it is set up high so the wires can not possibly come in contact with oil, dirt, or the fan belt. Only one of the regular Ford coil units is necessary so there is no troublesome adjusting of several points or variation in the timing. You always have three units in reserve. With this Thomas outfit your Ford will start easier, have more power, run smoother and give less trouble than is possible with the old timer system. Complete with elevator bracket, distributor, condenser, overhead wiring and wire protector. Easily installed. Fits all Fords. Shipping weight, 6 pounds.

61 F 2195—Outfit..... **$7.95**
61 F 2196—A specially built Spark Coil for use with Thomas System. Shipping weight, 2 pounds..... **$3.95**

Positive Contact Timer for All Fords

This is the best Timer we know of at this low price. It has a positive, accurate contact. A double roller gives greater contact surface with less wear. Spring keeps rollers expanded against the contact points. Aluminum, alloy case. Shipping weight, 12 ounces.

61 F 2381..... **.$1.45**



Wiring Outfits for Fords

A high grade Wire, both primary and secondary, cut to correct lengths, complete with terminals, well insulated where exposed to grease or oil. Furnished in contrasting colors, for easy replacement in proper position.

61 F 2108—Outfit for Fords previous to 1916. Complete with spark plug wires. Shipping weight, 8 ounces..... **47¢**
61 F 2110—Four Spark Plug Wires only. Shipping weight, 4 ounces..... **18¢**
61 F 2125—Lighting and Timer Wires for 1916-19 Fords without starters. Shipping weight, 5 ounces..... **33¢**

The Well Known Sturdy Red Star Timer $1.57

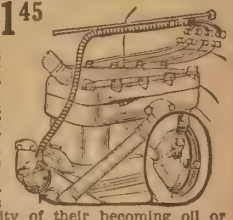
To get all the speed and power out of your Ford, you must use a good Timer. We recommend the Red Star as one of the best obtainable at any price. It will continue to give your Ford an abundance of power and "pep" when others have outlived their usefulness, and you will have greater satisfaction during its life. The roller is made of 100 point carbon tool steel and is accurately fitted so it makes a perfect contact. The race is given a special treatment for months so it will last longer and not wear down like ordinary kinds. The better workmanship and the better materials make the Red Star last longer and give you much better service. Shipping weight, 14 ounces.

61 F 2201..... **$1.57**

Reliable Timer for Fords 53¢

Type most generally used on Fords at an exceptionally low price. Hardened steel roller held in contact with the raceway by a coil spring. Fits all models. Shipping weight, 12 ounces.

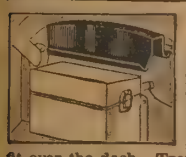
61 F 2133..... **53¢**



53¢ Metal Covered Overhead Wiring Outfit

Prevents wires from becoming oil soaked and rubbing against the fan belt. The wiring covers are in different colors and are specially insulated at the timer. Two fasteners on radiator rod hold wires securely. Fits all models. Shipping weight, 10 ounces.

61 F 2359—Outfit..... **53¢**



Shortproof Wiring Outfit $1.45

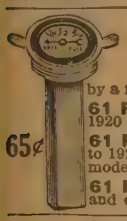
Put on this Outfit and you have ended, for a long time, your troubles from broken, oil soaked wires and short circuits. It consists of a metal ring with a fiber protector which fastens over any standard make timer. All wires are enclosed in a flexible metal covering so there is absolutely no possibility of their becoming oil or water soaked or broken. This outfit overcomes one big source of trouble that causes delays on the road and accidents from backfiring. Ship. weight, 1 lb.

61 F 2119..... **$1.45**

Coil Protector for Fords

Prevents water from seeping in between cowl and dash, which often causes hours of delay until coils dry out. Protects the coils from becoming short-circuited by water. It is made of thin sheet steel, correctly shaped to fit over the dash. Troughs on each side carry water away from the coil. Easy to install. Fits all 1917 to 1924 models. Shipping weight, 6 ounces.

61 F 2582..... **48¢**



83¢ Rain Shield

Prevents water leaking down to the coils or wiring through dash or hinged part of the hood. Durable rubberized fabric material. Top part fits snugly at windshield, and is easily removed. Front fastens over radiator cap. Clips hold sides. Shipping weight, 10 ounces.

61 F 2585..... **83¢**

Gasoline Gauge

A reliable, easily read Gauge that takes the place of the screw cap in the gas tank. Indicator is operated by a float. Shipping weight, 1 pound.

65¢

Easy-Grip Door Handles

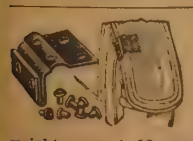
Slip over the Ford handles. They project above the door and can be moved easily with one finger. Do away with fumbling around and injuring the fingers or tearing the clothing. Black enamel finish. Shipping weight, per set, 10 ounces.

61 F 2414—Set of 3. **25¢**

Door Guards

Protect the finish of doors and add to appearance. Imitation leather over sheet metal. Shipping weight, per pair, 1¼ pounds.

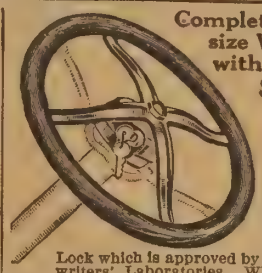
61 F 2696—Per pair..... **27¢**



Robe Rail 50¢

Imitation leather covered; 28 inches long. Complete with nickeled brackets and screws. Fits on back of front seat. Shipping weight, 1 pound.

61 F 1970..... **50¢**



Fender Fix for Fords

Especially shaped heavy steel plates which fit over drop edge and under the fender. Successfully repair broken, cracked or weak fenders. Easily attached. Rivets included. Shipping weight, per set, 10 ounces.

61 F 2040—Set of 4..... **45¢**

Complete Oversize Wheel with Lock $6.95

A combination of the popular easy steering oversize Wheel with a strong Lock which is approved by the Underwriters' Laboratories. When locked the wheel is held rigid without having any control of the front wheels making it impossible for a thief to drive your car away. You can easily put on this outfit as it replaces the gear cover under the steering wheel. Our price is less than half that often asked for such combinations. Shipping weight, 5 pounds.

61 F 2219—Outfit..... **$6.95**

$1.25 Warner Wheel Tilt

Simply remove the steering wheel and put on the Wheel Tilt. The wheel is then attached to tilting device. It makes your steering wheel into a tilting wheel so you can easily get into or out of the driver's seat, as the wheel raises up out of the way. Wheel is rigid when in driving position. Light pull on catch releases for tilting. Can be put on in a few minutes. Needed on all Fords—open or closed models and it is designed to fit all regular Ford or special oversize steering wheels. Ship. weight, 1½ pounds.

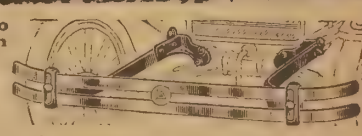
61 F 2448..... **$1.25**

$1.95 Oversize Steering Wheel

Extra good value 17-inch, corrugated walnut finish rim with strong, highly polished aluminum spider. Makes steering easier and safer than smaller type as it gives much greater leverage so it is not necessary to turn it so far. An exceptional value. Fits all Fords. Shipping weight, 3½ pounds.

61 F 2077..... **$1.95**

$3.50 Simplex Steering Wheel Lock



Approved by the Underwriters' Laboratories

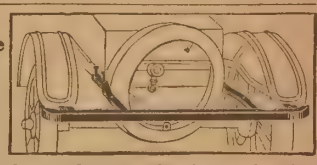
Don't wait until a thief has taken your Ford—put on a Simplex and let your mind rest. The latest model Simplex Lock has been **approved by Underwriters' Laboratories**—so Fords having it may be insured. When locked the steering wheel is held rigid with no control over front wheels. Simplex Lock simply replaces gear cover under the steering wheel, and may be put on in a few minutes with ordinary tools. Shipping weight, 1½ pounds.

61 F 2112..... **$3.50**

New Style Two Bar Vanadium Spring Steel Bumper for Fords $8.25

The very latest and most attractive style Bumper with two parallel bars that give greater protection in case of collision. The wide spread of the bars prevents most other bumpers sliding under or over which often happens with other types. The cross bars are heavy, oil tempered steel, 1½ inches wide. They are fastened to the heavy cross frame by extra strong clamps. No drilling. We feel that this is the best bumper value obtainable for Fords and are sure you will agree. Shipping weight, 35 pounds.

161 F 1961—Front; black finish..... **$8.25**
161 F 1963—Front; nickel finish..... **9.65**
161 F 1962—Rear; black finish..... **8.25**
161 F 1964—Rear; nickel finish..... **9.65**



Vanadium Steel Single Bar Bumper

A much stronger than usual single bar Bumper with an oil tempered crossbar, 2 inches wide. Improved design attaching clamps hold the bumper firmly to the front cross piece of the frame. Shipping weight, 30 pounds.

161 F 1981—Front; black finish..... **$4.95**
161 F 1983—Front; nickel finish..... **6.75**
161 F 1982—Rear; black finish..... **4.95**
161 F 1984—Rear; nickel finish..... **6.75**

Rear Bumper and Fender Brace

A strong bar of T shaped steel which is attached to the rear cross piece of the chassis. Provision is made at the ends of the bumper for bolting the drop edge of the fenders which holds them in shape and prevents breakage and rattles. Black enamel finish. Furnished complete. Shipping weight, 18 pounds.

161 F 2140—For all touring, roadster, two-door sedan and 1923 and older coupes..... **$3.00**
161 F 2141—For 1924 coupes only..... **3.00**

Fender Braces

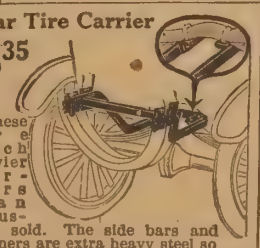
Use these strong, adjustable steel Braces which are easily clamped over each fender and tightened by a turnbuckle that pulls and holds them in shape, and save your fenders. Prevents vibrating, rattling and breakage, making the car look better besides saving you money. Black enameled finish so it looks very neat. Fits all models. Shipping weight, 2½ pounds.

61 F 2121—Front..... **55¢**
61 F 2122—Rear..... **55¢**

Front Cross Member Brace 95¢

A necessity that often saves ten times its price. Made of heavy steel rod with special fasteners so it can be put on in three minutes. No drilling. Prevents breaking and sagging of cross member, protects radiator against splitting and leaking and holds fenders up in shape. Shipping weight, 2½ pounds.

61 F 2060..... **95¢**



Rear Fender Braces to Fit All Models

These Braces made of stamped steel. They strengthen and hold fenders up in shape and prevent rattling. Bolted to the fender and screwed under the corner of the body with heavy screws. Bolts and screws included. Shipping weight, per pair, 2½ pounds.

61 F 2307—Per pair..... **35¢**

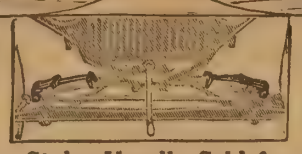
Rear Tire Carrier $3.35

These are much heavier Carriers than are usually sold. The side bars and fasteners are extra heavy steel so the carrier becomes like a solid part of the car and will not rattle or shake to pieces. Easily attached in a few minutes without drilling or loosening the body. Shipping weights: 19 and 21 pounds.

161 F 1859—For one tire..... **$3.35**
161 F 1860—For two tires..... **4.15**

Strapless Tire Carrier 90¢

Has no unsightly straps, chains or cables to break or wear out. To remove tire simply unlock the padlock, lift up on the tire and it is free. Easily slipped back into place. Steel throughout. No drilling of body to attach, as you simply use holes already there. Will not fit closed models. Padlock not included. Shipping weights: 4 and 5 pounds.



61 F 1925—For one tire..... **$ .90**
61 F 1926—For two tires..... **1.45**

Stillson Wrenches grip firmly and release instantly. They are shown on Page 517

Supplies for Fords — That will help to make them Smoother Riding and Easier to Drive

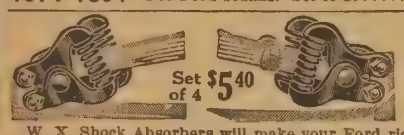
Set of 4 **$6.95**

Smooth Riding Shock Absorbers

Cantilever Style—Usually Sold for $12 to $18

If you were to look through all the catalogues and visit auto supply stores everywhere, we are sure you would not find another such remarkable bargain in Shock Absorbers for Fords as this. These cantilever style shock absorbers add several feet of spring action to the regular Ford springs. The outer end of the absorber rests on the upper part of the regular springs and has bearings that roll freely over the surface so these absorbers do not in any way affect the downward action of the regular springs but help greatly by having a snubber action to prevent severe rebounds and jumping. There is no side swaying or tipping with these absorbers. If you do not have shock absorbers on your Ford you do not get greatest riding comfort. Order this set today and if after examining them you do not agree this is the biggest bargain you ever saw in shock absorbers, return them and we will refund your money and all transportation charges. Shipping weight, per set, 24 pounds.

461 F 1850—For all touring, roadster and coupe. Set of 4.**$6.95**
461 F 1851—For all sedans. Set of 4..... **6.95**

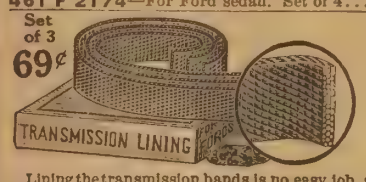


Set of 4 **$4.25**

Improved Steelbilt Shock Absorbers for Fords

These Improved Absorbers are stronger, smoother riding, and far better in every way than any near this price. Patented features allow the easy acting coil springs to open further and more freely than any others ever could; so you may ride over the roughest roads without being jolted about. Your Ford will hold the road better and steer easier; the tires will last longer and repair bills will be less—for the soft, easy, smooth action of these eight-coil springs prevents even the little bumps from jolting the car and passengers. Special fastenings prevent the springs from coming loose. Improved malleable iron perches prevent springs hitting the brake drums. We know these absorbers are so much better than any others of this type you've seen or tried, that we want you to prove every word we've said by purchasing a set and using them on your car for two months—60 full days. If you are not fully satisfied, send them back and we will return your money and all transportation charges. You may put on these absorbers yourself as there are no holes of any kind to drill. Shipping weight, per set, 18 pounds.

461 F 1893—For touring cars, roadsters and coupes. Set of 4.....**$4.25**
461 F 1894—For Ford sedans. Set of 4..... **4.25**

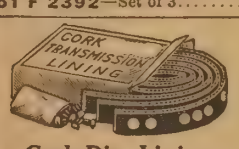


Set of 4 **$5.40**

Easy Acting W. X. Shock Absorbers

W. X. Shock Absorbers will make your Ford ride as smoothly as more expensive cars with longer wheel bases. A wrench is the only tool needed for installing them. Quickly and easily put on. Owing to the changing fulcrums of the levers from normal to full load, greater flexibility of action is obtained. This feature, combined with the high grade compression springs at each corner of the car, assures easy riding and makes breaking impossible. Stop on the lever prevents regular springs touching axle. Shipping weight, per set, 14 pounds.

461 F 2173—For touring, roadster and coupe. Set of 4.**$5.40**
461 F 2174—For Ford sedan. Set of 4..... **5.40**



Set of 3 **69¢**

Wardgrip Transmission Band Linings for Fords

Lining the transmission bands is no easy job, so it always pays to use very best Linings. Here they are—we guarantee Wardgrip Transmission Linings are one of the very finest, longest wearing sets of linings obtainable for Fords. They are made of extra fine quality, long staple cotton which is firmly and closely woven. After great care in weaving, Wardgrip Linings are chemically treated so they last longer and are not affected by oil or heat nor glaze like untreated linings. When you step on the pedals the car stops with a positive smooth action which will delight every Ford owner. Rivets included. Shipping weight, per set, 1 pound.

61 F 2392—Set of 3.....**69¢**

Cork Disc Linings

Holds securely but does not cause grabbing, jerking or chattering when starting or stopping. The cork lessens wear on the extra quality fabric. Rivets included. Ship. weight, per set, 14 ounces.

61 F 2078—Set of 3....**98¢**

Challenge Linings

Good grade Linings composed almost wholly of long fiber material impregnated with a compound which lessens action of oil, grease or heat. Rivets furnished. Ship. weight, per set, ¾ pound.

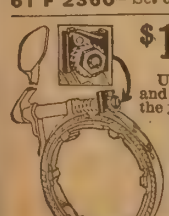
61 F 2439—Set of 3....**45¢**

$4.95

Denonco Non-Chatter Transmission Bands

Their patented construction removes the chatter, jumping and jerking. Hinged so they take hold evenly all the way around the drums and do not grab in spots. Faced with high quality lining. Linings can be renewed without removing the upper half of transmission case. Shipping weight, per set, 3½ pounds.

61 F 2360—Set of 3.....**$4.95**

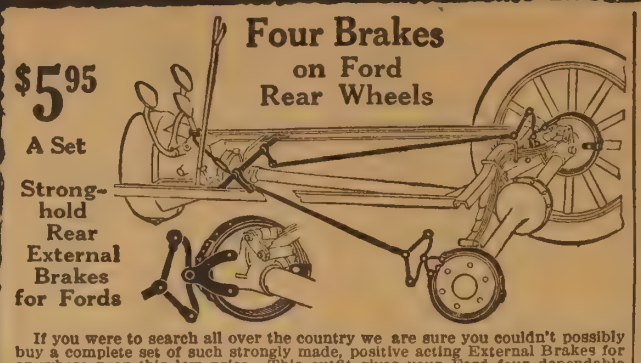


31¢

Transmission Tool

A very useful tool when relining transmission bands. Clamp holds the bands in position and the wrench handles the adjustment nuts. Wrench attached to clamp by a chain so it can not be dropped into crank case. Shipping weight, 7 ounces.

61 F 2366.....**31¢**



$1.85 A Pair

Transmission Band Adjusters

Use these automatic Transmission Band Adjusters and end the trouble of frequent adjustments and also the jumping and jerking caused by loose bands. Just put on these adjusters and as the lining wears the pedal goes down a little lower and a dog drops in ratchet automatically turning the adjusting nut ahead very slightly. This action keeps the bands just right at all times without your ever giving them a thought. You can put on these adjusters easily. They fit both brake and reverse bands. Shipping weight, pair, 6 ounces.

61 F 2130—Per pair.....**$1.85**

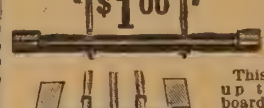
$5.95 A Set

Four Brakes on Ford Rear Wheels

Stronghold Rear External Brakes for Fords

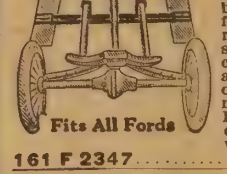
If you were to search all over the country we are sure you couldn't possibly buy a complete set of such strongly made, positive acting External Brakes for anywhere near this low price. This outfit gives your Ford four dependable brakes direct on the rear wheels, like those used on the highest priced cars. You can stop your Ford quickly or slowly without the slightest grinding, chattering or jerking, with just an easy push on the brake pedal. These brakes completely do away with the troublesome and expensive adjusting of transmission brake bands. Connected with ¼ inch steel rods. These are one of the very finest constructed outfits you can buy regardless of price as many of the parts are best drop forgings. Can be installed in a short time—no holes to drill—lined with a high quality brake lining. Special steel rods equalize braking force to each wheel. Shipping weight, per set, 12 pounds.

461 F 1854—Complete set.....**$5.95**



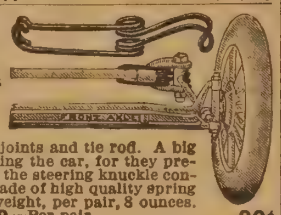
53¢ A Pair

Rear Axle Grease Retainers for Fords



Rear wheel grease leaks are expensive, dangerous and very dirty. When grease works out onto the brakes it allows them to slip which may cause a serious accident. These Retainers fit over the axle shafts and have a screw feed action that carries the grease back toward the differential. Ship. weight, per pair, 11 oz.

61 F 2515—Per pair.....**53¢**



$1.00

Running Board Support

This Support holds up the running boards, braces the fenders and stops the rattling. Brace consists of angle steel crosspiece with hooks and two short pieces of board to put beneath metal steps. Has adjustable clamps. Shipping weight, 13 pounds.

161 F 2347.....**$1.00**

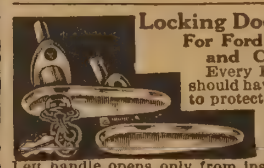
Steering Rod Silencers

Clamps around the steering joints and tie rod. A big help in steering the car, for they prevent slack in the steering knuckle connections. Made of high quality spring steel. Ship. weight, per pair, 8 ounces.

61 F 2499—Per pair.....**20¢**

Brake Rod Silencers **20¢**

These Silencers hold both front and rear connections of the brake rods firmly and reduce the wear, besides doing away with the annoying rattle. Shipping weight, per set, 4 ounces.

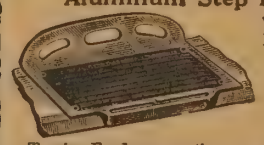


61 F 2500—Set of 4.....**20¢**

Beauty Hood for Fords

If your old Hood is damaged, rusty or worn out, replace it with this new Beauty type which fits all 1917 to 1923 Fords. Many Ford owners use it to dress up the car, as the small flares look neater. The many additional side openings make it better looking and provide greater outlet for the hot air around the motor. It will help to keep your motor cool. Fits perfectly. Lustrous black, enamel finish, baked-on. Our price will save you money. Shipping weight, 18 pounds.

461 F 2354.....**$3.85**

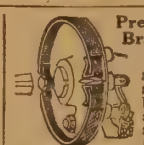


Locking Door Handles For Ford Sedans and Coupes

Every Ford closed car should have these handles to protect the car against tinkering and prevent theft of tools, clothing, robes, etc. Left handle opens only from inside. The right handle has two keys. No screws exposed. Easily put on. Made of highly polished white metal. Shipping weight, per pair, 2 pounds.

61 F 2690—Per pair.....**$1.85**

Aluminum Step Plates



With Ribbed Rubber Mats

$1.59 A Pair

To give Ford owners the same attractive Step Plates as used on other cars we have had a special plate designed with a grooved section that fits flush over the raised edge of the running board. It consists of an aluminum frame with a foot scraper and a serviceable ribbed rubber mat. Size, 7½ inches wide; 9¼ inches long. Shipping weight, per pair, 3½ pounds.

61 F 3501—Per pair.....**$1.59**

Pressed Steel Brake Shoes

Exceptionally strong and unbreakable, saving you shoe replacement cost. Lined with high quality brakeband lining. Prevent grabbing—but will lock wheels if necessary. Lining quickly replaced when worn. One-piece shoes. Best steel. Fit all Fords 1909-1924. Shipping weight, per pair, 4 pounds.

61 F 2512—Per pair.**$1.25**

38¢ A Pair

Iron Brake Shoes

Replaces Part No. 2566. Shipping weight, per pair, 4¼ pounds.

61 F 2824—Per pair.**38¢**

Rebound Check Spring

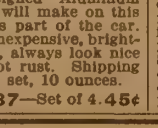
Prevents much spring breakage and shocks. Springs are made of oil-tempered steel attached to strong snubber webbing straps. No holes to drill. Fits all Ford models. **For rear only.** Shipping weight, per pair, 3½ pounds.

61 F 2076—Per pair.....**$1.45**

Radius Rod Anti-Rattling Ball Socket

Automatically takes up wear. Patented spring holds the socket against the ball doing away with the frequent adjustments necessary with regular old sockets. To install you simply take off old socket and put this in its place. Shipping weight, 8 ounces.

61 F 2503.....**23¢**



Steering Column Brace **49¢**

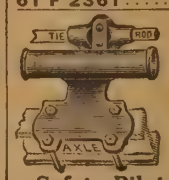
Strengthens and makes steering column rigid. Steering wheel is often used as handle in getting in and out of car. This frequently bends or breaks steering column. Finished in black enamel and furnished with bolts. Fits all models except the 2-door sedan. Shipping weight, 14 ounces.

61 F 2326.....**49¢**

Set of 4 **45¢** Beauty Type

Aluminum Hub Caps

Ford owners who take pride in their cars will enjoy the delightful change these neatly designed Aluminum Hub Caps will make on this conspicuous part of the car. They are inexpensive, brightly polished, always look nice and will not rust. Shipping weight, per set, 10 ounces.

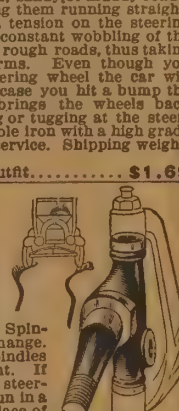


61 F 2687—Set of 4.**45¢**

Columbia Irreversible Steering Gear **$4.35**

The Columbia Steering Gear eliminates that continuous jerking and vibrating of the Ford steering wheel which causes tiredness and a strain on the arms. Rough roads will not bother you as the road shocks are held back by the gear. The steering wheel become firm, steady and safe. This is a genuine irreversible safety gear that replaces the Ford steering gear at the bottom of the steering column, and is entirely different from the ordinary attachment which connects to the axle. There is no machine work necessary to install the Columbia—it can be put on by the average owner in a short time. Instructions included. Shipping weight, 9 pounds.

61 F 2361.....**$4.35**



Safety Pilot Steering Device **$1.69**

Thousands of Ford owners have found this Safety Pilot Steering Device a wonderful driving aid, as it holds the front wheels in a straight line, even though you are traveling over rough, sandy or muddy roads. It saves the tires by keeping them running straight. An inclosed spring gives a tension on the steering connections that eliminates constant wobbling of the wheels when traveling over rough roads, thus taking the strain off the driver's arms. Even though you take your hands off the steering wheel the car will keep traveling straight. In case you hit a bump the Safety Pilot automatically brings the wheels back into line without any pulling or tugging at the steering wheel. Made of malleable iron with a high grade spring so it will give long service. Shipping weight, complete outfit, 5 pounds.

61 F 2287—Complete outfit.....**$1.69**

Rajo Spindles

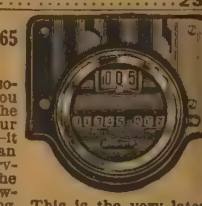
Now you can drive your Ford over the roughest roads, over bridges and car tracks, or through deep sand and mud, with just a light touch of the hand instead of the tight gripping and back straining old way. The new Rajo Self Steering Spindles make this remarkable change. They do it because the spindles are offset instead of straight. If you take your hands off the steering wheel, your Ford will run in a straight line. Takes the place of Ford spindles—no drilling. Shipping weight, 8 pounds.

61 F 2111—Per pair.**$5.25**

Universal Radius Rod Support

A real Radius Rod Support for Fords. Made of heavy gauge angle iron, it will stand severe strains without breaking or bending. Every detail in its construction has been thoroughly worked out. By strengthening and bracing the front it prevents vibration of the front axle and makes steering easier. It helps prevent bending of the radius rod and axle, which often cause serious accidents. New type clamps over the axle. Fits all Fords. Easily installed with a monkey wrench. Shipping weight, 6 pounds.

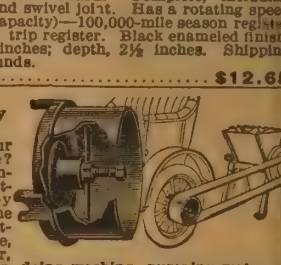
461 F 4078.....**83¢**



Anti-Rattling Steering Gear Ball Sockets **23¢** Pair

For steering gear connecting rods. Take the place of steel caps. Spring behind pivots takes up the wear and eliminates all rattle. When once attached no further adjustment needed. Fully dependable. Shipping weight, per pair, 4 ounces.

61 F 2502—Per pair.....**23¢**



Stewart Speedometer **$12.65** for Fords

A Speedometer is absolutely essential for you to know if you get the proper results from your gasoline, oil and tires—it is the only way you can accurately check up service. Then there is the added advantage of knowing how fast you are going. This is the very latest model, fitted with improved colored dial. Register serves as a reminder to oil or grease the various parts of the motor or chassis at regular intervals. Special charts furnished. For all Fords that have instrument or cowl board. Complete, including flexible shaft and swivel joint. Has a rotating speed dial (75-mile capacity)—100,000-mile season register and a 100-mile trip register. Black enameled finish. Diameter, 3⅝ inches; depth, 2½ inches. Shipping weight, 11 pounds.

61 F 2197.....**$12.65**

Economy Power Pulley for Fords

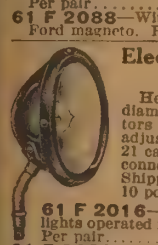
Why let your Ford stand idle? Use this inexpensive, easily attached Pulley for running the cream separator, grindstone, ensilage cutter, or for churning, doing washing, pumping water or sawing wood. Equal to 8 horse power gas engine. Outfit consists of an iron pulley, 10 inches in diameter, 5 inches wide, which slips over rear hub and is held by special hub cap. Jack up the wheel and your Ford is ready for work. Belt not included. Shipping weight, 24 pounds.

461 F 2317—For Ford cars.....**$4.65**
461 F 2188—For Ford 1 ton truck; 12-inch pulley. Shipping weight, 35 pounds.....**$6.95**

Everything in Radio, without the usual radio profits, is shown on Pages 444 to 449

Improvements for Fords

At Prices Which Will Save You Many Dollars



Beautiful Drum Type Headlights for Fords

$6.35 A Pair

These new Drum Type Lights will dress up your Ford in a most pleasing manner. They are exactly the same style as the lamps now furnished on the most expensive new model cars. The body of the lamp is one piece with handsome brilliant black enamel finish. A wide attractive nickel and black rim holds the nonglare lens securely so they will not turn. Diameter, 7½ inches. In every way these lights are of superior construction. Outside operated focusing device. Fit all models 1915 to 1923. Shipping weight, per pair, 12 pounds.

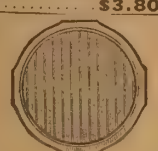
61 F 2087—With 6-volt bulbs. Per pair.....**$6.35**

61 F 2088—With 9-volt bulbs for Ford magneto. Per pair.....**$6.35**

Electric Headlights for Fords

Heavy French roll doors; diameter, 9 inches; reflectors highly silver plated, adjustable focusing device; 21 candle power. Ediswan connections. All black. Shipping weight, per pair, 10 pounds.

61 F 2016—With 9-volt bulbs, for lights operated from magneto. Per pair.....**$3.80**



61 F 2032—With 6-volt bulbs. For Fords equipped with 6-volt battery. Per pair.....**$3.80**

McKee Lite

A new fluted design Lens that meets the requirements of all state laws. It breaks up headlight glare yet gives excellent driving light. Square sides so lens can not turn. Fits all Ford lamps. Ship. weight, per pair, 3 pounds.

61 F 3420—Per pair...**59¢**

Hudson Lens

Very similar to new type furnished on many Fords. Complies with state laws. Breaks up the blinding glare yet gives a clear driving light. Squared sides prevent turning. Size, 8⅛ inches. Shipping weight, per pair, 2¼ pounds.

61 F 6862—Per pair.....**38¢**

Electric Tail Light for Fords

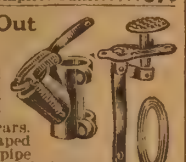
Ruby semaphore lens; white side light. Black enameled shell. Shipping weight, 12 ounces.

61 F 2022—For Fords with prop bolt; 18-24 bolt double contact bulb, for magneto.....**60¢**

61 F 2026—6-volt single contact bulb for battery.....**50¢**

Double Bulb Electric Tail Light for Fords

The Lamp is designed so that when the car is idle a throw of a switch connects lamp with two dry cells and when car is running current is furnished by the magneto. Equipment includes one 3-volt bulb, one 18-volt bulb, 18 feet of wire, one switch and one terminal for connecting to dry cells. Light has 3-inch ruby lens with clear light at side to illuminate license. Dry cells not included. Shipping weight, 2 pounds.



61 F 2020.....**$1.50**

Cut Out Outfit for Fords

Helpful for all hill climbing and hard pulls as it eliminates back pressure; also aids in testing the motor, as each explosion is distinct. Attached by cutting V-shaped hole in exhaust pipe. Considering the advantage of having a cut out no Ford owners should be without this one. Furnished complete with cut out valve, lock pedal spring and cable. Shipping weight, outfit, 2½ pounds.

61 F 2333—Complete outfit.....**67¢**

Muffler Cut Out for Fords

Extra heavy and serviceable Cut Out, much better than type generally used on Ford cars. Simply cut a V-shaped hole in the exhaust pipe and attach with special clamps furnished. Made of strong casting. A coil spring holds the cut out closed when not in use so that there is no hissing noise from the explosions. Shipping weight, outfit, 3 pounds.

61 F 2959—Complete outfit..**$1.17**

Dependable Vibrator Type Horn for Fords

$1.95

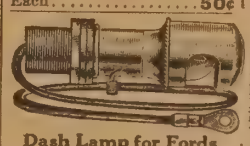
A reliable sure acting Horn with a deep clear tone similar to that of horns used on the larger cars. It is so sensitive that the slight touch of the button gives a warning loud enough to clear the road. It is made of splendid grade materials and so carefully fitted that very little current is required. For all Fords with batteries. Special cylinder head bracket furnished. Ship. weight, 3 pounds.

61 F 2047.....**$1.95**

Trunk and Luggage Carrier for Fords

An entirely new model strong steel Carrier that fits the rear of Ford touring cars, with or without rear tire holders. The base is easily bolted to the body sill and heavy steel folding rods attached to bow rests to brace and hold it in position. When not in use it folds up into small space against the back. Carrying space is 33 by 15 inches so it will hold a good size trunk, camping outfit or a large quantity of bundles. An everyday necessity. Black enamel finish. Shipping weight, 14 pounds.

161 F 1858.....**$3.35**



Headlight Parts

Fit perfectly on all lamps for 1915 to 1924 models. Doors complete with glass. Black enameled rims. Shipping weight; Doors, 2 pounds; reflector, 1½ pounds.

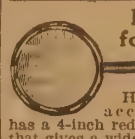
61 F 2003—Door, all black (replaces Ford No. 6594X). Each.....**39¢**

61 F 2025—Reflector. Highly polished, silver plated (replaces Ford No. 6585X). Each.....**50¢**

Dash Lamp for Fords

For wood or steel dash, made especially for Fords. Convenient, useful and easy to install. Gives plenty of light for you to see the speedometer or clock. About two inches long. Has self contained switch; 6-8 volt bulb included. Single contact. Shipping weight, 6 ounces.

61 F 2029.....**49¢**

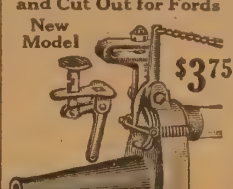


Friction Tape

12¢ A Roll

A fine quality fresh hold-tight Tape for insulating wire and emergency repair work. Always carry a roll in your car. Four-ounce roll, ¾ inch wide. Shipping weight, 6 ounces.

61 F 1488—Per roll.**12¢**



Mirror for Fords

65¢

Helps prevent accidents. It has a 4-inch reducing mirror that gives a wide range view. Special bracket fastens solidly to Ford windshield side rods on all open cars. Shipping weight, 1¼ pounds.

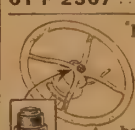
61 F 2023—For 1923-24 Fords; also Star cars....**65¢**



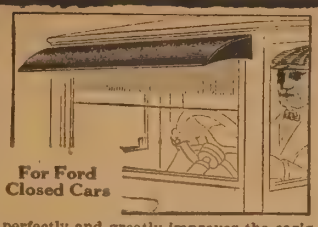
Combination Muffler and Cut Out for Fords

New Model

$3.75

A very strongly built combination one-piece Muffler with automatic relief valve which will withstand terrific explosions such as would blow ordinary mufflers to pieces. Fitted with a cut out for testing the motor. Body of muffler is a one-piece casting with no bolts, plates, nuts or rivets to work loose or rattle. Attached with ordinary wrench. Complete with foot pedal and screws. Shipping weight, 6½ pounds.

61 F 2367.....**$3.75**



Never Miss Horn Button

30¢

A handy, easily touched Horn Button built right into a strong nut which replaces the present nut on top of the steering wheel. Fits all Fords and Dodges. Complete with wire. Shipping weight, 3 ounces.

61 F 2082.....**30¢**

Enameled Steel Visor

If you had this Visor on your car for 10 minutes you would never want to drive again without it. It is designed and shaped especially for Ford Sedans and Coupes. It fits perfectly and greatly improves the car's appearance. During the day it completely shades your eyes from the bright sun—at night it gives considerable protection against dangerous headlight glares. It keeps the windshield much clearer. Trough carries the water to the sides. It is strongly constructed of the highest grade rustproof Armco 20-gauge steel. Beautiful, long lasting black enamel finish, baked on. Complete with screws and instruction. Easily attached. Size, 10 by 40 inches. Shipping weight, 7½ pounds.

61 F 9576.....**$2.35**

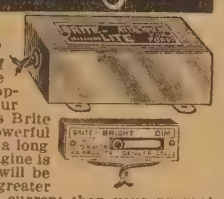
Visors for Ford Open Cars are shown on Page 463

Stoplight for Fords

There are so many accidents nowadays that every safety device that will aid in preventing them should be used. This automatic signal device warns the drivers back of you without requiring any attention. Switch connects to foot brake or clutch pedal so when you press the pedal a strong, bright light is flashed instantly. Diameter, 4¼ inches. High grade single contact bulb. Waterproof type switch. Ruby lens. Shipping weight, 2 pounds.

61 F 6781—6-volt type **$1.15**

61 F 6789—For Ford magneto.....**$1.15**

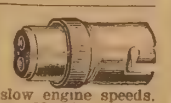


200 Per Cent More Light

For Ford Headlights Operated from Magneto

Don't take chances of running off the edge of the road, hitting culverts or dropping in holes just because your lights are faint. Put on this Brite Lite Intensifier and have powerful lights that show up the road a long ways ahead even when the engine is running slow. With it you will be able to drive faster with greater safety. It requires no more current than your present magneto current lights and will save you many a burned out bulb. With this equalizer you can always have one good light if the other is broken or burned out. It is a self contained, rugged, foolproof unit and is guaranteed to remain in perfect order during the life of the car. You can place it on your car in a few minutes: no wires to cut, no adjustments or attention after it is on your car. For Ford cars with magneto lighting only. Shipping weight, 1¼ pounds.

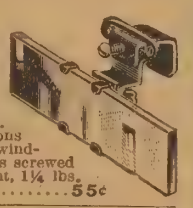
61 F 2057—Without dimming switch; for use only on 1915, 1916 and 1917 model Fords.....**$1.25**



61 F 2058—With dimmer. Absolutely necessary for use on 1918 to 1924 model Fords. Dimmer type may also be used on 1915, 1916, 1917 model Fords....**$2.00**

More Lite Plug for Fords

For lights operated by the magneto. Attaches in right hand headlight socket. More than doubles the volume of light at all engine speeds and provides strong, reliable light for slow engine speeds. Keeps one bulb alive if other burns out. Nothing to wear out. Shipping weight, 3 ounces.



61 F 2056.....**29¢**

Rear Vision Mirror

A beautiful, new style, heavy type Mirror that fits all open or closed Fords. Has a double adjustable bracket so the mirror may be set at any angle or be raised or lowered to give a good clear view through high or low rear window lights. A quick glance shows conditions back of you. Clamps at top of windshield inside of all open cars, or is screwed above on closed cars. Ship. weight, 1¼ lbs.

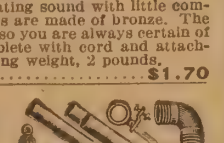
61 F 7084.....**55¢**

Loud Tone Compression Whistle for Fords

$1.70

This Whistle gets prompt attention when the regular horn would not be heard. Special attachment fits ½ inch spark plugs, making it suitable for Fords. The bell of the Whistle is made of aluminum and so shaped that it gives a penetrating sound with little compression. The attaching parts are made of bronze. The valve is the self cleaning type so you are always certain of a strong, clear signal. Complete with cord and attachment for spark plug. Shipping weight, 2 pounds.

61 F 3445—Outfit.....**$1.70**



Four-Tone Melody Chime for Fords

$5.25

Will clear the road for you quickly because of its distinctive sound. Tone is varied by regulating the pressure on the dash control lever. It is well made of brass, nickel plated. The malleable iron valve fits Ford exhaust pipe without removing the pipe. Outfit includes the chime horn, valve, nickel plated dash control lever, wire cable, pulley and attachment for fitting all Ford models. Ship. weight, outfit, 5½ lbs.

61 F 2384—Outfit.....**$5.25**

Motor Driven Electric Horn

A better, more effective Horn for all Ford cars with batteries. It gives a loud clear warning. A motor rotates against the horn diaphragm. Tone can be varied by a simple adjustment. It operates from 6-volt storage battery. Mechanism securely enclosed, making it dustproof and waterproof. It is equipped with a special cylinder head bracket to attach to all Fords. Black Enamel finish. Length, 10¾ inches. Shipping weight, 5 pounds.

61 F 2034.....**$2.85**

$54.95

Make Yours a Mile a Minute Ford

Rajo Overhead Valve Outfit

Speed 60 miles an hour. That is what your Ford can do with a Rajo Head, using the regular gears. There is a lot of satisfaction in having a Ford that will take you along the road and over hills as fast as you can drive with safety. The Rajo overhead valves increase the power of Ford motors 8 to 14 horsepower. Gives a pickup from 5 to 40 miles in 14 seconds. You can fill the car with friends and go up steep hills or through deep sand and mud in high gear in a way that will open the eyes of expensive car owners. The oversize overhead intake valves produce this extra power. It is so simply constructed that the average driver can put it on in a short time. Furnished complete with hot spot manifold which proves a big aid in saving gasoline. Shipping weight, 70 pounds.

161 F 1855.....**$54.95**

"Happy Boy" Sport Body for Fords

$34.50

A beautiful, racy, streamline Sport Body. Whether it is for pleasure or business, or both, you will be proud to drive it. Ample room for two people. The frame is of select wood, and the body is 22 gauge cold rolled anti-rust steel with a fully stuffed imitation leather upholstery. The radiator shell and hood furnished fit over the regular Ford radiator. Use the regular Ford fenders and running boards. Has a 20-gallon gasoline tank back of which is a large roomy compartment for luggage and tools. It has a base paint in standard battleship gray color. Total length of body, 115 in. Windshield, top and disc wheels are not included. **When ordering, be sure to state year of car.** Shipped knocked down and crated to save you freight. Shipping weight, 150 pounds.

261 F 5040—Body only; without Hood or Radiator Shell. State year of car.....**$34.50**

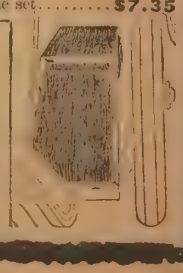
Steel Discs for Ford Wheels

You can now give your Ford a sporty, trim appearance for about one-tenth the price of regular disc wheels. These heavy gauge, specially curved brilliant black enameled steel discs fit snugly over the hubs. They not only look more stylish but are also much easier to keep clean. Quickly attached. Set of 8 discs to cover both sides. **Be sure to state if wheels are plain or demountable; also if they have four or five lugs.** Shipping weight, per set, 22 pounds.

261 F 5003—Set of 8.**$8.65**

Shipped from Northern Illinois

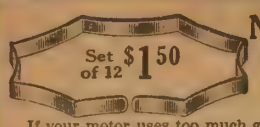


Give your Ford that low rakish appearance now so popular in new model cars. This set of strong steel parts drops the body of any Ford 3½ inches so the car has a sportier appearance, rides and steers easier and will take corners at higher speed with safety. Set of simple instructions shows any owner how he can do the job himself. Shipping weight, per set, 12 pounds.

61 F 5002—Complete set.....**$7.35**

New Sport Trunk

Handsome and substantial water and dustproof Trunk for touring cars and sedans. Equal of many trunks used on the highest priced sport model cars. Made of select wood with imitation leather covering. It is 32 inches long, 16½ inches high and 11¼ inches wide at the bottom. Strong nickel plated lock. Special fittings furnished to hold the trunk and also supports regular Ford tire carrier back of trunk. Tire carrier not included. Shipping weight, 40 pounds.

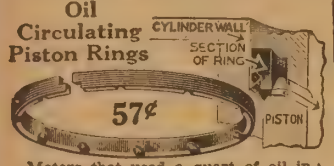


161 F 2504—Complete.....**$13.65**

Parts for Fords

All Parts shown on these pages are guaranteed to be fine quality and to fit perfectly. The parts numbers are the same as those used by Ford, but the parts are not made by the Ford Co.

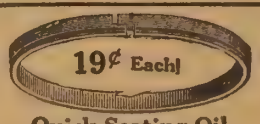
Nu-Power Piston Innerings



Save Gasoline and Oil
Save Big Repair Bills
Stop Noisy Piston Slaps

If your motor uses too much gasoline and oil, if your cylinders are worn and the pistons slap, use these Nu-Power Innerings. Save the expense of reboring, fitting new pistons and rings. Simply place the Innerings under any make of one-piece piston rings. They expand the piston rings outward against the cylinder walls so you are certain of increased power and a big saving in gasoline and oil. They completely stop the annoying rattle of piston slaps. Made of fine imported steel. Guaranteed not to lose their springiness. Use one innering under each piston ring. Innerings also may be used under piston rings up to 3/64 inch oversize. Shipping weight, per set, 6 ounces.

61 F 2043—Set of 12 ..... **$1.50**



Oil Circulating Piston Rings

Motors that used a quart of oil in 50 miles have been fitted with these rings and then have been driven 300 miles and often more on a quart. They will save oil and gasoline and stop oil pumping and fouling of plugs in any motor where the cylinders are not out of round. **Only one needed on each piston.** Simply drill a few holes through the piston at the lower groove and put on this ring. The knife edge of the oil groove collects surplus oil on the down stroke and drains it back through special slots into the crankcase. Instructions included. Shipping weight, each, 3 ounces.

Adjustable Center Bearing—Takes Up End Play

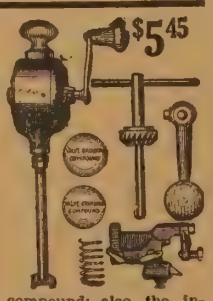
$2.15

When the Ford main Bearing wears at the ends it allows the crankshaft to shift back and forth. This separates the coils and magneto which causes poor lights, hard starting, unnecessary noises, and throws the pistons, connecting rods and crankshaft out of line with the cylinders causing undue wear and expensive repairs. This patented bearing is adjustable endwise so it takes up this troublesome end play. Easily installed and adjusted without removing motor. Shipping weight, 2 pounds.

61 F 2120 ..... **$2.15**

Valve Grinding Supplies

Complete Valve Grinding Set for Fords



$1.25

A complete outfit for putting your Ford valves in the very best condition. This Set will give very good service. This low priced outfit includes swing type valve grinder; valve lifting tool; valve refacing tool; valve seat reamer; a spring and grinding compound. Shipping weight, outfit, 3½ pounds.

Wonder Wrench Set

The handiest and most compact ratchet Wrench Set we have ever examined. It contains 8 exceptionally strong hardened turned steel sockets in the sizes most generally used, a reversible ratchet handle, a sturdy L handle and a short extension rod. The whole outfit fits in a neat metal case about 2 by 1¼ by 8½ inches so it may be carried in a very small space. Shipping weight, 2½ pounds.
61 F 9501.....**$1.65**

Triple Socket Wrench

One of the most useful Wrenches you can buy. It has two 5/8 inch hexagon sockets and one ½ inch hexagon socket. It will fit the axle housing bolt and nut, brakeshoe support bolt, cylinder head cap screw, dash bracket to dash bolt and nut, driveshaft roller bearing stud and nut, water cylinder inlet connection cap screw, water cylinder outlet connection cap screw. Shipping weight, 1 pound.
61 F 2440.....**25¢**

Double Socket Offset Wrench 35¢

Socket sizes, 5/16 and ¾ inch; handle, 9 inches. Used on brakeshoe support, crankshaft (main) bearing, fan bracket, steering gear post, steering post bracket, spindle bolt and nut, lamp bracket nuts, front spring clip nuts and the universal ball cap. Shipping weight, 1¼ pounds.
61 F 2377.....**35¢**

Foot Brake and Reverse Ratchet Wrench

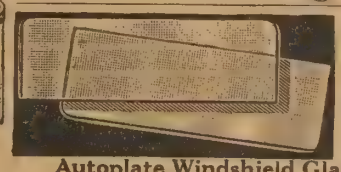
With this wrench you simply slip the end over the adjusting nut and work back and forth. The ratchet does away with necessity of removing the wrench, so you may do the job more carefully and in quicker time. Shipping weight, ½ pound.
61 F 2383.....**29¢**

For Dependable Supplies for Fords Buy at Ward's

Set of 6 Drop Forged Wrenches

This set consists of 6 Wrenches with 12 openings, specially made to fit every nut on a Ford car. New handy design. One thin wrench with offset bar for reverse gear and brake adjustments. Openings, 3/8, 7/16, ½, 9/16, 5/8, ¾, 1 1/16, 2 5/32, 7/8, 1 5/16. Thin wrench 5/8, 1 1/16. Nuts and bolts which have been neglected on account of being hard to handle can be reached and turned easily. It is real economy to buy this set. You will have no trouble with openings spreading as with cheap wrenches. Shipping weight, per set, about 3 pounds.
61 F 2460—Set of 6.....**$1.25**

45¢ Speed Wrench



Long shank brace hexagon Socket Wrenches are used as speed tools in assembling and dismantling cars. Are most efficient when used on a series of the same sized nuts as on cylinder heads. To gain the most time in removing nuts, first release the nut with an offset socket wrench, then spin nut off with brace or speed wrench. These tools are big time savers and are considered indispensable in garages where they have been tried. Average shipping weight, 1½ pounds.

De Luxe Wrench Set for Fords Set of 5 $1.35

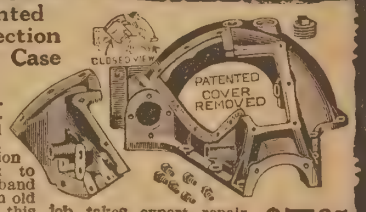
This set contains five of the most essential Wrenches needed in repairing and overhauling Ford cars. They fit practically every bolt and nut. The flywheel wrench has a specially designed socket, size 1 1/16 inch. The connecting rod wrench can be used on all rods. The reverse wrench is the ratchet type, which makes adjusting a great deal easier. The triple socket wrench, with two 5/8 inch and one ½ inch sockets, and the double socket wrench with a 5/16 inch and a ¾ inch socket, have uses too numerous to mention. These wrenches are machine turned from solid steel bar and properly tempered. Black finish. Shipping weight, per set, 5½ pounds.
61 F 2186—Set of 5.....**$1.35**

Special Best Size Socket Wrench Set for Fords

A time saver and a money saver. With it you may tighten nuts and bolts that are usually left for the repairman because ordinary wrenches are hard to use. The sockets fit the nuts tightly. A fine socket for nearly every bolt and nut. Contains a new, improved flat ratchet handle; one long extension rod; one universal joint; one pressed steel spark plug socket, 13/32 by 4 inches long, and ten other most popular sizes of guaranteed pressed steel sockets. The 17/32 and 31/32 hexagon sockets are tapered to handle nuts and bolts where ordinary sockets will not fit. Set is packed in strong wood box. Shipping weight, 4 pounds.
61 F 2441.....**$2.85**

For Other Auto Wrench Sets, see Page 461

98¢ Metal Battery Box



Completely covers the battery, keeping it clean and dry. Easy to fit around the hanger, as the openings are properly cut to accommodate all wiring. Strong, of heavy gauge metal, black enameled. Ship. wt., 6 lbs.

Wheels and Bearings at Low Prices

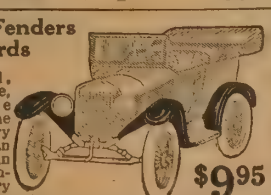
Roller Bearings for Ford and Chevrolet 490 Front Wheels
Set of 2, $3.75

The bearings shown above are of the roller type used so extensively. Will fit Ford or Chevrolet 490 front wheels and spindles perfectly. May be used to replace ball bearings on old model Fords. The bearings are of tapered pattern and are held in position by the small projections in the retainer. Set includes bearings and retaining sleeves for both front wheels. Shipping weight, 3 pounds.
61 F 2269—Per set.....**$3.75**

Ball Thrust Bearings for Fords and Chevrolet 490 90¢

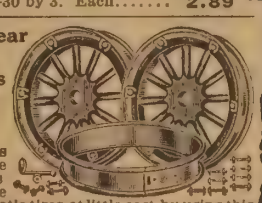
The ordinary plain washers used in the rear axle often wear thin quickly and cause jerking and breaking of the differential teeth. The hardened steel balls rotate and wear very slowly, thus keeping the gears in proper mesh eliminating to a great extent backlashing and growling. Will fit perfectly in either Ford or Chevrolet 490. Shipping weight, each, 1 pound.
61 F 2477—Each.....**90¢**

Universal Wheels for Fords with Demountable Rims



This Wheel replaces any demountable rim wheel for Fords no matter which style of rim is used. It takes any of the following rims without any alterations or special fittings—Kelsey, Hayes, Firestone, Jaxon, Cleveland, Perlman, Baker, Standardized Rubsam, Detroit and many others It is exceedingly strong being made of guaranteed first class hickory fitted with the steel felloe, same as used on all standard equipment for years. Rim not included. Shipping weight, each, 12 pounds.
61 F 2243—Each.....**$3.20**
61 F 2242—Hub bolts for 461 F 2243 and 461 F 2270. Each.....**3¢**

Clincher Wheels for Fords $2.89



Those who have 30 by 3 wheels in front can fit their cars with 30 by 3½ tires all around. These wheels fit front or rear hubs. Regular clincher rim (not demountable). Well seasoned hickory, black finish. Shipping weight, each, 19 pounds.

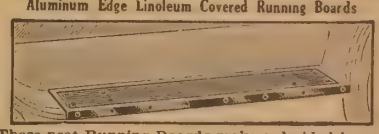
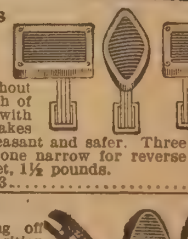
461 F 2272—30 by 3. Each.....**2.89**

Standard Fenders for Fords



Beautiful, strongly made, heavy gauge Fenders, the price so every Ford owner can put his car in good fender condition at a very low cost. They will fit your Ford perfectly and match in design the original fenders. Even though only two or three of your old fenders are damaged or worn it will pay you to buy a set at this low price and replace all of them now, or have them ready for emergency. They have a long lasting baked-on black enamel finish. Fit all Ford cars. Shipping weight, per set, 90 pounds.
161 F 2271—Set of 4; for 1917-24...**$9.95**
161 F 2253—Set of 4, for 1909-16...**9.95**

32 by 4½ Rear Wheels for Ford Trucks $24.50



Ford owners who now have solid rear tires can make the change to pneumatic tires at little cost by using this set. It consists of two 32 by 4½ wheels completely equipped with rims, one spare rim, twelve new flange bolts and a socket wrench. The wheels are fine grade hickory strong enough to carry the heaviest loads. The rims are straight side type which split for making it easy to put on or remove tires. Hubs are not furnished as they will fit your present hubs perfectly. By using these wheels you will be able to get more speed from your truck and greatly reduce repair bills. Black finish. Shipping weight, complete set, 120 pounds.
161 F 1853—Complete set.....**$24.50**

Aluminum Edge Linoleum Covered Running Boards

These neat Running Boards make a decided improvement in the appearance of any Ford. Well seasoned and substantially made. The thick dark brown cork linoleum is held smooth by an attractive aluminum binding. Simply remove old metal boards and install these handsome boards in their place. 461 F 2689—Per pair.....**$4.00**

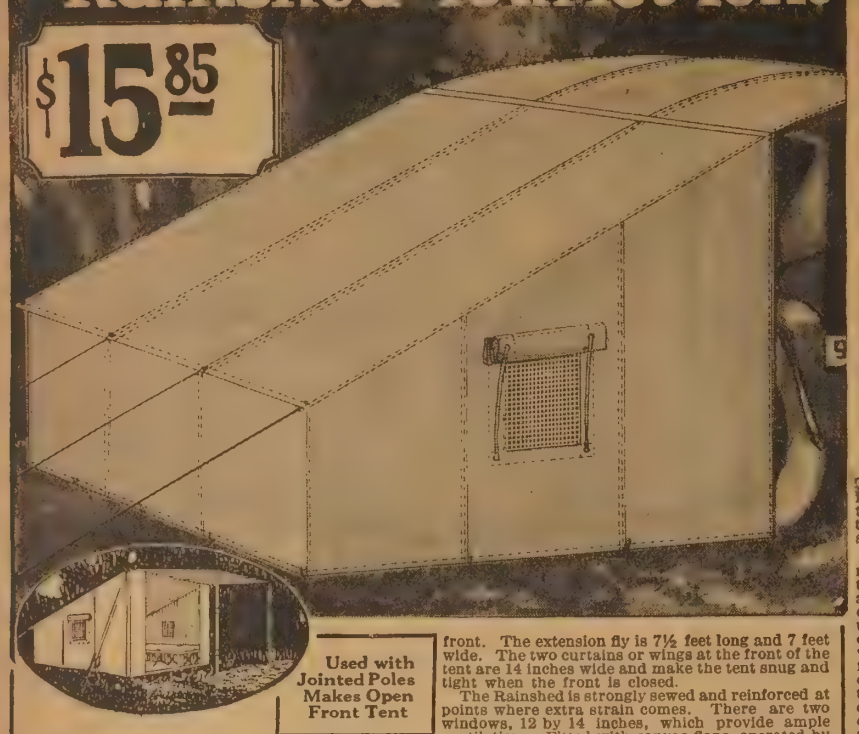
Rives Pedal Pads

Ford owners who use these wide extension Pedals tell us they wouldn't think of driving again without them. The extra width of the pedal combined with the rubber foot rest, makes driving much more pleasant and safer. Three pedals in set, two wide and one narrow for reverse pedal. Shipping weight, per set, 1½ pounds.
61 F 2299—Set of 3.....**78¢**



Pedal Pads

Prevent feet slipping off pedals. Rubber composition with metal bands for attaching. Expecially desirable in wet, slushy weather. Easily attached. Shipping weight, per set, 8 ounces.
61 F 2341—Set of 3.**32¢**

"Rainshed" Tourist Tent

$15.85

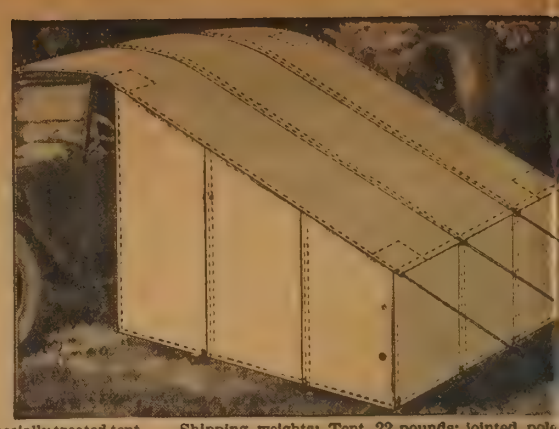
Used with Jointed Poles Makes Open Front Tent

Picture to yourself the comfort of this Rainshed Touring Tent and think what one of them would mean to you on your vacation or outing trip. Compare this tent with others and you will see what a remarkable value we have brought you.

Made of all khaki watershed duck and is thoroughly waterproofed. You will be snug and dry inside this tent during the hardest shower.

It is made in two sizes, and is big enough for all touring needs. Either full 7 by 7 feet, or 7 by 9 feet with 3-foot back wall and 6½ feet high at the front. The extension fly is 7½ feet long and 7 feet wide. The two curtains or wings at the front of the tent are 14 inches wide and make the tent snug and tight when the front is closed.

The Rainshed is strongly sewed and reinforced at points where extra strain comes. There are two windows, 12 by 14 inches, which provide ample ventilation. Fitted with canvas flaps operated by cords from inside the tent. **The sewed-in floor cloth** makes the tent proof against insects and reptiles. All ready to set up, complete with guy ropes and stakes.



460 F 9519—Size, 7 by 7 feet. Shipping weight, 31 pounds..... **$15.85**

460 F 9520—Size, 7 by 9 feet. Shipping weight, 35 pounds..... **$19.65**

460 F 9524—6½-foot, three-piece, jointed wood poles with galvanized ferrules. Shipping weight, per pair, 6 pounds. Per pair..... **$1.48**

Knockabout Touring Tent

$9.85

The Knockabout Touring Tent fully meets the tourist's needs. It is strong and durable, yet light in weight. It is easy to put up and folds into a small package for carrying. Can be used for touring or as an open front shelter tent. When used with a car, the front flap is stretched over the top of the car and fastended to the wheels or stakes on the opposite side of the car. No poles are required when a car is used. When used with jointed poles, it makes a splendid open front tent. These tents are made in two styles—either all white, mildewproof, specially treated tent duck, or all khaki waterproofed duck.

The tent is full 7 by 7 feet with a 3-foot back wall and is 6½ feet high at the front. The extension flap is full 6½ feet long and 7 feet wide. Double stitched and reinforced. Has brass grommets for fastening ropes and canvas loops for tent pegs. Furnished complete with guy ropes and stakes.

Shipping weights: Tent, 22 pounds; jointed pole per pair, 6 pounds.

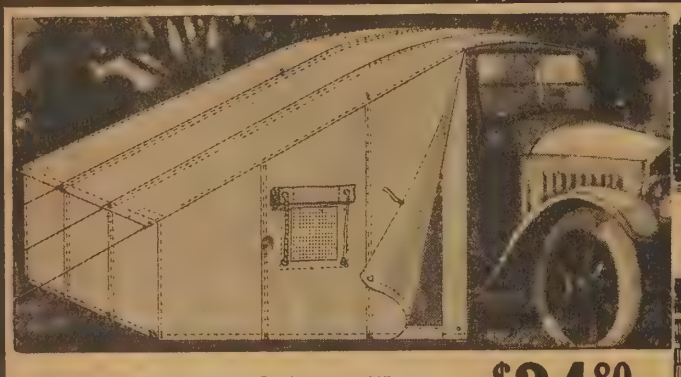
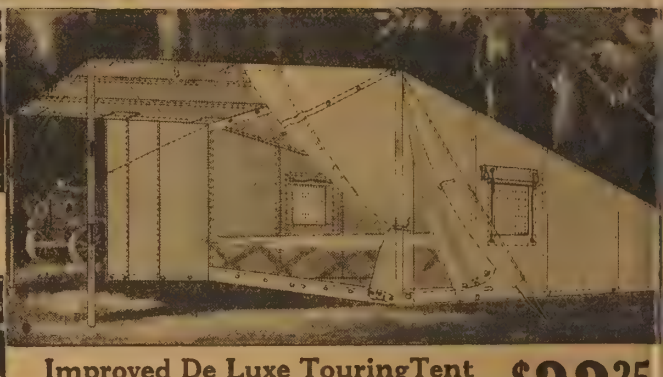
Ideal Khaki Watershed Auto Tent

$13.95

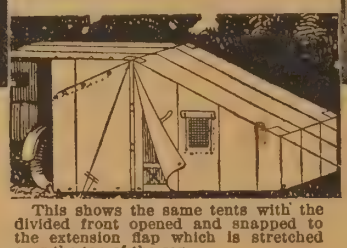


This Ideal Touring Tent for vacation touring, is sure to give complete satisfaction.

It is easy to set up and requires no poles. It is the only style auto tent which can be used with coupes and runabout cars without the use of poles. Of course, it also can be used equally as well with touring cars. One band of duck 30 inches wide stretches over top of car and fastens on the opposite side. Made of special waterproofed khaki duck throughout. Two screened windows, 12 by 14 inches, fitted with canvas curtains operated by draw strings from inside the tent. Both sizes have a 3-foot back wall and a canvas wall, 6½ feet high next to the car. The door at the side has a 4-inch door riser. Complete with guy ropes and stakes. Packs in space about 12 by 24 inches.



460 F 9514—Size, 7 by 7 feet. **Has 8-inch sod cloth** sewed in all around; two screened windows with easily operated canvas storm curtains; door at side with 4-inch door riser. Shipping weight, 25 pounds..... **$13.95**



460 F 9515—Size, 7 by 9 feet. **Has waterproofed floor cloth sewed in,** making tent proof against insects and mosquitoes. Two screened windows; door at side with 4-inch door riser. Shipping weight, 30 pounds..... **$17.85**

This shows 460 F 9517 or 9518 tents with extension flap staked forward at an angle and front closed by means of auto snap fasteners and tie cords.

This shows the same tents with the divided front opened and snapped to the extension flap which is stretched over the top of the car.

This shows these tents with the front closed and the extension flap extended at an angle to form a sheltered open space in front of the tent.

Tourist Special Auto Tent

$24.80
Size 7 by 7 Feet With Sod Cloth

The Tourist Special Tent has been specially built for us and has features and improvements that you will find in no other tent. Made of a special closely woven tent drill dyed khaki and thoroughly waterproofed. Size, 7 by 7 feet with extension flap, 7 feet wide and 8½ feet long. It can be used with a car and the extension flap stretched over the top of the car or it can be used with jointed poles. Back wall is 3½ feet high and front wall is 6½ feet high. Front wall is divided in the center and each half of the front can be turned out and the upper edge fastened to the edge of the extension flap. When used this way the tent is 10½ feet by 7 feet, providing ample room for two double cots with an 18-inch passageway between them. If the car is placed in front of the opening the flap will extend over the top and can be fastened to the wheels on the opposite side.

Combines the Best Features of Touring and Wall Tents

If a closed tent is desired, guy ropes are fastened to extra grommets in the extension flap and it is drawn forward at an angle as shown in the small upper view at the right. By means of a special angle seam the extension sides are fastened to the edge of the extension flap along the upper edge and front side and the front corners staked down making a closed tent, 10½ by 7 feet with a double sloping roof. The side door provides ready access.

Tent has two screened windows with canvas storm curtains which are operated from the inside with draw strings. **Sewed-in sod cloth** and 3-inch door riser make the tent proof against insects and reptiles. Auto snap fasteners are used throughout the same as in 460 F 9518 tent. Complete with guy ropes and stakes. Shipping weights: Tent, 38 pounds; poles, per pair, 6 pounds.

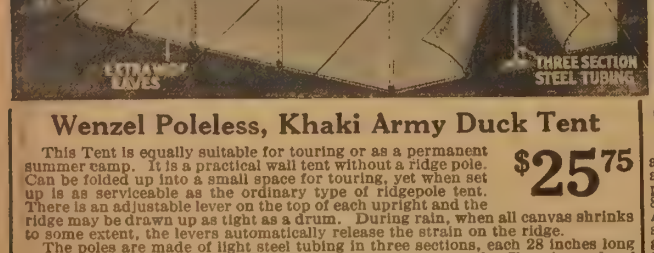
460 F 9517—Size, 7 by 7 feet. Convertible into full size, 7 by 10½-foot tent when used with poles..... **$24.80**

460 F 9524—6½-foot, three-piece jointed poles with galvanized ferrules. Per pair..... **$1.48**

Improved De Luxe TouringTent

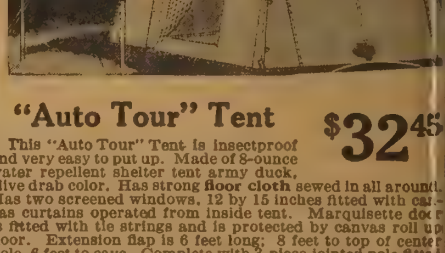
$32.25
Size, 7 by 9 Feet With Floor Cloth

This big, roomy Tent is designed specially for those who want a large, comfortable tent when camping or touring. It has all the special features and improvements of our 460 F-9517 tent (shown to the left) but is made full 7 by 9 feet. Large enough to provide ample accommodations for a touring party of four persons. Two double cots can be used in this tent when it is closed up and still leave a large open space in the center where a table and chairs may be placed.



Made of special, closely woven tent drill, dyed khaki, and thoroughly waterproofed, this tent affords complete protection. The size is full 7 by 9 feet with extension flap 7 feet wide and 8½ feet long. Can be used with a car and the extension flap, stretched over the top of the car, or can be used with jointed poles. The back wall is 3 feet high and the front wall is 6½ feet. It has the divided front the same as 460 F 9517 which can be turned out and fastened to the edges of the extension flap.

When formed into a closed tent it is full 12½ by 7 feet with a 3-foot back wall, 4-foot 8-inch front wall and 6½ feet high at the center, giving practically as much head room as a large size wall tent. The door at the side is provided with a 3-inch door riser and tie strings.



Tent has two screened windows, 12 by 14 inches, provided with canvas curtains operated by draw strings from inside the tent. Has **sewed in floor cloth** and 3-inch door riser across front of tent. Auto snap fasteners are used for closing the divided front and along the edges of the extension flap for converting the tent into an open front tent or double slope roof tent. All fasteners can be operated from inside the tent—a great convenience in stormy weather. Tent is complete with guy ropes and stakes. Shipping weights: Tent, 42 pounds; poles, per pair, 6 pounds.

460 F 9518—Size, 7 by 9 feet; convertible into a full size, 12½ by 7-foot tent when used with poles as shown in small view at left..... **$32.25**

460 F 9524—6½-foot, three-piece, jointed wood poles with galvanized ferrules. Per pair..... **$1.48**

Wenzel Poleless, Khaki Army Duck Tent

$25.75

This Tent is equally suitable for touring or as a permanent summer camp. It is a practical wall tent without a ridge pole. Can be folded up into a small space for touring, yet when set up is as serviceable as the ordinary type of ridgepole tent. There is an adjustable lever on the top of each upright and the ridge may be drawn up as tight as a drum. During rain, when all canvas shrinks to some extent, the levers automatically release the strain on the ridge.

The poles are made of light steel tubing in three sections, each 28 inches long and thoroughly coated with special non-rust baked enamel. Tent is made of closely woven, water repellent khaki army duck. It has wide eaves to keep the side walls dry during bad weather. Strongly sewed and reinforced at strain points. Large screened window in rear wall supplied with canvas protecting flap operated from inside the tent. Tent folds into space only 10 by 28 inches. Is complete with jointed steel poles, levers, guy ropes and stakes. Shipping weights: 35 and 45 pounds.

460 F 9556—Size, 8 by 10 feet, with 3-foot wall..... **$25.75**

460 F 9558—Size, 9½ by 12 feet, with 3-foot wall..... **31.25**

For floor cloths use 460 F 9819 and 460 F 9827 Waterproof Covers, Page 475

Touring Tent With Jointed Center Pole

$29.65

This combination Umbrella and Shelter Tent has all the best features of both styles. Large floor space, ample head room, light weight, compact size, easy to put up and take down. Well made of water repellent 8-ounce army shelter tent duck, olive drab color. Awning can be extended either with auto or with jointed poles. Tent size, 7 by 10 feet 4 feet, 4 inches square at eave and 6 feet high. The galvanized umbrella arms are adjustable and have rings outside of tent for attaching guy ropes if desired. The jointed center pole is 8 feet high when erected. Back wall, 2½ feet high; 4-inch door riser and 6-inch sod cloth. Two screened windows, 12 by 15 inches, and bobbinet door make tent insectproof. Extension awning is 6 feet long. Extra canvas door can be rolled up during the day. Folds into space, 12 by 51 inches. Shipping weight, 33 pounds.

160 F 9540—Size, 7 by 10 feet, as shown..... **$29.65**

160 F 9542—Size, 8 by 16 feet, 5 feet 3 inches square at eave. Same as 160 F 9540 tent except that it has two extensions or lean-to portions—one on each side of center umbrella part of tent. Large enough for six people. Shipping weight, complete, 65 pounds..... **$49.85**

"Auto Tour" Tent

$32.45

This "Auto Tour" Tent is insectproof and very easy to put up. Made of 8-ounce water repellent shelter tent army duck, olive drab color. Has strong **floor cloth** sewed in all around. Has two screened windows, 12 by 15 inches fitted with canvas curtains operated from inside tent. Marquisette door is fitted with tie strings and is protected by canvas roll up door. Extension flap is 6 feet long; 8 feet to top of center pole, 6 feet to eave. Complete with 3-piece jointed pole fitted with four umbrella arms, guy ropes and stakes. Folds into small space. Shipping weight, 37 pounds.

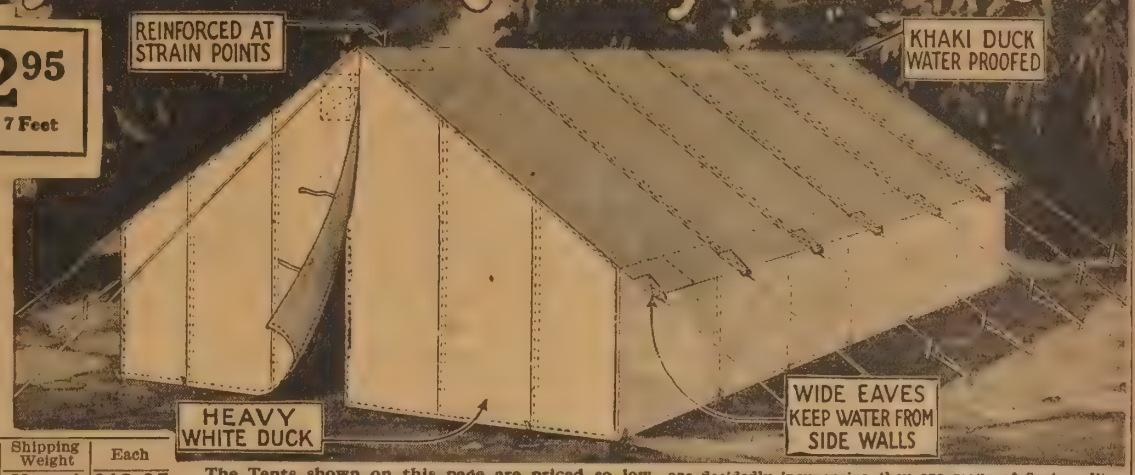
160 F 9544—Size, 7 by 7 feet at base; 4 feet 2 inches square at eave. Large enough for two single cots. **$32.45**

160 F 9546—Size, 9 by 11 feet with sewed-in floor cloth. Made similar to 160 F 9544 except that tent is 5 feet 3 inches square at eave. Large enough for two double beds or cots. A tent suitable for four people. Complete with umbrella pole, guy ropes and stakes. Shipping weight, 50 pounds..... **$43.25**

Always carry a Flashlight in your automobile—handy when you need it. See Page 442

You Can Easily Afford A Quality Tent—Now

"Kul-Dri" Tent



Khaki Waterproofed Top

$12.95
Size 7 by 7 Feet

When you buy your Tent, buy one that will not leak. This tent has a 3-inch eave which allows the water to drop to the ground and helps to keep the side walls dry. The walls of heavy white duck and the roof of the waterproofed khaki color duck give the tent an attractive appearance. Tents are strongly sewed to insure strength at the seams and are carefully inspected before leaving the factory. All materials are of the best. Iron dee rings are used instead of small brass grommets for guy ropes. Buy now, and know that no matter what the weather may be this tent will keep you dry.

Read Carefully About These Special Features

The khaki color duck roof has given this tent its name "Kul-Dri." The khaki duck has been waterproofed and it subdues the hot rays of the sun far more effectively than plain white canvas. No fly is needed with this tent as the heavy texture, waterproofed roof will shed water as well as any tent made. The white side walls permit perfect circulation which adds greatly to the coolness of this sturdy comfort giving tent. Supplied complete with poles, stakes and guy ropes.

Article Number	Usual List Size	Actual Size	Height Wall	Height Pole	Shipping Weight	Each

160 F 9566	8 by 10 feet	8 by 10 feet	3 feet	7 feet	50 pounds	17.95
160 F 9568	9½ by 12 feet	9½ by 11⅔ feet	3 feet	7 feet	60 pounds	22.35
160 F 9569	12 by 14 feet	11⅔ by 14 feet	3½ feet	8 feet	100 pounds	29.85

The Tents shown on this page are priced so low that we wish to assure you of their high quality. Remember that in no merchandise we sell do we ever sacrifice quality for the sake of making a low price, and although these tents are decidedly inexpensive, they are made of first quality 29-inch duck with full height walls and centers. All materials used are of the best.

All Khaki Duck Tent

$13.95

This All Khaki Waterproofed Duck Tent will keep you dry no matter how bad the weather. The three-inch eave helps to keep the side walls dry because the water running off the top drops to the ground clear of the sides. Only the best of materials go into these tents and each one is carefully inspected before leaving the factory. Made throughout of heavy waterproofed khaki duck. All seams carefully sewed with heavy thread to make the tent strong and durable. Designed to give you the greatest amount of protection and satisfactory service.

Made throughout of 29-inch waterproofed khaki duck about 10 ounces in weight after treatment. Eaves are full three inches in width and are fitted with strongly sewed-on iron dee rings for fastening guy ropes. Walls and center are full height. Tents are heavily reinforced at the corners and ridge. Furnished complete with ropes, poles and stakes. No fly is needed with this tent as the waterproofed material used will effectively shed water. Keeps the rain and heat out making a cool, dry tent at all times.

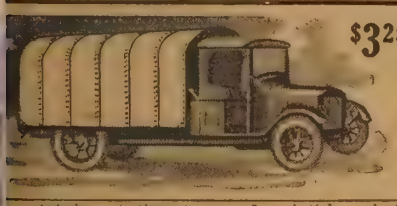
What We Mean by Full Weight Duck



The U. S. Government Standard for 8, 10 and 12-ounce duck is based on the weight of a "yard" 36 by 29 inches.

Quite often 6, 8 and 10-ounce duck is sold for full weight 8, 10 and 12-ounce duck, basing that weight on the common square yard, 36 by 36 in. All our Tents and Paulins are guaranteed first quality and full U. S. Government Standard weight.

Tent Flies

A Tent Fly is a separate canvas roof to spread over the tent top to protect it from sun and rain. Also used as an awning. Tent prices quoted on this page do not include flies. Flies for any size plain white wall tent furnished without poles at one half the cost of tent of corresponding size. Flies are shipped from factory in Chicago or St. Louis. Order by Number **260 F 9504**. Give tent size and weight of duck.

$3.25

Paulins-Stack Covers

Brown Waterproof Duck For Wagons or Trucks

Brown Oil Wagon or Truck Covers protect goods and implements. Made of brown waterproofed canvas, about 10 ounces per yard after waterproofing. Brass eyelets around edges. Will not rot, mildew or crack. Larger sizes can be used as automobile covers. Make good floor cloths for tents. Shipping weights: 9 to 25 lbs.

Plain White Canvas Covers

Guaranteed Full Weight and Best Workmanship

$6.98
9½ by 16 Feet

For covering harvesters, binders, threshing machines, grain and hay stacks. Made of white duck, all sizes larger than 9½ by 16 finished around edges with brass eyelets. Thoroughly reinforced at all eyelets. Ropes in proportion to size of cover are included. All seams carefully stitched to hold fast and resist ordinary strain. Sizes given are before hemming. Shipping weights, 10 to 98 pounds, according to size and weight of duck. Users of canvas covers can buy from Montgomery Ward & Co. with assurance that they will receive the fullest value for their money and that all covers are absolutely first class in workmanship and material. It is very important in buying canvas goods to know that you are getting U. S. Government standard weight duck.

Our low prices for high quality canvas goods are due in a great measure to the fact that our orders were placed when prices were very low and when manufacturers were seeking business to keep their factories busy during the dull season.

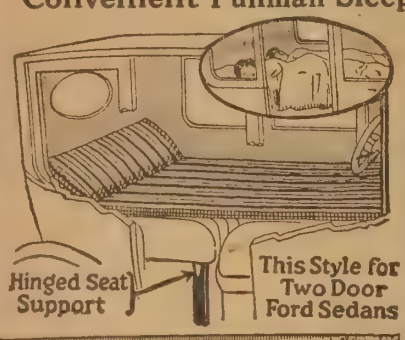
A Comfortable Bed for Auto Tourists

$8.95

Large Enough for Two Grown People
Folds Into Small Space for Carrying

Makes a comfortable, full size Bed for two large persons. Can be set up in 3 to 5 minutes in any five or seven passenger touring car. Can also be used as a double bed in a tent or as an extra bed at home. Two of these beds and a shelter tent similar to 160 F 9512 provide sleeping quarters for a touring party of four. When used in a car you sleep high and dry away from the bugs and insects. Simply put on your side curtains and forget wind and weather.



Bed consists of three parts—three wood rails hinged in the center with heavy 12 ounce khaki army duck top attached, and two adjustable telescopic cross bars. The center rail prevents occupants from rolling together. The cross bars are adjustable for different widths of car bodies and are fitted with a simple device to insure the proper tension in the duck top. Bed is full 6 feet long and 52 inches wide at the back, narrowing slightly at the front to fit all cars. Sets back of steering wheel in large cars; in small cars steering wheel projects through slotted flap in canvas top. Folded space is 3 feet long and 7 inches wide. No tools necessary to set up bed. No strain on top or windshield. Rests on car body. Shipping weight, 26 pounds.

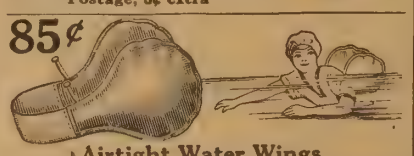
Two 460 F 9678 Single Cots. Fold compactly, very comfortable.
One 460 F 9694 Folding Table. Strongly braced and well made.
Two 60 F 9677 Handy Camp Stools.
One 460 F 8958 Camp Stove. Burns gasoline. Easy to set up. Folds to small space.
One 60 F 8996 One gallon Water Bag.
One 60 F 8892 U. S. Army Carrying Case. Holds tent, stools, stove and other small articles. Shipping weight, outfit, 85 pounds.

460 F 9891—Complete outfit.....$29.25

U. S. Army Poncho or Sleeping Bag

$1.65



A combination Waterproof Poncho, Blanket or Sleeping Bag. Made of closely woven, rubberized mackintosh cloth. Large enough to be used as a waterproof blanket to cover two people. Has opening with flap in center so it can be used as a poncho. Can also be used as a sleeping bag or small shelter tent by fastening down the edges and raising the center with a stick. Very useful for hikers and woodsmen. Folds compactly for carrying.

60 F 8929.....$1.65

Postage, 8¢ extra

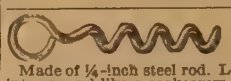
85¢

Airtight Water Wings

You do not have to wet these Water Wings before you use them. Made of closely woven rubberized cloth. They hold air when they are dry. Easily inflated. Splendid for learning to swim or float.

60 F 8922.....85¢

Postage, 4¢ extra



Genuine Ayvard's Water Wings

These Water Wings are of great assistance to beginners. Made of closely woven fabric. With them it is easy to swim or float. Support from 50 to 175 pounds. May be rolled into a package small enough to carry in pocket.

Postage, per dozen, 8¢ extra

Preservo Waterproofing

Used for waterproofing cotton and linen duck. Prevents it from mildewing. Applied with a brush like paint. Not affected by heat, cold or acid. Makes canvas soft and pliable. Prevents wearing by friction. One gallon covers about 100 square feet. Buff color only. In one gallon can. Shipping weight, per can, 9 pounds.

60 F 8957—Per can...$1.45

Postage, per can, 22¢ extra

Tent and Canvas Waterproofing

Don't let a leaky tent spoil your camping season. One small package of Rain Shield makes one gallon, enough to cover 125 square feet of canvas and make it water repellent yet soft and pliable. Mix this preparation yourself with kerosene or gasoline and save shipping charges. Non-inflammable.

60 F 8955—Per can.....45¢

Postage, per can, 6¢ extra

Can-Va-Sek Waterproofing

For tents, awnings and canvas of all kinds. Waterproofs, thoroughly, increases tensile strength, prevents mildew and doubles life of cotton textiles without materially increasing the weight. Does not discolor. Allows free ventilation. Gallon covers 100 to 160 square feet. Shipping weights: 10 and 40 pounds.

60 F 8954—One-gallon can.....$1.65
60 F 8953—Five-gallon can.....7.75

Sport-Sek for Clothing

For canvas clothing, raincoats, umbrellas, etc. Waterproofs, prevents mildew. Easily applied.

Postage, 8¢ extra

Folding Lawn or Camp Chair

A comfortable reclining Chair for porch, lawn or camp. The frame is strongly made of seasoned hardwood, nicely varnished. All joints are securely fastened. Covered with good weight of striped canvas. Width of seat inside frame is 18 inches. The comfortable, high back is adjustable to four positions. Wide arm rests. The extension foot rest is 24 inches long with leg 10 inches high. Made in two styles, with or without extension foot rest. Chair folds flat when not in use. Shipping weight, 15 pounds.

460 F 9696—With extension foot rest.**$2.08**
460 F 9695—Without foot rest..... **1.65**

Folding Wooden Camp Table

Outdoor meals eaten in comfort will taste much better. This sturdy, handy Folding Table is made specially for picnics or camping. Top is of well seasoned wood slats laced on strong cords. Easily set up to make a roomy table, 36x42 inches. Well braced and rigid when set up. Folds into small space, 6 by 42 inches. Easy to keep clean. Stained walnut finish. Shipping weight, 18 pounds.

460 F 9694.....**$3.95**

Lincoln All Metal Folding Table

$4.75

How much better those savory strips of crispy bacon and freshly caught trout will taste when you serve them on this spotlessly clean, attractive Table. Its all metal construction makes it unusually sanitary and extremely desirable. Folds into a space of only 1⅝ by 9 by 36 inches. Opened, it measures 27 by 36 inches and 28 inches high. Stands rigidly. Braced in all directions. Always ready for use. Self contained. No loose pieces. Easily cleaned. Finished in olive green enamel. Shipping weight, 18 pounds.

460 F 9692.....**$4.75**

Lakeside Camp Stove

A high quality two-burner Camp Stove for only $4.95. This stove was made especially for us by one of the large, well known manufacturers of camp stoves. We gave this manufacturer what we feel sure was the largest single order ever placed for camp stoves. This order was given months ago and enabled this factory to keep going full blast during the dull winter months. As a result we got a very low price and pass along the saving to you. We consider these stoves superior in every way to the camp stoves usually advertised to sell from $7.50 to $9.00.

The strong steel case, 8½ by 15 by 5 inches, is heavily enameled and has a carrying handle on the side. The sliding cover can be used as a windshield when stove is in use. The rigid, removable grill is aluminum finished. The two large burners have separate valves—can be used independently or together. Burner valves are leakproof and are adjusted from outside the case. The brass gasoline tank, 3¼ inches in diameter, has a safety relief cap. It is solidly fastened to the case—no danger of leaky joints. The tank is easy to fill. Valve adjusting key and brass pressure pump and funnel with each stove.

$4.95

60 F 8958.....**$4.95**
Postage, 36¢ extra

Steel Camp Stool

Camp or auto Stool. Has rigid, well braced steel frame and khaki duck top. Height, 15 inches. Seat, 6½ by 14½ inches. Folds easily and quickly into space only 12 by 8 by 1½ inches. All joints firmly riveted. Seat strongly sewed.

What the Marathon Trade Mark Means to You

Our Marathon trade mark, unlike many other trade marks, does not simply identify the merchandise of one single manufacturer.

I have the opportunity to inspect athletic goods made by every large manufacturer. The best from all of them is selected and made up under our Marathon trade mark. From your own experience, you know that the man who plays the game is best fitted to select the proper equipment. My four years in college athletics and afterwards my experience as a coach qualify me to select only the best for the Marathon trade mark.

We are one of the largest sporting goods stores in the world. We buy in great quantities and obtain the most favorable prices. We sell direct to you at one small profit and give you the benefit of the savings we make by our large purchases.

Our Marathon Official League Baseball is a striking example of our values. We know that no better ball can be made. Materials and workmanship are the best. They must pass the most rigid inspection before we allow them to carry our Marathon trade mark.

E. Edwards

Manager, Sporting Goods Dept.

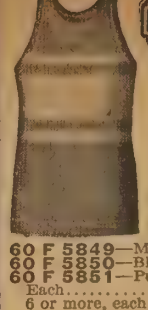
Athletic Clothing

Lifeguard Bathing Suit

Complete

$3.93

The latest style in Men's two-piece Bathing Suits. A suit of this quality, if purchased elsewhere, would cost considerably more than our price of only $3.93. The shirt is of pure white Wool worsted yarn of heavy weight with a special inner lining of cotton woven into it so the cotton comes next to the body making it much more comfortable than an all wool shirt. It is closely knitted and fits comfortably. Cut low under the arms for perfect freedom when swimming. It is made on adjustable supporter style with strap attached.



The pants are all wool flannel, cut full in seat. Color, fast Navy blue. Belt is of good quality white webbing, 1¾ inches wide and has an adjustable, nickel plated buckle. The suit is well made and very attractive. Shipping weights: Pants or shirt, 6 ounces; belt, 3 ounces.

SIZES: Shirt—Chest, 32 to 42 inches.
Pants—Waist, 28 to 40 inches.
Belt—Waist, 28 to 40 inches.

Jersey Golf Jacket $6.75

Brown Heather Heavy Elastic Knit

A fine Sweater Jacket for golf and all other outdoor sports. Can also be worn in place of a vest around the house or in the office. Made of three-fourths finest quality long strand worsted wool yarn and one-fourth cotton yarn in rich brown heather mixture. The firm elastic weave is very snug fitting and the jacket is tailored to fit the figure.
Will hold its shape and keep its good appearance because of the firmness of the weave. Has four roomy pockets, each of which has a single plait down the middle. All pockets have button down flap; and will hold their shape without sagging. The jacket buttons down the front with six buttons. Button holes are extra strong to prevent tearing.
Has a V-neck and shoulders are reinforced to prevent stretching. Sleeves are well made and tapered to fit snugly at the wrists. Extra heavy borders and neck panel. Made in a rich brown heather mixture. An all around sport jacket which looks well when worn on any occasion. Order size 2 or 3 inches larger than chest measure taken over shirt.
SIZES: 36 to 46-inch chest. State size wanted.

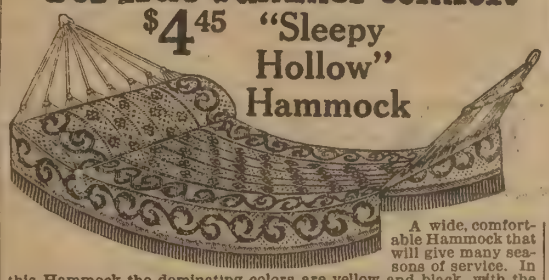
Hammocks For True Summer Comfort

"Outing" Hammock

$1.98



A Hammock priced low enough so that two or three of them may be purchased for what one would ordinarily cost. The dominating colors are a cool gray and green, with interwoven threads of black, yellow and red. Open gauge weave. Regular pillow and valance. Straight spreader at head and wood spreader at foot. Size of bed, about 32 by 74 inches.

460 F 9641.....$1.98

Postage, 12¢ extra

"Sleepy Hollow" Hammock

$4.45

A wide, comfortable Hammock that will give many seasons of service. In this Hammock the dominating colors are yellow and black, with the pattern brought out without the use of other colors. Wide valances fluted at each end. Concealed curved spreader at head and wood spreader at foot. Strong and durable jacquard weave. Large throw back pillow fitted with tassels. Bed is about 39 by 80 inches.

460 F 9647.....$4.45

Postage, 16¢ extra

"Dolly Varden" Hammock

$5.75

An attractive combination of brown and tan striped pattern. It is of the canvas weave and will hold its shape without sagging. A very strong and durable hammock. Curved spreader at both head and foot. Has 10-inch valance. Bed, about 40 by 80 inches.

460 F 9649.....$5.75

Postage, 18¢ extra

"Rest Easy" Hammock

$2.98

A very attractive pattern in tan, brown and green. Cool and inviting. Will harmonize well with almost any surroundings. Around the summer camp or on picnics it will give hours of cool comfort. Wide valances. Straight spreader at head and wood spreader at foot. Lay back pillow with buttons and tassels, a strong and durable hammock made of attractive jacquard weave fabric. Size of bed, about 33 by 78 inches. There is nothing quite like a good hammock to dress up the porch or lawn, and give it that cool and inviting look.

460 F 9644.....$2.98

Postage, 12¢ extra

Bunting Flags

These cotton Flags are made of mothproof bunting. The All Wool bunting flags are more durable and will stand harder service. Both styles have sewed stars and stripes with canvas heading and metal eyelets. All have forty-eight stars except the 2 by 3-foot size.

Save Money on a Good Fly Rod

Fly Rod fishing, in the opinion of many anglers, gives more keen enjoyment and more thrilling sensation than any other form of angling sport. The reason, perhaps, is the constant alertness required and the excitement experienced in outwitting the wily trout, the fighting bass and other game fish with light tackle. Each year a larger number of anglers are choosing lighter rods and tackle, and are depending on their skill and resourcefulness to land the fighting beauties. Our Fly Rods are chosen carefully by experts to meet the requirements of beginners or the expert fishermen.

Split Bamboo Fly Rod

Three-piece split bamboo Fly Rod, 9½ feet with extra tip. Each length hangs and balances perfectly. Full nickel mountings, with reel seat below, cork grasp, green windings. Each in a cloth partitioned bag.

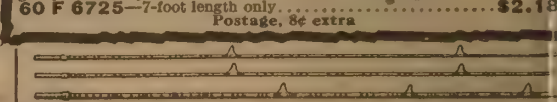
The Thoroughbred

This Rod was made to fill the wants of the real fly fisherman. You would expect to pay at least $4.00 more for a rod of this kind. It is in every way a strong, well built rod to meet the requirements of the fishermen who want the best. It is carefully made of six strips of specially selected bamboo. Three pieces and an extra tip. First guide and one tip are agate; all others are bronzed wire snake guides. The cork grip, 1¼ inches in diameter, is made large to fit the hand of strong fishermen. The windings, of red, green and black silk, are closely spaced to give strength and make the rod very attractive. The reel seat, reel lock and ferrules are heavily nickel plated to prevent rust. The rod is balanced beautifully and has remarkable action and casting power. Heavily varnished with a high grade waterproof varnish which will not crack or peel under strain. Cloth covered form and heavy protecting case with every rod. Actual weight, about 7 ounces.

60 F 6697—9½-foot length only.....$9.85

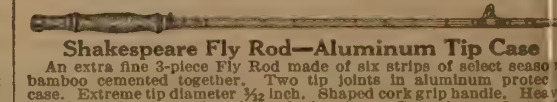
Postage, 8¢ extra



Expert Fly Rod. For tournament fly casting. This rod is made with great care from select split bamboo stock—hexagon in shape—six stripes cemented with waterproof cement, making a rod of great strength. Three-piece and extra tip. Beautifully whipped. Waterproof reinforced ferrules. Nickel reel seat below cork grip. Each in a flannel covered form and bag.

LENGTHS: 9 or 9½ feet. **State length wanted.**

60 F 6691.....$4.85



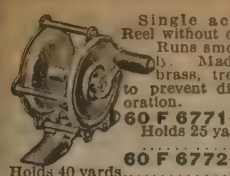
Postage, 6¢ extra

Steel Vine Fly Rod. Made from selected bamboo. Six strips cemented together as in a split bamboo rod and rounded. Strong fiber and being made round gives the rod perfect action for fly casting. Full nickel mountings with reinforced ferrules and wood locking reel seat below cork grip. Length, 9½ feet; weight, 7 ounces. An unusual rod value that you may select with confidence of getting your full money's worth and thorough satisfaction. Three-piece and extra tip. Each in a flannel covered form and bag.

60 F 6690—9½-foot length only.....$7.45

Postage, 8¢ extra

Shakespeare Fly Rod—Aluminum Tip Case



An extra fine 3-piece Fly Rod made of six strips of select seasoned bamboo cemented together. Two tip joints in aluminum protector case. Extreme tip diameter 1/32 inch. Shaped cork grip handle. Heavy nickel plated reel seat, ferrules and trimmings. Crystal agate first guide and large, close spaced wire snake guides. Purple silk windings. Waterproof varnished.

LENGTHS: 9 or 10 feet. **State length wanted.**

Silk Casting Lines

Specially Selected Silk Lines

These Lines are of excellent quality; guaranteed to have life and strength equal to any line on the market. No higher grade lines can be produced. They represent a saving of approximately 33 per cent over usual prices on other lines of equal quality. These lines can not become flat. The center is perfectly round and will stay so because it is made of three strands of pure silk tightly twisted together.

Speckled Beauty Line

Easy Caster

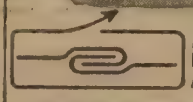
Good Boats For Pleasure or Profit

$28.50 With 3 Seats

$28.80 With 3 Seats



Knocked Down Flat Bottom Rowboat

Here is an easy way to build your own Boat and at the same time you save money on freight and labor. The only tools needed are a hammer and screw driver. Easily assembled in a few hours and makes a safe, easy rowing boat that will give many years of satisfactory service.

All lumber used is select, clear grained stock, carefully sawed and shaped to fit. Cypress or cedar, ¾ inch thick, is used in the sides and bottom. The manufacturer uses whichever of these two woods he can obtain in the best grade. Either kind is light, strong and close grained. Will not rot easily and do not become heavy by absorption. Frame and stems are oak and elm. Seats are cypress. Stern is reinforced so outboard motor may be used. All parts are smoothly finished, with one coat of paint. Complete with nails, screws, calking cotton and oar sockets. No experience is necessary to assemble boat—simply follow easy directions we send you. Boat may be taken apart for storing during the winter, and assembled again when spring comes.

Article Number	Length	Beam	Depth	Seats	Rowing Seats	Shipping Weight	Each

Cantsink Steel Rowboat With Large, Substantial Air Chambers

Steel Boats have many advantages. There are fewer seams to leak, and if bumped or damaged the steel will give and bend but will not break as wood does. This also makes them safer.

This boat is made of 20-gauge galvanized sheet steel. It can not sink, even when filled with water, because there are two air chambers, one at each end, which keep it afloat. All seams are double locked and heavily soldered as shown above. This seam construction gives a strong, watertight boat which will not leak. Strongly braced on the inside with 1 by 1 by ⅝ inch angle iron ribs running crosswise. Pulley for anchor rope. Stern made extra strong for use with outboard motor. Bow is reinforced with a double thickness of sheet steel. Steel air chambers form seats at each end of the boat; rowing seat is made of wood. Painted inside and out with a special gray waterproof paint. Trimmed with red or green. Furnished with oar locks and one pair of copper tipped oars.

Article Number	Length	Beam	Bottom Width	Seats	Rowing Seats	Ship. Weight	Each
260 F 9983	13 feet	42 in.	34 in.	3	1	190 lbs.	$28.80

For sectional wood flooring in boat. Extra..... $2.20

Shipped from Northern Ind.

$31.25 With 3 Seats Fishermen's Flat Bottom Rowboat

This strong, sturdy Boat is built to meet the requirements of the fisherman who wants a very steady boat. The wide flat bottom provides good footing and you can move around in this boat without the usual fear of tipping over. It is easy to row and can be quickly and easily cleaned when necessary. The framing is made of clear white oak with bottom planking of cypress, ¾ inch thick, in narrow strakes or boards running lengthwise. The sides are made of two pieces of clear cypress, ½ inch thick, in lap strake construction. These side boards are securely fastened to the oak frame, stem and transom.

The keel, bilge strips, gunwales, breast hooks and knees are all made of select oak. The seat risers and seats are made of cypress. Finished with two coats dark green paint outside, and two coats of light wood color paint inside. Two pairs side plate sockets bolted in place. One pair copper tipped fir oars and one pair North River rowlocks, securely fastened. The 14 and 16-foot lengths are reinforced for outboard motor.

Shipped from Ohio

Square Stern Clinker Rowboat

$44.40 With 4 Seats

Take the family boat riding in this strong, safe, and well made rowboat. Well suited for use on lake or stream. A fine, easy rowing Boat with clinker built sides made of ⅜ inch cypress or cedar. Frame and all other parts sound white oak. Boat comes complete with two pairs sockets, one pair North River rowlocks and one pair copper tipped, varnished oars. Removable flooring of cypress. Tie ring and nut swivel.

First Grade. Outside of bottom planks painted three coats of marine green; three top strakes finished with three coats spar varnish. Finished with three coats of light wood color paint inside, except seats, gunwales and deck which have three coats spar varnish. Strakes—narrow boards forming the sides—are copper clinched.

Second Grade. Same as first grade, except outside is finished with three coats marine green. Strakes are iron clinched. Both grades are made in 14 and 16-foot lengths. Stern is reinforced for use with outboard motor.

Hiawatha Rowboat Motor

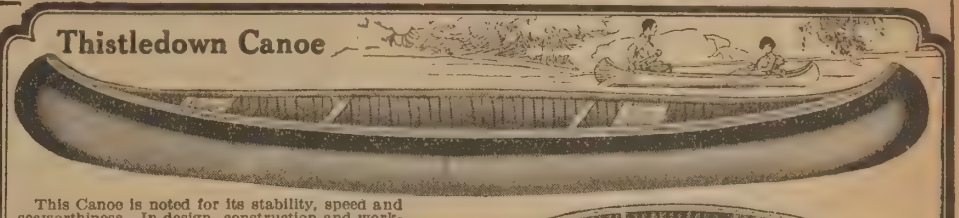
Made under our trade mark by one of the best known manufacturers of nationally advertised Rowboat Motors. Our price will save you from $10 to $15. The Hiawatha motor is 2⅝-inch bore and 2½-inch stroke, and develops full two-horse power at 700 revolutions per minute. It will drive the ordinary rowboat at a speed of seven to nine miles per hour. Motor, exhaust and muffler are water cooled. Circulating pump is plunger type, all brass. Semi-weedless propeller is large, strong and well balanced. The gasoline tank is made of specially treated iron plate with edges turned and sweated. Will not leak. Holds one gallon of gasoline—enough for three hours of steady running at full speed. Speed is controlled by small lever which advances or retards the spark. Motor is reversible and will run forward or backward. Special valve mixes gasoline and air going to cylinder. No adjustment necessary when engine is running. Motor quickly and easily attached to stern of boat. Two large thumb screws hold motor securely. Can be adjusted to suit angle of the stern, and the propeller shaft is adjustable for depth.

$73.25

With Battery Ignition

In this style motor the ignition spark is supplied by dry cells and coil enclosed in waterproof box with lead wires extending out, ready to connect. New dry cell batteries easily replaced when needed. Complete with batteries and coil. Actual weight, 71 pounds. Shipping weight, 110 pounds.

260 F 9956.....$73.25



With Flywheel Magneto Ignition

In this style the ignition spark is supplied by a reversible magneto built into the flywheel of the engine. Gives a hot, sure spark at slow speeds. No batteries required. Actual weight, 64 pounds. Shipping weight, 100 pounds.

260 F 9957.....$82.45

Thistledown Canoe

This Canoe is noted for its stability, speed and seaworthiness. In design, construction and workmanship we believe it is one of the finest to be had. The ribs are of finest select white cedar, 5/16 inch thick, with half ribs of select white cedar 5/16 inch thick, placed between the full ribs. This makes a perfectly smooth bottom and insures the canoe holding its perfect lines for its full life. The planking of select cedar, 3/16 inch thick, is put on in long strips with bevel edges to insure tight joints and a smooth surface. All fastenings are of copper or brass. Open gunwales are straight grained spruce. Keel and thwarts of select white oak. Seats white oak with cane centers. Deck, 15 inches. The canvas covering is one piece of tightly woven duck stretched smooth and filled with flexible waterproof filler, covered when dry with two coats of color and two coats of elastic marine varnish, hand rubbed. Inside finished with three coats marine varnish. COLORS: Solid light green; dark green, or maroon. Also furnished with yellow body, black border and orange parting stripe in design as shown. **State color wanted.** With 30-inch cedar decks, $4.00 extra or with 30-inch mahogany decks, $6.00 extra.

Seines and Nets

Our Seines and Nets are full length, full depth and full size. Made of best quality cotton twine. Our perfection foot prevents meshes from slipping. Complete with leads, floats and line; ready for use except hauling lines. Do not put net into water until you are perfectly satisfied that it meets your exact requirement. After a net has been wet we can not take it back. The sizes we give are for square mesh.

Shipping Weights

Drag Nets weigh approximately 6 ounces to 1 pound to the running yard—the weight varying due to depth, size of mesh and number of twine used.

Perfection Tapered Seines or Drag Nets

Made of white cotton soft laid twine. Complete with leads and floats. No brails or hauling lines included. 120 and 150-foot lengths shipped in 10 days from factory in Chicago. Other sizes shipped from stock.

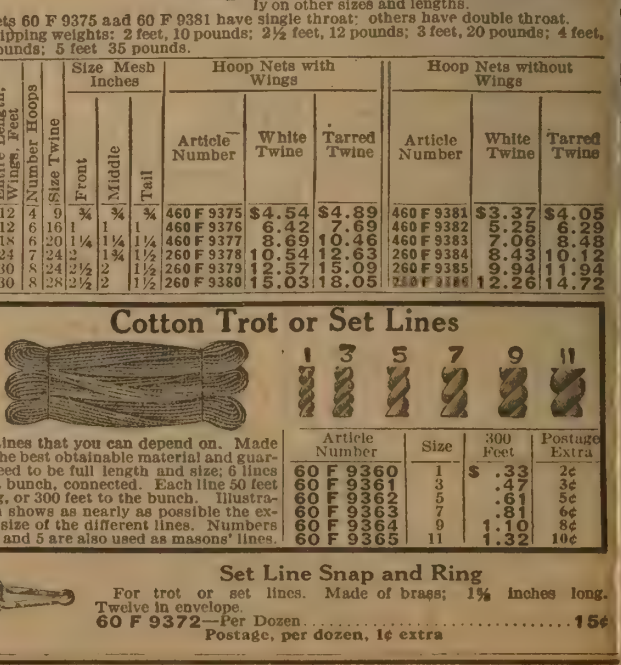
Improved Trammel Nets



Nets Up to 60 Feet Long Carried in Stock

They have Nets hung on a single top and a single bottom line. Of the three nets, two have large meshes of cotton seine twine. The inside net is made of linen gilling twine and is hung slack, forming a bag in which fish coming from either side are caught and held. Not "drag seines" but are to be "set" in the water the same as a gill net.

Price is for the three nets combined, with leads and floats, ready for use. Square mesh.

Outside netting on 4 feet and over is made of No. 16 soft Twine; 3½-foot size is made from No. 12 soft twine. Inside netting in all sizes is made of No. 25 linen twine. Weight, per yard, about ½ pound. All Trammel Nets up to 60 feet long carried in stock. Other sizes and lengths shipped within 10 days from factory in Chicago.

Linen Gill or Set Nets

Nets Up to 60 Feet Long Carried in Stock

Made of No. 40/3 cord linen twine—not much thicker than regular sewing thread, therefore not suitable for a drag net. Can be used in lakes or streams where the current is slow.

Gill nets are single nets hung with floats and leads complete, without hauling lines. Made of best imported linen twine. They are set in the water and allowed to remain from five to twenty-four hours. The fish are caught by the gills, hence the name "gill" or "set" net. Complete with leads and floats. All well tied and carefully inspected at the factory. Prices given are for nets complete. Sizes up to 60 feet are carried in stock. Other sizes and lengths shipped within 10 days from factory in Chicago. Weight per yard, about ¼ pound.

$4.95

Good Pictures Easily Taken

2A Buddie Folding Camera

The Lowest Priced Folding Camera We Have Ever Offered

Just think of being able to buy a folding Camera as low as $4.95. The 2A Buddie at this price brings the folding camera within the reach of everyone. A well made, well finished camera that takes pictures 2½ by 4¼ inches, yet small enough to slip easily into the coat pocket. A simplified design in a folding camera, with no fine adjustments to make and nothing to easily get out of order; always ready to take good pictures. A strong one-piece design with case made of fiberized material which will not shrink, warp or crack. Not affected by changes in weather.

Equipped with a high grade single achromatic lens which insures clear and distinct pictures. Two view finders, for landscape or portrait pictures. Has two front supports so that camera can be held rigid for time exposures. Takes either snapshots or time exposure pictures. Shutter is well made and properly timed for best results. Two overlapping hinged doors which form the front of camera; when opened, hold the bellows extended. Bellows made of genuine leather. Has lightproof back which opens easily for insertion of film. Leather carrying strap, nickel plated film turning key, and ruby colored opening at back to indicate exposure number. Camera is covered with the best quality leatherette, which gives it a very attractive appearance. This is the only 2A camera small and light enough to be carried in the pocket. Uses any standard 2½ by 4¼-inch film.

60 F 7724—2A Buddie Folding Camera. Uses films 60 F 8234 or 8235....**$4.95**

$24.25

Folding Ansco Camera

If you have put off buying a better camera because of the additional cost you will welcome this opportunity to buy a genuine Folding Ansco at a price that means an attractive saving to you. Enjoy taking good pictures and save money.

These Ansco Folding Cameras are provided with a radius finder which automatically reverses the "frame" of the finder and shows exactly how the picture will look and what is included. Focusing is done quickly. The scale arm is set at the proper distance and the bellows, when drawn out, locks in the proper position. Spool holding device holds film tight and prevents fogging and curling. When exposures are completed spool is automatically raised for removal from camera. Feet are provided for resting camera in vertical or horizontal position. Genuine leather covering, seal grain finish. Leather bellows. Aluminum bed and back. Universal shutter gives time, bulb and instantaneous exposures from 1 to 1/500 second.

60 F 7741—Ansco Model 1A Folding Camera. Anastigmat F 7.5 Lens and Universal Shutter. Takes pictures 2½ by 4¼ inches. Uses film 60 F 8234.....**$24.25**

Postage, 10¢ extra

The Buddie Camera

$1.98

A Remarkable Value

A GOOD Camera that takes pictures 2½ by 4¼ inches. The Buddie Camera at this low price is one of the best camera values we have ever been able to offer. And it is a real camera, too—not a toy or a plaything but a full size, well constructed, reliable camera with which you can take pictures that you will be proud and happy to show your best friends.

Takes Pictures 2½ by 4¼ Inches

It is easy to make fine, clear pictures with the Buddie. It is so simple that any boy or girl can operate it and produce splendid pictures the first time. It is lots of fun too. You take the picture just when it happens—no posing or waiting while you focus—for the Buddie is always in focus, ready to take good pictures when you press the shutter lever. You see the picture in the finder and snap the shutter.

You will like its appearance, because the strong fiber case is neatly covered with black leatherette. The case is of solid box construction and is made so no light can leak in and spoil the film before you have a chance to take the pictures you want. The clear lens is of the fixed focus type, carefully adjusted for correct focal distance. The automatic snapshot shutter is very simple and positive in action. It is always set and can not be left open accidentally.

For Landscape or Portrait Pictures

There are two clear view finders, one for horizontal or landscape pictures, and one for vertical or portrait pictures. The carrying strap is of genuine leather and the film turning handle is nickel plated. There is a ruby window in the back of the case to show the exposure number. The Buddie uses any standard make of roll films and can be loaded easily in broad daylight. Complete instructions with each camera. Uses films No. 60 F 8234 or 8235, (listed on this page) Eastman No. 1166 or any standard make of roll film, size 2½ by 4¼ inches.

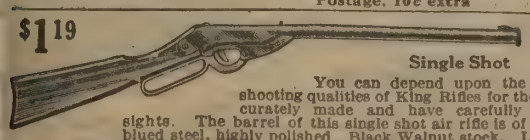
King Air Rifle

An Excellent Gift for Your Boy

Any boy will be proud to own this fine lever action 1,000 shot Air Rifle. In appearance and action this gun is very similar to a regular rifle. Magazine loads automatically as gun is pumped. A slight twist on the end piece of the barrel exposes the opening through which the magazine is filled. All working parts are carefully made of good quality steel or brass, accurately fitted. Blued finish barrel.
60 F 649—Holds 1000 BB shot. Walnut stock. Length, 35½ inches.....**$1.69**
60 F 652—Holds 500 BB shot. Length, 34 inches.....**1.49**
Postage, 10¢ extra

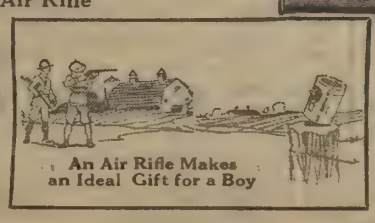


Benjamin Pneumatic Air Rifle

$3.95

This compressed Air Rifle can be used to kill small game. Ideal for taxidermists or trappers of small game. Will shoot much harder than the ordinary air gun. The force of the shot is entirely under control of the user. The more times you pump air before shooting the greater the force of the shot. Uses regular BB air rifle shot. Total length, 37 inches. Barrel, 23 inches. Barrel easily removed from stock by loosening thumb screw.
60 F 653.....**$3.95**
Postage, 10¢ extra

$1.19



King Air Rifle

Single Shot

You can depend upon the straight, shooting qualities of King Rifles for they are accurately made and have carefully adjusted sights. The barrel of this single shot air rifle is of one-piece blued steel, highly polished. Black Walnut stock. Length, 31 inches. Shoots BB shot.
60 F 644.....**$1.19**
Postage, 8¢ extra

Air Rifle Shot

An Air Rifle Makes an Ideal Gift for a Boy

$4.48

Pump Action Daisy Repeater

May be fired repeatedly from the shoulder by pulling the slide handle towards the stock. The smooth, easy loading action is automatic. Metal parts are a dull, gun blue finish which is rust resisting. Black walnut stock, hand polished. Adjustable rear sight; stationary front sight. Length, 37 inches. Magazine holds 50 BB air rifle shot. Actual weight, 3¼ pounds. This is an air gun that adds real pleasure to target practice. Its rapid repeated fire, without exertion, creates a large demand for this rifle
60 F 640.....**$4.48**
Postage, 12¢ extra

Red Head Shotgun Shells

7% Greater Velocity

Two Million Last Year

Hunters bought two million Red Head Shells last year. Think what that means—thousands of satisfied users. Be among them this year. Take advantage of the fact that Red Head Shells cost you less money.

Better Shells for Less Money

Red Head Shells have shown sportsmen everywhere that it is no longer necessary to pay high prices for good shells. The thousands of satisfied users are telling their friends about Red Head Shells, just as we are glad to tell you about them. We can tell you a lot about their good points, but a trial will tell you far more. Try them and convince yourself—we know you will like them.

The Experts Use Them

Some of the world's best trap and field shots are now using Red Head Shells, not only because they cost less money, but because they give better results. And they give better results because they are made right. The resilient greased cork wads actually produce 7 per cent greater velocity with less recoil. They keep the gases sealed behind the load and give a more even and uniform pattern. The high base primer means quick and complete ignition. The high fiber cup comes well above the brass and prevents "cut offs." Examine Red Head Shells; compare them point by point. Then try them.

Buy Them by the Case

Also, Red Head Shells cost less by the case. Three or four shooters can club together and order a case. By anticipating your needs, you can make an additional saving—have them sent by freight. You save on the cost of the shells, and you save on the transportation charges.

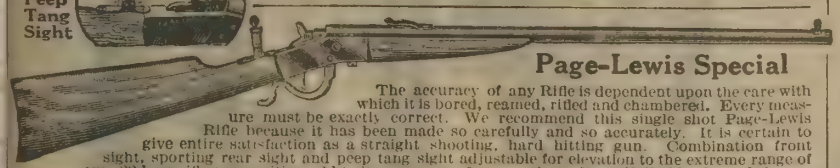
$4.65 .22 Caliber Bolt Action



Page-Lewis Model D

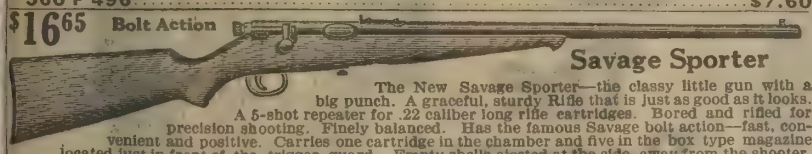
For a fine little Rifle, moderately priced, this Page-Lewis single shot is bound to give entire satisfaction. It has the popular and dependable bolt action similar to that used on the Army rifles. The round barrel is made of special steel and is 20 inches long. Accurately bored and carefully rifled. Blued finish. Stock and fore end of dark color wood, oil finished. Equipped with sporting front sight and open rear sight. Has safety device so that the opening and closing action leaves the hammer at half cock. Shoots .22 caliber short, long or long rifle cartridges. Length over all, 37½ inches. Shipping weight, 5 pounds.

560 F 497 ..... $4.65

Peep Tang Sight

Page-Lewis Special

The accuracy of any Rifle is dependent upon the care with which it is bored, reamed, rifled and chambered. Every measure must be exactly correct. We recommend this single shot Page-Lewis Rifle because it has been made so carefully and so accurately. It is certain to give entire satisfaction as a straight shooting, hard hitting gun. Combination front sight, sporting rear sight and peep tang sight adjustable for elevation to the extreme range of any .22 long rifle ammunition and to its accuracy. Lever action. Beautifully blued steel frame; 24-inch round barrel. Shoots .22 short, long or long rifle cartridges. Walnut stock and fore end, oil finished. Steel butt plate. Shipping weight, 5¼ pounds.



560 F 495 ..... $9.45

Page-Lewis Model B

Same as above, except with bead front sight and without peep tang sight.

560 F 496 ..... $7.60

$16.65 Bolt Action

Savage Sporter

The New Savage Sporter—the classy little gun with a big punch. A graceful, sturdy Rifle that is just as good as it looks. A 5-shot repeater for .22 caliber long rifle cartridges. Bored and rifled for precision shooting. Finely balanced. Has the famous Savage bolt action—fast, convenient and positive. Carries one cartridge in the chamber and five in the box type magazine located just in front of the trigger guard. Empty shells ejected at the side, away from the shooter. The 23-inch, round barrel is made of fine, high grade steel. Stock of American walnut with pistol grip. Hunting metal bead, front sight and flat top, hunting rear sight. Positive safety, conveniently located. Shipping weight, 8 pounds.

1924 Models—Genuine Hawthorne Bicycles

$32.95

DeLuxe Flyer Motobike

Just as good a Bicycle as you will ever want. You can pay more for a bicycle, but you will not get a better value or a bicycle that will give you any greater satisfaction or better service. Look at those smart new motorcycle lines; the full size seat built along the same lines as a motorcycle saddle; the double crossbar; reinforced handlebar; tank tool bag; the deep center mudguards; sturdy, wide bottom parking stand, the rubber cushioned pedals that roll on 3/16 inch ball bearings.

From coaster brake to color scheme of triple baked, rich golden brown enamel, with white stripes and trim, here is a bicycle that you will be proud to ride on and seldom will you find its equal. And think what it means to save enough on this De Luxe Flyer to buy a fishing or a baseball outfit.

Designed to our own specifications this bicycle is built low and strongly reinforced with a frame specially modeled after the latest motorcycle lines. Notice the trussed fork, the double top bar with tank tool box large enough to hold a pump and all the necessary tools. Notice the heavily nickeled, strongly arched handlebars, with long, soft rubber grips and strong reinforcing crossbar. The sturdy steel pedals revolve smoothly and noiselessly on ball bearings and are fitted with divided rubber cushions. All joints have flanged reinforced connections; and the frame; built of the very best 18-gauge seamless steel tubing, will carry the heaviest man comfortably..

The motorcycle type saddle is made of good quality leather, embossed to give a pebble grain effect; is patterned for greatest riding ease, is heavily padded, and cradled on double acting springs. Hercules tires are excellent quality, anti-skid type, with white side walls and heavy red Giant studded tread. Will give you many miles of delightful riding and remarkable freedom from repairs. The New Departure coaster brake delights every boy with its easy speed control and quick braking action.

Motorcycle type mudguards have deep center and drop sides, are light, but very strong; enameled and striped to match frame, and fitted with regulation leather mud splasher. Crank hanger is in one piece with carefully aligned ball bearings, sprocket and parking stand with wide base are all of the very finest materials and workmanship. For riders with inseam measurements of 27 to 35 inches, crotch to toe. Actual weight, 43 pounds. Shipping weight, about 60 pounds.

560 F 3051—Bicycle complete with New Departure Coaster Brake..... **$32.95**

560 F 3054—Same as 560 F 3051, except with steel clincher rims, Hawthorne clincher tires and Runabout inner tubes. Actual weight, 44 pounds. Shipping weight, 62 pounds..... **$34.95**

$27.50

The Bearcat

Hawthorne 1924 Model

No Tool Bag or Tools Included

Another striking example of Ward's high quality at the lowe possible price. Just picture this high grade Bicycle as it rea is. Notice the frame with its curved top bar to permit low ridi position. It is made of strong seamless steel tubing, reinforced t fishmouth connections so all joints are flush. The fine seasoned r enamel with its attractive black and gold striping gives it a strikir appearance that everyone will admire.

Smooth Running, Easy Riding Model

Just jump on it and away you go. The miles will slip behind you like a flash t cause of the well balanced, easy running wheels, ball bearing crank hanger and smoo roller chain. You sit at ease on the fine quality leather saddle, with its double spri suspension. Your hands fall naturally on the long rubber grips of the wide adju able handlebars. The little jars of the road will never reach you; the 28-inch He cules Giant Stud Tires and large rubber pedals will absorb them, day after day a mile after mile.

Enjoy riding in your good clothes; the strong metal mud guards provide full pr tection. Take the thrill of Coasting down the hills in safety; the dependable New parture coaster brake runs smoothly, yet it is instantly ready to check your sp at the slightest backward pressure. You may wish to go soon. Be prepared.

No Tool Bag or Tools Included

$28.65

Featherweight
Road Racer
1924 Model

Every fellow who ever rode a Bicycle knows the many advantages of a racer that is light and easily handled—one that responds to the slightest pressure on the pedals—so he can speed up instantly whenever he desires, and ride for hours at a stretch, without fatigue.

The FEATHERWEIGHT—true to its name—weighs only 27 pounds. So light you can easily hold it up in one hand, yet nothing is eliminated that would in any way weaken the strong construction. Made from the very best of materials, with all strain points properly reinforced. Friction has been reduced to a minimum by well oiled, carefully ground ball bearings, traveling in casehardened ball races. When you swing into the saddle and grip the reversible drop handlebars, your weight is evenly distributed and you rest comfortably, directly over the pedals.

The 20-inch frame is made extra short between crankhanger and rear hub. Crankhanger is in one piece, with carefully ground ball bearings. Chain is ½ inch pitch, roller type, smooth running, strong and light. Racing type hubs. Finish is rich black enamel with gold stripes. Front fork, handlebars and crankhanger are nickel plated. Tires are 1¼-inch Racing Cords, mounted on laminated rims; light, but extra strong. Ball bearing metal pedals. Our low price does not include tools or tool bag, as most riders prefer to select their own equipment. For riders of 27 to 35 inches measurement from crotch to toe. Actual weight, 27 pounds; with coaster brake, 30 pounds. Shipping weight, crated, 45 pounds.

560 F 3048—With Special Racing Rear Hub.....**$28.65**
560 F 3047—With New Departure Coaster Brake.....**31.65**

No Tool Bag or Tools Included

No Tool Bag or Tools Included

For Women and Big Girls
Dolly Varden

$29.85

Whether it is a picnic in the country or a trip to a neighbor's or friend's house, this attractive Bicycle will take you there and back quickly and in comfort. The double loop drop frame finished in golden brown with white head makes it easy to mount and dismount. So simple that you seem to just step on the pedal and seat yourself on the easy riding saddle. The free running coaster brake insures your exact control of the speed at all times. The metal guard over the chain and cording on the rear wheel prevents soiled or damaged skirts. You will be surprised at the ease with which you move along because of the smooth running wheels and balanced crankhanger. The well made Hercules Giant Stud Tires also contribute to the easy riding qualities. Also they are practically puncture proof. For young women. Actual weight, 40 pounds. Shipping weight, 55 pounds.

560 F 3060—Coaster Brake Model.....**$29.85**

Dolly Varden Junior. Same style and model, but without chain guard. For girls 7 to 11 years old. Actual weight, 35 pounds. Shipping weight, 45 pounds.

560 F 3067—Girls' Coaster Brake Model.....**$26.85**

This Trade Mark is your protection when you buy a bicycle. It is our pledge that you will receive the utmost in service and satisfaction. From the Hawthorne De Luxe Motobike to the smart little Fast Express, we offer you only the best in design, materials, workmanship and finish. If you want to own the finest bicycle in your neighborhood, you will order yours today. You are fully protected by Ward's guarantee.

$28.75

1924 Model

Red Wing Motobike

Think of paying only $28.75 for a Bicycle like this. Attractively designed, enameled a rich, Cherry Red, trimmed with broad black bands and darts edged with gold stripes, this Red Wing is a bicycle that any boy will be proud to own. Yes, and it is big enough and fine enough for any boy's father, uncle or brother.

Sturdy Construction—No Extra Weight

Lighter in weight than the De Luxe Motobike, but designed on the same popular lines. This model is equipped with a New Departure coaster brake; has rubber pedals, rubber handlebar grips; a drop curve in the double top bar that gives an easy, low riding position; a good quality leather motobike saddle with double spring suspension built on a sturdy frame to stand all kinds of hard wear. That splasher on the front mudguard protects your shoes and clothes. Boy. Can't you just see yourself riding down the street on this Red Wing bicycle, the envy of every fellow you know? If you want **the best bicycle possible to buy for less than $35.00,** order your Red Wing today.

No doubt, you will want to make your own selection of tools to meet your particular needs. For that reason we have deducted the cost of tools from the price of the Red Wing; but a full line of tools, bags and accessories are shown on Page 494. You save enough on the cost of your bicycle to pay for all the tools you need, and have enough money left to buy a baseball uniform or a fishing outfit besides.

Curved Double Top Bar Frame

Motorcycle Type Saddle with Double Spring Suspension

Trussed Forks

Braced Handlebars

New Departure Coaster Brake

Ball Bearing Rubber Pedals

One-Piece Crankhanger

Attractive Enameled Finish

Frame. Carefully tested 18-gauge seamless tubing. Reinforced by fishmouth connections so all joints are flush and extra strong. The curved double top bar enables you to lower the seat post about two inches more than on the ordinary diamond frame bicycle.

Forks. The front forks are of trussed type, extra strong.

Wheels. Ball bearing with **wood lined steel rims** finished aluminum with red and blue hairline stripes.

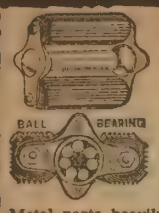
Saddle. Large, comfortable leather covered seat, motorcycle type, with double suspension springs and extra auxiliary spring at back of frame.

Handlebars. Wide, motorcycle type, with long rubber grips and crossbar. Heavily nickel plated.

Color. A brilliant, durable Red trimmed with black head and darts edged with gold stripes.

Mudguards. Deep center motorcycle type, with rubber splasher on front guard.

Coaster Brake. The well known and dependable New Departure. Easy running, yet sure and positive in action.



Tires. All gray with studded, anti-skid tread.

Other Features. Special one-piece crankhanger. Rubber pedals with large, easy running ball bearings. Easily adjustable seat post.

Suitable for any rider with inseam measurements of 27 to 35 inches, crotch to toe. Actual weight, 37 pounds. Shipping weight, 58 pounds.

A Fine Big Motobike Saddle $1.75

Leather Seat
Steel Frame
Strong Clamp
Strong Auxiliary Spring

This fine big Motobike Saddle is just the thing for boys who want an easy riding comfortable saddle for their bicycle. Built on the roomy motobike saddle pattern with a seat 8½ inches wide and 10 inches long. The seat is well padded with hair and covered with a good grade of pebble grained leather, strongly sewed and glued at the edges. The sturdy, rigid frame is made of strong bar steel and supports the seat on well tempered steel springs 4½ inches long.

Besides the regular springs, there is an auxiliary spring at the back which makes this saddle comfortable and easy riding for even the heaviest riders. The large clamp which holds the saddle to the seat post can be adjusted for any riding position, and fastens with one nut that can be easily reached with a wrench. The frame and springs are finished with lustrous black enamel.

Riverside Bicycle Tires Wear Longer — Cost Less

WE sold 200,000 Bicycle Tires last year. Each year brings an increase in our tire sales. This means that every year more and more bicycle riders realize that from Ward's they get better tires for less money. We are able to sell tires at these prices because we sell direct to you, at one small profit. There is no profit for the jobber, traveling salesman or dealer. These are better tires than we have ever offered before and they come to you guaranteed against all imperfections in workmanship and materials.

For Service, Satisfaction and Economy

$2.25 Each

Riverside White Owl Motor Fabric Tires

A Tire of this type costs considerably more to manufacture than the regular fabric bicycle tire, but usually gives twice the service. These are full size tires, made from 12-ounce automobile fabric—the same as used in many automobile tires. Extra heavy non-skid automobile tread design. The entirely white tread and side walls make it especially attractive. It pays to buy a good tire, and we recommend this one for long and satisfactory wear. Sold in 28-inch size only.

560 F 3148—
Each.....$2.25
Per pair.....4.45
Postage, each, 10¢ extra; per pair, 14¢

Blue Streak Majestic

$1.85 Each

This Tire is patterned after an automobile tire. Built up of two plies of heavy bicycle fabric, and reinforced with an extra ply of fabric under the tread. It is very resilient and strong. The tread is a very attractive, practical non-skid design, blue in color, and extra heavy. The white rubber side walls are considerably heavier than on the average tires. Made in 28-inch size for 1½ or 1⅝-inch rim.

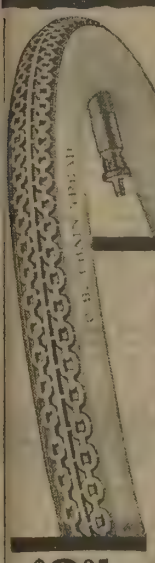
560 F 3130—
Each.....$1.85
Per pair.....3.65
Postage, each, 10¢ extra; per pair, 14¢

Hawthorne Clincher Tires

$2.30 Each

A hand made Tire made from three plies of an extra high quality bicycle tire fabric and with pure gum rubber throughout. It has an extra knobby red stud tread. Non-skid. The Hawthorne Combination Clincher Tire will fit any G. & J. type wood rim, any metal lined clincher or steel clincher rim. It will fit either a 1½ or 1⅝-inch rim; 28-inch size only.

560 F 3163—
Each.....$2.30
Per pair.....4.50
Postage, each, 10¢ extra; per pair, 14¢

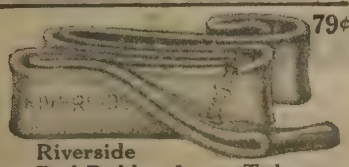


$2.68 Each

Riverside Black Crow Cord Tires

Cord Tires are noted for their resilient, easy riding qualities, and long, satisfactory service. This tire is entirely black with a construction similar to that of our Riverside automobile cord tire. Made full size and extra heavy. Each layer is laid ply by ply and vulcanized into a solid mass. The tread is a perfect non-skid design and is made extra heavy and tough to stand the road friction and keep its true form. The walls of this tire are about twice as heavy as ordinary fabric tire, and will give twice the service. These tires are made specially for us and represent an unusual value. Sold in 28-inch size only.

560 F 3149—
Each.....$2.68
Per pair.....5.25
Postage, each, 10¢ extra; per pair, 14¢



Famous U. S. Chain Tread Tire

A white body Tire with heavy black chain tread. Made of bicycle fabric—3-ply all around. This is a very attractive tire made by skilled workmen in a factory producing one of the most popular automobile tires on the market. While bicycle tires do not receive the shocks and hard use given automobile tires, the experience gained in making the heavier tires has been applied here to produce a long life bicycle tire. This tire will give many miles of good service and keep its shape and easy riding qualities. The chain tread gives a good road gripping surface and tends to prevent skidding. The fabric is closely woven and tough. You will find new riding comfort and satisfaction in a pair of these famous U. S. Chain Tread Tires. Fits rims 28 by 1⅜ inches, 28 by 1½ inches and 28 by 1⅝ inches.

Extra Ply of Fabric Gives Added Strength
Extra Large Red Rubber Studs

Hercules Giant Stud Bicycle Tires

Those who want the best value in Bicycle Tires will naturally choose Hercules Giant Studs. For long mileage and good wearing qualities these tires are hard to equal. The service you get from your tires determines, to a large extent, the enjoyment and benefit you get from your bicycle. Hercules Giant Stud Tires are made to give you the least amount of trouble and the greatest service at the lowest possible cost.

High Quality—Long Mileage—Low Price

The Hercules Giant Stud Tire is hand made of the finest fabric and rubber. Correctly designed to give long life and satisfactory service. There are two plies of heavy fabric with an extra ply under the tread where the wear is hardest. This construction makes the tire practically puncture proof, guarding against nail and pin prick punctures, and preventing pebble cuts. The thick red rubber tread is made with giant studs, which not only prolong the life of the tire, but prevent skidding, making it possible to ride safely in wet weather. The studs also give the tire a very sturdy appearance. A heavy gauge inner tube inside the fabric makes the tire extra strong. For 1½ and 1⅝-inch rims.

Bicycle Rims

Choice of Wood or Steel

Our quality Bicycle Rims for both Cement and Clincher type tires are made of the best grade materials. They are well finished and thoroughly dependable.

The wood rims are made of one piece of high grade selected and seasoned Rock maple. Finely finished and varnished. The metal rims are made of high grade steel finely finished in aluminum color. Rims for 28-inch tires are drilled with 36 holes; for 26 and 24-inch tires are drilled with 28 holes.

When ordering new rims it is important to order by tire size. Diameter of rim is about 3 inches smaller than tire size.

Article Number	Type of Tire	Tire Size	Made of	Finish	Each
560 F 3251	Cement	28 in.	Wood	Natural	$.90
560 F 3253	Cement	28 in.	Wood	Red with Black center

Facts About Kerosene Stoves

The Stove You Want is in This New Windsor Line

Four Types of Burners — Highest Quality

YOU have seen all kinds of oil stoves advertised—each manufacturer claiming that his stove and his burner was the best. But when you get right down to the facts in the case, there are only four successful types of kerosene oil stove burners, as follows:

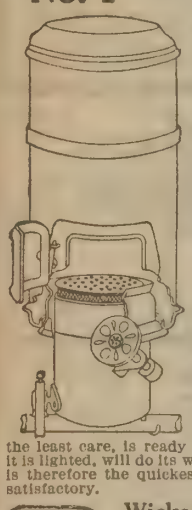
1. Long Chimney Wick Burner.
2. Short Chimney Wick Burner.
3. Automatic Type Wickless Burner.
4. Needle Valve Wickless Burner.

We sell all four of these types. Each has its own particular merits and advantages; but what may suit one will not please another. The long chimney wick burner may be just what you need. Your neighbor may prefer the automatic wickless burner. But **no matter what type of oil stove you prefer, you will find it shown on these pages.** We are offering the most complete line of Oil Cook Stoves ever handled by one retailer anywhere—as far as we know.

To assist our customers in choosing the Windsor Oil Cook Stove best suited to their needs, we present below drawings and descriptions of the four different types of Windsor burners, and point out the special advantages of each one.

Windsor Oil Cook Stoves do not need giant burners. All Windsor burners are made so every bit of fuel is used to give heat—not one atom is wasted. From any Windsor burner, no matter which type you select, you can get as much heat as you will ever need for any cooking, baking, stewing or frying purposes—and with the smallest amount of fuel.

In addition to the burners, each of ou oil stoves has special and importan Windsor features which are mentione on the following pages. Be sure to rea through these descriptions before mak ing your purchase.



Now that there is a Windsor oil stov to suit every preference, every require ment, every pocketbook—why look else where? No matter what type you nee or prefer, it is shown in this complet Windsor line—and usually **at a pric lower than you can buy it anywher else.** And above all, please remembe this—that all Windsor stoves are GOO stoves!

W. G. Baumhogger

Manager, Stove Department

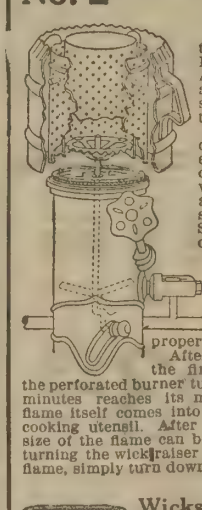
Windsor Kerosene Stoves Are Now Made with Each of These Types of Burners

No. 1 Long Chimney Wick Burner

This Burner is ready to use the instant it is lighted. Just open the chimney door, touch a match to the wick, close the door, and immediately the burner is giving cooking, baking or frying heat—just as you desire.

The burner tubes are seamless drawn brass, and are practically indestructible. The other parts are of the best grade of steel. The cotton wick (shown below) requires very little care, but it should be occasionally wiped with a cloth, in one direction only, when the wick is turned just above the brass burner tubes. The blue flame can be immediately changed to give slow, quick, intense or simmering heat, as desired, by simply turning the wick raiser hand wheel.

This burner requires the least care, is ready for use immediately after it is lighted, will do its work in the least time—and is therefore the quickest and generally the most satisfactory.



Wicks for Burner No. 1

To get best results from your oil stove, use well fitting Wicks. These are made especially for our long chimney wick burners, and fit perfectly. Mailing weights: 1½ and 2 pounds.

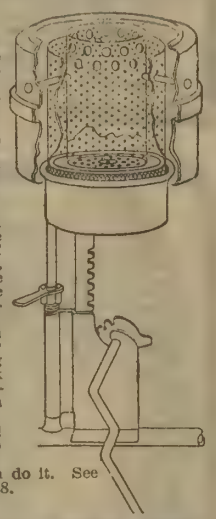
68 F 311—3 wicks..... $ .75
68 F 312—4 wicks..... 1.00

No. 2 Short Chimney Wick Burner

We have sold many thousands of these Burners in our Quick Action, Ever Ready, and Lady Windsor oil stoves during the past ten years.

In design and general construction, this burner is very similar to all other short chimney wick burners. It has a closely woven long service cotton wick. Simple chimney raising device makes lighting easy. There is an automatic wick stop on the burner that prevents the wick being turned up beyond the proper burning point.

After the wick is lighted, the fire works up through the perforated burner tubes—and in about five minutes reaches its maximum height. The flame itself comes into direct contact with the cooking utensil. After the burner is hot, the size of the flame can be regulated by simply turning the wick raiser knob. To turn out the flame, simply turn down the wick.



Wicks for Burner No. 2

Our short chimney wick burners (described above) should have these well made Wicks. Mailing weights: 1 and 4 pounds.

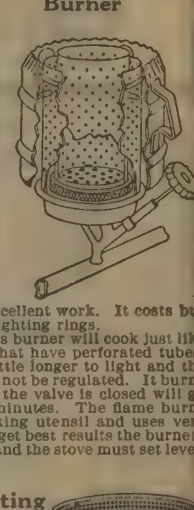
68 F 313—3 wicks. $ .75
68 F 314—4 wicks. 1.00

No. 3 Automatic Wickless Burner

The best Wickless Burner of any type we have ever sold. It produces an intensely hot blue flame that is economical, clean, and without smoke or odor.

The burner has the "flame within a flame" feature. A small flame burns directly up from the center with a larger ring of fire all around it, thus insuring even heat distribution. The burners are made of seamless drawn steel, finished in Udylite (see description on Page 498), and are practically indestructible.

They can be taken apart and cleaned or repaired without using a tool. The "quick lighting" asbestos kindler can not stick in the burner.



Dial on front guard tells you just how to operate this burner. It is so easy a child can do it. See description on Page 498.

Asbestos Kindler for Burner No. 3

Will last a long while and will not stick in burner. Mailing weight, per carton, 8 ounces.

68 F 315—Carton of 6..... 60¢

No. 4 Needle Valve Wickless Burner

This Burner is the lowest in price, but when heated and burning at full height, it is just as efficient as the others. It has a screw valve and a fixed oil level. Open the valve, wait about two minutes, then tip back the drum and light the asbestos lighting ring — and in four to six minutes the flame will burn above the top of the perforated tubes and will do most excellent work. It costs bu little to renew the lighting rings.

After it is hot, this burner will cook just lik the other burners that have perforated tubes It simply takes a little longer to light and the size of the flame can not be regulated. It burns full size, and when the valve is closed will go out in about four minutes. The flame burns up against the cooking utensil and uses very little kerosene. To get best results the burners must be kept clean and the stove must set level

Asbestos Lighting Rings for No. 4

These Lighting Rings will fit only our oil stoves equipped with needle valve wickless burners. Mailing weight, per carton, 8 ounces.

68 F 301—Carton of 6..... .....50¢

The Windsor Kerosene Stove is as Essential in Warm Weather As the Furnace or Heating Stove is in Cold Weather

Every home—whether in the city, suburbs, village, town or country, should have a Windsor Oil Cook Stove. Every camp, tent, summer cottage or bungalow should have one. No automobile tourist or picnic party should be without one. Kerosene, the fuel used in a Windsor Oil Stove, is the cheapest cooking fuel there is. The cost per hour per burner is considerably less than one cent. But do not consider the economy alone, for the convenience, especially to the housekeeper is even more important.

Why use a coal or wood range in the summer? Fires must be kindled, coal must be carted, ashes must be removed, and the fire burns for hours that it is not used for cooking, and you get a hot kitchen, a miserable place to ask anybody to work in. How much happier is the woman who has a Windsor Oil Stove. She simply lights the stove when she starts cooking, turns it out when she is through. No excess heat, no fuss, no dirt, and all these advantages at less expense.

An oil stove is far more convenient in warm weather than even a gas range. A gas range is stationary. It is set up in your kitchen, and in that one spot it must remain. Even if it is lighted only an hour a day, the heat and cooking odors must remain in the house. Not so with a Windsor Oil Cook Stove. It may be placed on the porch, in the yard, in a shed, in the basement—any place at all that is convenient; and the kitchen and remainder of the house stays cool and pleasant.

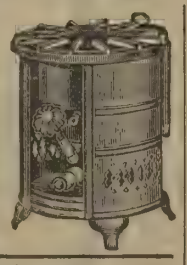
In camps and picnics a wood fire is first all dangerous; second, the fuel must be gat ered and it takes time to start the fire; thi the smudge and ashes fly about, get into t food and onto the person. A Windsor Oil Sto on the other hand, is ready for instantaneo service when you want it; and is clean, saf and efficient.

No matter where you live or where you s do your warm weather cooking on a Windso Oil Cook Stove.

$8.45 Dependable Wickless Oil Stove

In fuel, time and labor saved, this reliable Wickless Oil Stove will more than pay for itself in one summer. By using it when the heat of your kitchen range is not required, you save on fuel, because you light it only when actually needed. And think of the muss and trouble you avoid! No fire to kindle—no waiting till the fire burns up—no coal or ashes to haul.

Many of our customers use this inexpensive oil stove the year 'round. With the aid of a good oven, such as our No. 68 F 952, or 68 F 755 (Page 498), they do all their cooking and baking. Others find this the ideal camp stove.



Built of pressed steel and finished in black and gray enamel. No. 4 burners (described above) are used. Length, 31 inches; height, 30 inches; width, 14 inches. Shipping weight, 35 pounds.

268 F 809..... $8.45

Repair Parts for Ward's Oil Stoves

Repair parts, burners, wicks and lighting rings can be furnished for most of the Windsor Oil Stoves we have previously sold. If you have an old style Windsor Oil Stove not described or listed on these pages for which you want replacements of any sort, write us. State, if possible, the stove name, number, date purchased and catalogue number; also name and description of part. If you can not furnish stove name and number, a sample of the part required is absolutely necessary. Be sure to state how many of each part you wish.

The Lighting Rings quoted under Burner No. 4 (above) will fit all needle valved wickless stoves. If wicks are wanted for old style stoves with burners similar to No. 2 (above), but with the connection at the left hand side, order No. 68 F 305, carton of 3 wicks, 75¢. For Windsor Wonder Wicks, order No. 68 F 303, carton of 3 wicks, 75¢.

Well Made Lamp Stove $1.95

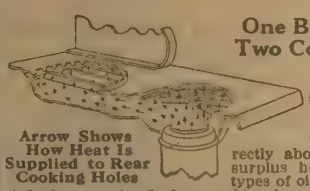
New Improved Triplex Kerosene Range

Cooks and Bakes With Less Fuel

Unusual Capacity

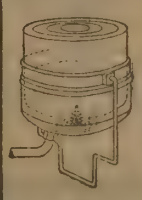


Furnished in Two Sizes—

6 Cooking Holes and 8 Cooking Holes

On the eight-hole Triplex you can have eight pots or kettles going at once—four directly over the burners, and four on the fireless cooking holes in the rear. Or, if you happen to be using the Endoor oven, you still have six holes for cooking at your disposal—two more than on the largest type of ordinary oil stove. Occasions will often arise when you will be glad to have this extra cooking space.

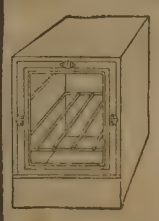
Even the six-hole size (No. 268 F 1000) has much more capacity—can do a greater amount of work at one time than the largest size ordinary oil stove or range, which has only four burners and cooking holes, and can therefore only accommodate an oven and two cooking utensils at the one time.



Then you have the added convenience of a leg tray on which you can keep cooking utensils, flat irons, newspapers, etc. This leg tray is raised 8 inches above the floor, so that a broom will reach under it easily.

Arrow Shows How Heat Is Supplied to Rear Cooking Holes

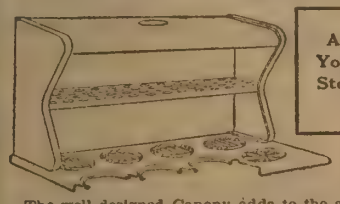
One Burner Heats Two Cooking Holes



You can see from the illustration how one burner heats two cooking holes. The flame heats the cooking utensil directly above the burner, and the surplus heat, which on all other types of oil stoves is wasted, is carried along to the fireless cooking hole in the rear through our patented flues. This enables you to have two vessels of food cooking at one time from the heat generated by only one burner. **Be sure to read in the lower right hand corner of this page the most efficient way to use the Fireless Cooking Holes.**

Glass Oil Tank with Swinging Handle

When your kerosene runs out, what happens? Cooking stopped—charred wicks which stick in the burners, smoke and smell. None of that with the Triplex, as your kerosene supply is always visible through the glass tank. When you find it running low, you can quickly refill it. The tank has a large neck and can be filled easily without spilling and without using a funnel.

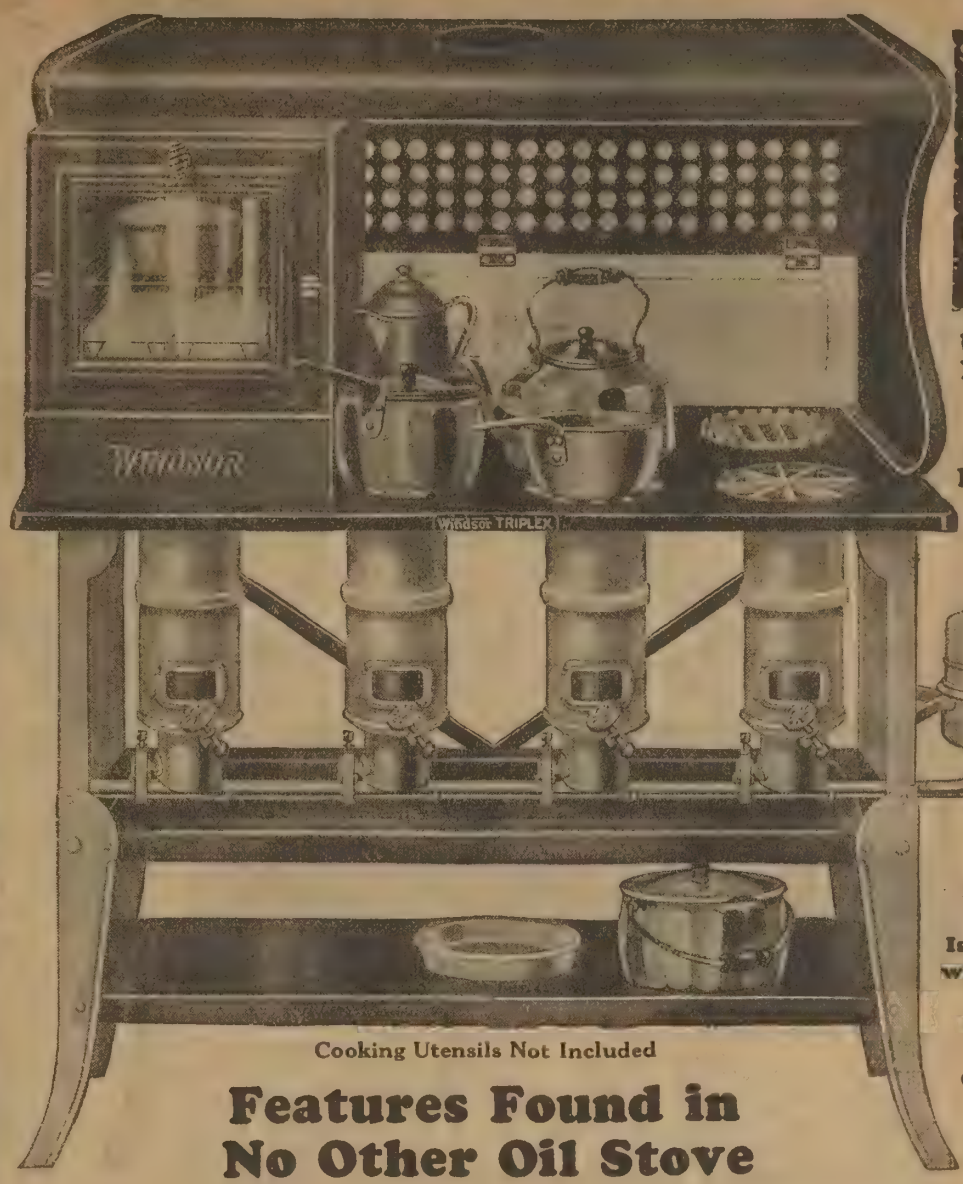


Full Size Endoor Oven Takes Space Only 12½ Inches Wide

This is a full size Oven and has the same capacity as the ordinary two-burner oven. It is 20 inches high, 18 inches deep, 12½ inches wide, and will accommodate generous bakings and large roasts with ease. It is placed endwise, as shown, over the two cooking holes heated by one Triplex burner, and does its work both economically and well.

This oven is made especially for the Triplex Oil Range, and can not be used with any other oil stove. It has a clear glass door through which you can watch the progress of your baking. Full lined with corrugated tin and asbestos. The shelf is strongly made of heavy rustproof wire.

Canopy Carries Away Cooking Odors and Provides Fine Warming Shelf



Also Helps Keep Your Walls Clean. Stops Spattering Grease

The well designed Canopy adds to the appearance as well as to the usefulness of the Triplex Oil Range. It can be connected with any chimney flue—and all excess heat, steam and cooking odors, instead of going into the room, are drawn up the chimney. You will appreciate this feature during the hot summer months. However, it is not necessary to connect the canopy to the flue—you can use it like the ordinary high shelf if you wish.

The roomy warming shelf is perforated, and is placed at a convenient height for the average woman. All the heat—after leaving the cooking holes—passes through this shelf, enabling you to keep plates, foods, etc., very warm. Shelf folds up out of the way when you want to use the oven.

Buy a Triplex and Save Time, Fuel and Labor

Cooking Utensils Not Included

Triplex Kerosene Range Is Equipped with Burner No. 1 Shown on Opposite Page

Features Found in No Other Oil Stove

IMAGINE your kitchen cool, comfortable, clean and airy on the hottest days of baking, cooking or ironing! Instant, dependable service is yours—no fumes, ashes, dust, cinders, smoke or odors; the use of eight cooking holes with only four burners; and best of all, we have increased the height of the Triplex cooking top to 33 inches from the floor, so that you can stir and taste of your cooking without the usual back breaking stooping and bending.

The idea of increasing the height did not originate with us—we admit that. For some time now manufacturers of kitchen sinks, kitchen cabinets, etc., have been making their equipment higher—for it is better for the health and comfort of the housekeeper if she does not have to stoop so much. But as far as we know, **there is not another oil range on the market with a cooking top as high as that of the Triplex.**

$35.50 Cash Price Complete as Shown

Strong—Rigid—Well Made

In our effort to make one of the best Oil Stoves it is possible for you to buy, we have not overlooked a single point in the construction of the Triplex. You will find it one of the most solid, rigid oil ranges you ever saw. The cooking top is 18-gauge steel—much heavier than we have ever used before on any oil stove cooking top.

The finish is a beautiful combination of black and gray, baked on. The burner drums are gray porcelain enameled. In the assembly, lock washers are used on all bolts. This keeps the stove rigid and firm.

Safe—Clean—Economical

The Triplex is equipped with Burner No. 1, described on the opposite page. Operation is very simple. Merely open the door in the chimney, touch a match to the wick, and immediately start your cooking. It is not necessary to raise the chimney as on other oil stoves—no smoke, no soot, no ashes. You burn the cheapest fuel known—ordinary kerosene.

Read What Triplex Users Say

"I am very much pleased with my Triplex Oil Stove. It is the best oil stove for the money I have ever seen."
Bert Grant, Logan, Ill.

"I had bought quite a number of stoves before buying the Triplex Oil Stove from you, but I feel that I never got better value for the money invested. The Triplex is satisfactory in every respect."
Geo. W. Darnell, Yale, Va.

"We have been using our Triplex Oil Stove for about two months, and have found it to be all you claimed for it. We do all our cooking and baking without any trouble."
B. S. Adkins, Chesapeake, O.

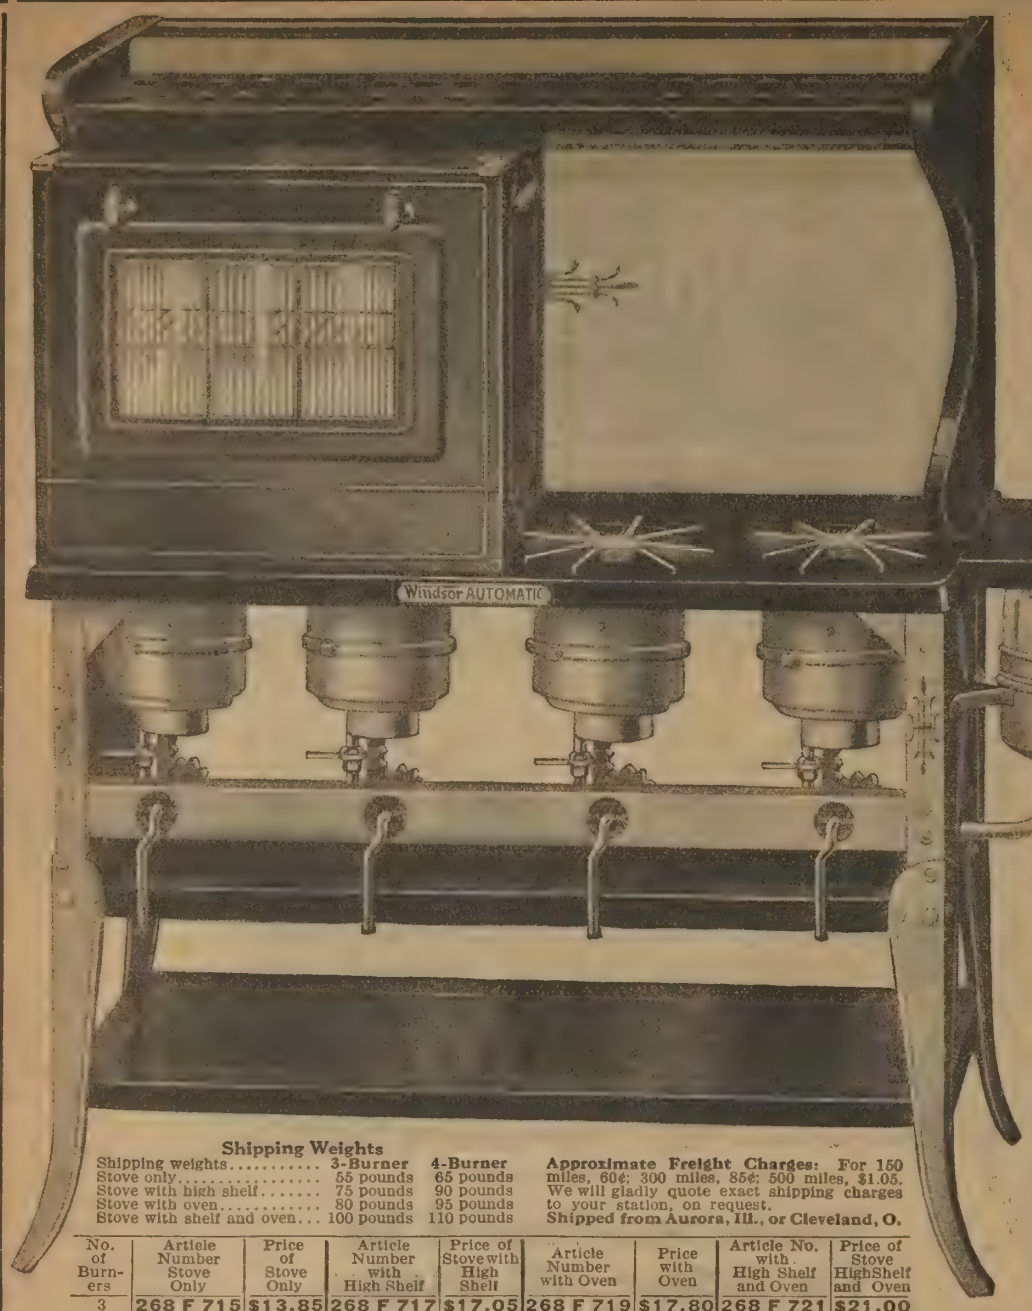
"We are very much pleased in every way with the Triplex Oil Stove we bought of you recently. It has given us complete satisfaction at all times."
W. Aalderks, Lakota, Ia.

All Letters Printed with Customers' Permission

We Invite Comparison

Before buying a Kerosene Cook Stove, see how it compares with the Triplex. Carefully check over every point enumerated below, and you will be convinced that Ward's give you by far the biggest value for your money.

1. **Triplex Long Chimney Burner.** We have been experimenting with this type of burner for over seven years. Now that we have developed it to a high point of efficiency we are offering it to our customers. This type of kerosene oil burner is the only one that gives cooking heat the instant it is lighted.
2. **Canopy and Warming Shelf.** Canopy enables you to draw heat and cooking odors from your kitchen up the chimney. Warming shelf aids you in keeping plates warm and foods appetizingly hot until ready to serve.
3. **Cooking Top.** Much wider, heavier and higher than the average cooking top, and has the double row of cooking holes.
4. **Oven.** Full size, yet requires only one burner. A remarkable baker. Ovens shown on the next page can be used with the Triplex, if you prefer a two-burner oven with a side door.
5. **Two Cooking Holes efficiently heated with one burner.** A feature you will find on no other oil range.
6. **Lock Washer Assembly.** Makes a solid, rigid stove.
7. **Glass Kerosene Tank.** A great help in eliminating trouble and delay.
8. **Leg Tray.** A handy shelf for pots, pans, cook book, newspapers, flat irons, etc.



Instruction Book Included

The cooking holes directly over the burners can be quickly regulated from a hot, sizzling, frying heat to a low, simmering heat; but naturally the back, or fireless, cooking holes do not have the same range of heat adjustment. Anything that requires quick, intense, temporary heat, therefore should be cooked on the front cooking holes. The back cooking holes are ideal for simmering or stewing. Moreover, anything that is started cooking on the front holes will continue cooking on the fireless cooking holes if kept in a tightly covered utensil. It is a good plan to always start the cooking on the front holes; then by following directions, you can finish the cooking on the fireless cooking holes. **Be Sure to Read Carefully the Instruction Book Sent to You Free with This Range. Best Results Will Be Obtained by Following the Directions Closely.**

Approximate Freight Charges: For 150 miles, 65¢; 300 miles, 95¢; 500 miles, $1.20. We will gladly quote exact shipping charges to your station, upon request.

$24.35 Windsor Automatic Kerosene Range

Sold for Cash Only

For Convenience and Comfort

In the days when a good, dependable Oil Range was hard to find, the housekeeper had to put up with the inconvenience and discomfort of a coal or wood range all through the summer. But now, with this reliable, clean and economical Windsor Automatic Kerosene Range in her kitchen, she can **cook and bake in comfort,** with less fuel, in less time, and with less trouble.

Why have a hot, expensive coal or wood fire needlessly burning all day long, when you need it only a few hours during the day? You light the Windsor Automatic only when you are actually going to cook or bake. In a short time you save enough on fuel alone to pay for your range. Also think of all the muss and trouble you avoid; the time you save both in cooking and cleaning; and best of all, the cool, airy kitchen you have to work in.

Has the Famous "Flame Within a Flame" Feature

Many people prefer this Automatic Wickless type of Oil Stove to other types for several reasons. In the first place, there are no wicks to clean and replace. This range burns a gas formed by a mixture of vaporized kerosene and air, and the asbestos lighting ring which helps generate this gas lasts a long time. Then there is that "flame within a flame" feature, which is fully described on page 496 (Burner No. 3). Another reason is that this burner is so easy to take apart to clean. No tools are needed—simply remove a metal pin with the fingers. Because perfectly clean burners use less fuel and prevent trouble, this "easy to clean" feature is a decided advantage. Last, but by no means least important, is the rust resisting Udylite finish of the burners, which is fully described below. The drums are gray porcelain enameled.

Appearance and Usefulness Combined

In appearance the Windsor Automatic Kerosene Range is second to none. The color combination of black and gray, besides being very pleasing, is also very practical. The high shelf, end shelf and leg tray also add to both the appearance and convenience of this range.

The oven is our No. 268 F 952, described in detail below. This large dependable oven has about the same capacity and bakes and roasts as quickly and as well as the average coal or gas range oven.

Windsor Automatic Burners Are Treated with Famous Udylite

One of the greatest enemies of the kerosene stove burner is **rust.** Avoid rust and you will greatly lengthen the life of your oil stove and the period of its usefulness. The new Windsor Automatic Kerosene Stove Burner is treated with one of the best rustproofing processes known to science—the Udylite process. This consists of first electroplating the steel with a coating of cadmium (which does not rust), and then baking it from from two to three hours in a temperature of 300 to 400 degrees Fahrenheit. Besides adding many years to the life of the burner, it helps to keep it in good working order.

Simple Directions for Operating Burners Always Before You

To light the burner, turn the handle to "Light Here," tip the drum back and touch a match to the asbestos kindler. It takes about five minutes for the flame to reach its full height. Once the burner is hot, the flame can be regulated to any heat simply by moving the handle to right or left. Size of the flame changes in about a minute after handle is moved. When handle is turned to "Out," flame dies down at once and goes entirely out in a few minutes.

Windsor Automatic Kerosene Stove $14.45

Whether you buy this Windsor Automatic Kerosene Stove for your home, summer cottage or camp, you will be greatly pleased with your purchase. Around the home you can use it in the regular kitchen—or you can easily carry it out to the shed, back yard, or basement—in fact, anywhere that is cool. By using it at your summer cottage or camp, you will add to the pleasure of your vacations or week end trips. You will know that you are equipped to prepare as good meals at camp as you can at home; that you will find your stove in good condition always; that the burners will not be eaten up by rust. A fitting companion for this stove is our No. 268 F 952 Baking Oven, shown at the right. When used together, this stove and oven are capable of turning out as fine bakings and choice roasts as you ever saw.

Windsor Automatic Short Leg Kerosene Stove $9.95

This Stove is the same as the Windsor Automatic Kerosene Stove described above, except that it is smaller and narrower. In addition to its being a splendid stove around the home or camp, it is also fine for touring. It has all the features enumerated at the right, and despite its low price is a high grade kerosene stove in every respect.

Number Burners	Article Number	Price	Length	Width	Height	Shipping Weight
2	268 F 711	$ 7.95	22 inches	14 inches	17 inches	35 pounds
3	268 F 712	9.95	31 inches	14 inches	17 inches	40 pounds
4	268 F 723	12.65	40 inches	14 inches	17 inches	45 pounds

Features of All Windsor Automatic Kerosene Stoves and Ranges

1. Wickless "flame within a flame" burners give intense heat. (See Page 496, Burner No. 3, for full description.)

2. "Easy to clean" feature of burners. Simply remove metal pin with fingers and burner can be taken apart. A very great help, as clean burners give more heat; also save on fuel.

3. Udylite finish of burners makes them rust resisting and give much longer service. (Described above.)

4. Easily moved handles aid you in regulating heat. (Also described above).

5. Guaranteed unbreakable grates. We will replace any broken grate free of charge. Joined in center so the smallest utensil will not tip.

6. Glass Oil Tank. Kerosene supply is always visible. Avoids delays.

7. Sturdy, rigid construction. Made of the best grade of steel suitable for oil stoves and assembled with lock washers.

8. Attractive yet practical color combination of black and gray. Does not show dirt easily. Finish is baked on.

Windsor Ovens A Perfect Baking Every Time

Special Bargain $1.49

This Well Made Windsor Oven

Do not judge this one-burner Windsor Oven by the special low price. It is the same quality oven we have been selling for years. If your bakings and roasts are small it is just the thing for you. The body is well made of blue steel and has pressed steel end linings. Outside dimensions: 12 inches wide, 11 inches high, 10⅝ inches deep.

This oven is especially intended for such small oil stoves as we show on Page 496 and gas plates shown on Page 502. However, you can use it on any type of oil or gas stove and obtain good results. Shipping weight, 12 pounds.

$3.95 Extra Large Size Oven A Good Consistent Baker

Baking is a pleasure when you can put your bread or cake or pie in the oven and know just how it is going to come out. You can depend on this high grade oven to perform the same every time you use it. Your baking need never burn, because you can watch its progress through the three clear glass panels in the door.

Two-burner size. Made of even colored blue steel, and **lined throughout with bright tin and asbestos.** The drop door is strong and rigid, and can be used as a shelf when open. This oven is furnished with some of our highest quality kerosene ranges. Can be used with practically any oil stove or range made, having more than one burner.

Outside dimensions: 20 inches wide, 18¼ inches high, 13¾ inches deep. **Not mailable.** Shipping weight, 25 pounds.

268 F 952 ..... **$3.95**

The Best Oven in Our Line $4.95

We are sure you cannot buy a better baking oven anywhere. It is made of the finest polished blue steel and is **full lined with corrugated tin and asbestos.** The drop door has a gray porcelain enameled frame which is set with two glass panels and an accurate heat indicator. The heat indicator enables you to regulate the oven heat to the degree desired, while the glass panels allow you to watch the progress of your baking. When lowered, the drop door can be used as a shelf, as it is strong and rigid.

Has the capacity of the ordinary coal or wood range oven, and does its work as well. Outside dimensions: 20 inches wide, 18¼ inches high, 13¾ inches deep. **Not mailable.** Shipping weight, 25 pounds.

268 F 755 ..... **$4.95**

Windsor Cabinet

The Kerosene Range with a Built On Oven

The Windsor Cabinet Kerosene Range is a year around range for those who do not have gas in the home. The built on oven, the sturdy construction, and the liberal shelf space make it much more desirable for winter and summer use than the ordinary kerosene range. In fact, many people prefer this to a gas range because kerosene is so much cheaper than gas and also during hot weather it can easily be moved to the cool summer kitchen or shed.

$35.85
Cash Price

Clean and Efficient

The advantages of the Windsor Cabinet Kerosene Range over a coal or wood range are plainly seen. While you can cook and bake as well on this as you can on a coal or wood range, you are relieved of the muss and bother of lighting the fire in the morning, hauling coal or wood, carrying out ashes, and the constant attention a coal or wood fire needs.

Easy to Operate—Needs Very Little Attention

No matter what time of the day or night you want to use the Windsor Cabinet Kerosene Range, it is always ready for you. Simply touch a match to the wick and go ahead with your cooking or baking. All the attention it ever needs is the refilling of the glass tank when you see the kerosene supply running low, and the occasional cleaning or replacing of a wick. **The burner used is a No. 2, described in detail on Page 496.**

Oven of Many Uses

What you will like most about the Windsor Cabinet Kerosene Range is the large, dependable oven. In the first place, it is as fine an oven for baking or roasting as you could desire. Furthermore, this oven can also be used for cooking. All you have to do is slide out the oven bottom and there are two additional cooking holes with grates on them, ready to be used just like the holes on the regular cooking top. Or if you want a slow, simmering heat for such foods as string beans, beets, etc., you can place the wire oven rack on the lowest runner and cook your food about four inches above the flame. Also fine for toasting.

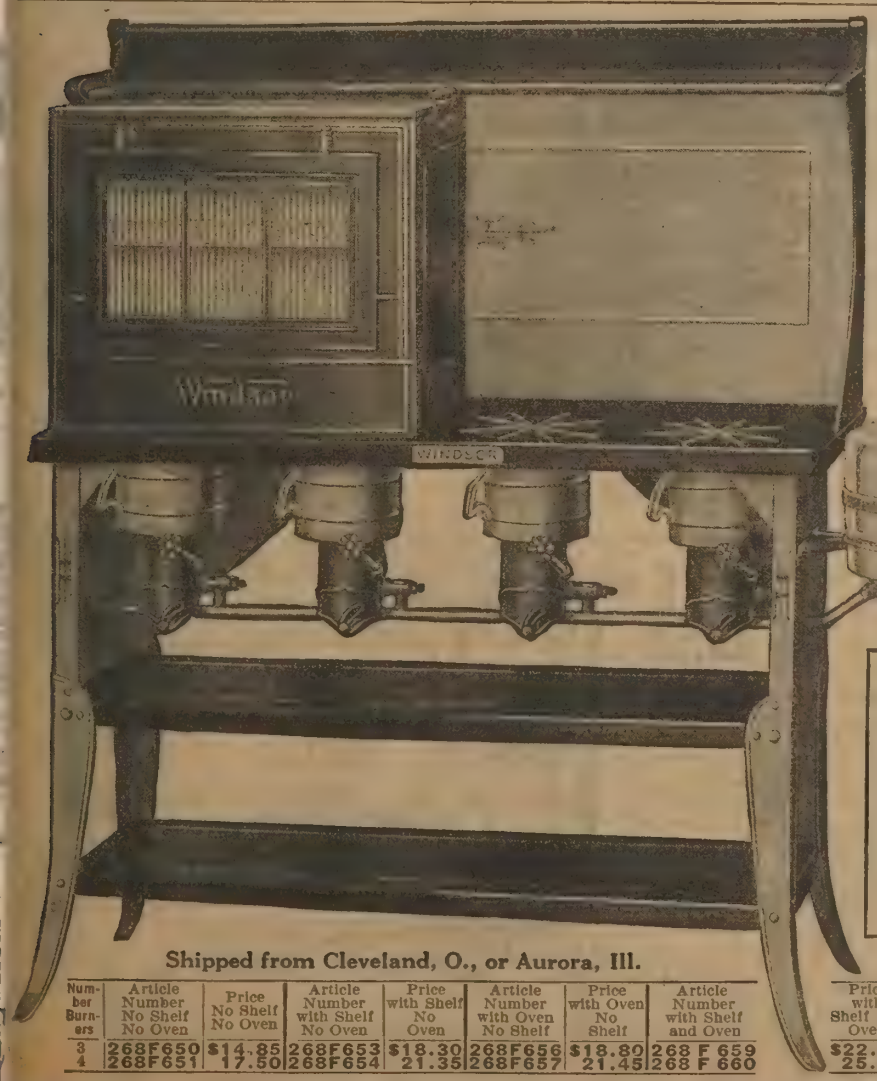
Can Use Oven as Warming Closet

When not otherwise in use, you can keep your dinner piping hot in the oven until ready to serve. Drop type door forms a convenient shelf for cooling bread or pies which have just finished baking. Top of the oven affords additional shelf space. White porcelain panel in cast iron door frame.

Well Made—Fine Appearance

The Windsor Cabinet Kerosene Range is strongly made of a good grade of steel. Built along the lines of a gas range and finished in a beautiful combination of black and gray. Burners are brushed brass finish. Has a top shelf for keeping salt, pepper, etc., handy to cooking; also a leg tray for flat irons, utensils, etc. The drums are gray porcelain enameled.

Furnished in Two Sizes



This Range can be furnished in two sizes — the four-burner size as shown, having two cooking holes; and a five-burner size, with three cooking holes. The five-burner size should suit the requirements of the largest family.

$5 Down and Five Dollars A Month

Use this fine Range while you are paying for it. Send $5.00 with your order and the range will be shipped to you. Then pay five dollars each month.

$25.30 Quick Action Windsor Wick Kerosene Range

The **Quick Action Windsor Wick Kerosene Range** has proved so satisfactory to thousands of housekeepers, that many who bought them for summer use only did not go back to coal ranges in the winter. They were completely won over by its fine cooking and baking qualities; the ease with which they could keep their kitchens clean and bright; the great convenience of having at their service cooking and baking heat by merely touching a match to a wick; and the economy of using the cheapest fuel known—and that only when needed.

Two Sizes—See Table

Don't let the low price we ask for this high grade Range stand between you and comfort this summer. You will probably save a good part of the purchase price on fuel alone during one season. And then perhaps you will find that you can also use it all winter. Send us your order for the size you need. You will always consider it the best stove investment you ever made.

Strong and Handsome

Whether you order the three or four-burner size, you will be greatly pleased with its appearance. It is made of heavy rolled steel and has a baked on Japanned finish in gray and black. A bright touch is added by the brushed brass finish of the burners. The grates are steel and guaranteed unbreakable. You can check up the kerosene supply by a glance at the glass oil tank, and refill accordingly. Burner drums are gray porcelain enameled.

Large Baking Oven

The oven furnished with the Quick Action Windsor is our No. 268 F 952, described on opposite page. This large oven is about the size of the average coal range oven, and is scientifically constructed. Bakes and roasts to perfection. You may also use either of the other ovens shown on opposite page, with this range.

Approximate Freight Charges: For 150 miles, 60¢; 300 miles, 85¢; 500 miles, $1.05. We will gladly quote exact shipping charges to your station, on request.

Read What a Few of the Many Windsor Oil Stove Owners Have to Say

"I received my Oil Stove just in time to help me through the hot weather. I have compared your prices with others, and I find yours much lower, considering the quality."
Mrs. Nora Miller, Otisville, Mich.

"The Wickless Oil Stove arrived in good condition. It is a much better stove for the money than I expected to get. This neat looking stove would look well in any kitchen."
Walter C. Soulia, Rutland, Vt.

"My wife says our new Oil Stove cooks and bakes better than any gas stove she ever used. Her aunt saw the stove and took such a fancy to it that she bought one also."
Ira R. Ross, Butler, Pa.

"The Oil Stove ordered from your house arrived O.K. My wife says she would not take twice what we paid if she could not get another just like it."
E. C. Adams, Wickliffe, O.

Windsor Combination Coal or Wood, and Gas Range

Burns Either or Both at the Same Time

$102.75 Cash Price

Use Easy Payment Order Blank No. 2 on Page 605

Shipped from Evansville, Ind.

Two Complete Ranges in One

In the **Windsor Combination Range** you have a complete coal and wood range with full size baking oven and warming closets, and you have an entire gas range—gas baking oven, gas broiler and gas cooking top. Think of the number of times you wished you had a coal range in your kitchen—or, if you have a coal range, how you would have enjoyed cooking on a gas range. Here is an opportunity to have both—in a unit that occupies only the space of one, and at a cost of but little more than either one separately.

Unusually Great Capacity

There are times in every home when an ordinary coal range or gas range does not have enough cooking and baking space. This does not happen when you have the **Windsor Combination** at your service, with its four cooking holes and a large baking oven for coal or wood, four gas burners, a gas oven and a gas broiler—enough to take care of any emergency. For ordinary use you have the coal range in cold weather and the gas range in warm weather. In the spring and fall you will want to use coal or wood to take the chill off your rooms in the morning, and gas the rest of the day because of its convenience and economy.

Saves Space, Time and Fuel

Whether your kitchen is small or large, we are sure you will welcome a Range that does the work of two ranges and takes up but the space of one. As for saving time, think of how much more quickly you can cook and bake with gas when necessary. You will save time and labor, too, in keeping this range clean, since the polished, nickeled and white enameled surfaces are much more easily and quickly cleaned than those of the ordinary black range. On fuel you make a double saving. In the first place, you burn gas only when you actually need it. And when you burn coal in this range, you are sure to get every bit of heat from it because of the careful fitting of all parts and the perfect construction of the flues.

Specifications

Body. All castings are strong so they will stand up under hard use, and are fitted together with great care. Takes 7-inch pipe.

Fire Box. Equipped with duplex grate; burns wood or coal. Size for coal, 15½ by 7½ by 7 inches. Takes 18½-inch wood with end linings removed. Built for heavy work.

Ovens. Coal oven is 18 by 17 by 12 inches. Accurate heat register in door. Gas oven is 18 by 16½ by 11 inches. Broiler, 16½ by 12 by 11 inches.

Cooking Top. Coal or wood top consists of four holes, with heavy 8-inch lids. It is highly polished and turns blue when heated, requiring no blacking. Gas top is made up of one giant and three single star burners.

Nickeled Parts. Door frames, gas fittings, oven brackets, key plate lifter, fire and ash doors, ash shelf, left end slide dampers, front legs and front base strip.

White Enameled Parts. Door panels, entire splasher back, catch pan under gas cooking top, broiler pan, gas cock handles.

Burns Natural or Artificial Gas

If you could talk to some of the housekeepers using the **Windsor Combination**; if you could watch them at work in the kitchen, you would understand why we get such enthusiastic reports from every section of the country. In natural gas territories and in territories using artificial gas, this range is proving equally satisfactory.

30 Days' Free Trial

Without risking a cent, you can try out this Range in your own kitchen for 30 days. Just send us your order and remittance in the regular way, and the range will be sent to you. Try it out—put it to every test you know of. Then if you are not perfectly satisfied with it, write us for shipping instructions. All your money, including freight charges, will be refunded.

Prices and Dimensions of Windsor Combination

Article Number	Price		Height Floor to Cooking Top	Entire Height	Size of Cooking Top for Coal	Size of Cooking Top for Gas	Shipping Weight
	Cash	Time

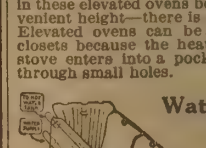
Both the Windsor Combination and Junior Windsor Ranges can be purchased on our liberal Easy Payment Plan. Send $5.00 with your order and the range will be shipped to you. Then send us five dollars each month until the range is paid for.



Use Easy Payment Order Blank No. 2 on Page 605.

High Gas Oven and Broiler Do Not Interfere with Coal Oven

The coal oven, the gas oven and the broiler are entirely separate from each other. You can use either one separately, or all at the same time. The coal oven is in the usual place at the side of the fire box, while the gas oven and the broiler are elevated. You will enjoy baking and broiling in these elevated ovens because they are at a convenient height—there is no bending or stooping. Elevated ovens can be used also as warming closets because the heat which rises from the stove enters into a pocket beneath these ovens through small holes.

Water Front Can Be Supplied with This Range

Cold water enters water front through lower pipe, heats up quickly and emerges into tank through upper pipe. Have plenty of hot water whenever your stove is burning coal or wood. Shipping weight, 25 lbs.

268 F 310—Extra.....$5.50

Accurate Heat Register in Coal Oven

There is no guesswork when you are baking in this large, roomy oven. You can regulate the heat by adjusting the dampers in the left end and on the cooking top, and the heat register tells you when the temperature is right for baking or roasting.

Other Features of This Range

Polished Cooking Top

The polished cooking top needs no blacking. When heated it turns a bluish color. Merely wipe it with an oily cloth and it is clean. Think of the work this feature alone will save you.

Convenient Key Plate Lifter

The handle of this lifter is always cool. Just lift and secure it in one of the notches and you can toast, broil, or feed fuel handily.

New Style Gas Grates

As shown in the illustration, the ribs of the new style grates are parallel. They allow you to use any size utensil without the danger of tipping.

Easy to Keep This Range Clean

The use of nickel and enamel on all parts which are most exposed to grease and dirt makes the stove easy to clean and saves many hours of labor.

For further details, read the specifications. Study them carefully—then compare our prices with those of other high grade combination ranges. You will find that you can make a great saving by buying at Ward's.

Junior Windsor Combination Range

A High Grade Coal, Wood and Gas Burning Range at a Low Price

Burns Natural or Artificial Gas

$72.75 Cash Price

Compact and Attractive

The **Junior Windsor Combination Range** is intended for those who want a range that will burn coal, wood or gas, but who do not need one with the great capacity of our Windsor Combination shown above. With its four coal and wood cooking holes, three gas burners, and regular oven that can be used for either coal, wood or gas, the Junior Windsor will easily take care of ordinary requirements of even large families. Yet this range takes up only the space of a medium size coal range—and costs very little more.

Many people object to combination ranges because they take up too much space in the kitchen. You will notice from the illustration of the Junior Windsor, however, that this range is built compactly and on very attractive lines. To add still further to its appearance, we have placed a liberal amount of white porcelain enamel and nickel on this range. A fine combination range at a real bargain price.

Specifications

Body. Made of best grade of cast iron. Carefully fitted so that no heat is wasted. Takes 7-inch pipe.

Cooking Top. Polished top turns blue when heated. Requires no blacking. Four cooking holes in coal or wood top. Heavy 8-inch lids. Three burners in gas top.

Fire Box. Equipped with duplex grates—burns wood or coal. Size for coal, 17 by 8 by 6 inches. Takes 20-inch wood with end linings removed.

Oven. Size, 18 by 17 by 12 inches. Same oven used for both coal or gas. Accurate heat indicator in oven door.

Warming Closet. Big and roomy. Handy drop door may be used as shelf when open.

Nickeled Parts. Oven door frames, gas fittings, fire and ash doors, front legs, front base strip and high closet castings.

White Enameled Parts. Oven door panels, splasher back, high closet door panels.

Windsor Semi Enameled Gas Range

An Excellent Gas Range Value

If you live in a neighborhood where gas is used you can have no cleaner, quicker or more satisfactory way of cooking, baking and broiling than with a Windsor Gas Range. Every woman wants a good looking stove in her kitchen, and we have spared no effort to make this one of the finest looking gas ranges you can buy anywhere for the money. And you can buy it for cash or on easy payments.

Best Materials and Workmanship

You can not judge by looking at a gas range how long it will stand up—how long it will give satisfactory service. But when we tell you that the steel used in making this range is the famous Armco Iron, one of the purest, strongest and longest lasting grades of steel manufactured, you will know that you have a range that will not only please you when new but will give you service and satisfaction for a great many years.

To insure proper quality we have employed one of the most successful enamelers in the country to do our work, and we believe therefore, that the enameled parts of this range will give exceptionally long wear.

You Save Gas, Too

Each one of the four burners is made of a good, lasting grade of cast iron, and is set at the proper distance below the grate to do the most amount of work with the least amount of gas. Easily lifted out for cleaning. The grates are also made of good cast iron—in the latest practical design. You will notice from the illustration that the ribs on the grates are parallel and set closely together. Even the smallest cooking utensil can be used without the danger of tipping. The drip pan under the grates is white enameled and easy to keep clean.

Roomy Oven and Broiler

All Windsor Gas Range Ovens have cast iron bottoms. Steel oven bottoms warp out of shape and often ruin the baking qualities of an oven. This cast iron bottom will never warp. It also has a tendency to distribute the heat evenly in every corner of the oven. There is a removable lid in the oven bottom so you can cook vegetables and have the odor go up the chimney instead of remaining in the house. Size, 18 by 19 by 12 inches. The broiler is 7 inches high and has an enameled drip pan.

White Enameled Parts: Front legs, drip pan, broiler pan, splasher side and back, back guard, gas cocks, door panels, high shelf, and oven top. **Nickeled Parts:** Door frames, back guard corners, high shelf bracket, gas fittings. **Black Japanned Parts:** Body band, back legs, burner box sides and bottom, top grates, cooking top, end shelf, main front and outside body side.

Manifold is drilled to accommodate lighter—described in lower right hand corner of this page.

Windsor Full Enameled Gas Range

Beautiful—Strong—Practical

$59.75 Cash Price

Undoubtedly, you have seen a great many good looking, ıll enameled gas ranges, but we venture to say that you ave never seen one as handsome as the Windsor Full Enmeled Gas Range at a price as low—nor even nearly as ɔw. No pains have been spared to make this a suitable gas range for the ıost model, up to date kitchen.

Every housekeeper will appreciate the advantages of an enameled gas range. he increasing demand for enameled sinks, bath tubs, table tops, kitchen tensils, and other articles about the home, proves that. Not only is it easy ɔ clean and keep clean—it is pleasing to the eye. Instead of being finished ll over in white porcelain enamel, this range has just enough light French gray orcelain enamel to set off the white to the best possible advantage.

Well Constructed Throughout

In addition to its beautiful finish, this range is ceptionally well made. The body is of the long sting, heat resisting Armco Iron.

The oven and broiler linings are of the faous Wilder rustproof metal, which means ıey will last longer than ordinary linings. The cast iron oven bottom also prolongs the e of this range and adds to the baking qualis. Economical cooking burners can easily removed for cleaning. Accurate heat register over door, tells you when the temperature just right for whatever baking or roasting you ve to do. As in all Windsor Gas Ranges, the oper opening is provided to accommodate the hter described in the lower right hand corner this page.

White Porcelain Parts: Oven and broiler door panels, splasher side d back, drip pan, broiler pan, high shelf, oven top, back guard and s cocks.

ray Enameled Parts: Cooking top front, end shelf, legs, main front d collar.

ckeled Parts: Back guard corners, shelf, bracket, oven and broiler or frames, feed pipe and body band.

Try It for Thirty Days

We want you to try one of these Windsor Full Enameled Ranges in your own kitchen, without any risk whatever. Send us your order and remittance in the regular way and let us ship the range to you. Put it in your kitchen and give it a thorough try out for thirty days. Compare it with the gas ranges in the homes of your neighbors and see for yourself what a remarkable value this is. At the end of thirty days if you are not convinced that this is the best gas range you can get for the money, simply write us for shipping instructions. Every cent you have paid, including transportation charges both ways, will be refunded to you.

Be sure to read in the panel below what we say about Windsor Gas Range Ovens.

Windsor Cabinet Gas Range

A Well Made, Efficient Range at a Very Low Price

Because we have placed a low price on this Range does not mean that we have in any way neglected the quality and workmanship. The only difference between this and the gas range shown at the top of this page is that this range has less nickel and porcelain, and the oven and broiler are 16 inches wide instead of 18 inches. Otherwise the ranges are the same.

Fine Baking Oven

All steel parts are made of the long lasting Armco Iron. The front, top and legs are of a good grade of cast iron. The oven bottom is cast iron and has the pot hole in the center. Even though the oven is a little smaller than our other gas ranges, it is just as fine a baker. The strong, cast iron cooking burners are easily removable for cleaning, as is the oven burner. Equipped with new style grates.

Equipped With Broiler

It is not often you find a gas range of this price equipped with a broiler. This broiler is 7 inches high and has a broiler pan. The oven is 16 by 19 by 12 inches. Both the oven and broiler doors have nickeled frames with white enameled panels. The splasher side and back are both white enameled. Gas cocks are also white enameled. The drip pan is galvanized. **Burns Natural or Artificial Gas.**

Can be furnished with either right or left oven. Like all other Windsor Gas Ranges the **Windsor Cabinet** is threaded and plugged to accommodate the lighter described at the right. Press the lighter button, turn the gas cock and your gas is lighted. Does away with hunting for matches. Shipping weight, 210 pounds.

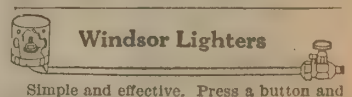
268 F 367—With right oven **$31.95**
268 F 368—With left oven **31.95**

Approximate Freight Charges for Your Information: For 150 miles, 95¢; 300 miles, $1.40; 500 miles, $1.70 We will gladly quote exact shipping charges to your station, on request.

See Next Page for Smaller Gas Stoves

Freight Rates Are Low Compared with the Savings You Make When You Buy a Windsor Gas Range

For your convenience, we show you in connection with the gas ranges on this page the approximate freight charges. Add these freight charges to the price of the Windsor Gas Range you would like to buy. Compare this figure with what you will have to pay for a similar gas range elsewhere. You will find that you can make a great saving after adding the freight charges. Remember—regardless of where you buy a range, you pay the freight charges to bring it to your town.



Shipped from Evansville, Ind.

All Windsor Gas Range Ovens Have Cast Iron Bottoms

The cast iron oven bottom is by far the most successful yet devised. It lasts much longer than the ordinary steel bottom and will not warp out of shape. It absorbs the heat of the burner more slowly and evenly, with the result that your bakings and roasts come out done clear through—not burned on the bottom and raw on top.

In addition, there is the feature of the pot hole in the center of the oven bottom—right over the burner. This gives you an additional burner whenever you need it, besides providing a means for cooking foods that give odor without getting the odor all over the house.

The cooking burners and the baking and broiling burner are all very easily removed for cleaning. Besides being sanitary, a clean burner will do considerably more work with less gas than one that is clogged up.

Windsor Lighters

Simple and effective. Press a button and four tongues of flame leap out—one over each burner. Open the gas cock and the burner is lighted, ready for use. No fussing with matches.

All Windsor gas ranges are threaded and plugged to accommodate this lighter. You simply screw off the plug and screw on the lighter. If ordered with the range, order No. 268 F 400, and the lighter will cost $1.00 extra. If ordered separately it will cost $1.50, and should be ordered under No. 468 F 401. Shipping weight, 1 pound.

268 F 400—
Lighter (when ordered withrange) **$1.00**
468 F 401—
Lighter (when ordered separately) **1.50**

Convenient Gas Stoves for Limited Space

All Windsor Gas Stoves Are Gas Savers

Windsor Gas Cooker

Strong and Efficient—Low in Price

Many people will buy the **Windsor Gas Cooker** because they have small kitchens and must save all the space they can. Others, who find three standard burners and an oven sufficient for their needs, will buy it because it is an efficient strongly constructed gas stove at very low price. Still others will buy it because of its extremely high cooking top—a full 34 inches from the floor. Whether you buy it to save space, or to save money, or because of its high cooking top, you are sure to be well satisfied with your purchase.

It is attractive in appearance because it is well proportioned and has a white enameled panel in the oven door. The three-burner cooking top is 27 inches wide and 15 inches deep. One giant and two single star burners. Oven size, 16 by 12 by 12 inches. Shipping weight, 90 pounds.

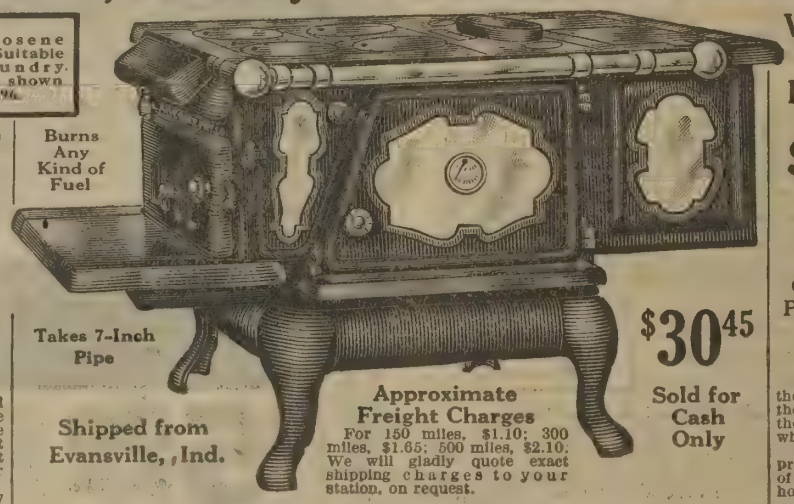
Windsor Laundry Stoves Save Time and Energy

A Kerosene Stove Suitable for Laundry Purposes shown on Page 496

Four Hole Top Laundry Stove

Every housekeeper knows how much extra work a good Laundry Stove will save her. In the **Sun Windsor** we offer at an exceptionally low price a laundry stove made exactly the right height for your convenience—one that will save you most of the heavy lifts and strains that accompany wash day. It is also a handy stove for campers.

The **Sun Windsor** is a sturdy, all cast iron Laundry Stove, 21½ inches high. Four-hole cooking top; size 20½ by 21 inches. The firepot is 12½ inches in diameter, deeply corrugated all around to give it extra strength. Deflector plate over firepot. Takes 6-inch pipe. Shipping weight, 90 pounds.



268 F 900.....**$5.95**

Two Hole Top Laundry Stove

The **Jack Windsor** is the same size as the Sun Windsor except that it has a two-hole top. It will hold the heaviest tub or boiler full of wet clothes. This compact, strongly built stove will positively burn any kind of fuel. A feed pouch in front makes it unnecessary to remove boiler or wash tub when you want to feed the fire. As a camp Stove the **Jack Windsor** is hard to beat.

The top is 13½ by 20½ inches. Height cooking top from floor, 21½ inches. Fire pot is 12½ inches in diameter. Takes 6-inch pipe. Shipping weight, 75 pounds.

Julian Windsor Cast Iron Cook Stove

If you prefer a Cook Stove to a range, here is one that will give you as dependable cooking and baking service as the finest range made. The **Julian Windsor** is heavier in weight and more attractive in appearance than the ordinary stove of this type—in fact, it is one of the best you can buy anywhere. You may fire it as hard as you please, because all the castings are extra heavy and are fitted tightly together and for such a big cook stove, you will find it takes little fuel. The Julian Windsor is a most unusual value for the money.

The cooking top is 40 by 22 inches, including reservoir. Has four 8-inch pot holes, and two 5-inch simmering lids. Firebox is equipped with a heavy duplex grate and burns any kind of fuel. Measures 16½ by 8½ by 5 inches for coal; takes 18-inch wood with end linings removed.

The oven is 18 by 15¼ by 12 inches; bakes excellently. Right oven door has a white enameled panel and a heat indicator; also an automatic kicker. Galvanized iron reservoir holds 15 quarts; heats by contact.

Dandy Windsor Steel Cook Stove

$18.25 With Reservoir

Read About Our Steel Stoves on Next Page

Buying an inexpensive article is often more of a problem than buying one of higher price. You want to buy an inexpensive stove, for instance, but you hesitate, thinking it might be poorly constructed—hence, expensive in the long run. Here is a **Steel Cook Stove** at a low price, about which you need not hesitate. Although it is made of a light grade of steel, it is as well constructed as our higher priced stoves. If used with care it will give satisfactory cooking and baking service for years.

Fitted with a good coal grate. Has an extra grate for wood. Size of top without reservoir, 29½ by 21½ inches. Height, 25¾ inches. Size of oven, 14½ by 17¾ by 9½ inches. Has 8-inch lids. Takes 6-inch pipe.

Everything you need for a well equipped laundry is shown on Page 415

Windsor Steel Ranges Save Time and Fuel

What You Should Know About Steel Ranges

1. Steel Ranges, being lighter in weight than cast iron ranges, heat up more quickly and stay hot with less fuel.

2. Many people prefer steel ranges for the reason that they are less expensive than cast iron ranges—and then there is a saving in fuel to be considered.

3. But in making your selection, be sure to judge the range by the weight of steel, the quality of materials used, its construction, and the reputation of the company selling it. These points should be carefully compared if you are to get the best value for your money, as there are a number of grades of steel ranges on the market.

4. Windsor Steel Ranges are all very carefully assembled. The parts are fitted tightly, and there are no heat leaks to waste your fuel or shorten the life of your range. The three ranges shown on this page are equally well constructed, though the materials and trimmings and weights will vary. No matter which one you buy, you can be sure you are getting a genuine value at a money saving price.

5. Of course it is not intended that steel ranges will stand the hard firing of a cast iron range and give the same length of service. But with proper firing, according to directions supplied with each range, your steel range should give excellent service over a long period of years. And we know you will appreciate its quick heating and fuel saving advantages.

The Success Windsor Our Best Steel Range

The Success Windsor is one of the most attractive medium size Steel Ranges you can buy. It is built entirely along the lines of the more modern cast iron ranges, and contains several features which enable you to save considerable time and labor.

There is the polished cooking top, which, when heated, turns a gun barrel blue and requires no blacking—nothing but an oily cloth rubbed over it occasionally. The liberal use of white porcelain enamel and nickel on all parts which are most exposed to grease and dirt, make this range easy to clean. The flue is behind the splasher back instead of being in front to catch dirt—a sanitary feature. The convenient warming closets with drop doors can be used as shelves when open.

Remarkable Baking Oven

The greatest feature of the Success Windsor, however, is the large, dependable oven. It is surprising that any range can turn out such fine bakings and roasts with so little fuel. The perfect flue construction the careful fitting of parts, and the accurate heat register in the oven door are largely responsible for this.

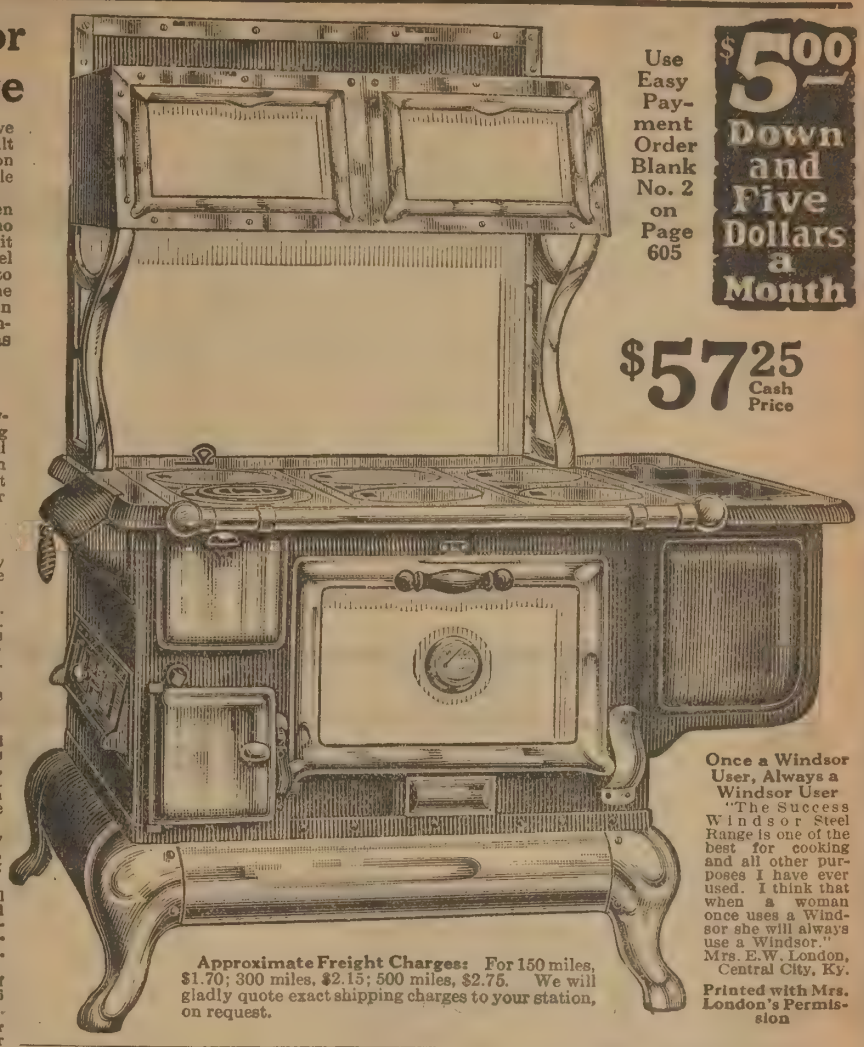
Specifications

Body. The steel used is extra heavy and is specially selected and specially treated to insure long life and the best possible cooking qualities. Takes 7-inch pipe.

Cooking Top. Full six-hole size. All lids are 8 inches. Has one patented non-scorching lid for cooking cereals. The entire top is highly polished and is furnished in this finish without extra charge to you. Size, without reservoir, 36 by 27 inches; with reservoir, 43 by 27 inches. Height to cooking top, 31 inches.

Oven. Extra large for this size of range—18 inches wide, 18 inches deep, and 11 inches high. Door has nickeled frame, white enamel panel and heat indicator.

Fire Box. Equipped with duplex grate burns wood or coal. Size for coal, 16½ by 7 by 5½ inches. Burns 18-inch wood with end linings removed. Fire and ash doors nickeled.



Pouch Feed. Very convenient for feeding coal, toasting bread, or broiling meat.

High Closet. Has full nickeled front and nickeled drop doors with white enamel panels. White enamel panels and splasher back. Extreme height, 59 inches.

Reservoir. Made of pure copper. Holds 16 quarts and heats by contact.

Only $44.85 for This Fine Steel Range

Where Can You Get Another Like the Stalwart Windsor at Such a Low Price?

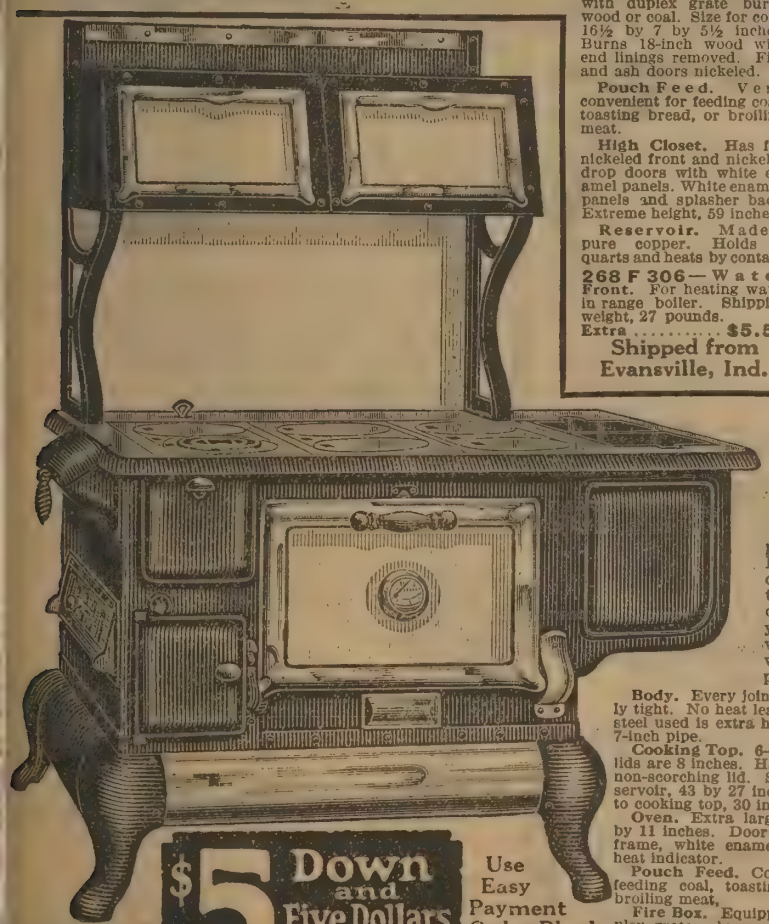
The **Stalwart Windsor** is all that the name implies—a strong, well built, reliable Steel Range. It has few expensive trimmings, yet it is built on mighty attractive lines, as you can see from the illustration. It is mainly because we have left off some of the trimmings that we are able to offer you this range for such a very low price. Quality, workmanship and weight of materials have in no way been sacrificed to accomplish this low price. You will find the Stalwart Windsor a fine cooking and baking range, one that will burn either wood or coal economically, and, if not fired too hard, one that will last you many years.

Read the specifications carefully, then compare our price with others. For a steel range of the size and weight of the Stalwart Windsor, with the roomy oven, convenient high closets, white porcelain enameled splasher back and concealed flue, you will find this a very special bargain.

Body. Every joint is absolutely tight. No heat leaks out. The steel used is extra heavy. Takes 7-inch pipe.

Cooking Top. 6-hole size. All lids are 8 inches. Has one patent non-scorching lid. Size, with reservoir, 43 by 27 inches. Height to cooking top, 30 inches.

Oven. Extra large, 18 by 18 by 11 inches. Door has nickeled frame, white enamel panel and heat indicator.



Pouch Feed. Convenient for feeding coal, toasting bread or broiling meat.

Fire Box. Equipped with duplex grates—burns coal or wood. Size for coal, 16½ by 7 by 5½ inches. Burns 18-inch wood with end linings removed.

High Closet. Nickeled drop doors with white enameled panels and splasher back. Extreme height, 59 inches.

Reservoir. Made of galvanized iron. Holds 16 quarts; heats by contact.

"I am very much pleased and satisfied with the Grenadier Range. It is A No. 1 in baking bread and pastry, and is also fine for cooking. Requires very little fuel." Jos. Nachowski, Grand Rapids, Mich.

Printed with Mr. Nachowski's permission

Grenadier Windsor Light Steel Range

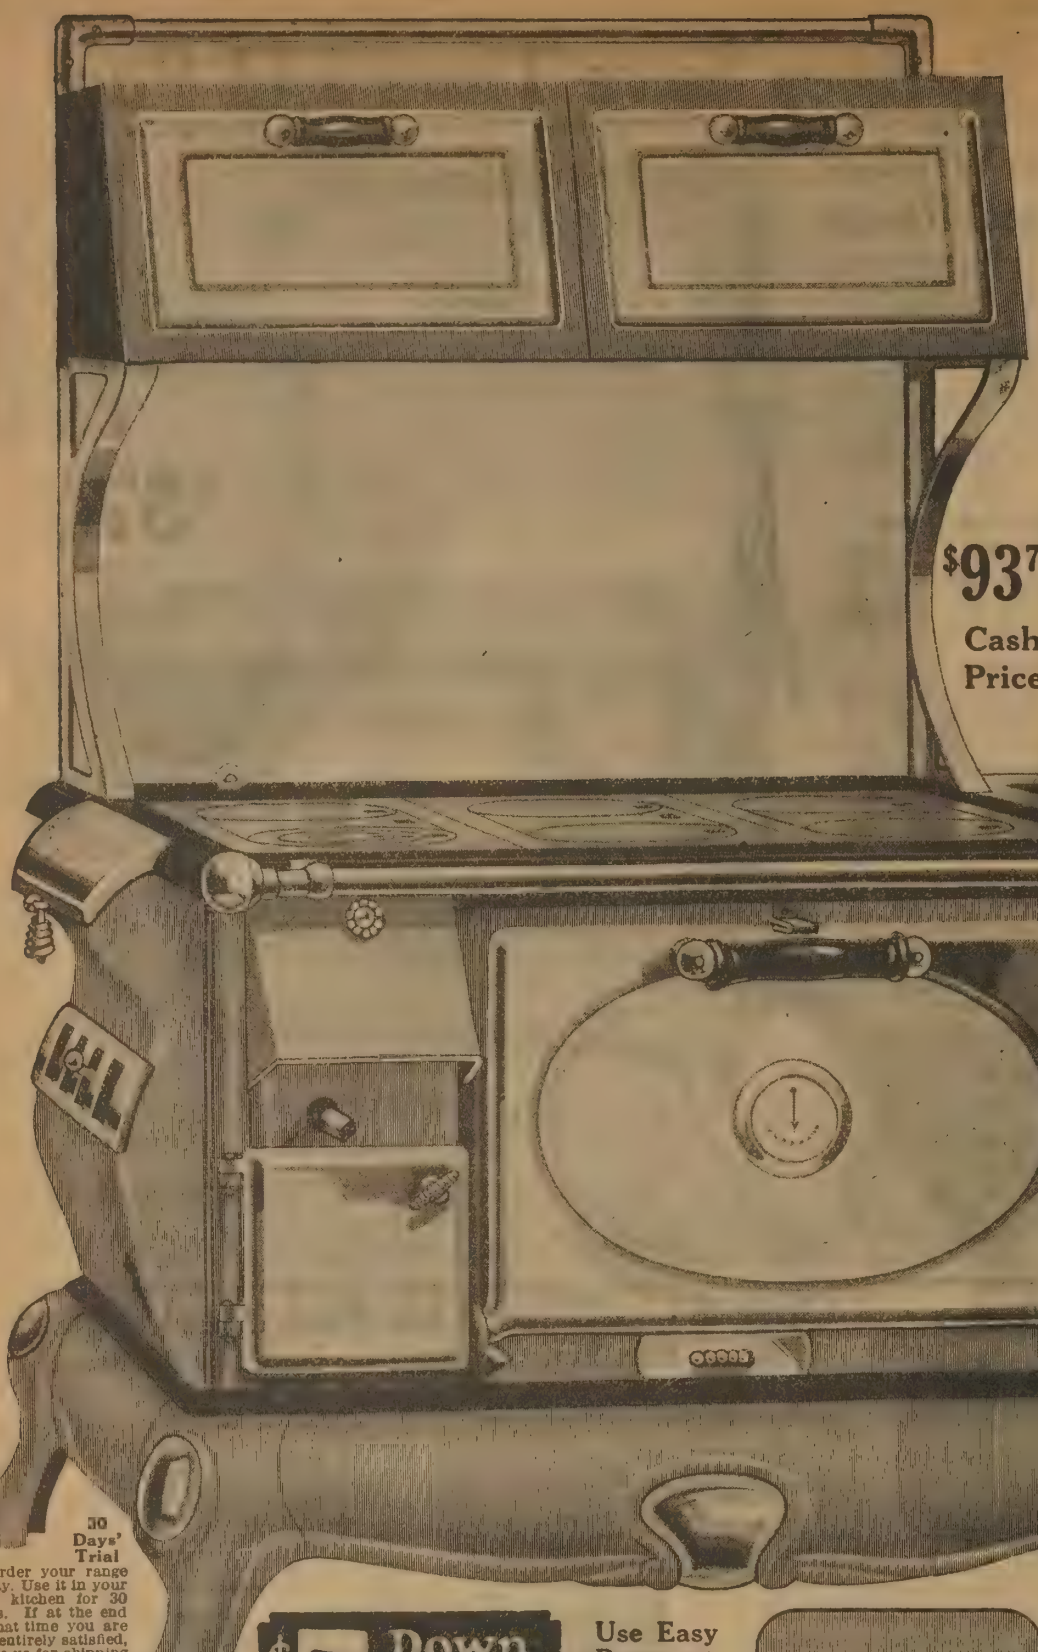
Inexpensive, yet satisfactory. Many of our customers whose needs are not too great are getting splendid results from **the Grenadier Windsor.** Being a light steel range, it should not be fired hard. But then, it is not necessary to fire it hard to get suitable cooking and baking heat. A handful of chips or a little coal is all you need.

The warming closet is very convenient for keeping food or plates warm, while the splasher back serves as a protection for your walls against splattering grease. The strong end shelf affords a resting place for utensils that are to be removed from the fire. Can be furnished either with or without galvanized iron reservoir.

Body. Medium weight steel. Height, over all 54 inches. Takes 7-inch pipe.

Cooking Top. 43 inches long and 21 inches deep, including reservoir. Has six full 8-inch lids, two fuel saving cyclonic lids, three regular, and one 2 piece reducing lid.

Fire Box. Size for coal, 15 by 5½ by 7 inches. Has extra grate for burning wood. Linings are of cast iron.



Reservoir. Made of galvanized iron; cast iron top. Fits tight against either end of the range. Holds 16 quarts and heats by contact.

Oven. Enameled panel and heat indicator in door. 16 inches wide; 18 inches deep.

Brighten Your Kitchen With an Admiral Windsor

$93.75 Cash Price

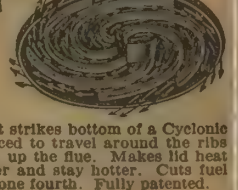
Read Why This Big, Handsome Porcelain Enameled Range Is One of the Best You Can Buy

The **Admiral Windsor Porcelain Enameled Range** is one of the biggest, heaviest and most substantial and durable ranges that has ever been built. It will stand the hardest kind of usage for years, and during all this time will give faithful, efficient and satisfactory service. Moreover, with its attractive design, highly polished and glossy nickel frames, and durable porcelain enameled coating, the **Admiral Windsor** will always be one of your most handsome possessions.

Easy to Clean and Keep Clean

Porcelain enamel of the right quality when properly applied to a range not only improves its appearance and lengthens its life—it saves the housekeeper many weary hours of toil and drudgery. Just think of the many hours a year spent in blacking and polishing the ordinary kitchen range. **You throw away your stove polish when you put an Admiral Windsor in your kitchen.** It is as easy to clean and keep clean as a china dish. Finished in either **French Gray** or **Turquoise Blue.**

Large Reservoir—Plenty of Hot Water



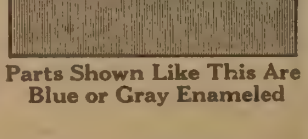
The reservoir is exceptionally large. Holds 28 quarts—enough for all household purposes. Hand made of heavy pure copper, tinned on the inside. Heats by contact.

17¢ a Day Will Pay for This Handsome Range

Polished Cooking Top

Entire top is polished—turns blue when heated and does not require blacking. Made of three interchangeable sections which may be moved about so as to more than double its life. Has two cyclonic lids, three regular lids and one reducing lid. Fits either 8 or 9 inch cooking utensils—a patented Windsor Feature. Top 49 by 26 inches, including reservoir.

Patented Cyclonic Lids Save Fuel



When heat strikes bottom of a Cyclonic Lid it is forced to travel around the ribs before going up the flue. Makes lid heat much quicker and stay hotter. Cuts fuel bills almost one fourth. Fully patented.

30 Days' Trial

Order your range today. Use it in your own kitchen for 30 days. If at the end of that time you are not entirely satisfied, write us for shipping instructions and we will refund every cent you have paid, including all transportation charges.

$5 Down and Five Dollars A Month

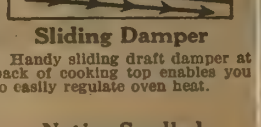
Parts Shown Like This Are Blue or Gray Enameled



Large Fire Box Guaranteed Fire Back

Firebox built particularly large and strong to withstand hard and constant firing. Has duplex grates—will burn any kind of coal or wood. With end linings removed takes 21-inch wood. Size for coal, 18 by 9 by 5½ inches. **Guaranteed fire back.** Has proved during use of over 20 years to be almost indestructible. **If it burns out within ten years, we will replace it free of charge.** Highly nickeled fire and ash doors.

A Real Oven Fully Equipped

Bakes and roasts almost to perfection. Unusually large size. Special patented heat circulator in left oven wall distributes heat evenly in every square inch of the oven. Accurate heat register in door eliminates guesswork from baking. Nickeled door frame with white enameled panel. Special spring hinges in drop door.

Sliding Damper

Handy sliding draft damper at back of cooking top enables you to easily regulate oven heat.

Notice Swelled Left End

Swelled left end creates greater draft and enables you to heat up your oven quickly when desired, by merely opening slide damper.

Convenient Warming Closet

Nickeled door frames with white enamel panels. Nickeled corner columns hold closet absolutely rigid. Splasher back door panels and top rail are white enameled. Front frames blue or gray porcelain enameled. Roomy warming oven will keep your meals piping hot.

Dependable Baker

"The Admiral Windsor is the pride of our home. It is a wonder, and I would never part with it. All my friends say they have never seen a more handsome range. It is a fine, dependable baker."
Mrs. A. Badtke,
Sheboygan, Wis.
Printed with Mrs. Badtke's permission

Admiral Windsor Is a Beauty

"I surely do like my Admiral Windsor Range. It is one of the prettiest stoves I ever saw, and it can not be beaten for baking. I think it is one of the best stoves made."
Lon Beard,
Warrensburg, Mo.
Printed with Mr. Beard's Permission

Your Choice of Blue or Gray Finish

Good Quality at Low Prices—How We Do It

Since 1921 we have been working on plans and new methods for reducing the cost of the **Admiral Windsor Enameled Range** without in any way lowering the quality. We hired experts, the best in the country, to devote themselves to the task; and we procured a factory to manufacture this one type of range in large quantities. How well we succeeded is shown by the extremely low price at which we are now offering you the Admiral Windsor Porcelain Enameled Range—one of the **highest quality ranges it is possible for you to buy anywhere.**

Freight Rates Are Low

When we ship this big range 150 miles, the freight charges are approximately $2.80; 300 miles, $4.05; 500 miles, $5.00. We will gladly quote exact shipping charges to your station, on request. These amounts are extremely small when you compare them with the saving you make. Add the freight to our price when you make your comparison, and see for yourself.

The Admiral Windsor Will Last Many Years

Think of having a range that will act the same fifteen or twenty years from now as it did the day you bought it. That is exactly what the **Admiral Windsor** will do. Genuine mayari pig iron, one of the materials used in making our castings, is largely responsible for this. It gives the iron the heat resisting and wear resisting qualities with which to withstand the continuous service required of a stove day after day—year after year. It also makes a tough, close grained casting—the kind that retains heat. The benefit of this will be clearly noticeable in your reduced fuel bills.

This same mayari pig iron is used in furnace castings, locomotive parts, glass moulds, and other articles which must withstand intense heat. It is also used in rock crushers, car wheels, sand pumps, all of which are subjected to rough, strenuous usage. You can readily see what this material will do for the **Admiral Windsor,** and why we say this range will last a lifetime.

Water Front

For heating water in range boiler. Fits in front of fire box. Shipping weight, 20 pounds.

Built to Give a Lifetime of Good, Dependable Service

The **Advance Windsor Range** is one of the finest, heaviest and most durable ranges we have ever built, besides being one of the most popular. For many years people who have preferred a range built on plain, simple lines, have ordered the **Advance Windsor** and have found it to be everything a good, hard working, substantial range should be. No wonder. Although the price is low, it is as carefully built, and of as fine materials, as our highest priced ranges. All it lacks is the fancy trimmings—which, after all, do not add to its cooking, baking and fuel saving qualities.

Nothing has been left undone to make the **Advance Windsor** a truly high grade, economical range. With the exception of the finish, it has all the features of our fine **Admiral Windsor**—the large reservoir, polished cooking top, cyclonic lids, guaranteed fire back, sliding damper, swelled left end, oven thermometer, and roomy high closets—all described on the opposite page. A remarkable range at a remarkably low price.

$5.00 Down and Five Dollars a Month

Specifications of Advance Windsor

Body. Every casting in this body is made of pure gray iron of unusually heavy weight. All the parts are ground and fitted together by hand, making the joints airtight. This is why the Advance uses so little fuel, despite its large size. Entire height, 62 inches. Takes 7-inch pipe.

Fire box. Built large for heavy work. Has duplex grate for burning either wood or coal. Burns any kind of fuel. Size for coal, 18 by 8 by 5 inches. The end linings may be removed so stove will take 21-inch wood. The fire back is practically indestructible.

Cooking Top. Plenty of room to prepare the largest meal. Has two fuel saving cyclonic lids, three heavy regular lids, and one sectional lid. This top has a highly polished finish which does not require blacking. No extra charge for this special finish. Height to cooking top, 31 inches. Size of cooking top with reservoir, 42 by 25½ inches.

Oven. Bakes perfectly in every corner and will not warp. The oven heat is regulated by a **sliding damper** which enables you to maintain even heat on all sides. Accurate heat register in door.

Reservoir. Extra large. Holds 28 quarts and heats by contact. Hand-made of pure copper, tinned on the inside. Will not rust.

Warming Closet. The convenient drop door style, large and commodious inside. When open, the doors make a handy shelf. Door panels and entire splasher back are white enameled. Castings are black japanned, baked on.

268 F 462—Water Front. For heating water in range boiler. Shipping weight, 20 pounds. **Extra**.....**$5.50**

Amazon Windsor

A Massive, Attractive, Durable Range

Due to its great cooking and baking capacity, the **Amazon Windsor** Range is usually the choice for homes here there are large families. Smaller families, however, so find it a wise investment, because this range is so economical of fuel and lasts so many years.

In appearance, the **Amazon Windsor** is hard to equal. ou can see from the illustration what a great big, massive, od looking range it is. But to fully appreciate it you ust actually see it—cook on its large polished cooking p—bake or roast in its roomy, dependable oven.

Imagine a range performing after fifteen years of hard rvice the same as it did when new. Yet that is just what e **Amazon Windsor** will do; what the **Amazon Windsor** doing in a great many homes. This is due to the exeme care used in selecting the material and in the sembling of this range.

In addition to this, the **Amazon Windsor** is equipped th all the time, labor and fuel saving features described the opposite page. It would be hard to find another nge of this same size, quality and fine appearance at a ice so low.

Specifications of Amazon Windsor

Body. Built of extra large and heavy iron castings. All joints are ground l fitted perfectly tight; cemented and bolted together. The swelled left l gives you an extra strong draft when desired. Entire height, 62 inches. kes 7-inch pipe.

Fire Box. Very large, for heaviest kind of work. Has duplex grate—ns wood, coal or any other fuel. Size for coal, 18 by 9 by 5 inches. Takes inch wood with end linings removed. **Extra heavy cast iron fire back.** e and ash door full nickeled in a plain smooth design.

Cooking Top. Full six-hole size; has two cyclonic lids, three extra heavy n lids, and one 3-piece sectional reducing lid. All lids are combination 8 9-inch; either size vessel fits firmly into opening when lid is removed. **ghly polished top furnished on this range does not require cking.**

Oven. Will not warp or get out of shape. Oven heat is regulated by a **ling damper.** Drop door, with nickeled frame; white enamel panel and urate heat register in center. Size, 20 by 20 by 13 inches high.

Warming Closet. Very roomy, 13 inches deep. Nickeled drop doors white enameled panels. Nickeled brackets, full white enamel splasher back guard.

Reservoir. Unusually large and deep. Made of especially heavy rust- of copper. Holds 28 quarts and heats by contact. Smooth, rounded full ceted panel on front.

Base. Made of heavy cast iron. Two front legs and front base strip shed in beautiful smooth nickel.

All Stoves Take 3rd Class Freight Rate

Some folks don't realize that freight charges really amount to very little. For instance, a big range weighing 630 pounds can be shipped 150 miles for about $2.80. A small stove weighing about 130 pounds can be sent 150 miles for about 60¢. Freight is a small item when you consider the big saving you always make by buying from Montgomery Ward & Co.

$79.85 Cash Price

Amazon Windsor Will Please You Too

"I never saw a range of any size or kind bake better than the Amazon Windsor. The range is exactly as represented; but that is no more than I expected, as I have dealt with Montgomery Ward & Co. far over thirty years—and that is the way I have always found them—dealing square at all times."

Wm. H. Rogers,
Duckabush, Wash.

Coronet Windsor
The Most Attractive Medium Size Enameled Range We Ever Built

$74.85 Cash Price

The modern housekeeper has learned there is nothing that can make or mar the beauty of her kitchen like a kitchen Range. With the old fashioned type of black range she never could keep her kitchen attractive and fresh, try as she would. On the other hand, with a porcelain enameled range like the Coronet Windsor, of proper design and color, her kitchen seems always spick and span—an inviting, pleasant place to carry on her household duties.

One glance at the illustration will convince you that the Coronet Windsor is a range of beautiful design. And you can have it in either of two beautiful color combinations—**Turquoise Blue and White,** if those colors match the other furnishings in your kitchen; or **French Gray and White,** if they will harmonize better.

Sanitary—Durable—Good Looking

Porcelain enamel is every day becoming more and more popular for kitchen equipment. Kitchen sinks, table tops, refrigerator linings, cooking utensils—all porcelain enameled—and why? Because porcelain enamel is sanitary and easy to keep clean. Just think—to keep the Coronet Windsor clean all you have to do is go over it occasionally with a damp cloth. No more of that disagreeable blacking, where you work so hard, and yet a short while afterwards your stove looks as though it had never been cleaned at all.

The porcelain on this range is not merely a surface coat. It is so manufactured that the enamel becomes a part of the metal itself. Baked on at extremely high temperature so it will last for years. With reasonable care it should not chip or crack.

30 Days Trial

Order today the Coronet Windsor Range. Use it in your own kitchen for 30 days. If at the end of that time you are not entirely satisfied, write us for shipping instructions and we will refund every cent you paid, including all transportation charges. You take no risk whatever.

Parts of Stove Shown Like This Are Blue or Gray Enameled

Shipped from Evansville, Ind.

$5.00 Down and Five Dollars a Month

You can buy this fine Range and pay for it in small convenient monthly payments. Send only $5.00 with your order and the range will be shipped to you. Then while you are using and enjoying it, you pay five dollars a month—only 17¢ a day—until the range is paid for. The payments are so small you will scarcely miss the money. Thousands of customers all over the country have bought Ward's kitchen ranges through our Easy Payment Plan.

Use Easy Payment Order Blank No. 2 on Page 605

Your Choice of Blue or Gray Enamel Finish

In keeping with the beauty of this range are its cooking and baking qualities. Every detail has been carefully planned and worked out, from the sliding damper, which enables you to regulate both the cooking and baking heat, to the swelled left end which creates a greater draft and helps you get the utmost from your fuel

On the polished cooking top are two patented cyclonic lids. These lids have grooved bottoms (shown on page 504) so that the heat waves, instead of merely glancing off and sliding up the chimney are forced around the lids, heating them more quickly and thoroughly.

The duplex grates enable you to use either wood or coal, and the smallest possible amount of either, because you get the benefit of every bit of heat. All parts of this range are carefully machined and tightly fitted together, so no heat escapes.

The oven is so arranged that there is a constant circulation of good live heat all around it. You get even heat on all sides. With the sliding damper and oven thermometer to regulate this heat there is no chance of going wrong on your baking.

Another feature is the polished cooking top, which requires no blacking to keep it clean. To remove grease spots and dirt merely go over it with an oiled cloth.

Best of all, you can have one of these blue or gray porcelain enameled ranges at a price much lower than you would pay elsewhere for a range of equal quality. Read carefully the complete specifications in the next column, then compare our price with others, and see for yourself what a saving you can make.

Specifications of Coronet Windsor Read Carefully—Then Compare Prices

Body. Made entirely of high grade cast iron. All castings are medium heavy and are fitted together so perfectly that no heat can escape between them. Takes 7-inch pipe.

Cooking Top. Six-hole size; three regular lids, two fuel saving cyclonic lids and one sectional lid—all 8-inch. Top measures 42 by 23½ inches with reservoir, and stands 30½ inches high from the floor. Highly polished; turns gunmetal blue when heated and does not require blacking.

Fire Box. Equipped with duplex grates for burning either wood or coal. Size for coal, 16 by 7¾ by 5 inches. Takes 20-inch wood with end linings removed.

Oven. Bakes perfectly. Size, 18 by 16½ by 12 inches. Accurate heat indicator in enameled door.

High Closet. Convenient and roomy. Drop doors are flush with frame and have invisible hinges. No bolt heads show. Extreme front finished in blue or gray enamel with white door panels, splasher back and top rail.

Reservoir. Made by hand of the best grade of pure copper. Holds 20 quarts. Heats by contact.

Approximate Freight Charges: For 150 miles, $1.95; 300 miles, $2.75; 500 miles, $3.40. We will gladly quote exact shipping charges to your station, on request.

Repair Parts
For All Ward's Stoves

With each stove bought from us we include a Repair Chart showing in detail each part of the stove, its name and number. The chart also shows how the parts are finished—plain, japanned, polished, nickeled, or enameled. Carefully save this chart. No doubt it will be some years before you will have to refer to it, but when you do it will save confusion and help us to give you better service.

Suppose, for instance, you have a broken or wornout plain casting weighing 3 pounds. Look in our catalogue under the heading Plain Castings; then run down the column to the line "From 3 to 4 lbs." At present prices, as per list below, this casting would cost you only 80¢. We always will sell repair parts to you for just what they cost us.

Special trimming and steel parts shown on repair charts can be furnished to you at current market prices.

Replace That Wornout Range With a Challenger Windsor

$5.00 Down and Five Dollars a Month

Use Easy Payment Order Blank No. 2 on Page 605

$54.75 Cash Price

Shipped from Evansville, Ind.

Place a **Challenger Windsor Range** in your kitchen and put an end to your stove worries. There is no need of enduring the bother caused by a wornout, fuel wasting range, when a small payment of $5.00 will bring this sturdy, handsome, medium size range to your home. Send your order for this fine range today—you will save enough on fuel to help you out considerably on your easy monthly payments.

The **Challenger Windsor**, like all our cast iron ranges, is built on strictly modern lines. It has the polished cooking top, which requires no blacking; the sanitary white enameled splasher back, which is easily kept clean; the swelled left end, which creates greater draft and helps you get more heat from your fuel; the duplex grates, which burn either coal or wood; the oven heat register, which eliminates guesswork from your baking.

Besides this, you can see what an attractive range this is. Notice the nickeled and white enameled parts—the beautiful lines. It will add greatly to the appearance of your kitchen and you will be proud to own it.

Most important of all, the **Challenger Windsor** is a splendid cooking and baking range. The heat is controlled by a sliding damper, and that, together with the accurate oven thermometer, enables you to have remarkable baking success. Read the specifications carefully and see what a great saving you can make by buying the **Challenger Windsor** as compared to other ranges of equal quality.

Specifications of Challenger Windsor

Body. Built entirely of gray cast iron, medium heavy. Parts are carefully fitted together making joints airtight. Takes 7-inch pipe.

Cooking Top. Six holes; two fuel saving cyclonic lids, three plain lids, and one sectional reducing lid, all 8-inch. Measures 41½ by 23½ inches, including reservoir. Furnished without extra charge in polished finish which requires no blacking.

Fire Box. Equipped with duplex grates so it will burn either coal or wood. Size for coal, 16 by 7¾ by 5 inches. Burns 20-inch wood with end linings removed.

Oven. Measures 18 by 16½ by 12 inches. Nickeled drop door with white enamel panel and heat indicator. **Sliding damper** for regulating oven heat enables you to maintain even heat on all sides.

High Closet. Nickeled drop door; white enamel panels and splasher. Nickeled brackets.

Reservoir. Made by hand of pure copper; tinned on inside; will not rust. Holds 20 quarts and heats by contact.

All Letters Printed with Customers' Permission

From a User of Two Windsor Stoves

"My Crescent Windsor is giving me good satisfaction. I figure I made a big saving on the cost. Am also using a Windsor four-burner Kerosene Stove and am having good success with that."

Geo. I. Carpenter, Oran, Ia.

Windsor Ranges Are Good Bakers

"We are very much pleased with our Windsor Range. It is very easily kept clean and we have fine luck with it in baking. We are mighty proud to own a stove like the Windsor and will never be sorry we bought it."

M. H. Engebretson, Durand, Ill.

Best for the Money

"I am more than satisfied with my Windsor Range. I could not get a better stove anywhere at that price. We have the most perfect results in our baking."

John Lidbeck, Iron Mountain, Mich.

Would Not Take Twice the Price

"We have used our Windsor Range for some time now and think it is a dandy. Would not take twice the price of it if we could not get another. My wife says it is the best baker she ever used."

Edwin F. Lange, Maquoketa, Ia.

A Good Range at a Reasonable Price

"I am well pleased with my Challenger Windsor Range, and would advise anyone who is thinking of buying a good stove or range to order it from Montgomery Ward & Co. You get a good stove at a reasonable price."

Victor Alto, Ramsay, Mich.

A Serviceable Medium Size Range Ideal for the Average Family

The New Crescent Windsor is the choice of the housekeeper who wants a medium size range solely for its cooking, baking and fuel saving qualities. Fancy trimmings do not help a stove in cooking, so we have left them off, and can therefore offer you at an extremely low price a thoroughly high grade range that will please you in every respect.

We have not tried to dress up this range with scrolls and curves, because we think the simple design, especially when set off with the white enameled splasher back and high closet panels, and the nickeled towel bar, presents a far more pleasing appearance. Besides, there are no hidden corners in which dust and dirt will collect—a feature you will appreciate when you are cleaning your range.

Nothing has been spared to make the **New Crescent Windsor** a quality range throughout. The same care is taken in assembling and fitting the parts together as in our highest priced ranges. The same features that add to its cooking, baking and fuel saving efficiency are embodied in it—the swelled left end, the duplex grates, the oven thermometer and the sliding damper. All this at such a low price, because the trimmings have been omitted—and you can buy this range either for cash or on our liberal Easy Payment Plan.

Specifications of New Crescent Windsor

Body. Solid cast iron of good quality. All castings ground off smooth and carefully finished. Not especially heavy, but strong enough to give you much satisfactory service. Takes 7-inch pipe.

Fire Box. Equipped with our regular duplex grate for burning either coal or wood. Size for coal, 16 by 7¾ by 5½ inches. Takes 20-inch wood with end linings removed.

Pouch Feed. Feeds coal to the fire box. Handy for toasting or broiling.

Cooking Top. Full six-hole size; plenty of room to cook a big meal. All lids are 8-inches in diameter. Has two fuel saving cyclonic lids (see detailed description on page 504), three plain lids, and one 2-piece reducing lid for getting direct heat on small cooking utensils. Size of top with reservoir, 42 by 23½ inches. Size without reservoir, with end shelf, 32 by 23½ inches.

Oven. Exceptionally large for this size range. Will hold a large roaster. The drop door is spring balanced, and is fitted with one of our accurate oven heat indicators.

This range is equipped with a **sliding damper** which is a wonderful help in baking. By using the damper, you are able to get all sides of the oven equally warm.

Warming Closet. Latest improved drop door type. The entire splasher back and high closet door panels are white porcelain enameled.

Reservoir. Made of galvanized iron; will not rust. Holds 20 quarts and heats by contact. May be detached when not required or for cleaning.

Base. Smooth, rounded cast iron legs; strong steel base strips; all Japanned black finish, baked on.

84 F 50	$1.95	$2.45

Superb Fiber Wall Board takes the place of lath and plaster. See Page 560

Lakeside Special Saws Not in List

Saws listed can be furnished with any ordinary size hole at no extra charge. We carry in stock for immediate shipment saws in standard sizes, as listed but will supply special gauges as promptly as possible. It usually takes from 10 to 30 days to make up special saws at the factory. Prices on saws larger than 36 inches and on inserted tooth saws given on request.

When Ordering Special Saws

Be sure to advise us of the diameter, hand, gauge at center and run, number of teeth, kind of lumber to be cut, speed of saw while buried in log (not while running out of cut) horse power of engine, greatest feed, whether mandrel runs cool or warm, and templet showing size of holes. All saws come filed and set, ready for use.

Table of Speeds

Always run saw at proper speed. Too fast or too slow is equally bad.

Saw Diameter	Speed	Saw Diam. In.	Speed	Saw Diam. In.	Speed
18 in.	2,000	26	1,384	..	....
20 in.	1,800	28	1,285	36	1,000
22 in.	1,636	30	1,200	..	....
24 in.	1,500	32	1,120	..	....

Lakeside High Speed Circular Saws

Best grade crucible Saw steel, correctly tempered, smithed, blocked set and hammered. These saws are the product of expert sawyers of many years' experience enabling them to correctly build each saw to give you the service to which you are entitled. Always run the saw at proper speed, too fast or too slow is equally bad. See the speed table at left.

Prices are for saw, set and sharpened ready for use. Be sure to give size of hole and style of saw wanted.

Eclipse Cordwood Saws

Made expressly for use on Cordwood or Pole Sawing Machines and on our Saw Mandrels. They are hammered to run properly at the usual speeds of these machines and are precisely hand filed and set, ready for use. The improved special shaped teeth with large gullet, make these saws cut fast and hold their edges remarkably. They are tempered to stand the severe outdoor weather service to which they are subjected, and will be found to be thoroughly reliable in every way. Made only in sizes listed below, for crosscut sawing. State size wanted.

Lakeside Planes — $2.90

Improved Thumb Nut Adjustment

The Plane That Does Better Work

Highest Quality

When you buy a Lakeside Plane, you get a tool that has proved itself unsurpassed through many years. Expert carpenters who use these planes find them perfect in every detail with accurate adjustments which enable them to do the best work.

The frames of these planes are made of heavy Japanned iron. Sides and bottom accurately ground and polished. Strong cutter caps. The Easy Grip handles and knobs are of close grained hardwood. The cutters are made extra heavy to prevent clattering when planing rough boards or knots. The improved thumb nut adjustment in rear raises or lowers the cutter in removing blade, and lever shown underneath adjusts the blade likewise, assuring you of a smooth and level planing edge. Made with both smooth or grooved bottom. Shipping weights, 4¼ to 10¼ pounds.

Lakeside Stillson Wrench

TRADE MARK

Grips Firmly—Releases Instantly

$1.00 18-Inch

You, Too, Can Save at Ward's

"I went to the hardware store and priced an 18-inch Stillson. It was $2.50, just $1.50 higher than in your catalogue. I ordered a 24-inch Stillson, which cost me just 6¢ more, including postage, than local price for 18-inch wrench."

F. W. Ashcraft, Marshville, N. C.

Printed with Mr. Ashcraft's Permission

Gas companies; plumbers, mechanics and steam fitters note our prices on Stillson Wrenches are below usual wholesale costs. Will accept orders for quantities at these prices.

Genuine Coe's Knife Handle Wrench

89¢

Coe's Genuine "Knife-Handle" Wrenches are made for hard service and will stand a great deal of abuse. The handles are cast semi-steel frame with hardwood sides, secured at both ends by insertion under metal and riveted under pressure. The soundest, strongest handle made. The screw is steel, hardened in one piece. Jaws are of case-hardened steel. Solid one-piece bar extends through to the end of the handle. Handle grips are fully polished and varnished. A thoroughly reliable knife-handle wrench at an exceptionally low price.

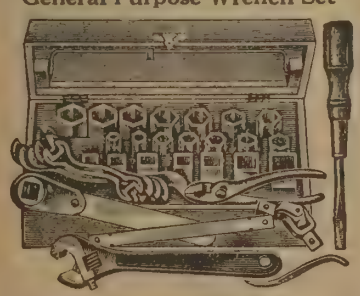
Socket Wrenches

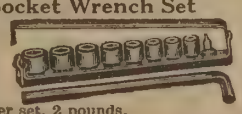
42-Piece Set



$6.98

Have you ever seen such a complete Socket Wrench Set offered at this low price? We don't believe you have! This set is the highest quality and the most complete socket wrench set we have ever offered. It consists of 42 pieces. The 29 hexagonal sockets fit all standard hexagonal nuts from 5/16 to 1¼ inches. The 8 square sockets fit all U. S. Standard square nuts from ⅛ to ¾ inch. Each socket is made of cold rolled steel with extra heavy walls, and hardened. A drop forged universal joint makes it possible to reach nuts in the most out-of-way places. The cold rolled steel extension bar is interchangeable with sockets and wrenches in turning nuts hard to reach. The ratchet wrench enables one to use any of the above sockets in any position, turning the nut without removing the socket. A drop forged offset handle for use in very close places and a cotter pin remover are also included. Finished in white nickel in strong steel box. Shipping weight, per set, 8 pounds.

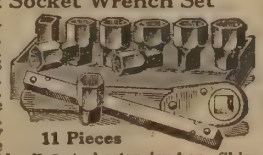
84 F 7463—Complete set.....$6.98



General Purpose Wrench Set

Pleasant to work with. Nickel finish on sockets and ratchet handle, as well as on other parts of set. Set consists of 14 hexagon sockets, openings, 13/32 to 1 5/32; 6 square sockets, openings 1/32 to 1 1/32; one 9-inch ratchet handle; one 8-inch cold-rolled steel extension bar; one drop-forged universal joint; 5 double end S wrenches, openings, 7/16 to 1 inch; 6-inch slip-joint pliers. All above tools are nickel finished. Also contains 10-inch Crescent Pattern wrench; 6-inch cotter pin extractor; extra heavy screw driver with 5-inch blade. Packed in neat solid oak box. Ship. weight, per set, 12 lbs.

84 F 7469—Per set.....$7.25

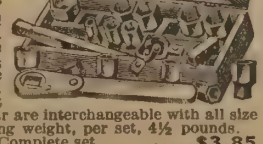


10-Piece Socket Wrench Set

Made of drop forged steel, carefully heat-treated. Consists of 8 sockets, 7/16 to 15/16 in. and 1 screw driver. Shipping weight, per set, 2 pounds.

84 F 7460—Per set.....$1.00

Ratchet Socket Wrench Set



Made of cold-rolled steel, strong and tough. Consists of 8 hexagon sockets, 7/16 to ⅞ inch. Also one square ½ inch socket. Has a handy ratchet handle and an 8-inch cold rolled steel extension bar. Shipping weight, set, 2¾ pounds.

11 Pieces

84 F 7461—Complete set.....$1.98

Handy Socket Wrench Set 17 Pieces

Consists of 17 pieces all finished in white nickel. The pockets have openings from 7/16 to 1¼ in. The ratchet wrench, universal joint and extension bar are interchangeable with all size sockets. Shipping weight, per set, 4½ pounds.

84 F 7462—Complete set.....$3.85

Oster Bull Dog Pipe Stock and Dies

At Wholesale Prices

Dies are tempered steel. One set of dies cuts two sizes. Can be set to cut under or over size. Pipe taps not included.

$8.67

484 F 7412—State size wanted.

Size	For Pipe, Inches	Ship. wt.	Each
101	⅛, ¼, 3/8, ½, ¾	12 pounds	$ 8.67
102	¼, 3/8, ½, ¾, 1, 1¼	20 pounds	11.33
104	½, ¾, 1, 1¼, 1½, 2	30 pounds	16.67
104½	¼, 3/8, ½, ¾, 1, 1¼, 1½, 2	33 pounds	18.67

Lakeside Church and School Bells

$11.75 20-Inch

Clear, Deep, Mellow Tones

Lakeside Church Bells are made of a special composition metal, producing a clear, rich, mellow sound. The larger the bell, the deeper and richer the tone, which improves as the bell ages. Large, clear sounding bells for less money than smaller brass bells would cost.

Lakeside Church Bells produce a clear, deep, mellow tone that can be heard a great distance. Are complete with tolling hammer.

Lakeside School and Factory Bells are of the same quality as our Church Bells but do not have a tolling hammer and are designed for schools, courthouses and small churches.

Note: We will replace free any Lakeside Bell which breaks within five years.

Prices are for bells complete with wood sills and iron wheels. Sizes over 36 inches have wood wheels. Fitted with smooth, easy running bearings.

284 F 4645—School or Factory Bells. Complete with clapper but without tolling hammer.

One of Our Biggest Values

Lakeside Ball Bearing Lawn Mower $9.95

10 in. Wheel

A Child Can Operate It

Our Lakeside Lawn Mowers are made of fine materials and with best workmanship throughout. Four revolving cutters and bottom knife are made of fine steel. Cutter shaft runs on ball bearings, making the machine easy and light running. Cuts clean in one mowing. Bottom knife keeps keen edge on cutters at all times. The 10-inch drive wheel is an added feature that makes our mowers cover more ground with less effort. Rocker adjustment is simple and accessible, and can be made easily without throwing cutter bearings out of alignment. Fitted with hooks on roller brackets for attaching grass catchers. Extra strong but light in weight, and so finely finished that it will win your admiration. Handle and roller made of seasoned hardwood, well varnished. Every mower has been carefully sharpened, and will reach you ready for use.

Clearvision Bronze Cloth

Bronze wire, with an extra coat of pure tin. Fifty per cent heavier than ordinary bronze or copper screen. Will last as long as your house. May be scrubbed and kept bright. This is an unusual opportunity to purchase at the price of ordinary bronze or copper cloth, screening for your house that you will not have to replace. Not affected by alkali or sea air. Extra fine mesh—14 to the inch—keeps out small insects.

We are offering this wire at less than the usual price of copper or bronze screen and as our stock is limited, we reserve the right to furnish the standard copper or bronze screening after our supply of Clearvision is exhausted.

A Superior Fencing of Proved Quality at Very Low Prices

Ajax Stock Fencing

The Greatest Fence Value

Read the description carefully. Select the styles you need. Then compare the Ajax values with any other fencing on the market. We strongly recommend Ajax Fencing because we know its construction; we know its quality; we know its reputation. Read the testimonials—see what Ajax users have to say.

An Ajax Fence will last for years because it is constructed of heavily galvanized wire, drawn from basic open hearth steel (the finest fence wire obtainable). An Ajax Fence will not sag or buckle; each stay wire is made of one continuous wire, evenly spaced top to bottom and firmly tied to the line wires at each intersection with a ring knot, machine crimped so it can not slip.

Ajax Fence is uniformly crimped with a wave or tension curve as the wires are fabricated, to add strength and elasticity. This also provides for expansion and contraction due to heat or cold and keeps the fence stretched tightly at all times.

Ajax Fence is strong and rigid, yet it stretches readily, and makes a perfect fence over rough, uneven ground. The uniform construction adds to the appearance.

Our prices are the lowest possible because shipments are made direct from our factory to the customer at one small profit. No unnecessary handling or transportation charges. Ajax Fence is always shipped from our factory nearest to the customer to save freight charges.

By weaving enormous quantities of fencing in the off season, we are able to give you the benefit of much lower costs than the present market. A large stock assures prompt shipment. Take advantage of these savings, place your orders **now.**

Permanent Fencing

"For permanent fence, I think Ajax Fence is far superior to lighter grades and other styles. We are well satisfied."

W. W. Merret,
Dunbar, Wis.

Printed with Mr. Merret's Permission

Complete Satisfaction

"We have found Ajax Fence satisfactory in every way and are pleased to say it is the cheapest and best fence we have ever bought."

W. F. Young,
Mt. Dora, Fla.

Printed with Mr. Young's Permission

An Ideal Fencing

"I find your 26-inch Ajax Fence an ideal hog fence. Have 120 acres fenced with it and expect to fence my other 80 acres with same fencing."

Koble Kyser,
El Paso, Ill.

Printed with Mr. Kyser's Permission

Easy to Handle

"I think Ajax Fence is a good fence and would use it in preference to any fence of the same weight."

J. C. Ritchey,
Camden, Ill.

Printed with Mr. Ritchey's Permission

Best on the Market

"I have bought several kinds of hog fence in cheap light wire, and find it pays best to buy heavy wire, such as Ajax. It will not bulge or sag. This fencing stands the test and the Ajax no-slip knot always holds. It securely withstands every assault of time, weather and live stock. My neighbors and myself pronounce Ajax Fencing the best on the market. "I expect to order more Ajax Fencing very soon."

L. A. Longmay,
Missouri Valley, Ia.

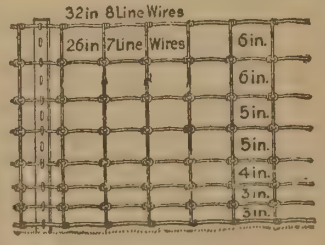
All Fencing Subject to Market Changes

Low Prices for Light Stock and Poultry Fencing

Atlas Stock and Poultry Fencing

48 Inches High

A very popular medium weight Combination Stock and Poultry Fencing. It is good quality fencing and will serve the purpose where a closely woven, low priced fence is wanted.



Atlas fencing is made of heavily galvanized steel wire, made under careful supervision, truly a quality product. Woven close enough to hold small chickens as its meshes vary from 1½ inches at the bottom to 6 inches at the top. Highly recommended by poultry raisers. May be used either as poultry or light stock fence. Stretches easily and evenly.

No top or bottom boards are necessary to support our Atlas fencing.

Height, 48 inches; top and bottom wires, 12½ gauge; other wires, 16 gauge. This fencing has 17 line wires. Upright stays are 6 inches apart. Shipping weight, 10 rods, 55 pounds.

Poultry Fencing

Ajax Heavy Poultry Fencing

Tough, drawn galvanized steel wire the same quality as our regular Ajax stock fence, but somewhat lighter. This Poultry Fence makes an excellent enclosure at a small expense, and will outlast the best poultry netting. This fence may be bought in either 46 or 58-inch heights. Top and bottom wires, No. 11 gauge; stays and intermediate line wires, No. 14 gauge. The mesh at the bottom is 1⅞ inches, which is close enough to keep in small chickens. It widens to 8 inches at the top. The upright stays are 8 inches apart. It is not necessary to construct a framework on which to attach this fencing. Its stiff construction allows it to stand erect and firm, with only fence posts as an occasional support. We recommend our steel fence posts listed below for further saving.

Article Number	Height	Stays Spaced	Line Wires	Ship. Wt., 10 Rods	Per Rod
284 F 5275	46 inches	8 inches	14	75 pounds	44¢

Mr. Paige Says, "Ajax Beats Them All"

"I recently bought some of your Ajax fencing, both poultry and stock. I wish you to know that it has given complete satisfaction.

"I have had experience in several other kinds of fencing, but have found Ajax beats them all. Ajax is much better than softer, finer grade of wire because it withstands the wear that always comes, especially in stock fence. I would like to add a word also about your steel fence posts. I have a clay and gravel farm and have found that I can not even set a wood fence post for the cost of a steel post."

William J. Paige,
Medaryville, Ind.

Printed with Mr. Paige's Permission

Perfect Poultry Fencing

Three popular heights to choose from—4, 5 and 6 feet. Small mesh at the bottom will turn small chickens. A special arrangement with the factory permits us to offer you this poultry fencing at prices less than dealers usually pay for it. Remember, we do not sacrifice quality to make these low prices. Poultry raisers can not afford to pass this unusual value. This is an unusual opportunity, take advantage of it and supply your needs now.

All wires are drawn from basic open hearth steel and heavily galvanized. Will not rust for years. Top and bottom are No. 13 full gauge wire. All intermediate wires are No. 18 full gauge. Machine woven. All line and stay wires are uniformly interlocked.

Constructed of heavier gauge wires than the best poultry netting but sold for less. No top and bottom boards are needed to support Perfect Poultry Fencing. Designed with all the advantages of poultry netting without its faults. Attach it to regular fence posts (we recommend as a further saving that you use our steel fence posts listed below).

The light weight permits it to stretch easily. The stiff construction causes it to stand erect, no sagging or bulging. The heavy top and bottom wires carry the strain. The stay wires are spaced 4½ inches apart. The 21 line wires are spaced so the bottom meshes are 1¼ inches apart and gradually widen to 5 inches at the top.

Long service, high quality, low price and satisfactory wear—four distinct reasons why you should order this fencing.

Steel Fence Anchor

The top lug holds the bottom wire close to the ground and thus prevents hogs from rooting under the fence; also necessary on rough ground or on hillsides. The bottom fin being set at an angle keeps the anchor from drawing out of the ground. Made of angle steel, ⅝ by 1 by 15 inches. Shipping weight, ¾ pound.
284 F 5407..... 6¢
Shipped from Northern Illinois

Diamond Mesh Poultry Netting

Made of tough steel, galvanized wire, with heavy top and bottom wires. Will stretch evenly, stand rigidly and will not sag or bulge. **We carry two grades, galvanized before and galvanized after weaving.**

Netting galvanized after weaving is superior to netting galvanized before weaving, because the twists are firmly soldered together insuring greater strength, evenness and durability. More zinc for galvanizing is used in this process, which is the reason for the difference in price. Most of the netting on the market is galvanized before weaving, but because of its greater durability, we recommend the galvanized after weaving.

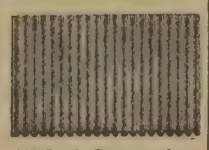
Fireproof—and a Protection Against Lightning

Metal Roofing and Siding



PROTECTION from weather; protection from fire; protection from lightning. You get them all when you use our Metal Roofing and Siding. And you save a lot of good money because our prices are surprisingly low and because you can do the work yourself—easily—all you need is a ladder, a hammer, and a pair of tinner's shears. Nail it on right over old sheathing, shingles, or on the studding itself. Takes only a little time to reroof or reside a building and you have a weathertight, fireproof and lightning proof protection that is both permanent and economical.

Only fine open hearth sheet steel is used in our roofing and siding. Every sheet is full width from end to end. The corrugations and crimps are full depth, not shallow,—giving our roofing and siding the strength and rigidity you want. There is no skimping in the gauges, weights, galvanizing or painting of our roofing and siding. We always recommend the heaviest gauge and galvanized—as it costs only a trifle more to begin with; costs no more to put on; and will last about twice as long. Better roofing at a saving.

2½-Inch Corrugations

1¼-Inch Corrugations

Galvanized

The heavy coating of zinc applied by an electric process to **both** sides of each sheet makes it rustproof and thoroughly weather resisting. Galvanizing will not chip or peel.

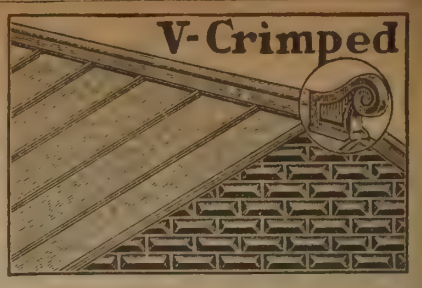
Painted

We use only the best quality of red mineral paint. Each sheet is painted on **both** sides. Repainting as needed will keep the sheets attractive and in perfect condition.

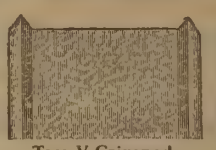
Each sheet of this Roofing is actually 26 inches wide but covers only 24 inches because of the side lap. A square will cover on the average 90 square feet of surface (without allowing for **end** laps). Every sheet is full length and full width with full depth corrugations.

We recommend the 1¼-inch for roofing and the 2½-inch for siding. The 26-gauge galvanized is heaviest and cheapest in the long run. Order 1 pound 1¾-inch roofing nails for each 100 square feet of roofing and include ridge roll and lead washers in your order. **Read "How to Order Metal Roofing and Siding"; and be sure to allow for end lap and side lap.**

100 Square Feet $3.72



How to Order Metal Roofing and Siding



Always state the length of sheets wanted, and the number of sheets wanted of each length. We quote prices per 100 square feet for your convenience in comparing our low prices with others; but since we do not cut sheets, metal roofing and siding should always be ordered by **the sheet**—not by the square.

How to Figure the Number of Sheets Needed. Suppose you want to cover a space 10 feet high and 23 feet wide. Each sheet, either corrugated or V crimped, actually covers a 24-inch width; so you would need 12 sheets or strips to cover the 23-foot width. You would therefore order 12 of the 10-foot sheets. When more than one sheet is needed to reach from top to bottom of the space to be covered, be sure to allow 2 inches for **end** lap on siding, and from 4 to 6 inches for roofing, depending on the pitch of the roof. If you are not sure of the number and length of sheets you will need, send us a rough sketch showing the dimensions of the space to be covered, and we will gladly figure it for you.

Be sure to include ridge roll, roofing nails and lead washers in your order.

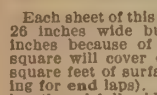
Shipped from Central Ohio or Iowa

Two V Crimped

Three V Crimped

100 Square Feet $3.82

Each sheet of this Roofing actually measures 24 inches from center to center of outside crimps so no allowance need be made for side laps. A square actually covers a square of surface (without allowing for **end** laps). Every sheet is full length and width with full depth crimps. We always recommend the galvanized. Order 1½ pounds of 1¾-inch roofing nails for each 100 square feet of 2-V, and 3 pounds for 3-V. Also include ridge roll, lead washers and wood V strip. **Read "How to Order Metal Roofing and Siding"; and be sure to allow for end lap only; no allowance need be made for side lap.**



Corrugated. Sheets 26 inches wide, but cover only 24 inches. **Allow 2 inches for side lap.**

THE time to put up Lightning Rods is before the lightning strikes. Don't wait until someone in your neighborhood suffers; it could be your home or your barn instead of a neighbor's. From now on, let yourself and your family enjoy the deep satisfaction of knowing beyond doubt that your home and your buildings are safe from the danger of lightning. An Ajax outfit costs almost nothing compared to the protection it gives, and it outlasts the building it protects. Our prices save you money to begin with, and by putting up the rods yourself, you save again and know the job is done right. The plain directions we send tell you exactly what to do and how to do it—just a few hours of easy interesting work and the job is done. Order your rods now. Then, every time a thunderstorm breaks, you'll be glad for the real protection of an Ajax outfit on each of your important buildings.

How to Measure and Order. Run a stout cord up one corner of the building and along the gable to the ridge—then along the ridges to all points where uprights are to be placed—and down on the opposite corner of the building. Cord may be tacked every few feet with staples, then pulled out and measured. Allow enough to connect to everything of metal on or near the roof such as gutters and cornices. Allow 10 feet extra at each end for grounding. Uprights must be placed not more than 20 feet apart and on all high points such as chimneys, cupolas and gables. Order cable uprights, chimney tops, and (if needed) cable connectors. We include **solid copper** clips and copper nails free.

Protect Your Home With Lightning Rods

Woven lightning rod cable is better than tubing or solid wire. We guarantee our Ajax to be 99 per cent copper. Cable may be ordered in any length up to 1000 feet. We include solid copper clips and copper nails for every 3 feet.

484 F 4950—Full size, ⅞-inch, 32 wires, 17 gauge. Per foot..... **9½¢**
484 F 4951—For large buildings; ⅞ in., 44 wires, 17 gauge. Per ft. **12½¢**

Uprights

Each upright, except chimney top, has three extra long double galvanized braces, 5-foot all copper rod and silver tip. We include T-clamp for attaching to cable and screws for fastening braces to roof.

Uprights with Ornamental Glass Balls

COLORS: Opal; blue; ruby; silver, or gold. **State color of ball wanted.**

84 F 4958—Plain upright (with ball as illustrated) **$1.50**
84 F 4960—Arrow Vane upright; arrow in gilt, vane to match ball. **2.35**
84 F 4962—Animal Vane upright; horse, cow or rooster (state choice) **3.25**

Uprights without Ornamental Glass Balls

84 F 4959—Plain upright (same as illustrated, without ball)..... **$1.16**
84 F 4964—Chimney Top (used where 5-foot uprights do not reach 1½ feet above chimney). Eyebolt and T-clamp included, 6-foot, **85¢**; 8-foot **$1.10**; 10-foot, **$1.40**.

Shipping weight of complete Ajax Lightning Rod Outfit, including cable, uprights, connectors, clips and copper nails, about 1 to 1½ pounds per foot of cable.

FREE!

We include solid copper clips and copper nails for every 3 feet of cable.

Cable Connector

Solid copper, straight Cable Connector.

Eaves Trough Ten Feet 41¢ Best Grade Steel Galvanized Down Spout Ten Feet 46¢

A slip joint makes it easy for anyone to put up this Trough. Simply push sections together. No tinner needed. Makes a neat, tight job and requires no soldering at the joint. Always state whether right or left hand trough is wanted, or send sketch showing position of outlets. Right hand means that, as you face the building, the water in trough will flow to the right. We recommend the extra heavy 26 gauge. Costs no more to put up, lasts twice as long as standard gauge and at our prices will give you a big saving. **Prices subject to market changes.**

Galvanized Eaves Troughs

Made of best grade galvanized sheet steel in 10-foot lengths without a seam. One end of each length is made with a slip-joint; quickly put together; requires no soldering. **Not mailable.** Shipping weights per 10-foot length: 4 to 9 pounds.

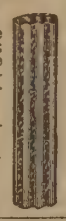
84 F 5162—3-inch bottom ..... **78¢**

O-G Eaves Trough Corner

Corrugated Conductor Pipe



Galvanized steel, corrugated to allow for expansion and contraction and will not burst, even if full of ice. We suggest that you use 2-inch conductor pipe with 3½ and 4-inch eaves trough. Use 3-inch pipe for 5-inch trough and 4-inch pipe for 6-inch trough. Strongly made of best galvanized steel. Allow 2½ inches on each length for joints. **Not mailable.**

Standard Gauge Conductor Pipe

This is the grade commonly used, but for longer service we recommend the extra heavy grade. 10-foot lengths.

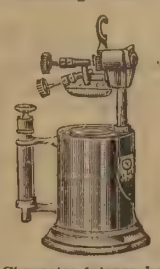
Complete Line of Builders' Hardware Shown on Pages 642 and 643

Highest Grade Blow Torches and Gasoline Furnaces

Gasoline or Kerosene Blow Torch

$3.85



A specially designed Torch which produces 400 degrees more heat than ordinary torches. New type burner of special composition bronze metal designed to burn low grades of gasoline and kerosene. Will operate successfully indoors or out. Produces a steady blue flame of intense heat or low fuel consumption. Tank of heavy seamless brass, bottom shaped to form funnel. Hook for soldering copper.

Recommended for Linemen, Electricians, Painters, Plumbers, Mechanics or any one who desires a high grade torch at a low price.

84 F 5220—Capacity, 1 pint. Height, 7 inches. Shipping weight, 3 pounds **$3.85**

84 F 5221—Capacity, 1 quart. Height, 9 inches. Shipping weight, 4 pounds..... **$4.25**

Double Jet Gasoline Brazing Torch

Generates intense heat of about 3000 degrees (Fahrenheit). Will produce large or small, pointed flame. Fine for brazing or tempering. Made of heavy brass and bronze. Pump is in handle. Capacity of tank, 1 quart. Height over all, 9 inches. Directions included. Shipping weight, 4 pounds.

84 F 5226... **$8.25**

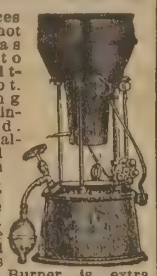
Gasoline Auto Torch

$4.75

Brass body, flat oval shape for use in narrow places. Powerful burner, produces intensely hot flame. Folding support on bottom prevents tipping over. Fitted with soldering iron holder. Pump is contained in the handle. Fits nicely into tool kit. Capacity, 1 pint; height over all, 9 inches. Shipping weight, 4 pounds.

84 F 5224... **$4.75**

Gasoline Torch and Sprayer

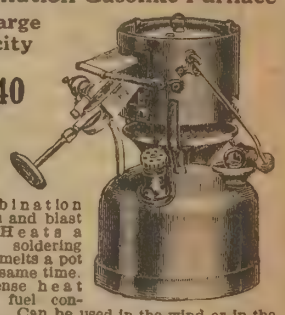


$4.50

Burner gives hot flame. Separate nozzle throws fine stream of gasoline for cleaning machinery, destroying vermin and similar uses. Bottom of tank is shaped to form funnel for ease in filling. Fitted with holder for soldering coppers. Well made and finely finished. Capacity, 1 quart. Height, 9 inches. Shipping weight, 5½ pounds.

84 F 5222... **$4.50**

Gasoline Furnace



Produces a very hot flame. Has shield to hold melting pot. Melting pot not included. Heavy galvanized iron tank. Rubber pressure bulb. Malleable iron and brass casting. Burner is extra heavy copper pipe. Rigidly and compactly built. May be used as hot-plate or stove. Highly recommended by plumbers, steamfitters, garages and mechanics. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ inches. Diameter, 8¼ inches. Shipping weight, 10 pounds.

484 F 5232..... **$4.95**

Combination Gasoline Furnace Has Large Capacity

$8.40

A combination blow torch and blast furnace. Heats a pair of soldering irons and melts a pot of lead at same time. Gives intense heat with low fuel consumption. Can be used in the wind or in the coldest weather. Is recommended by electricians, linemen and plumbers. Has swivel joint so it can be turned to horizontal or vertical position without changing position of furnace. Made of heavy drawn steel. A heavy rim projects ½ inch below the bottom of the tank for protection. Has brass pump and filler cap. Cap., 3 qts. Height over all, 12 in. Diameter, 8¼ in. Ship. wt., 12 lbs.

484 F 5234..... **$8.40**

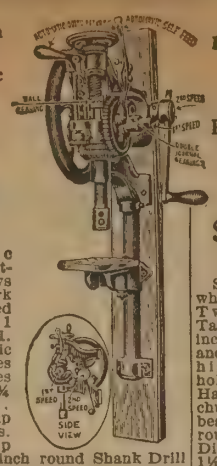
84 F 1059—Per set..... **$2.95**

Champion No. 90 Self Feed Ball Bearing Post Drill $12.85

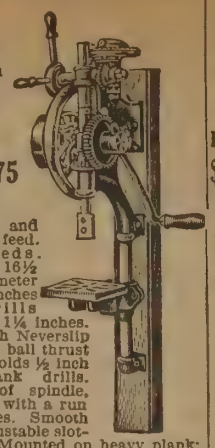


This is the original Champion Self Feed Drill, the quality of which gave Champion its world wide reputation. Adjustable. Automatic self feed. Takes work 14½ inches in diameter and 10 inches high. Drills holes up to 1 inch. Neverslip chuck holds ½ inch round Shank Drills. (See sets 84 F 1058 and 84 F 1059 shown below.) Easy running ball bearings which save 20 to 50 per cent in power. Diameter of spindle, 1⅛ inches, with a run of 3 inches. Bearings accurately ground and are made from the highest grade of lathe turned tool steel. No babbitt used. Adjustable crank. Has a lathe turned, slotted, adjustable table. Mounted on heavy plank. Height, 43 inches. With lag screws for fastening to post. Our price is low for this high grade tool. Shipping weight, 96 lbs.

184 F 6626..... **$12.85**

Genuine Cleveland Drills, No. 84 F 1055, for use with Post Drills, shown on Page 513. Also see sets shown to left.

Champion No. 96 Automatic Quick Return Post Drill $20.65

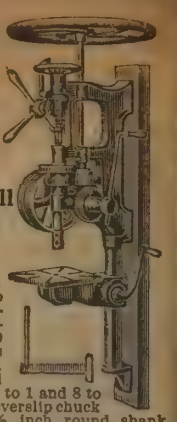


Automatic quick return attachment draws bit out of work quickly. Speed ratios, 1.53 to 1 and 3.5 to 1. Has automatic self feed. Takes work 15½ inches diameter and 9¾ inches high. Drills holes up to 1½ inches. Neverslip chuck takes ½ inch round Shank Drill Bits. (See 84 F 1055 Drills on Page 513.) Has easy running ball bearing spindle; diameter, 1⅛ inches; run is 3 inches. Bearing ground from solid metals. No babbitt used. Smooth gears. Adjustable crank. Has lathe turned and slotted table. Mounted on heavy hardwood plank. Total height, 46 inches. With lag screws for fastening to post. Shipping weight, 130 pounds.

184 F 6634 ..... **$20.65**

Champion No. 97 Heavy Duty Ball Bearing Post Drill

Quick Return Self Feed $26.75



Self feed and wheel hand feed. Two speeds. Takes work 16½ inches diameter and 12½ inches high. Drills holes up to 1¼ inches. Has ½ inch Neverslip chuck, with ball thrust bearing. Holds ½ inch round shank drills. Diameter of spindle, 1⅛ inches, with a run of 5½ inches. Smooth gears. Adjustable slotted table. Mounted on heavy plank; height, 50 inches. With lag screws for fastening to post.

184 F 6638—Tight and loose pulleys, for power. Size, 6 by 2-inch face. Speed, 250 revolutions per minute. Ship. weight, 184 pounds... **$26.75**

184 F 6639—For hand use, with adjustable crank. No pulleys. Ship. weight, 175 pounds **$23.95**

Champion No. 7 Lever and Automatic Feed PostDrill $46.50

Takes work up to 21 inches diameter and 19 inches high. Speed ratios, 2.4 to 1 and 8 to 1. Has Neverslip chuck holding ½ inch round shank drills. Diameter spindle, 1½ inches; up and down run 5½ inches. Drills holes up to 1½ inches. Total height of drill, 65 inches. Machine cut gears. Ball bearing throughout. The quick return raises the drill quickly or it may be used as a lever feed for drilling holes up to ½ inch.

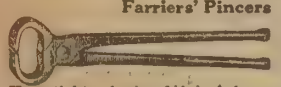
184 F 6644—With tight and loose pulleys for power. Size, 11 by 2½-inch face. Speed, 80 revolutions per minute. Crank and lag screws for fastening to post are included. Shipping weight, 442 pounds **$46.50**

184 F 6645—With adjustable crank; no pulleys. Lag screws included. Shipping weight, 430 pounds... **$41.90**

Blacksmiths' Bench Drill $3.15

Strong and substantial. Heavy iron frame with steel spindle and chuck for ½ inch round Shank Drills. (84 F 1055 on Page 513). Length, 26 inches; height, 7¾ inches. With lag screws for fastening to post. Ship. weight, 22 pounds.

484 F 6650..... **$3.15**



Drill Sets for Bench Drills

Set of 8 genuine Cleveland Straight Shank Drills for bench drills or any drill with a three-jaw chuck. One each of the following sizes: ⅛, 5⁄32, 3⁄16, ¼, 5⁄16, ⅜, 7⁄16, ½, inch. $6.85 Leg Vise with Pipe Jaws

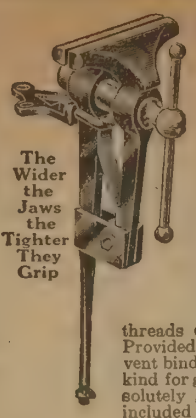
Save the Price of a Pipe Vise



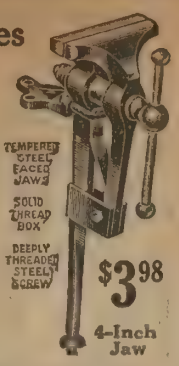
Have Both in One

Something entirely new. This solid Box Leg Vise has removable jaws which will hold pipe from ⅛ to 2½ inches. This saves you the cost of a $3.00 pipe vise. You really get two vises in one—and at a lower price than retail dealers usually pay for the same vise.

Large 4½-inch jaws, hardened and tempered by special process to stand hard use. Solid thread box. Strong steel screw with clean, deep cut threads. Loose collar prevents binding. Lag screws included for fastening to bench. Actual weight, 50 pounds.

184 F 6875 ..... $6.85

Blacksmiths' Solid Box Vises



Special 5-Inch Jaw $4.50

A 5-inch Jaw Vise at less than the price of the 4½-inch jaw size in the heavy pattern. Heavy enough to stand severe usage. Superior quality. Care has been taken to proportion this vise right. Workmanship is of the best. Made of wrought steel, with specially hardened and tempered steel jaws. This vise has a strong steel screw with deep and accurately cut threads encased in a solid thread box. Provided with loose collars which, prevent binding. This is the best vise of its kind for garage and shop use and we absolutely guarantee it. Lag screws are included for fastening to the bench. Shipping weight, 40 pounds.

484 F 6869 ..... $4.50

Heavy Pattern

This Vise is the same as the special vise shown at left. It has the same strong steel screw and deep accurate threads. Fitted with loose collars to prevent binding, and steel faced jaws. Lag screws included for fastening to bench.

Ward's Greatest Forge Bargain

Easy Turning—Powerful Blast

$8.90 With Hood

Make your own repairs right in your own shop. The time saved mending one break during the busy season will more than pay the low cost of one of these Forges. A strong, high grade gear driven forge at an exceptionally low price.

This forge is large enough to handle all ordinary repairs, yet can be moved easily from place to place. The diameter of the hearth is 18 inches. Fan case is 8 inches in diameter. Blower is driven with helical gears, cut from high carbon steel, which insures smooth running and noiseless operation. It produces a strong, steady hot blast which enters the hearth direct. Nothing to get out of order or cause trouble. Blower crank is placed at a convenient height to do away with stooping—a big advantage. Gear case is oilproof and dustproof. Burns soft coal, coke or charcoal. Forge is made either with hood or with shield. Suitable for farms, garages and repair shops.

Forge has three steel pipe legs that are rigidly set in sockets and held with set screws. The legs are securely braced so the forge is held solid and rigid at all times. The entire forge is painted.

$7.90 With Shield

184 F 6518—With sheet steel hood. Entire height, 51 inches. Shipping weight, 80 pounds.....**$8.90**

184 F 6517—With sheet steel shield. Height to top of hearth, 30 inches. Shipping weight, 77 pounds.....**$7.90**

Genuine Champion Eureka Forge No. 148

For Blacksmiths and Large Repair Shops

$11.95 With Hood

Many shops have work which requires a larger, heavier Forge. This Champion Forge with its big 22-inch hearth and blower with 8-inch fan case will heat 3-inch round iron to a white heat in less than ten minutes, or a plowshare in two minutes. It is smooth running and practically noiseless, due to the helical cut gears, enclosed in a dust and oilproof case. The gear ratio gives 4 revolutions of the fan to one turn of the crank, making a strong steady blast. Burns soft coal, coke or charcoal. Three strong pipe legs hold the forge rigid. The blower is placed at just the right height for the average man to operate it comfortably. Made in two styles, with hood and with shield.

$10.95 With Shield

184 F 6507—Champion No. 148 Forge with heavy sheet steel hood. Total height, 54 inches. Shipping weight, 90 pounds.....**$11.95**

84 F 7154—Complete outfit **$1.25**

$45.75 Complete Welding Outfits and Supplies $11.95

High Grade Lakeside Portable Outfit for Cutting or Welding

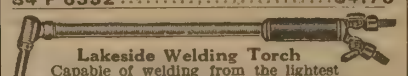
The Lakeside Welding Outfit is indispensable for blacksmiths, sheetmetal workers, plumbers, and farmers who do their own repair work. Also for use in garages, repair shops, sawmills, junk yards, and factories. At this low price you get a welding outfit capable of welding any metal from the lightest up to the heaviest.

It also will remove carbon from a gasoline engine in a few minutes. For cutting steel up to 2 inches thick use Cutting Tip No. 84 F 6552 (below) with this set.

Set consists of the following:
1 Lakeside Welding Torch, 6 welding tips.
1 Carbon Removing Torch.
1 Safety Torch Lighter.
1 Oxygen Regulator with one 3,000-pound gauge and one 300-pound gauge.
1 Acetylene Regulator with one 300-pound gauge and one 50-pound gauge.
2 lengths of 5-ply Hose (12 feet, each), with 4 Hose Clamps to fit.
1 Adapter.
1 Pair of Welding Goggles.
1 Book of Instructions.
24 Welding Rods—10 Steel, 8 Cast Iron, 3 Brass, and 3 Aluminum.
3 pounds of Flux—1 pound Cast Iron, 1 pound Brass, and 1 pound Aluminum.
Shipping weight, complete outfit packed in convenient carrying case, 40 pounds.

184 F 6550—Complete outfit.....**$45.75**

Lakeside Cutting Torch



One of the most efficient cutting torches manufactured. Cuts steel from the thinnest up to 8 inches in thickness. Furnished with 3 cutting tips, packed in box. Shipping weight, 6 pounds.

84 F 6554.....**$21.00**

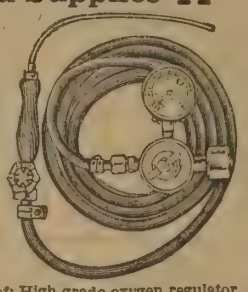
Lakeside Cutting Tip

May be used with 184 F 6550 outfits. Will cut steel up to 2 inches thick. Shipping weight, 5 ounces.

84 F 6552.....**$4.75**

Lakeside Welding Torch

Capable of welding from the lightest piece of metal up to the heaviest; welding any metal that melts. Furnished with 6 welding tips. Shipping weight, 6 pounds.



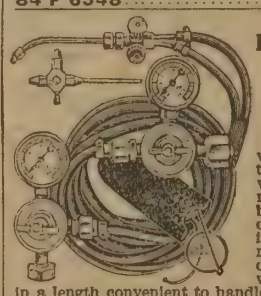
84 F 6553.....**$10.90**

Oxygen and Acetylene Hose

High grade. Five ply. For oxy-acetylene welding use. Shipping weight, per foot, 8 ounces.

84 F 6559—Per foot.....**20¢**

Lakeside Oxygen Carbon Burner



An Outfit that no workshop can afford to be without. You can remove the carbon from the motor of your car, tractor or from any other engine in a few minutes time with this outfit. The oxygen costs you approximately two cents a cylinder to remove the carbon.

The outfit consists of: High grade oxygen regulator with gauge; carbon removing torch with valve; set of instructions; 10-foot length oxygen hose and 2 clamps. Outfit is complete with the exception of gas. Shipping weight, 8 pounds.

84 F 6548.....**$11.95**

Lakeside Lead Burning Outfit

$22.65

This Outfit is very useful in battery shops and workshops where radiator or lead burning work is done. The torch is of high quality materials, carefully designed, light in weight and made in a length convenient to handle. The outfit consists of: Lead burning torch with 3 lead burning tips and tip wrench; radiator tip; oxygen regulator; 2-inch diaphragm, brass finish with 50-pound gauge; acetylene regulator; 2-inch diaphragm, brass finish, with 50-pound gauge. Two 10-foot lengths of hose with 4 hose clamps. 1 pair of spectacles. 1 set of instructions. Shipping weight, outfit, 9 pounds.

84 F 6549—Complete outfit.....**$22.65**

Champion No. 136 High Grade Gear Driven Forge

$8.70

With Hood

A very strong, compact, well constructed Forge. High grade gear driven blower with 8-inch fan case. This type of blower gives constant blast and crank may be turned either forward or backward. Gears are finest grade steel, machine cut. There are fewer parts to this style forge than to the ordinary pump lever type. Hearth is of extra heavy steel, 19 inches by 15 inches by 2¾ inches deep. The three legs are made of steel pipe, and securely braced. The entire forge is nicely painted.

With Shield

184 F 6505—Forge with heavy sheet steel hood. Total height, 49 inches. Shipping weight, 52 pounds...**$8.70**

Champion No. 135 Gear Driven Forge with Shield

184 F 6506—The same forge as listed above except with shield instead of full hood. Height, to top of hearth, 30 inches. Shipping weight, 47 pounds.....**$7.70**

Champion No. 143 Geared Forge

Crank Driven Blower Helical Cut Gears

$17.85

With Hood

A very efficient high quality Forge, at an unusual saving in price.

Blower has 10-inch fan case. Smooth running, noiseless. Gives a strong steady, high pressure blast by turning the crank easily in either direction Gear case oil tight and dustproof. Hearth, 23 by 30 inches. The large hearth and fan make this a very useful forge for machinists, garage use, boiler making or heavy farm use. Height to top of hearth, 30 inches. Shipping weight, with steel hood, 130 lbs.

184 F 6516.....**$17.85**

Champion No. 43 Easy Running Geared Blower Lancaster

$24.75 With Hood

Crank Turns in Either Direction

Diameter of fan case, 10 inches. Size of hearth, 23 by 36 inches; 3¼ inches deep. Four legs made of steel pipe, securely fastened. Strong sheet steel hood. Entire forge nicely painted. Total height, 55 inches. Ship. wt., with hood, 210 pounds.

184 F 6520—With hood.....**$24.75**

184 F 6521—Same as above except with sheet steel shield instead of hood. Height, to top of hearth, 30 inches. Ship. weight, 205 lbs..**$23.75**

Champion No. 41 Heavy Blacksmiths' Lancaster Geared Forge

$35.00 With Hood and Water Tank

Extra heavy, roomy oblong cast iron hearth 32 by 45 in. by 3 inches. Equipped with tool rest and coal box, 24 by 9 by 5 inches, Water tank, 24 by 9 by 6½ inches. Tuyere iron is very heavy and has adjustable blast. Very powerful geared blower with adjustable crank. Diameter of fan case, 12 inches. Strong steel hood. Four steel pipe legs. Strongly made and nicely painted. Entire height, 64 inches. Ship. weight, 330 pounds

184 F 6524—
With hood and water tank.....**$35.00**
Without Water Tank

184 F 6525—Same forge as above, with steel hood, but without tank. Ship. wt., 300 lbs..**$30.00**

Stoddard Tire Upsetter

$28.00

Size 2. Will upset tire up to 4 inches wide. Length, 15 inches. Width, 15 inches. Height, 18 inches. Shipping weight, 245 pounds.

184 F 6595....**$22.50**

Size 3. Special 4-inch machine. Loose jaws. Will adjust for large and small circles for upsetting axles 1 inch to 1¾ inches square. Length, 24 inches. Width, 19 inches. Height, 20½ inches. Shipping weight, 300 pounds.

184 F 6596.....**$28.00**

Duck Nest Tuyere Iron

$1.15

Single Duck nest pattern. Cast iron. Without blast regulator. Total length, 12 inches. Total width, 6 inches. Height, 3½ inches. Shipping weight, 13 pounds.

484 F 6574.....**$1.15**

Sutton Tuyere Iron

Tuyere Iron and Fire Bowl. Cast iron. Large and heavy. Insures clean, bright fire. Will give satisfaction. Size of fire bowl, 13¼ by 11½ inches. Shipping weight, 42 pounds.

484 F 6578.....**$4.95**

A complete line of Blow Torches and Soldering Irons will be found on Page 529

Rigidly Constructed Power Grindstone

May Be Used for All Grinding or Sharpening

An excellent Grindstone for garage, farm or shop, especially valuable in butcher shops or other places where fine edge tools are sharpened. Best quality Ohio grindstone runs in water and will not burn tool while being sharpened.

Well made, durable frame of 1½ by 1½-inch angle iron, ⅛ inch thick. Legs have double crossed braces which give rigidity to frame. Legs split at bottom and drilled to take lag screws or bolts for fastening grindstone to floor. Shaft runs on ball bearings, thus reducing wear. Pan or trough of heavy galvanized iron. Steel shaft with pulley, 6 inches in diameter and 3 inches wide. Wheel, 22 by 2½ inches of high quality, fine, even grit. This style grindstone will not burn thin or fine edged tools and can therefore be more generally used than emery or corundum. Especially adapted to sharpening thin knives, ensilage cutter knives, scythes, etc. Entire height, 40 inches. Shipping weight, 144 pounds.

$8.75

184 F 6785.....**$8.75**

Canvas—Belting—Leather

9¢ Canvas Belting Red Stitched
A Foot

Our stitched Canvas Belting is not affected by atmospheric changes or injured by water or steam, and may be subjected to a degree of heat that would be ruinous to many other kinds of belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of long fiber selected cotton duck, carefully and closely stitched, stretched and inspected. Thoroughly saturated in oil, which makes it permanently waterproof and flexible. Covered with a special waterproofing compound which gives the belt an excellent non-slipping surface. Always flexible in hot or cold weather.

State width wanted.

Endless Canvas Thresher Belts

Made in the same manner as our red stitched canvas belting of long fiber selected cotton duck. Especially adapted for threshers, saw mills, stone crushers and similar severe uses. It requires three feet to make the lap, therefore in measuring, each belt will be just three feet short. For example, the actual net length of a 100-foot belt will be 97 feet. We carry in stock for prompt shipment, the following standard lengths and sizes. Shipping weight, per foot, 5-inch, 10 ounces; 7-inch, 12 ounces; 8-inch, 14 ounces.

8¢ Durable Leather Belting
A Foot

Standard Grade is of medium quality and will give satisfactory service. For ordinary mill, factory and farm machinery.

Extra Standard Grade is made from select, short lap, oak tanned stock, cut from the center of hide. Waterproof Leather Belting is of the same quality and weight as our extra standard grade and will give excellent service under conditions where moisture prevents the use of standard tanned belting.

If belts are wanted endless; state actual length of belt wanted after spliced, and allow 7 feet of belt extra for lap and labor of splicing. **State width wanted.**

Rubber Belting 5¢
Standard Grade
A Foot

Ward's Standard Grade Rubber Belting is of high quality and made to give long service on light work. The layers of duck are heavier than those in the ordinary standard grade belt. The rubber used in cover and between layers is of fine quality. Canvas layers and cover are vulcanized together by the latest process which prevents internal wear and holds layers firmly together.

This belt will give excellent service on light farm machinery such as gas engines, cream separators, washing machines, or where the pull is not too heavy. It is not suitable for Endless Thresher Belts.

State width wanted.

Rubber Belting
Extra Standard Grade

6¢
A Foot

This belting is made of strong, long fiber, 28 ounce cotton duck layers vulcanized together, thus preventing internal wear. Highest quality rubber is used in both cover and between layers. The cover is made by a new process giving it a friction surface which prevents slipping and lengthens the life of belt. This belting will give long, reliable wear and is suitable for any kind of hard service on conveyors or power transmission lines.

Red Friction Surface Rubber Belting 19¢
A Foot

Our "Red-Man" brand is the very finest grade of rubber belting. Use this belt for heavy duty, high speeds and on small diameter pulleys. It will give longer, better and more economical service than any other kind of belting. The belting is red in color to distinguish it from ordinary belting and is sold with our full guarantee, to give entire satisfaction under the most severe usage. It is constructed of a tough and closely woven cotton duck, with a high grade rubber between the plies and a friction surface which takes hold of the pulleys with a full contact from edge to edge. The friction compound is forced into the fabric under great pressure; the plies will not separate, and all the undesirable stretch is taken out of the belt.

84 F 7694—4-Ply. **State width wanted.**

Kitchen Pumps

$7.45 Heavy Kitchen Force Pump

Brass Lined Cylinder

Brass lined Cylinder Pump for cisterns and wells not over twenty feet deep. Throws a large volume of water. May be used as lift or force pump. Cap has extra guide housing to keep piston in line. Cap can be set in any position to make handle convenient for operator. Has a leather plunger fastened to a polished steel rod-cock spout with ¾ inch hose. Back of spout tapped for 1 inch iron pipe for pumping water to storage tank; 3-inch brass lined body. Fitted for 1¼-inch suction pipe. An exceptional value at our low price. Shipping weight, 30 pounds.

481 F 5919.....**$7.45**

$5.55 Kitchen Force Pump

One of the finest little hand Pumps you can buy. Strongly built and well finished. With 3-inch brass cylinder. Will give years of service. For wells and cisterns not over twenty feet deep. Fitted for 1¼ inch suction pipe. Brass faucet threaded for ¾ inch hose connection. Top of air chamber threaded for 1 inch iron pipe for forcing water to any desired point. Shipping weight, 20 pounds.

481 F 5915.....**$5.55**

Windsor Centrifugal Pump

For irrigation, drainage and contractors' use. Used extensively for drainage and irrigation service and other work where a moderate lift of a large volume of water is desired. Recommended for all service where the total head does not exceed 65 feet and where the pump can be placed not more than 20 feet from the surface of the water. Large pulley, supported on either side by long bearings is provided with grease cups. Extra long packing gland with grease cup reduces friction in the stuffing box to a minimum. Complete instruction booklet with each pump. **State size wanted.**

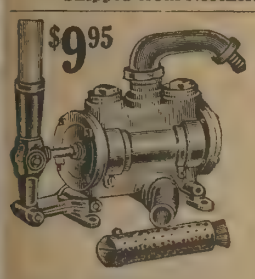
Windsor Rotary Pump

Sizes 1, 2 and 3 have a 10 by 3-inch tight and loose pulley. Sizes 4 and 5 have a 12 by 3½-inch tight and loose pulley. Everything is easily accessible. The base is high with the end open, allowing for pipe fitting without disconnecting the pump or moving the base. A pipe flange which may be removed by simply loosening two set screws and giving it a half-turn is used to connect the suction pipe. The pump gears are machine cut, quiet and smooth running.



Long Bearings are provided in the flange housing. Instead of the ends of the bearings being sealed with lead, the flanges are cast solid on bearing ends. This assures non-leaking from end of shaft.

Independent Side Plates are used so it is necessary to remove the plates only in case of wear. Used for irrigation and fire protection. Moves a large volume of water with a minimum of power. For pumping acids, bronze pumps should be used, and metal valves when used for hot liquid. Shipping weights, 80 to 160 pounds.

Pipe

Lowest Prices

This pipe is commonly used for wells; gas, oil, steam and air lines. Your order will be filled at the lowest market price the day it is received. Prices are for pipe in lengths just as they come from the manufacturer, varying from 16 to 22 feet. Pipe is regularly shipped in lengths as received from the manufacturer. For instance, if you order 150 feet of pipe we will send you exactly 150 feet threaded and with couplings, without extra charge for threading or couplings. On the other hand, if you order 150 feet in 10-foot lengths there will be an extra charge, as shown below, for cutting and threading; also, the couplings will be extra. Furnished either black or galvanized. **Pipe over 6½ feet long not mailable.**

Porcelain Enameled Lavatories

Important

Ward's Porcelain Enameled Bath Tubs, Lavatories and Sinks shown in this catalogue are the very best quality manufactured. All our Enameled Ware is known as "A" Grade. This means every piece you select is as perfect as it is possible to make it. We do not handle seconds or inferior grades.

Write our Engineering and Estimating Department for estimates on complete plumbing and water supply installations. Our prices mean a real saving. Let us help you get the correct installations. We make no charge for this service.

You will find our prices low; but every Lavatory shown on this page is fully guaranteed to be of the highest quality.

Windsor Recess Bath Tub

$55.50 Tub Only

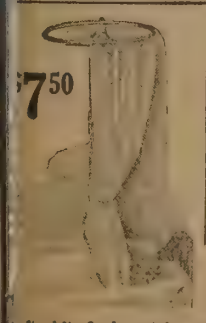
One-piece, built in Bath Tub made of first quality cast iron white porcelain enameled. This tub is heavily enameled inside as well as the apron that extends down to the floor. All fittings are concealed except the solid china water supply and waste handles. Fittings include 2-inch galvanized waste pipe; ½-inch supply pipes; ¾-inch discharge pipe; brass overflow tube; strainer and spout. All exposed brass fittings are heavily nickel plated. Handles are marked "hot," "cold" and "waste." This tub can be furnished only in the 5-foot length. It is 30 inches wide, 17 inches deep, 17½ inches high from the floor and has 3½-inch rim. A recess bath tub requires little floor space. **State whether fittings are to be at left or right hand end of tub.** Shipping weight, complete, 550 pounds; tub only, 500 pounds.

181 F 6423—Complete with fittings listed above.....$79.50
181 F 6431—Tub only, without fittings.....55.50

Important. All of our cast iron porcelain enameled Bath Tubs are the very best quality manufactured. Our ware is the quality known as "A" Grade. This means each piece you select will be as perfect as it is possible to make it.

$36.25

Windsor Folding Bath Tub



If you live in the country or away from the sewers and plumbing in your city, you may still have the convenience of a Bath Tub with running water.

The Windsor Folding Tub does not take much room. When folded it requires only a space about 30 inches square. Mounted on ball bearing casters. It is also very convenient for the summer home or camp.

The tub is 5 feet long and 30 inches wide. It is made of heavy galvanized sheet steel. The inside is finished in white enameled paint and blue enamel outside. Hardwood rim around top. The frame and platform are strongly built of tough steel. Nickeloid heater with heavy galvanized steel lining. Water is heated by copper coils. With 4-foot rubber hose for draining. Soap dish not included. **State whether you want heater to burn gas, kerosene or gasoline.** Shipping weight, 170 lbs.
281 F 6424.....$36.25

Chemical Indoor Closet

$6.75

The Windsor Chemical Indoor Closet brings to your home one of the greatest conveniences of the modern bathroom. It is easily installed, requires neither plumbing nor running water. The Indoor Chemical Closet is sanitary and a health protector. The Windsor is endorsed by Health Authorities everywhere. It is suitable for schools, churches and other such buildings not located near a sewer system. For those who rent homes, it is very convenient since it can be moved readily without harming either the closet or the building. Floor is not cut to install.

Chemical quick in action; one gallon, enough for 4 to 6 months included. Container need be emptied only once in 10 days to 2 weeks for a family of five. Shipped complete with enameled steel case, mahoganized seat; seven 12-inch lengths of 3-inch pipe; two 3-inch elbows; wall collar and chimney reducer—all enameled to match case. Also paper holder and one roll of paper. Height, 18 inches; diameter, 16 inches. Shipping weight complete, 40 pounds.

30-Gallon Boiler Only

Exceptionally Low Prices

Heavily Galvanized—Electric Welded

These Boilers are made of galvanized steel. Electrically welded and have no rivets. The **fittings included with our complete boilers have standard iron pipe threads, for which we make no additional charge.**

Every boiler is tested mechanically before and with water under pressure after galvanizing. The test pressure is, in all cases, very much more than the service pressure under which range boilers are operated.

These boilers are for storing hot water under pressure. May be connected with a heating coil in the kitchen stove, furnace or with our heaters 181 F 7821, 181 F 7822 and 181 F 7817, shown at the right. The cold water does not mix with the hot—the hot rises to the top of the boiler, where it is always available.

Height of boilers is 60 inches without stand. A thirty-gallon boiler is sufficient for an ordinary household. If boiler is to be used under more than 85 pounds water pressure, we recommend that you use our extra heavy boiler.

Prices below for boilers complete include stand, cold water tube and four union couplings with ¾ inch iron pipe thread. Prices for boilers only, include nothing but the boiler. Shipping weights: 75 to 145 pounds. **State size wanted.**

Standard Boilers. High quality and guaranteed for one year. Tested at 200 pounds pressure. For 85 pounds water pressure.

Article Number	30-Gallon	40-Gallon	52-Gallon
181 F 6707—Boiler only, without fittings	**$9.85**	**$12.45**	**$20.50**
181 F 6719—Boiler complete, with cold water tube, four couplings and stand	**12.45**	**15.05**	**24.75**

Extra Heavy Boilers

Guaranteed for three years. Tested at 250 pounds. For use with water pressure of more than 85 pounds.

Article Number	30-Gallon	40-Gallon	52-Gallon
181 F 6708—Boiler only without fittings	**$11.45**	**$14.45**	**$25.50**
181 F 6728—Boiler complete, with cold water tube, four couplings and stand	**14.05**	**17.05**	**29.75**

Prices of Range Boilers subject to market changes

Boiler Stand

High grade cast iron range boiler Stands. Ship. weights: 4 to 6 pounds.

481 F 6730—Adjustable for 30 and 40-gallon boilers... **40¢**

181 F 6720—For 52-gallon boilers; with ring top... **$2.25**

Galvanized Boiler Couplings

Malleable iron couplings heavily galvanized. Used for making connections to range boiler. Threaded for ¾ inch iron pipe. Outfit consists of four couplings, each fitted with union joint. Ship. weight, per set, 5 pounds.

81 F 6729—Per set... **$1.75**

Boiler Drain Valve

Solid brass rough nickel plated Drain Valves for use on range boilers, pipe lines and heating boilers. Threaded for ½ inch iron pipe, and outlet has ¾ inch hose coupling thread. Shipping weight, 1 pound.

81 F 5431.....**60¢**

Highest Quality Water Heaters

Exceptionally Low Prices

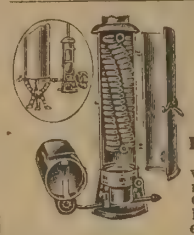
Macon Hot Water Heater

$5.45 Burns Gas

Black sheet steel casing. Conical shape of coil gives maximum heating efficiency. Suitable for thirty-gallon boiler. Cast iron burner with valve tapped for ½ inch iron pipe. Coil is made of solid, seamless drawn copper tube in a single piece. Water tappings threaded for ¾ inch iron pipe. An exceptionally low price for a high quality Heater. Shipping weight, 18 pounds.

181 F 7821.....**$5.45**

Easton Hot Water Heater



$7.10 Burns Gas

For quickly heating water in galvanized range boilers. Heats sufficient water for bath in twenty minutes. Burns gas. Jacket, top and bottom are made of strong cast iron, all black japanned. Double coil of heavy, seamless copper. Iron burner in bottom, Tappings for connection to ¾ inch iron water pipe. Gas valve tapped for ½ inch iron pipe. Height, 18 inches. Diameter, 7 inches. Shipping weight, 31 pounds.

181 F 7822.....**$7.10**

Warren Water Heater

$23.25 Burns Kerosene

For heating water in galvanized range boilers. Contains four heavy copper coils, each 8 feet long. Fitted with latest type blue flame kerosene burner. The coils are arranged in a half turn, which interrupts the flame and utilizes the greatest possible amount of heat; also preventing any possibility of back drafts. Holds one gallon of kerosene, which will burn twelve hours. Water tappings threaded for ¾-inch iron pipe. Height, 28¼ inches. Ship. weight, 55 pounds.

181 F 7817.....**$23.25**

Mohawk Water Heater

$12.10 Complete For Gas

Entirely self-contained. The tank is made of 26 gauge galvanized steel, nickelold covered with copper coil in bottom. Will heat sufficient water in thirty minutes for a bath. Requires no plumbing. **Can be furnished for either city gas or kerosene.** The kerosene Heater is used extensively by people who have no city gas. Size of tank: Height, 26 inches; diameter, 12 inches. Capacity, 10 gallons. Loose cover on top for filling with water. Shipping weight, 50 pounds.

281 F 6496—For gas.....**$12.10**
281 F 6497—For kerosene. **12.25**

Shipped from Detroit, Mich.

Windsor Pipeless Furnace

Heats Your Home at Low Cost

$72.75 Cash Price

5-Room Size

This is the same big, heavy Windsor Pipeless Furnace of which we sold thousands last fall. The prices we quote with our attractive Easy Payment feature make it possible for you and your family to have all the comforts of an evenly heated home. With the Windsor Pipeless Furnace in your basement there will be no coal or wood to clutter up your rooms, no ash laden air in your house, no unhealthy drafts, and absolute safety for the children. Your entire house will be evenly heated.

The Windsor Pipeless Furnace is not light and flimsy, but a heavy, durable furnace that will give you years of service at very low cost. The heavy cast iron radiator insures an even flow of heat, and will outlast the ordinary steel radiator furnished with a great many furnaces sold at a much higher price than the Windsor Pipeless. The combustion chamber is large and will properly burn all gases, giving you the greatest possible amount of heat from the fuel. The large ash pit and three-cornered grates allow ample circulation of air to prevent warped and burned out grates. All joints are of the improved cup type and are sealed by cement, making your furnace gas tight.

Hoods are adjustable to reach registers eight feet above the basement floor. The inner hood is lined with asbestos, insuring the best possible heating results.

Our stock of furnaces insures prompt shipment. We save you freight by making shipment from the warehouse nearest you. **If you prefer to buy on time, Use Special Easy Payment Order Blank No. 3 on Page 605.**

Sizes, Article Numbers and Prices of Windsor Pipeless Furnaces

Prices include water pan, check draft, damper chains for draft door and check draft, regulator dial, cement for all joints, and large floor register—everything except smokepipe to make complete installation.

Windsor Warm Air Furnace

The Same Big Furnace We Sold Last Fall

$62.50

20-Inch Size

Sold for Cash Only

The best recommendation for this big, heavy improved Windsor Pipe Furnace is its great number of satisfied users. Last fall we sold more pipe furnaces than ever before.

The Windsor Pipe Furnace has always been known for its long life, fuel economy, and for its great heating capacity. Installed in your home it will solve your heating problem. It is a furnace with a long life and very economical.

The furnace you need will be shipped promptly. We save you freight by shipping from the warehouse nearest you.

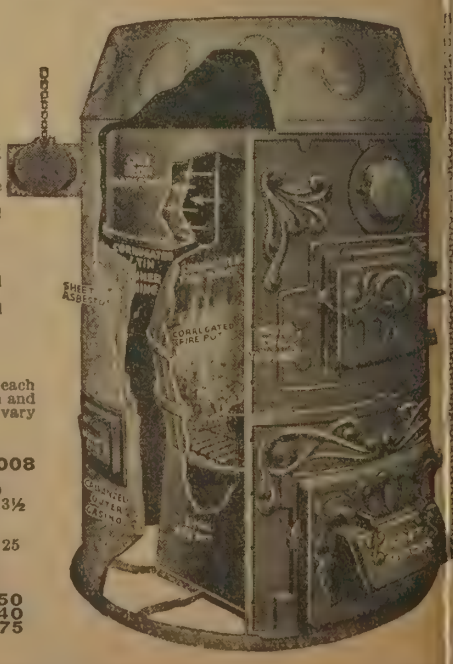
Radiator. Extra heavy, and larger in diameter than on most furnaces of the same size. Made of heavy cast iron—will not warp.

Fire Dome. High dome shaped, deep corrugations inside and out provide larger surface to take up heat. Gas tight joints at top of fire pot.

Fire Pot. Corrugated to increase radiating surface, and adds strength and life. Corrugations provide free circulation of air to fuel around outer edge of fire pot. Cup joints gastight.

Grates. Heavy triangular bars; shake in pairs. Front of grates may be dropped, allowing clinkers to slide off into ash pit.

Ash Pit. Extra deep and large. Full width ash door makes ash removal easier.



Draft Door. Extra large to admit plenty of air for heavy firing.

Fire Door. Large for each size of furnace. Easy to feed.

Water Pan. Extra large. Insures moist, healthful air.

Leakproof. All joints are cup type and gastight. All doors ground smooth and fit closely, insuring positive draft control.

Casing. Standard weight, galvanized iron. Inner lining of corrugated tin to reflect heat; asbestos lining prevents heat escaping.

Sizes, Article Numbers and Prices of Windsor Warm Air Furnaces

Prices include casing, regulating dial, damper chain, check damper, shaker handle and water pan. Order smokepipe and fittings extra. See Pages 664 and 665 of our General Catalogue No. 99 for our complete line of fittings for warm air furnaces; or if you have not your copy write us for prices on any fittings you may need. The top bonnet of the furnace is shipped without holes cut for pipe; these are to be cut as required when furnace is being installed. With each Windsor Pipe Furnace we include plain printed directions for installation and operation. Weights and dimensions below are approximate and may vary slightly.

Increase the value of your home with Ward's Coverall House Paint. See Page 546

Improved Giant Windsor Boilers

Round shape. Cast iron from top to bottom. The joints are of the modern push nipple type; require no gaskets and will remain permanently water tight. The sections rest one on top of the other, metal to metal, and are drawn together by four heavy tie rods. Grates are the rocking clinker breaking type; thick and heavy, but lightly balanced and easily shaken. Ash base provides for ample ash storage and large door allows easy removal of deposit. Fire pot has openings for coil for heating water for domestic use. We are mighty proud of these boilers.

State size wanted.

Steam! Vapor Radiators Hot Water

Insure Immediate Shipment of Your Order

When ordering, state height of columns and number of sections wanted. Also state whether for steam or hot water, and size of opening wanted for valve and return—otherwise your radiator will be furnished for standard size connections. To figure the heating surface of a radiator, multiply the square feet in each section by the total number of sections. To find the price, multiply the value per square foot by the total number of square feet in the radiator. To determine length of radiator, multiply the thickness of each section by the number of sections, and add one inch. Allow several inches for radiator valve or elbow.

Windsor Radiators are made in a wide variety of styles to suit every requirement. The most modern equipment is used in their manufacture, and nothing has been spared to bring them up to a high point of perfection in design, material and workmanship.

Surfaces are perfectly smooth, and the simplicity of the radiator patterns present a pleasing appearance. Large air spaces between the sections make them more efficient.

All Windsor Radiators are completely assembled before shipment, and tested twice, once before and once after assembling.

Two-Column Radiators			
Height, In.	38	26	20
Sq. Ft. per section	4	2⅔	2
281 F 7884 Steam Per Sq. Ft.	40¢	48¢	54½¢

You Can Paint Your Auto Yourself

$2.65 A Gallon

Make It Look Like New And Increase Its Value

With Ward's Automobile and Carriage Enamel you can do a fine pa job at only a fraction of what it would cost you to have a painter do A quart of enamel is all you need for one coat for an average auto—p haps a little more for a closed car. You don't even have to remove t old surface. Simply see that it is dry, clean and smooth. You'll be s prised at the good job you can do, and how easy it is to do it. In a cou of hours, by following directions on the can, the most faded and di looking car can be changed into a bright, shiny, new looking auto—o you and your family will be proud to ride in.

Beautiful High Gloss Finis

The high gloss finish of Wardway Automo and Carriage Enamel is a long lasting one. withstands heat, cold, rain and mud; and quent washings do not injure it. Shipping wei per gallon, 15 pounds.

Choice of six colors; also black and whi

Ward's Automobile Varnish

$2.85 A Gallon — Easy Flowing, Hard Drying, Long Lasting

Apply a coat of Ward's Automobile Varnish to that dull, faded car, and see what a difference you make in its appearance. If the finish is not checked or cracked your car will look just like it did when new, because this varnish brings out all the beauty of the original color and adds to it a high, long lasting luster.

It is also a good policy if you are painting your car to add a coat of Ward's Automobile Varnish. This not only adds to the brilliance of the finish—it protects it against the weather and frequent washings, as well.

Spreads easily and dries free from dust in about six hours. Hardens so the car may be used in two or three days. It will not darken or discolor the shades or striping underneath.

Thousands of auto owners are painting and varnishing their own cars. You can too, in your spare time and at little expense. Do it now. Shipping weight, per gallon, about 11 pounds.

Ward's Striping Bronze

Add considerably to the appearance of your car by painting a gold stripe around the body, doors, hood, radiator, or on the wheels. Ward's Striping Bronze is excellent for this purpose. It is a pale gold bronze, which comes in powder form, and is easily prepared by mixing about 6 ounces of bronze with one pint of Ward's Automobile Varnish. It is also used extensively for painting initials on car doors. To get best results a camel hair dagger striper (such as shown at right) should be used. Shipping weights: 2 ounces and 1¼ pounds.

75 F 8524—1-ounce package	$ .18
575 F 8525—1-pound can	2.25

Ward's Elastic Gear Varnish

You will need a special, durable Varnish for your automobile wheels, running gears of wagons, and the like. Ward's Elastic Gear Varnish is especially suited to such work, as it is long lasting and resists the action of mud, water and grease. Dries hard and glossy so it can easily be cleaned. This varnish will give excellent service. Before applying be sure that all dirt and grease is removed. This is done easily by cleaning with a cloth that has been saturated in kerosene or gasoline. Shipping weight, per gallon, 11 pounds.

Save the Cost of New Implements by Using This Special Implement Paint

Wardway Wagon and Implement Varnish

$2.10 A Gallon

Many progressive farmers are using this special hard drying Varnish as a protection against rust and wear. A common practice is to give the wood parts of all implements at least one coat every season. It is a bright varnish and dries with a brilliant gloss finish. Has a good body. Sets dust free in from five to six hours. Especially suited for outdoor use. It is a good policy to use it freely—it may save you many dollars in repairs and replacements. Shipping weight, per gallon, 11 pounds.

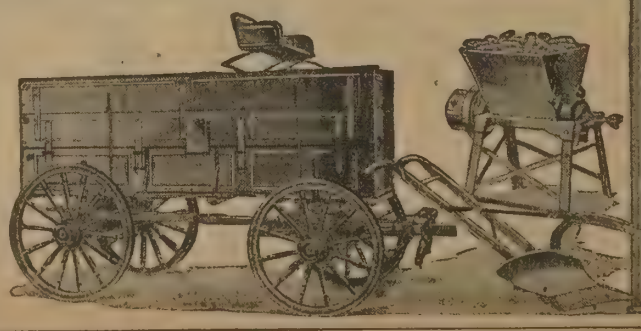
Wardway Wagon and Implement Paint

$2.50 A Gallon

Your implements and wagons should be painted every season to keep them in good condition. You can easily do it yourself with Wardway Wagon and Implement Paint. In an afternoon you can have a wagon looking like new and implements protected against the weather for many months.

Go over all your wagons and implements now. Give every one that needs it a good coat of paint. You will be surprised at the results. Wardway Wagon and Implement Paint not only will make them look better, but will prevent the wood from shrinking or swelling and the metal parts from rusting. Shipping weight, per gallon, 15 pounds.

Choice of four colors; also black.



Make your selection from list below and refer to Page 547, where colors are shown.

Protect your farm implements, tools, machinery and wagons against damage by that great destroyer, RUST. Before exposing them to the weather in open sheds or fields give them a coating of Wardway Wagon and Implement Paint or Varnish, and you can be sure that when you are ready to use them again they will be in good condition—that there will be no expensive delays and replacements. Millions of dollars are lost every year by American farmers because they do not properly care for their implements when harvesting season is over. Have a couple of gallons of Wardway Wagon and Implement Paint or Wagon and Implement Varnish always handy, and save yourself your share of this great loss.

Increase the value of your car. Top Re-Cover Outfits are shown on Page 465

Coverall Barn Paint

How to Measure Your House or Barn for Painting

Suppose your house is 30 by 40 feet, and 20 feet high. First add the four sides together—they make 140 feet (the distance around the house). Then multiply by the height—20 times 140 makes 2800 square feet. Divide by 300, the average number of square feet a gallon will cover, and you have 9⅓ gallons. Allow about one-fourth extra for trimming. On new lumber a little more is needed. On a new house of the size above, your order would total about 13 gallons, including trimming. **To Measure Roof:** Multiply width of the house by length. Add one-half. This gives about the number of square feet in the roof. Divide by the number of square feet one gallon will cover, as given in the description of the paint you are ordering.

Own Better Buildings Paint Them Yourself

You don't want shabby, weather beaten, old looking buildings, and common sense tells you that it costs real money to have them decayed and dilapidated five to ten years too soon. You don't need to endure such conditions a minute longer, when the standard money back Ward guarantee protects your investment in such a way that in trusting us with your order you take not the slightest risk. Add the satisfaction of owning newly painted, weatherproof, attractive buildings to the money saving of the COVERALL low price, and see if you can afford to do any longer without these advantages?

You can make your spare time valuable by doing the painting yourself. Order at once, before the bad weather of this fall starts in and has a chance to do further damage to your buildings.

Wardway Waterproof Stucco Paint

No Experience Needed When You Use Ward's Paints

You can make an old weather stained stucco house look almost new with a coat of Wardway Stucco Paint. It is a high grade, weather resisting paint for durable, lasting work on stucco, brick or cement buildings. Made in our own factory.

In addition to the beautiful color it gives the house, it also retards decay by protecting the stucco from weather wear. Also seals the surface, preventing rain from spotting the walls. Apply with an ary paint brush. Full directions on can. One gallon covers 200 re feet, one coat. Shipping weight, per gallon, about 15 pounds.

Wardway Creosote Shingle Stain

Preserves as well as beautifies old or new shingles. Protect your shingles and at the same time you make them attractive. Use Shingle Stain and do both for the price of one.

Wardway Creosote Shingle Stain contains creosote oil, one of the best wood preservatives known. Penetrates the wood and makes the shingles last longer. Effective in preventing rot, decay and damage caused by boring insects. The penetration of the creosote combination produces that mottled effect so much desired.

Your choice of four popular colors. The darker shades are more durable and lasting, but the lighter ones will give long service, too. The red stain looks especially well on a roof of a house painted in light colors. Shingled side walls may be painted with this shingle stain as well as roofs. Brushed on, one gallon covers 100 square feet, two coats; 2½ gallons will treat 1,000 shingles dipped two-thirds their length. Shipping weight, per gallon, about 12 pounds.

Choice of four popular colors. Color cards on Page

Ward's COVERALL House Paint

TRADE MARK

$1.69 A Gallon

In 50-Gallon Barrels

GO out to your gate. Step across the road. Then stop and look at your surroundings through a stranger's eyes. Take the house in which you live, for instance. How does it compare with the house next door? Is it still the cheerful, friendly, inviting home that it was when it was new? If not, the answer is—Paint. Whether you keep it or sell it, think of its added worth to you if your home were standing there painted this moment. Real estate experts state that repainting does more than any other one thing to increase a building's value; to lower the rate of depreciation, and at the same time raise the standard of appraisal on any property.

Protects—Beautifies—Increases Value

Along with this increased value, too, think of the increased years of life that paint provides through protection from sun and rain, heat and cold. Then, to cap the climax of this greater value and positive weather protection, there is the added **beauty** that COVERALL, an all quality paint, gives to any surface to which it is applied.

COVERALL truly preserves, protects and beautifies; gives a maximum coverage per gallon; makes every man his own painter—and all at a price easily within the reach of every home owner in America. Why not realize these wonderful returns on good paint this spring?

Announcement Regarding Wardway House Paint

For many years we manufactured two brands of paint—Wardway and Coverall. Wardway was considered the better grade and was naturally higher priced. However, we have been constantly improving our Coverall grade, until today we can offer you at a very low price, our Coverall, which is equal in every respect to Wardway paint. And because we can offer an equal grade of paint at a lower price we are discontinuing the manufacture of Wardway paint. We would urge all our former Wardway customers to give Coverall a trial. You will find in it every quality which goes toward making a high grade paint, as it is smooth, free flowing and long wearing, has a large covering capacity, and is a paint that will add beauty to any surface to which it is applied.

You Can Make That Old House Look Like New

The Quality Is There. You can be **sure** of good paint—and a good painting job, when you use COVERALL House Paint. We make it ourselves in our own paint plant. We know it is good paint because we **know** what it contains and what it will do.

Every gallon is made under a reliable, time tested formula. We make COVERALL House Paint from white lead, zinc, linseed oil, and the other wear resisting ingredients which long experience has taught us are necessary to make good paint. We **use no** fish oil, **no** water. Only such materials as have been **proved** to make good paint are used in COVERALL.

Bright, Timeproof dress of fresh paint on your house with COVERALL and see how many, many times it repays the small expense of the whole job. You can do it yourself, save money and be certain of a beautiful, weather protected home. Thousands who buy COVERALL every year have done it, and have written us sincere letters of endorsement.

Our Own Paint Factory with its special grinding machinery and scientific methods of mixing and testing, follows this formula to the letter in the manufacture of COVERALL. Every ounce of it, whether in quart can or 50-gallon barrel, is uniform, smoothly ground, and full bodied.

Ready Mixed by these machine methods, so infinitely superior to hand mixing, COVERALL House Paint comes to you all **ready for use.** No time and expense of running after linseed oil and wearing out your arm to "mix your own." Just stir it as directed; and with common sense, plus any standard paint brush, you can do the rest yourself.

Every Gallon Guaranteed to cover 250 to 300 square feet of surface with two coats of paint. If you have a brand new surface to paint, or one that needs painting badly and all the old paint worn off, you need a little more paint than usual. For such surfaces the best way is to put on a priming coat with paint to which you have added one pint of turpentine and one to two quarts of **pure** raw linseed oil per gallon. Then put on two coats of COVERALL, without thinning, and you will have a beautiful job in every way.

A Beautiful Job because your choice of combinations is almost unlimited. In addition to black and white, there are thirty other selections; you can't fail to match your idea of just the right one for **your** house.

COVERALL Goes Farther because of its wonderful covering capacity, so that its economy is further increased by the less amount of it required, in comparison with any other paint **as good as COVERALL.** By ordering in the large size containers, a further price saving is made possible; and you will not have the slightest difficulty in knowing how much to order if you will use the simple method of measuring your house that we have worked out for you on Page 545.

Mr. E. C. Allen's Home. All buildings painted with COVERALL

Nearly 40 Years of Satisfaction

"Better than anything else I can say to express satisfaction of my dealings with Ward's, is that I have been buying goods from your house continually for nearly forty years, and hope to continue doing so. We have the two barrels of Paint purchased from you last spring nearly all used up on our buildings, with apparently good results. We have faith in its wearing quality from past experience with your goods."
Ed. C. Allen, LeRoy, Mich.

Printed with Mr. Allen's Permission

Finally, Remember Ward's Reputation for over fifty years of square dealing, and the unconditional guarantee of satisfaction behind every item of Ward's merchandise, and you will know beforehand the **quality** you will get, right along with **COVERALL'S low price!**

Wardway Household Paint

For Inside Wall, Woodwork and Furniture—Semi-Gloss Finish

WALLS, woodwork and furniture look fresh and bright like new when you have painted them with Wardway Household Paint. This paint is made by a special formula to fill your requirements for an all purpose household paint of excellent wearing qualities and yet low in price.

It is a hard drying paint which has a smooth, semi-gloss finish that you may wash with soap and water without injury. For this reason this paint is specially practical for bathroom or kitchen walls which demand so many cleanings.

It does the work which formerly required several different kinds of paint—so you save yourself both time and money using Wardway paint—and you get even better results.

Because it comes in so many beautiful and desirable colors, you may select a color which will harmonize with whatever decorative scheme you may desire, and you will be surprised by the many attractive combinations it makes possible.

For the popular painted furniture, Wardway Household Paint is exceptionally successful. It gives that semi-gloss finish which is so desirable, and because it can be washed so quickly and satisfactorily, you will always be pleased and proud of the furniture you have treated with this all purpose paint.

One gallon covers about 250 square feet—two coats.

Choice of twelve popular colors as shown on opposite page; also No. 671—White. Shipping weight, per gallon, 15 pounds.

$2.68 A Gallon

575 F 8063—1 gallon can	2.68

Wardway Flat Wall Finish

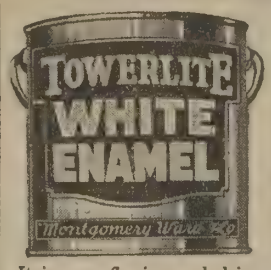
Very Popular for Interior Decorating

$2.25 A Gallon

Beautiful Velvet Finish—Easy to Keep Clean

Enjoy the luxury of beautiful tinted walls with the convenience of a wall that is easy to clean and keep clean. Wardway Flat Wall Finish is the flat (no gloss) paint so popular for interior decorating. Use it in any room—parlor, dining room, bedroom or hall.

In addition to its decorative beauty, it may be cleaned easily by washing with a damp cloth or sponge. You can keep your walls clean, sanitary and fresh looking for an unusually long time.



May also be used on wall board, metal, plaster and wood surfaces. Dries quickly. Easy to use—full directions on the can. You can do the work using an ordinary wall brush (see Page 554). On plastered walls, not already painted or sized, use a coat of Fresco Wall Size (listed below) before applying the Flat Wall Finish. One gallon covers 200 to 250 square feet—**two coats.**

Choice of twelve popular colors as shown on opposite page; also No. 71—White. Shipping weight, per gallon, 15 pounds.

Wardway Liquid Enamel

May Be Washed With Soap and Water

$2.70 A Gallon

Popular Colors—Bright Glossy Finish

Have you seen how attractive walls finished in the beautiful colored enamels are? Not only are they pretty and artistic, but they cost far less than you would suppose—especially when they are painted with Wardway Liquid Enamel—the enamel which we know is good because we make it in our own factory. This enamel has a hundred uses in your home, not only for walls, but for woodwork, furniture, metal ceilings, bedsteads or wicker furniture. You will like it whenever you use it. Applied smoothly and quickly with an ordinary paint or varnish brush. It dries quickly and gives an attractive and durable finish which you may wash with soap and water. One-gallon covers 200 to 250 square feet—**two coats.** Shipping weight, per gallon, 15 pounds.

Choice of eight colors as shown on opposite page; also white and black. **State color wanted.**

Varnish for Every Purpose

$2.60 A Gallon — Marproof Special Floor Varnish

Water Can Not Harm Marproof

VARNISH your floors with Marproof and you will see why thousands of our customers will use nothing else. You will see how easily it is applied — what a hard, smooth surface it forms. You will find, too, that you can save money not only because Marproof costs you less, but because with it you can do the job yourself, and do it well.

The floors you varnish with Marproof are varnished to last. Water—either cold or boiling hot—heel marks, scratches, scars make no impression on its hard, firm surface. On new floors or old it gives the same bright attractive finish. Marproof is true economy. While lower in price it outlasts many other varnishes, and it protects your floor from wear. Dries overnight.

75 F 8640	—1-pint can	$ .40
575 F 8641	—1-quart can	.75
575 F 8643	—1-gallon can	2.60
175 F 8644	—5-gallon can	12.25

Co-Var Finish Color Varnish for Floors, Furniture, Woodwork Etc.

$2.30 A Gallon — Co-Var Finish Colors and Varnishes at One Stroke of the Brush

A nice looking, spick and span home adds to the happiness and contentment of the whole family. No woman, try as she will, can keep her home fresh and attractive if the furniture is marred, the walls soiled, or the floors all scratched. On the other hand, with floors, walls and furniture nicely varnished, housecleaning is less of a task.

Apply Co-Var Right Over the Old Finish

A can or two of Co-Var Finish is all you need to dress up your woodwork or furniture. Being a stain and a varnish, you can change the color of your woodwork to suit your taste, and at the same time give it a lustrous, grossy appearance. What is more, you do not have to remove the old finish—just see that it is clean and dry, and varnish right over it. One coat is usually sufficient. So you see, Co-Var is economical as well as being a high grade color varnish easy to apply.

Your Choice of Seven Colors and Ebony and Natural

These Co-Var colors are shown on Page 548.

183–Cherry	185–Light Oak	191–Bog Oak
186–Rosewood	187–Antique Oak	190–Ebony (black)
184–Mahogany	188–Walnut	189–Natural (clear)

State color wanted

75 F 8109	—Trial Outfit ½-pint can Co-Var with 1 inch Varnish Brush	$ .25
75 F 8110	—1-pint can	.36
575 F 8111	—1-quart can	.67
575 F 8113	—1-gallon can	2.30

Important: When putting a lighter color over a dark surface, it is necessary first to apply a coat of ground color. We supply ground colors in the same prices and sizes as the regular colors. When ordering, specify **Co-Var Ground Color No. 192.**

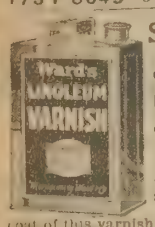
$2.95 A Gallon — Wardspar Durable Spar Varnish

For Outdoor and Indoor Use

WARDSPAR is widely used on fine interior or outdoor finish, floors, table tops, boat decks, airplanes, or any surface which gets unusually hard wear.

Tough and weather resisting, Wardspar Varnish is also the varnish for outside jobs, such as porch ceilings, vestibules or doors. It dries perfectly in six to eight hours, giving a bright hard finish which withstands rain, sleet, snow or hot summer sun.

Kitchen, bath room and other woodwork that is liable to require frequent cleaning should be finished with Wardspar. If there are any lively youngsters around the house to scratch and mar the furniture, that should be finished in Wardspar, too. In short, wherever it is necessary to use a tough, durable, wear and weather resisting varnish, use Wardspar.



75 F 8600	—1-pint can	$ .43
575 F 8601	—1-quart can	.80
575 F 8603	—1-gallon can	2.95
175 F 8604	—5-gallon can	14.00

$1.80 A Gallon — Diamond "W" Floor Varnish

Our Diamond "W" Floor Varnish has earned a reputation for excellent, long wear. Wherever it has been used, it has made friends, first, because it is low in price, and second, because it stands the test of hard wear so well. Our customers tell us that it is the best varnish made for the money. Diamond "W" is easy to apply. It dries over night and gives a smooth glossy finish which is not injured, by water.

75 F 8645	—1-pint can	$ .30
575 F 8646	—1-quart can	.55
575 F 8648	—1-gallon can	1.80
175 F 8649	—5-gallon can	8.25

Special Linoleum Varnish

Varnish your linoleum or oilcloth occasionally with this specially prepared Linoleum Varnish, and it will wear much longer. This varnish dries hard, yet retains its elastic quality so it will not discolor, crack or chip off.

On new linoleum or oil cloth this special varnish will retain brightness and preserve the pattern with a protecting film, which will delay for a long time the appearance of the first wear spots

On old linoleum or oil cloth covering, a coat of this varnish revives faded color and provides a luster that makes them look almost new

This varnish dries over night, leaving a smooth, easily cleaned, glossy, sanitary surface that will protect and prolong the life of your floor covering.

75 F 8650	—1-pint can	$ .32
575 F 8651	—1-quart can	.58
575 F 8653	—1-gallon can	1.95

Note: Inlaid linoleum should not be varnished, as the wax contained in inlaid linoleum will prevent the varnish from drying.

No. 1 Furniture Varnish

This is a hard bodied, wear resisting Varnish easy to apply and quick to dry. On new or old furniture it gives a bright, glossy finish. Many good pieces of furniture can be brought back into service with one coat of our No. 1 Furniture Varnish.

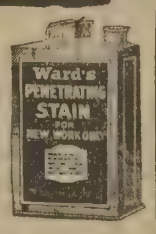
75 F 8670	—1-pint can	$ .29
575 F 8671	—1-quart can	.54
575 F 8673	—1-gallon can	1.75

Extra Hard Oil Varnish

A good medium priced Varnish. Made for all sorts of interior woodwork finishing, but is particularly good for preserving the grain and color of natural woods. Dries quickly with a full rich luster and lasts long.

75 F 8625	—1-pint can	$ .36
575 F 8626	—1-quart can	.67
575 F 8628	—1-gallon can	2.30
175 F 8629	—5-gallon can	10.75

$2.10 A Gallon — Extra Light Copal Universal Varnish



Right now, you probably can recall a number of little brightening up jobs you have long planned to do—a chair that is getting faded, worn spots on woodwork and stairs or baby's go-cart. Keep a can of Varnish on hand for patching and for small jobs like these. It saves both work and money to keep floors in good condition.

For the job demanding about the average in varnish endurance, it is economy to use our Extra Light Copal Varnish. It is our general purpose varnish. It goes on smoothly, dries over night, and gives excellent wear for such a low priced varnish.

75 F 8605	—1-pint can	$ .34
575 F 8606	—1-quart can	.64
575 F 8608	—1-gallon can	2.10
175 F 8609	—5-gallon can	9.75

Ward's Penetrating Wood Stain — $1.66 A Gallon

A single coat gives new wood that soft stained effect on which you may use either wax or varnish, depending upon whether you want a dull or glossy finish. This stain is for new work only. It does not raise the grain, but merely penetrates the wood and brings out the beautiful natural colors. Shipping weight, per gallon, 10½ pounds.

Choice of Ten Popular Colors

See colors on Page 548. Be Sure to State Color Wanted.

Light Oak	Bog Oak	Fumed Oak	Early English Oak
Golden Oak	Mission Oak	Mahogany	Weathered Oak
Dark Oak			Walnut

75 F 8130	—½-pint can	$ .20
75 F 8131	—1-pint can	.32

575 F 8134	—1-gallon can	1.66

For Complete Line of Varnish Brushes See Page 554

Ward's Mission Art Liquid Wax Dries with a Gloss

A beautiful and lasting wax finish can be obtained by using Mission Art Liquid Wax over our Penetrating Wood Stain (shown above). Also used for waxing furniture, woodwork and floors, and polishing any varnished surface. Dries with a gloss. If you want to change a varnish finish to a wax finish, simply remove the varnish with our Paint and Varnish Remover, apply Penetrating Wood Stain of the color desired, and then add Mission Art Liquid Wax. Shipping weight, per gallon, 8 pounds.

75 F 8150	—1-pint can	$ .30
575 F 8151	—1-quart can	.48
575 F 8152	—1-gallon can	1.50

$1.85 A Gallon — Ward's Special Paint and Varnish Remover

Very often you will find the finish on furniture or woodwork so badly marred or checked that no amount of painting or varnishing over it will improve its appearance. When such is the case it is best to remove the old finish. Ward's Paint and Varnish Remover is a very effective and easy way of doing this You simply apply it with a brush and in a few minutes it has cut in and softened the old finish so that it can be easily removed with a scraper or steel wool. It will not discolor the wood or injure the hands. Shipping weights: 2, 3½ and 11 pounds.

75 F 7796	—1-pint can	$ .32
575 F 7797	—1-quart can	.51
575 F 7799	—1-gallon can	1.85

Shipping Weights of Varnishes

One gallon of our Varnish will cover about 600 square feet on oak, or about 400 square feet on pine—one coat.

Shipping weights:

Per gallon	11 pounds.
Per quart	4 pounds.
Per pint	2½ pounds.

Cabinet Finish Varnish

This hard drying Varnish is excellent for indoor work demanding more than ordinary endurance. We recommend it especially for school seats or church pews or for woodwork where a cabinet finish is desired. It is easy to apply and will dry dustproof in six or eight hours. After twenty-four hours it may be rubbed to a high polish, giving an attractive and serviceable finish. Cabinet Finish Varnish has been used by thousands of our customers and it always has given long wear and entire satisfaction.

75 F 8665	—1-pint can	$ .35
575 F 8666	—1-quart can	.65
575 F 8668	—1-gallon can	2.20
175 F 8669	—5-gallon can	10.25

Rubbed Finish Varnish

Our rubbed Finish Varnish produces the soft, glossy effect of a rubbed finish without the necessity of rubbing it down. You get this desirable lustrous effect with almost no work and no more time than you would spend in putting on an ordinary coat of varnish. Full directions for applying on each can. This varnish is free from wax, yet you get all the features of a waxed finish combined with the wearing qualities of varnish. It dries perfectly in 24 hours and gives excellent wear. It has won well earned popularity among our customers because of its high quality and low price.

75 F 8655	—1-pint can	$ .41
575 F 8656	—1-quart can	.76
575 F 8658	—1-gallon can	2.60

Batavia Damar Varnish

For use over wall paper or white paint. A beautiful, pale, transparent Varnish. Dries dustproof in six hours. Full body. Very easy to apply.

75 F 8660	—1-pint can	$ .49
575 F 8661	—1-quart can	.88
575 F 8663	—1-gallon can	3.10

Interior Spar Varnish

Spar Varnish is hard, tough and wear resisting. Produces a hard, lustrous, lasting finish not affected by hot or cold water. For use on all interior work, where water resisting qualities are an important consideration. Full directions for applying are on each can—no previous experience needed.

75 F 8615	—1-pint can	$ .34
575 F 8616	—1-quart can	.58
575 F 8618	—1-gallon can	2.10
175 F 8619	—5-gallon can	10.00

Ward's Mirolite Interior Varnish — $2.85 A Gallon

Mirolite gives woodwork, doors, wood paneling, furniture, etc., a brillant finish. Brings out the beauty of the wood and at the same time preserves the surface and makes it last longer. A pale, easy flowing varnish of superior quality which can be applied to all kinds of woodwork. Mirolite may be washed with hot or cold water and will not crack, turn white or blister. It is exceedingly durable—will wear for years. Dries in six to eight hours. May be rubbed and polished after forty-eight hours. Surfaces varnished with Mirolite are sure to be pleasing and attractive for an unusually long time.

75 F 8610	—1-pint can	$ .42
575 F 8611	—1-quart can	.78
575 F 8613	—1-gallon can	2.85
175 F 8614	—5-gallon can	13.50

Send for this Free Wall Paper Sample Book

Contains Actual Samples of More than 100 New Patterns Priced as Low as—

3¢ A Single Roll

Sold Only in Double Length Rolls

Actual Size, 8¾ by 7 inches—one-fourth larger than wall paper books usually sent out.

See How They Look on the Wall

Every page is like a finished room—side wall and border right together just as it will be on your wall. This is our own patent, to make it easier for you to select your paper.

Of Course You Can Hang Your Own Wall Paper

Our Wall Paper Sample Book explains clearly how to hang wall paper. It is not a hard job—you can do a first class job yourself; and with the money saved you can buy fresh, stylish paper for additional rooms.

All you need is a paste brush, pair of shears and some paste. Our dry paste has proved extremely satisfactory to thousands of our wall paper customers. A good paste brush and long shears are listed on Page 555 of this book. You can use a whisk broom for smoothing; a furniture caster for seams; a long table (or boards stretched between boxes), a stepladder and a stout plank.

Why It Is Safer to Buy Wall Paper from Ward's

Because Our Patterns Are New. We carry no left overs. You have more than a hundred from which to choose, and you know your paper will be the latest style.

You Can See How They Will Look on Your Walls. The border is shown right with the side wall. You know how it really looks, and you can not be disappointed in the paper you choose for your home.

Our Sample Book Helps You Decide. It tells you just where each pattern will be prettiest, what it will do for your room, and what to choose to make each of your rooms the most attractive.

It Is Your Book to have in your home as long as you wish. You can select at your own leisure. **Send for It Today.**

Why You Save More Money When You Buy Wall Paper from Ward's

Because We sell wall paper only in Double Length rolls, 16 yards long—just twice the length of the ordinary single roll of only 8 yards.

This Means More Paper for Your Money. For one of our Double Length rolls selling for 6¢ gives you twice the paper—therefore costs half as much as the ordinary single roll selling at 6¢.

Less Waste. For from one Double Length roll you can cut five average side wall strips; from a single roll, but two.

Our Prices Are Just About Half what you would pay elsewhere for paper of this quality. **And they are all high grade papers selected by experts from the best paper mills in the country.**

To Find Amount Needed Use This Chart

If the exact size of your room is not shown, use the figure given for the next largest size. Deduct one Double Length roll of side wall for every four openings (doors or windows) in the room.

Side wall and ceiling papers are sold only by the Double Length rolls—16 yards long, 18 inches wide. Borders are sold by the yard.

Size of Room Feet	Double Rolls of Side Wall Necessary, According to Height of Room						Yards of Border	Dbl. Rolls Ceiling

PATENTED U. S. A., FEB. 8, 1921—DOM. CAN., JULY 13, 1920

Painters' Materials

For those who want them, we list Coach Colors, Colors in Oil, Dry Colors, etc., in this catalogue. But we can not recommend their general use by anyone but an experienced painter.

For the home painter who wants to be sure of a good job, we recommend our ready mixed Coverall House and Barn Paint (Pages 545 and 546), which we know are good, as we manufacture them in our own Paint Factory.

White Lead in Oil

Guaranteed 100 Per Cent Pure

We always recommend the use of our Ready Mixed Paint. Best authorities agree, and actual practice proves, that it is superior to hand mixing because the use of modern paint grinding machinery and scientific blending of formulae insure a superior product. However, if you are an experienced painter or prefer to mix your own paint, we can save you money on your materials. For ordinary outside painting, use about 4 gallons of pure Raw Linseed Oil, 1 pint pure gum Spirits of Turpentine and 1 pint of Turpentine Japan Dryer to 100 pounds of White Lead in Oil. This makes 7 gallons of paint, which covers about 200 square feet, two coats, per gallon.

75 F 8576—Carpenters' Ribbon Glue	38¢

Old Dutch White Ground in Oil

A combination of pure white lead, white zinc and other paint making materials. Whiter than lead alone. Used instead of pure white lead.

Add 4 to 5 gallons pure Raw Linseed Oil, 1 quart of Turpentine and 1 pint Turpentine Japan Dryer to each 100 pounds of Old Dutch White. For a flat finish, reverse quantities of oil and turpentine.

Article No.	Quantity	Ship. Wt.	Per Lb.
175 F 8020	100 lbs.	106 lbs.	11¢
175 F 8021	50 lbs.	55 lbs.	11½¢

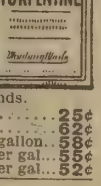
475 F 8023	12½ lbs.	15 lbs.	12¢
575 F 8024	5 lbs.	6 lbs.	15¢

Substitute for Turpentine

Used for thinning varnishes and paints, enamels and other interior finishes. It causes more rapid drying and is used for the same purposes as pure spirits of turpentine. Gives good results; is much lower in price.

Priming coats thinned with this turpentine substitute penetrate the wood, preparing a good surface for the finishing coats of paint.



Shipping weight, per gallon, 10 pounds.

Special Dry Colors

For tinting. Red oxides and ochres. The dry color may be used for painting, by mixing with linseed oil in the proportion of 12 pounds of dry color to the gallon of linseed oil. We do not recommend using paint made in this manner unless you are equipped to run the mixture through a paint mill, and grind it to the necessary fineness. By using our guaranteed Coverall House Paint, you get paint accurately ground to the necessary fineness, with exceptional covering capacity, assuring you of the best service. Good paint costs least in the long run and is no more expensive to apply. That's the reason we have had to increase the size of our factory to take care of the demand for these high quality paints at Ward's remarkably low prices. For shipping weights, add 2 to 4 ounces per pound.

In ordering give number and state color wanted.

For imitating hardwood finish. For professional or home use. Set of 12 assorted sizes packed in tin case. Shipping weight, per set, 12 ounces.

75 F 748 – Per set **$1.75**

75 F 749—One Comb only. Fine grain, width, 3 inches. Shipping weight, 2 ounces.....**18¢**

How to Do Your Own Graining

First stop up all holes and imperfections with putty, Fil-Tite or Crack Filler; then smooth off the entire surface with fine Sandpaper or Steel Wool.

Apply a coat of Co-Var Finish Ground Color (see Page 550), which will give a flat color upon which to apply the graining compound. Apply graining compound to small part of the surface at one time, as it dries quickly. Draw the Graining Roller over the coated surface varying the motion slightly each time.

When dry, apply Co-Var Finish of the desired shade. Care should be taken to flow the Co-Var on very gently with minimum strokes.

Home Grainer — **80¢**

For imitation of any wood. Set consists of 2 rollers and 1 comb. Length, rollers, 5 inches. One roller produces heart-shape wood grain, the other is a blender and a steel comb for fine grain effect. Instructions included. Shipping weight, per set, 8 ounces.

75 F 750—Per set .80¢

Magic Handle Grainer

For graining floors, wainscoting, etc. No experience necessary. You rock the roller at the same time you slide it along. Every change of movement makes a different grain. Roller, 3 inches long. Shipping weight, 7 ounces.

Repair That Leaky Roof Yourself-Now

55¢ A Gallon
In 50-gallon Barrels
For Black

Ward's Special Asphalt Paint

Easy to Apply—Do It Yourself

Decay and rust destroy. Prevent rust and save expensive repair bills by protecting all wood and metal surfaces with Ward's Special Asphalt Paint.

You can do the work yourself—no experience needed. Ward's Special Asphalt Paint comes ready mixed, all ready to apply. You can put it on as easily as ordinary paint. And usually only one coat is required, even on the oldest surface.

Protects Wood and Metal Surfaces from Decay. Makes Roofs and Sides of Buildings Last Longer

You can add years to the life of roofs and sidings by coating them with this special asphalt paint. Use it on tanks, windmills, bridges, in fact on any surface exposed to weather wear. Use it on wood, metal, felt or composition roofing — it has the same good effect on roofs of this type that ordinary paint has on wood.

Choice of three colors: Black, red or green. The red and green produce very pretty effects, and will add to the attractiveness of your house or barn. One gallon covers about 200 to 250 square feet of surface—one coat.

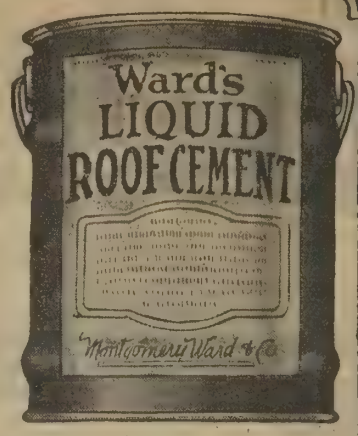
Repair Roof Leaks in Time

Repair now all worn and leaky spots in your roof. Don't wait until the rain comes. Much damage can result from a leaky roof that is allowed to go too long. The time to fix leaks is when they first appear. A few dollars spent now may save hundreds later.



If your roof has passed the stage where roof paint can help it, the thing to consider is a dependable Roofing. Ward's have it—and at prices lower than you would expect for the high quality. Look over the next three pages and choose the roofing that will best suit your needs. Compare the prices with others, and see what a saving you can make.

Then remember Ward's guarantee, which is backed by over 51 years of square dealing. The quality must be dependable and no pains are spared to see that it is.

Ward's Liquid Roof Cement

Makes Old Roofs Like New

37¢ A Gallon
In 50-gallon Barrels

An Excellent Preservative

Don't pay the tinner or the roofer to repair roof leaks. With Ward's Liquid Roof Cement you can easily do it yourself, and the expense will be only a fraction of the cost of a new roof—especially now that you can buy Ward's Liquid Roof Cement at our low barrel price of only 37¢ per gallon.

Applied as Easily as Paint

Ward's Liquid Roof Cement is a black, paintlike product which can be applied easily with an ordinary paint brush or roofing brush; and when the work is done properly, not a seam or joint will show in the entire surface. By using a broad roofing brush, the work can be done quickly—a few hours transforming an unsightly leaky roof into an attractive, watertight roof which will preserve and increase the value of your building.

Asbestos Fiber Makes It More Durable

Ward's Liquid Roof Cement is composed largely of asphaltum and asbestos fiber. The asbestos fiber gives our cement more adhesive power, which prevents it from running. Spreads evenly on the steepest roofs. Will not bulge, crack or run, even in the hottest summer sun. The hardest rains will not wash it off. The composition is such that it will not injure any roof to which it is applied; and being non-poisonous, will not taint or discolor your rainwater.

Contains absolutely no coal tar, which has a tendency to run and sag in hot weather.

One coating about a thirty-second of an inch thick, over the entire surface, usually is sufficient; but if the roof is in extremely bad condition, all holes and low places should first be filled with our Trowel Roof Cement (see below), which is more like putty in consistency. If the roof is then covered with our Liquid Roof Cement, you will have a repair job that will give satisfactory service over a long period.

Why put up longer with those disagreeable, leaky roofs? Delay in repairing them is sure to result in damage to the rafters or the interior of the building. Use this Liquid Roof Cement and stop those leaks for years to come.

Keep a Supply on Hand

This cement will be found extremely satisfactory for metal, wood, slate, tile, paper, felt, or composition roofs. While it can be used on shingle roofs, better results would be obtained from our Special Asphalt Paint. Ward's Liquid Roof Cement is also excellent for silos, tanks and underground structures, as a preservative, and also to exclude moisture.

Order enough to take care of all your buildings. Ward's Liquid Cement carefully covered, will keep for a long time without hardening. Therefore, you can always keep a liberal quantity on hand to take care of leaks as they appear in old roofs. When you order, allow one gallon for every 100 square feet of surface to be covered.

Ward's Heavy Roof and Fence Paint

Sticks to Either Metal or Wood

This is a heavy Oil Paint which contains enough asphaltum to guarantee its sticking to iron, tin or other metal as well as it does to wood. Forms a tough, thick, durable film over the surface which resists all kinds of weather.

Adds years of service to old roofs. By using this heavy paint on your roofs now, you can save the cost of reroofing for many years. Will prolong the life of a new roof enough to make its use a good investment. Recommended also for use on tanks, windmills, etc. One gallon covers 200 to 300 square feet—one coat.

Elastic Roof Paint

A good Paint at a low price for repairing and patching leaky roofs. Will stand expansion and contraction caused by weather without cracking or peeling. First, paint over the leaks. Then lay on a piece of muslin and apply another coat of paint. The leak will be sealed completely for months to come. Glossy black finish. Shipped to you ready to use. No mixing to do—simply open the can, dip in your brush, and do the job easily and quickly. Then enjoy the protection of a watertight roof. Apply with brush—a knotted roofing brush is good for this work.

Tinners' Red Paint

For painting metal roofs, gutters, down spouts, etc., to protect them from weather wear. A ready mixed oxide paint used instead of red lead, at much smaller cost. Clings to old or new metal surfaces without checking or peeling longer than any other similar product we know of. Use it either as a first coat before other painting, or alone as a durable protection against rust and decay. Our Tinners' Red Paint is not an experiment, but a tried and proved product which we will back with our guarantee. Use it and save repair bills by adding years of extra service to your roofs, gutters and spouting.

Roofing Pitch

100 Pounds $1.50 In 350-pound Barrels

Prices Subject to Market Changes

For gravel or tar roofs and waterproofing foundations below ground. Melt and apply hot with a long handled roofing brush. Coal tar is sometimes added to the hot pitch for roof coating. We do not fill orders for less than 350 pounds.

275 F 8405—
Per hundredweight $1.50

Shipped in barrels of 350 to 500 pounds from Factory in Chicago

Trowel Roof Cement

Extra Heavy—Apply with Trowel

4½¢ A Pound
In 550-lb. Barrels

Similar to Liquid Roof Cement listed above, but thick—of putty consistency. Sticks to any surface; will not get hard or brittle in winter or soft in summer. Jet black in color, non-poisonous. Will not taint or discolor rainwater. On average roof a coating ⅛ to 1/16 inch thick is sufficient. When so spread 40 pounds covers about 100 square feet. Also used for sealing around chimneys and drain pipes and for water-proofing outsides of cement foundations.

275 F 7783	550-pound barrel. Per pound	4½¢
275 F 7788	300-pound barrel. Per pound	5¢
175 F 7786	50-pound pail. Per pound	6½¢
475 F 7785	25-pound pail. Per pound	7¢
575 F 7784	5-pound can. Per pound	9¢

Shipping weight, per pound, 1⅛ pounds

25-pound pails and larger sizes shipped from Chicago, Eastern Missouri, or Eastern Pennsylvania; 5-pound cans from Chicago only

Liquid Coal Tar

30¢ A Gallon

In 50-gallon Barrels

For use on roofs, metal surfaces, water tanks, fence posts, etc. To get best results, heat to near boiling point. Apply with a brush. Surfaces covered with tar never can be painted.

275 F 8413	50-gallon barrel. Per gallon	30¢
275 F 8412	25-gallon barrel. Per gallon	35¢

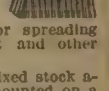
Shipping weight, per gallon, 12 pounds. Barrels shipped from Chicago

Ward's Asbestos Cement

For Patching Leaks Around Chimneys, Bay Windows, Etc.



For plugging up leaks in roofs, gutters, and around chimneys and skylights. May be used on brick, wood, tin, iron or glass.

Heavy but easily spread with a trowel or putty knife. Waterproof and weatherproof. Does not dry out or become brittle. Shipping weights: 3 to 6½ pounds.

575 F 7780	2½-pound can	25¢
575 F 7781	5-pound can	45¢

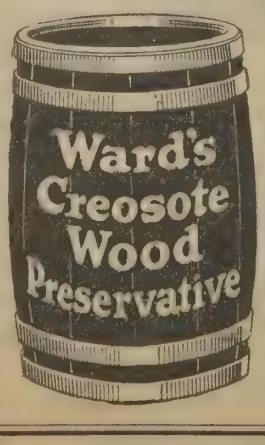
Special Roofing Brush

$1.10

A Brush made similar to our regular knotted roofing brushes, but without knots. A big, strong, heavy brush, fine for spreading Liquid Roof Cement and other heavy paint.

Bristles of heavy mixed stock about 3 inches long, mounted on a block 6 by 12 inches. Handle not included. Use a broom handle or pole. Shipping weight, 16 ounces.

75 F 725 ..... $1.10



Broad Flat Paint Brush

$1.20

For roofs and other large surfaces. Is 6 inches wide, 3½-inch black Chinese bristles, with mixed center. Set in cement. Shipping weight, 10 ounces.

75 F 705 ..... $1.20

Ward's Creosote Wood Preservative

Adds Years to the Life of Your Fence Posts

Creosote Oil is one of the best wood preservatives known. State Experiment Stations recommend it for preserving fence posts and other wood. Railroads use it for preserving ties, telegraph poles and bridge supports. Steamship companies use it for preserving docks and wharves. It is one of the most highly recommended materials in the nationwide wood preservation campaign.

Ward's Wood Preservative is highly recommended because it is a refined creosote oil product, especially designed for the preservation of wood. It penetrates the surface and seals the pores, protecting the wood from ground moisture and resisting the attack of insects and fungi. Applied inside of hog or hen houses, lice will leave. Makes the wood last longer, postponing rot and decay and saving many dollars in repairs and replacements. Its cost is almost too small to be considered, compared to the increased value to the property it protects.

Apply with a brush or by dipping. If heated, the liquid will penetrate more deeply. No other preparations necessary—no experience required. Five gallons is enough to treat about one hundred fence posts or one hundred fifty to two hundred square feet of surface when applied with a brush.

275 F 7759	50-gallon barrel. Per gallon	44¢
275 F 7758	25-gallon barrel. Per gallon	49¢

A few dollars spent now will save you many hours of fence repairing in the future.

Paint your barns and outbuildings with Ward's Coverall Barn Paint shown on Page 545

Ward's ATLAS Asphalt Roofing

Your Lowest Cost Protection—A New Roof

Compare the cost of a new Atlas roof with the wasted time, expense and annoyance of "fixing" old leaky metal and shingle roofs—not once but many times over. Then remember too, that you can lay the roofing yourself; do it without experience; quickly and in spare time, thus saving on both purchase and installation.

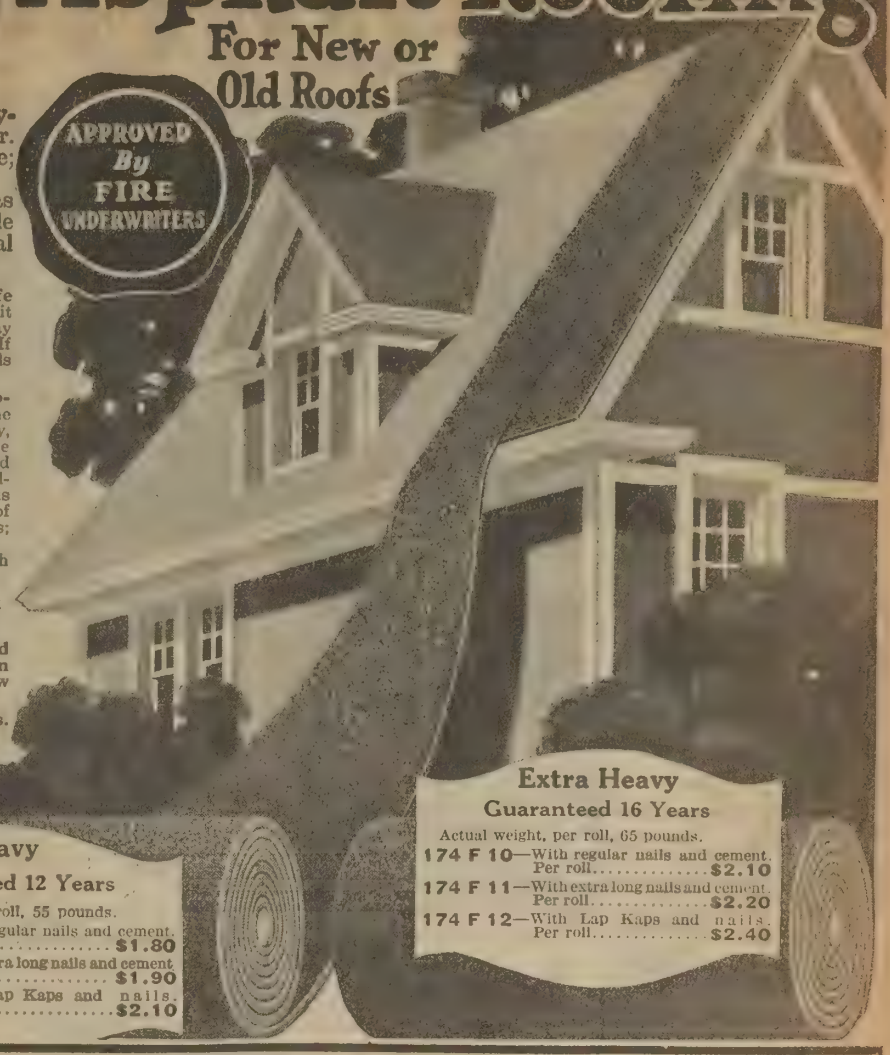
High in quality—long wearing, and economical in cost—our Atlas Roofing has proved a sound roofing investment for many thousands of our customers. While low in initial cost, Atlas Roofing provides a permanent durable roof that in actual cost per year of service is lower than any other type of roof you can buy.

Built of Heavy Asphalt Saturated and Coated Roofing Felt, ATLAS Roofing is heavily surfaced on both sides with a coating of flaked mica. Mica, as is well known, opposes the action of heat, cold and moisture, and supplies a high degree of wear and weather resistance. Not only is the highest grade of construction and materials assured, but the resources of a house, famed for fifty years of fair dealing, produce the lowest possible Atlas Roofing prices, while solving all doubts both as to quality and long years of satisfactory service.

Sparkproof, weatherproof, climateproof, long lived—Atlas is the best investment you can make in a smooth surfaced roofing. It is quality all through—at an exceptional price made possible only by Ward's immense volume of roofing business, closely restricted operating costs, and first call on the best available manufacturing sources. Nor can we too strongly emphasize how easily Atlas roofing can be laid.

Each roll is packed complete with large head galvanized roofing nails and liquid asphalt cement for the laps, or with nails and the patented lap kaps (see description on Page 558). Directions for laying included.

Applied with Hammer and Jack Knife only. No other tools needed. You can put it on any time, and you can, if you so desire, lay it right over that old, wornout shingle roof. If desired to lay over old roofing order the rolls with the extra long nails.



Heavy and Extra Heavy Weights Approved by Fire Underwriters. Use the weight that best suits your needs. The heavy, in 55-pound rolls, is guaranteed 12 years; the extra heavy, in 65-pound rolls, is guaranteed for 16 years. Suitable for all classes of buildings where a high grade long lasting roof is desired. The heavy weight assures you of many years' freedom from roofing troubles; the extra heavy simply lengthens that period.

Each roll contains 108 square feet, or enough to cover 100 sq. ft. of roof, allowing for laps.

Shipped from Warehouse Nearest You, Which Saves You Money

All weights of Atlas Roofing shipped from Chicago, York, Pa., or Southern Illinois. Heavy weight also from New Orleans, La.

Shipping weights same as actual weights. See prices below.

Has Used Atlas Roofing for 20 Years

"I have used your Atlas Roofing for 20 years and have had better service from it than any other roofing at any price."

P. A. Dixon, Bayard, W. Va.

Atlas Asphalt Roofing Will Please You Too

Letters Printed with Customers' Permission

Laid in 1907 Still Good

"I bought Asphalt Roofing from you in 1907. It is laid over a very rough surface and now in 1922 the roof is still good."

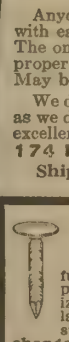
Ward's Combination Roofing

We offer our Combination Roofing to meet the demand for a good, serviceable, low priced roofing for covering inexpensive structures or for temporary work. It is a standard quality asphalt roofing. Weatherproof and waterproof.

Made of a sheet of roofing felt, saturated and coated on both sides with asphalt. Rolls contain 108 square feet—enough to cover 100 square feet of roof area, allowing for a 2-inch lap. Rolls are packed complete with large head roofing nails and liquid asphalt cement for the laps.

A Decided Saving at This Price



Anyone can lay this roofing. We furnish complete directions with each roll, which makes the application a very simple matter. The only tools required are a knife for cutting the roofing into the proper lengths and a hammer for nailing it to the roof boards May be laid either side up—both sides are talc coated.

We do not give a specific time guarantee on Combination Roofing as we do on Radio, Atlas and Lakeside Roofing, but consider it an excellent value at the price. Shipping weight same as actual weight.

Ward's Lakeside Roofing

Ward's Lakeside Asphalt Roofing is an unusually high grade, medium priced, corrugated surface (talc finish) asphalt roofing. Suitable for all types of buildings. It is thoroughly weatherproof, waterproof and fire resisting; is not affected by extremes of temperature or by frost, rain, sleet or snow. It does not soften and run during the heat of the summer or become brittle or crack in the coldest weather. It may be used in any climate and is not affected by acid, fumes, steam or gases.

Made of High Grade Materials

Lakeside Asphalt Roofing is made of a sheet of roofing felt, thoroughly saturated with genuine asphalt and coated on both sides with a heavy layer of specially selected asphalt which effectively protects the saturation (the life of the roofing) from attack of the elements. The surface is then given a light dusting of powdered talc to prevent sticking in the rolls. Especially adapted for homes, farm buildings, barns and garages. Anyone can put it on—no special tools needed.

Guaranteed for 7 Years

Each roll of Lakeside Asphalt Roofing is packed complete with large head roofing nails and liquid asphalt cement for the laps. Complete directions with each roll. Rolls contain 108 square feet—sufficient to cover 100 square feet and allow for 2-inch lap at the seams. Rolls weigh 45 pounds each and guaranteed to give satisfactory service for at least 7 years.

Shipped From Nearest Warehouse

In order to save our customers excessive freight charges, we carry large stocks of all our roofings at convenient points. See list below. Shipping weight same as actual weight.

174 F 32—Weight per roll, 45 pounds. Per Roll..... **$1.50**

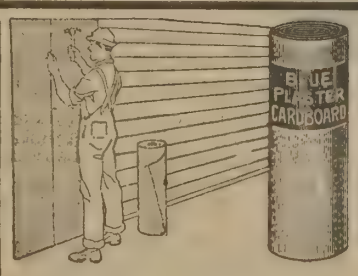
Shipped from Chicago, York, Pa., Southern Illinois or New Orleans, La.

Asbestos Building Felt

This is the standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars and ice houses. Deadens sound when used between floors and for general building purposes.

Extensively used for covering warm air pipes for furnaces. Will not burn even if brought into contact with flames. Rolls contain 450 square feet. Width, 36 inches. Actual weight and shipping weight, per roll, 50 pounds.

174 F 244—Per roll..... **$3.45**



Standard Deadening Felt

Nothing is more annoying than to hear every footstep and sound from the floor above. This Felt will help to overcome this trouble. It deadens the sound through floors and walls. Makes an excellent protection against frost and also insulates against heat.

Adds greatly to the comfort and warmth of the home when used between floors. It is made thick and heavy. Each roll contains about 450 square feet. Width, 36 inches. Price is subject to market changes. Actual weight and shipping weight, per roll, 50 pounds.

174 F 237—Per roll..... **$2.40**

Blue Plaster Cardboard

A strong, durable Cardboard of very tough texture, used for sheathing and under clapboards and especially for sheathing walls and ceilings of temporary buildings, attics and cellars. Applied over boards or direct on studding with large head tacks and covered with wall paper or wood panel strips at the seams. Purple blue color. Width of roll, 36 inches.

174 F 234—Rolls contain 250 square feet. Actual weight and shipping weight, per roll, 30 pounds. Per roll..... **$1.05**

174 F 235—Rolls contain 500 square feet. Actual weight and shipping weight, per roll, 60 pounds. Per roll..... **$2.05**

Red Rosin Sized Sheathing

For use under siding and between floors.

Made of best pulp paper stock with a hard smooth surface, thoroughly rosin sized, which helps to exclude wind, moisture and vermin. Tough, clean and durable.

Rolls contain 500 square feet. Width, 36 inches.

174 F 218—Light. Actual weight and shipping weight, per roll, 20 pounds. Per roll.. **70¢**

174 F 220—Medium. Actual weight and shipping weight, per roll, 30 pounds. Per roll. **$1.05**

174 F 223—Heavy. Actual weight and shipping weight, per roll, 40 pounds. Per roll. **$1.40**

Herald Tarred Felt Sheathing

Made from tough Felt, thoroughly waterproofed with distilled tar. For use between sheathing and siding, also in lining floors. Resists wind and moisture. Strong and durable. Better than ordinary building paper. Clean to handle.

The faint tar odor of this sheathing keeps away mice, rats and insects. Rolls contain 500 square feet. Width, 36 inches. Actual weight and shipping weight, per roll, 45 pounds

174 F 226—Per roll..... **$1.65**

Tarred Roofing Felt

A good grade of tough Felt, saturated with distilled coal tar. Used for roofing sheds and temporary structures. Also used in making built-up tar and gravel roofs

Order tin caps and nails separately, as they are not included. Use 1½ pounds tin caps and 1 pound nails to each roll.

Rolls contain 432 square feet. Width, 32 inches.

Actual weight and shipping weight, per roll, 64 pounds.

174 F 249—Per roll..... **$1.80**

Prices on Building Papers and Felts are subject to market changes. Orders will be filled at lowest prices prevailing when received.

Why not Re-Roof it Now? Yourself!

Samples Sent Free on Request

LAP-KAPS make it easier!

You can do a perfect roofing job, with no buckling or warping of laps, and no interrupted seams. These heavily galvanized non-rusting strips bind each seam with even pressure. No cementing is needed—no experience required to use them. Simply lay over laps and nail in place. Unite roof to sheathing with viselike grip, and are quickly, surely and simply applied. Roofing can be laid either up and down or across, and the Lap-Kaps give the roof a more attractive appearance. Will absolutely prevent buckling at the seams. Roofing always remains flat. No wrinkling, no puckering between nails. Perfect security even when nails enter cracks between sheathing boards. Furnished with your roofing at small added cost and with full instructions for use. Never shipped separately. Prices at right.

Lap-Kaps

CERTAINLY you can, in spare time, with no tools but hammer and jack knife! No experience needed, either. And put your new Slate Surfaced Roof right over your old shingles, if you like—easy as unrolling and laying a carpet. And once on, good-by to fire worries, that everlasting "fixing" of leaks, tinkering, repairing and repainting. Notice how little is your cost, especially at these new low prices—how big your insurance saving—the fire protection and attractive appearance you get—the beautiful "brand newness" imparted to your buildings. All by using Ward's RADIO Roofing with its long wearing Slate Surface. You have your choice of colors—red or green.

Ward's RADIO Roofing is built up of the highest quality heavy sheet roofing felt, thoroughly saturated in hot asphalt (Nature's supreme water resistant). The saturated felt sheet is then heavily coated on both sides with a thick layer of asphalt, and into the top layer a surfacing of fire resisting crushed slate is placed and forced into the fabric under pressure. The result is a tough, pliable, long wearing roof material, impervious to rain or snow—permanent—sparkproof—easily and quickly laid without previous experience—suitable for any building in any climate—and **much less expensive in the long run than any other type of roof you can buy.**

Guaranteed for 15 Years

Actual experience has proved this period of service to be a minimum. Approved by the Underwriters' Laboratories, Inc., under direction of the **National Board of Fire Underwriters.** Serviceable and practical, RADIO Roofing also adds to house or barn a real beauty touch. It never taints nor discolors rainwater, and its strong, firm, flintlike, fire resisting surface over the felt and asphalt body gives distinctive appearance and means years of "Wear Like Iron."

Inspect Your Old Roofs Today. Perhaps your old felt roof needs replacing, or your metal roof is ragged, jagged and leaky. If you have an old style wood shingle roof, notice how time and weather have split and warped the shingles, started leaks and given your house or barn that old, dilapidated look ten years too soon! **And the danger from fire.** One flying spark might kindle your shingle roof and burn you "out of house and home"; yet one new RADIO Roof frees you from that fear.

Our Prices Are Lower now than they have been for years. We contracted for extra large quantities of RADIO Roofing at a time when a prominent manufacturer was willing to sacrifice his profit to keep his factories going, with the result that we are able to offer you the same high grade roofing at these greatly reduced prices. With these low prices, and protected by Ward's guarantee of satisfaction or your money back, can you afford NOT to reroof now?

Ward's RADIO Asphalt Shingles

Look around you—in city, town and country—and see what kind of roofing is used on most of the better grade homes. You will find it to be Asphalt Shingles.

More fine homes are roofed with asphalt shingles than with any other type of roofing. They have almost taken the place of wood shingles, because they are safer, last longer and make a more attractive roof.

Individual Type **$5.35** A Square
Enough to Cover 100 Square Feet

Guaranteed 15 Years

Red or Green

RADIO Individual Asphalt Shingles are exactly the same as the best standard shingles you see in your local lumber yard and on good homes everywhere. The only difference is in the price—we can save you money there.

They are weatherproof, waterproof and sparkproof. **Approved by the Underwriters' Laboratories, Inc., and guaranteed by us for 15 years.**

Constructed of extra heavy roofing felt, saturated and coated with asphalt. Surfaced with red or green fire resisting crushed slate.

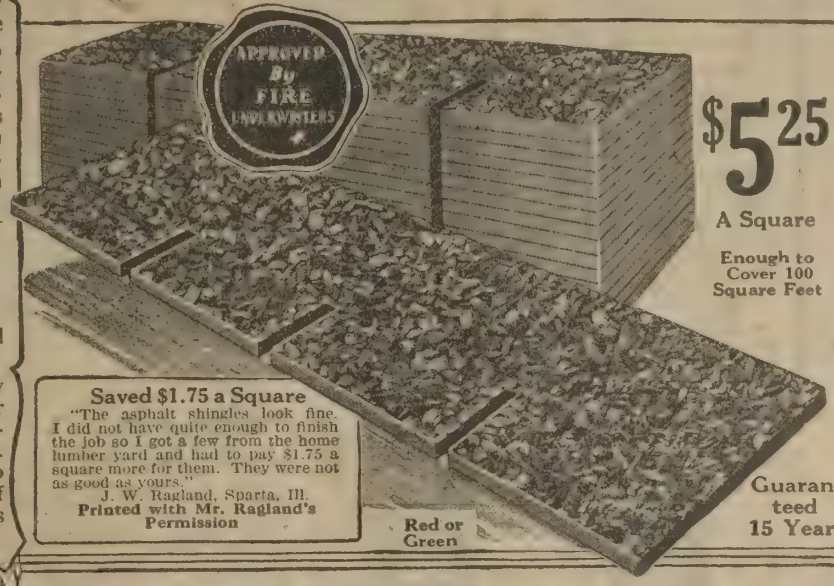
RADIO Individual Asphalt Shingles never warp or curl, and they require no painting or staining. Colors are permanent and non-fading.

Shingles 12¾ inches long, 8 inches wide; 424 shingles to the square (enough to cover 100 square feet of roof). Shipped in crates containing 106 shingles each—4 crates per square. Use 4 pounds 1-inch nails per square if laying right on decking or 6½ pounds 1¾-inch nails per square if over wood shingles. Order nails separately (see page 557). Actual and shipping weight, per square, 240 pounds.

174 F 122—Red. Per square **$5.35**
174 F 123—Green. Per square **5.35**

Shipped from Chicago, York, Pa., Southern Illinois or New Orleans, La.

You Can Buy Asphalt Shingles from Us at Less Than Usual Wholesale Prices



Our prices on Asphalt Shingles are unusually low. They are based on purchases made months ago—and, at this time, offer you a mighty big saving.

Prove this to your own satisfaction. Compare our prices with others. We believe you will find our prices considerably lower—actually less than the usual wholesale price.

Use Radio Shingles Lay Them Yourself Make a DOUBLE Saving

No special tools needed and no experience required.

You can lay them on a new roof right on the decking, or over an old roof without removing the old wood shingles. You can finish the job in no time at all and have a roof that will last for many years to come.

$5.25 A Square
Enough to Cover 100 Square Feet

Guaranteed 15 Years

Red or Green

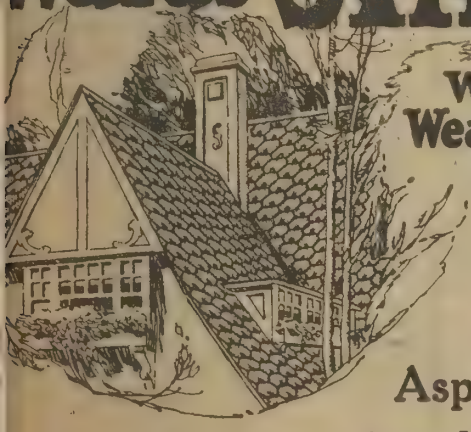
Saved $1.75 a Square

"The asphalt shingles look fine. I did not have quite enough to finish the job so I got a few from the home lumber yard and had to pay $1.75 a square more for them. They were not as good as yours."

J. W. Ragland, Sparta, Ill.
Printed with Mr. Ragland's Permission

Ward's RADIO Asphalt Strip Shingles

Four-in-One—Save Time and Money



Especially if you plan on laying your own Shingles, this strip style is a great convenience. It enables you to lay **four** shingles in the time it usually takes to lay one. On the finished job you can't tell the difference—the notches in the edges make the strips look exactly like individual shingles when laid.

Made of the same material as RADIO Individual Shingles. Strip 32⅞ inches long, 10 inches wide; 112 strips to the square—packed in two crates—fifty-six strips in each. Use 2¾ pounds 1-inch nails per square if laying right on decking, or 5 pounds 1¾-inch nails per square if over wood shingles. Order nails separately (see Page 557). Actual and shipping weight of strips, per square, 200 pounds.

Ward's STA-TITE Asphalt Shingles

With the Weather tight Lock

Guaranteed 15 Years

Red or Green

The Latest Improved Asphalt Shingles At an Unusually Low Price

$4.85 A Sq. Enough to Cover 100 Square Feet

OUR newest Asphalt Shingle. An exclusive Montgomery Ward & Co. product, with patented shape and method of locking not found in any other shingle. Equal in ight and wearing qualities to other standard oes. In addition it has a weather-tight lock- device which means double protection and nger life. But because it is exclusively our n product, we can offer it to you at an unually low price.

Approved by the Underwriters' Laboraries, Inc., and guaranteed by us for 15 ars.

Make a Beautiful Roof

Sta-Tite Asphalt Shingles have a different hexagonal pe which makes a distinctive and unusually good looking . The pleasing red or green color of Sta-Tite Asphalt ngles enhances the beauty of this design. You will be re than proud of your home if roofed with Sta-Tite Asult Shingles.

A Lock That Actually Locks

The patented lock in Sta-Tite Asphalt Shingles absoly prevents wind and rain from beating up under shingles. The shingles fit together snugly and acately—the lock is accomplished by slipping the tab of upper shingle into the slot of the lower shingle. Very mple and easy—see illustration at right.

We guarantee Sta-Tite Asphalt Shingles for 15 years, in most cases they should last longer. Made of select fing felt, saturated and coated with asphalt and surfaced h a layer of natural crushed slate.

Double Thickness Over Entire Roof Triple Thickness at Butts

The heavy construction of Sta-Tite Asphalt Shingles insures reliable protection. The lock and over-lapping features make protection doubly sure. Storm, rain, snow, hail and wind beat on your Sta-Tite Asphalt Shingles in vain. Slate surface resists cinders and sparks. Colors are permanent and never fade. Will not taint or discolor rainwater.

Easy to Lay—No Special Tools Required

Sta-Tite Asphalt Shingles will give satisfactory service on any roof having slope enough to allow the shingles to drain well.

Use them on new roofs or old. They can be put on right over a wood shingled roof without removing the old shingles. Anyone can lay Sta-Tite Asphalt Shingles. A hammer and a jack knife are the only tools needed. We furnish complete printed chart and instructions with each order. Packed seventy shingles to a bundle; two bundles will cover 100 square feet. Use 2¾ pounds of 1-inch nails per square, if laid directly on the roof deck; 5 pounds of 1¾-inch nails per square if laid over old wood shingles. Nails do not show—they are completely covered up by the shingles. Order nails separately (see Page 557).

High Grade Fir Interior Doors

These Doors are specially well made of finest select old growth Douglas Fir. This wood is by far the most beautiful of our semi-hardwoods and will take any sort of a stain, varnish or enamel perfectly. The five-panel door is furnished in both an "A" and "B" grade; the two-panel door in "A" grade only. All doors are 1⅜ inches thick. Manufactured with edge grain stiles and rails and slash grain panels.

High Quality Ward's Superb Wall Board

Takes the Place of Lath and Plaster

Buy Superb Painted Wall Board for either new work or repair work in the home, office or factory.

It can be used for the entire walls and ceilings, to finish off the attic or basement, to make two rooms out of one, to place over cracked plastered walls, for office partitions and many other purposes.

And remember Superb Wall Board is a finished wall board. It is painted on both sides with a linseed oil paint at our factory. A cream color is applied on one side and a salmon color on the other. Either side may be exposed to view. You save the cost of paint and labor for finishing your walls. Its painted surface also keeps out moisture and gives the board a permanent waterproof finish which can be washed with soap and water.

Do not judge the quality of this board by the low price which we quote. Distributing millions of feet yearly enables us to furnish it to you as these remarkably low prices.

The board is easy to put on. Anyone who can handle a hammer and saw can apply it. Wide sheets reach a distance of two or three studding, which means fewer joints; and long lengths reach from floor to ceiling. So clean, too. Not like lath and plaster which is messy and costly as well.

Get your wall board today and suitable for your rooms. Do the work yourself and quicker and lath and

Low Price 52¢

A Sheet
16 Square Feet

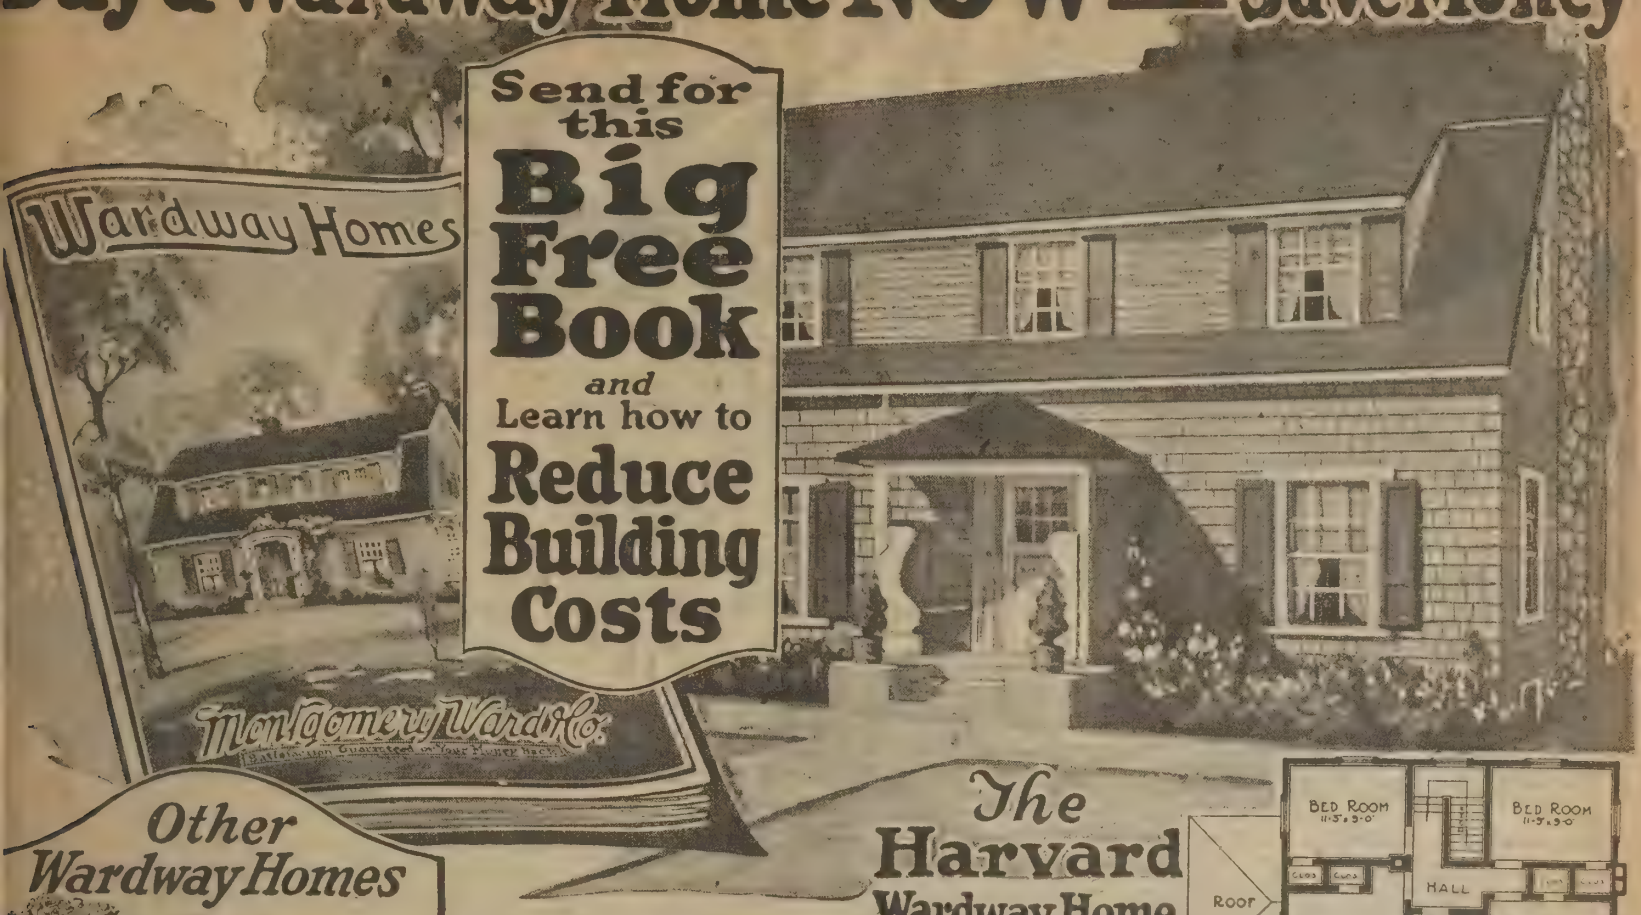
Panel Strips

Panel Strips are used for making wall panels or for covering joints where joint tape is not used. They are narrow wood strips, 1⅜ inches wide and 5/16 inch thick, made of clear Fir. Beautiful effects can be obtained with these panel strips. Shipping weight, per 100 feet, 15 pounds.
174 F 308—
100 feet.....$1.50

Joint Tape

If you do not care to use panel strips on your walls this tape may be used to cover the joints. Made of tough brown craft paper, 1½ inches wide, heavily gummed on one side. Furnished in rolls of 250 feet. Shipping weight, per roll, 1 pound.
74 F 307—Per roll...25¢

Construction



Superb Wall Board is merely a knotless and crackless manufactured lumber, which can be sawed and nailed the same as any other kind. The logs from which this board is made are first ground into pulp which is thoroughly beaten up and then rolled into long sheets of tough, heavy fiber board. Four layers of this board are then securely cemented together and cut into large, flawless sheets.

Other Wardway Homes

The Florence $1282 Ready Cut

Our biggest selling Home. A popular type of five-room bungalow with the ideal arrangement of bedrooms and bath on connecting hall.

The Hamilton $2544 Not Ready Cut

A distinctive Home containing seven rooms and bath. Abundance of closet space; extra large front porch under sweeping Queen Anne roof.

The Carlyle $2100 Readc Cut

Popular two-floor stucco Bungalow, containing seven rooms and bath. Three large bedrooms. Fireplace in living room. Open, airy porch.

The Superior $1972 Ready Cut

Ideal two-story square Home. Six large rooms and bath. The most economical type of home to build.

Finer Homes

At Savings of from $200.00 to $2,000.00

This great book for Homebuilders illustrates, prices and describes scores of the most popular home designs in America. Shows photos and floor plans of farm and city homes, bungalows, Colonial styles, etc. Contains full facts about our prices, specifications, architectural service, as well as much valuable building information. Let us send it to you free.

By taking advantage of Montgomery Ward's buying power and great volume you can own the finest home in your neighborhood, yet you can save $500.00, $1,000.00 or even $2,000.00.

What We Furnish

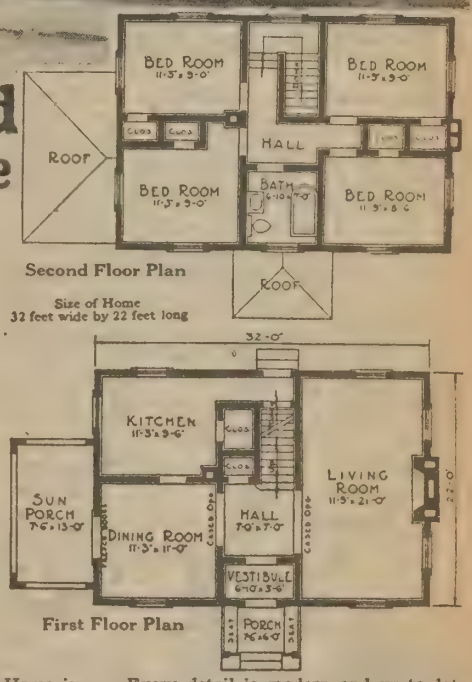
We furnish for one lump price, all lumber, lath, shingles, doors, windows, frames, trim, stairwork, flooring, inside and outside finish, hardware, paint, tinwork, varnish and many built-in conveniences. We furnish the finest materials obtainable and guarantee that there will be no extras. Complete plans and specifications furnished free with every home sold.

Lumber Ready-Cut

All framing lumber ready-cut at factory—bundled and marked—saves you 25 per cent or more in construction cost. Or you can buy not ready-cut (in regular lumber yard lengths) if desired. Either way you get all doors mortised for locks, stairwork machined, ready to set up, frames all bundled ready to put together, and all case fronts glued up, ready to set in place.

How We Save You Money

Our architects are experts in home building. Wardway homes have no waste spaces. We sell in large quantities for cash, and buy the same way. Mills and factories are located in lumber centers, giving savings of quantity manufacture and lowest freight rates. Ready cutting of material means we do work on power machines at the factory, instead of you hiring carpenters to do it by costly hand power methods on the job. And we save the 18 per cent of lumber usually wasted on the job.



The Harvard Wardway Home

$1970 Complete (Ready Cut)

Our Price Includes

Lumber	Moldings
Lath	Doors
Shingles	Windows
Flooring	Frames
Finish	Tinwork

Built-in conveniences. All necessary hardware, hinges, locks, etc. Varnish for floors and woodwork. Three coats of outside paint (any color desired). Complete plans and instructions for building.

THIS beautiful Dutch Colonial Home is only one of the many in our book of Wardway Homes shown above. The complete book describes for you more than eighty different types and styles of houses, cottages, summer cottages, and garages. This book shows you exactly how they look on your ground, giving complete plans and specifications covering every detail of the materials and equipment.

The Harvard is the result of careful, thoughtful designing—the work of architects who have for years been studying beautiful American homes. And it is typical of the attractiveness and low prices of our entire line.

Every detail is modern and up-to-date. The whole is planned to give a maximum of beauty and comfort without wasting as much as a foot of space.

This home provides a large living room, dining room and kitchen on the first floor. The living room is especially pleasant with its massive fireplace and four windows. Attractive French doors lead from dining room to a spacious open sun porch at the side, a feature which will be greatly appreciated during the summer months.

Write us and let us tell you more about this or any of our other home designs.

Every Home Guaranteed

Our broad Guarantee of Satisfaction or Money Back applies to every part of every home we sell. We further guarantee all materials to be highest grade. All framing lumber is No. 1 yellow pine or fir. All outside and inside finish clear and knotless. Doors are handsome two panel design, finest manufacture. Windows all white pine glazed with "A" grade window glass. Highest quality hardware, paints, etc. We guarantee to make good any errors or shortages and replace any material not up to specifications without charge.

Permanent Homes—Not Portable

Wardway Homes are not portable—not knock down. They are solid substantial buildings, unusually well built and permanent; just like the best homes in your neighborhood.

Use Our Building Service

Write our Building Material Department about any building you plan to do. We have a special department for such inquiries and will be glad to advise you, without charge or obligation to you.

Read These Letters from a Few of Our Many Satisfied Customers

Better Lumber in Wardway Homes

"Everything was satisfactory—plenty of material. Our lumber was better than we could get here. We saved at least $1,000."

M. J. Carey,
Wood River, Neb.

Wardway Home Is Satisfactory

"I have been asked many times what I would do if I were going to build again. I said, buy another Wardway Home, as they are satisfactory."

C. H. Bennett,
Tillson, N. Y.

The four letters shown here are printed with permission of our customers. They are typical of the hundreds of enthusiastic letters we receive each year from customers who are pleased with their Wardway Homes.

Saved Close to $1,000

"In looking over some of the homes built here similar to my Wardway Home, I figured I saved close to $1,000 on my house."

S. W. Sronfi,
Dresden, O.

Did Most of the Work Himself

"I did most of the building myself and had no difficulty in following the blueprint, which was t... first I ever ... I believe ... $500."

It Pays to Use Good Farm Equipment

FOR more than three generations thousands of farmers have been using **Sattley** Farm Equipment. It has come to be the standard of sound value and practical service. It has gained the reputation of high quality, like all other Montgomery Ward & Co. merchandise. We own and operate the large **Sattley** factory in Springfield, Ill. We produce **Sattley** farm equipment in this big plant, and sell it direct to you with but one small profit added to actual cost.

Sattley implements are built for hard usage. We know that quality is built into them—and we guarantee that, given ordinary, sensible care, **Sattley** implements will deliver to you years of good, honest service. We guarantee that every **Sattley** implement will give you the full and complete service you have the right to expect, or we will refund your purchase price and shipping charges.

GEORGE H. MUNNS,
Manager, Farm Implement Department

Sattley Walking Plows

$13.95

Sattley Turf and Stubble Plow. An all around general purpose plow which gives splendid service in clover sod or grass land. The long graceful curve of the moldboard lays the toughest sod in unbroken laps, giving an excellent surface for harrowing or discing.

Sattley Stubble Plow. This plow has an efficient, easy pulling bottom for use in stubble land. The moldboard has a slightly sharper curve, giving it the greater pulverizing power required for stubble plowing. Landside edge of furrow is sharply turned to cover trash and leave the field level.

Shares are hardened, soft center steel. Shin on top of moldboard is larger than used on most plows which means longer wear. Heavy steel beam, bent high in throat for great clearance. Sturdy steel frog, braced from landside to moldboard; chilled heel on side is renewable.

The easy running, easy pulling Sattley makes any job of plowing lighter for both man and horses. With it, you will be able to do more work and better work every day, and still come home less tired at night. The experience of trained plowmen has gone into the design and construction of this plow. That is why it stays down so well in tough ground, holds its position naturally with only a guiding touch being required of the operator.

Guaranteed to Scour in Any Kind of Soil

Right Hand Only

A Few Words About Sattley Plow Bottoms

The great strength of Sattley Plow Bottoms is due to the heavy construction of the frog and the way it fits snugly against the landside and moldboard. Every inch of the frog surface hugs the bottom like a glove fits your hand. Strength, clean scouring, easy pulling—you get them all when you buy a Sattley Plow.

Sattley U Bar Harrow

9/16 Inch Teeth

$15.25

Teeth Headed by Hand—Can Not Drop Out

You need not worry about loose tooth clamps when you use a Sattley. Even if the clamps should come loose, the teeth can not drop out because the hand headed heads are made especially large. The teeth are carefully arranged so they will not track and are clamped to the U bars with specially designed clamps, which pass through the bars drawing the teeth tightly in place, sharp edge always foremost. Teeth are thoroughly tempered to make them tough and wear resisting.

Extra Heavy Bars—The extra heavy U bars on each section are held solidly in place by three strong I-beam bars, and the entire section cross braced. Long convenient levers provide a wide range of adjustment for teeth. Slant may be changed without stopping team. Well seasoned, hardwood drawbars are used with draft connections at three points. This construction eliminates the tendency of the drawbar to bow back in the center and throw the harrow sections out of line

Hardwood Draw Bar Included with Each Harrow

Togo Guard Rail Harrow

9/16 Inch Teeth

$16.75

Guards Protect Trees and Prevent Dragging of Trash Every Farm Needs at Least One

One of the finest Harrows ever designed for the man who has an orchard, a vineyard, or whose fields are trashy. The guard rails on ends of U bars not only protect trees and vineyards, they prevent trash collecting on the ends of the bars, and at the same time add greatly to the strength of the harrow. Teeth are attached to bars with our specially designed clamps. The hand-headed heads are large enough to prevent loss of teeth even though clamp should come loose in the field. Every part of this harrow is built for lasting wear.

Shock Absorbing Springs. The adjustment levers of this harrow are fitted with coiled steel springs which permit the teeth to yield when striking immovable obstructions eliminating all possibility of tooth breakage. Levers are long and conveniently placed.

Each tooth is held securely in place by a tooth clamp, and the teeth are so placed that they cannot trail each other. Notice also that the draft comes at three points on the drawbar. Guard rails are made of I-beam steel which adds greatly to the strength of the harrow.

Hardwood Bar Included with Each Harrow

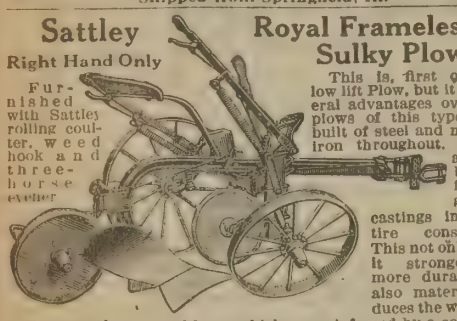
Sattley Prairie Breaker

Heavy 8-Inch Solid Oak Beam



Solid steel moldboard; cast steel slip share; heavy steel standard cap, bolted with two bolts to the beam, extra braced. Beam is of select oak stock, reinforced underneath with a heavy steel strap. The share lays very flat to insure the best penetrating and cutting qualities. The moldboard has a long, easy curve which turns the sod completely over and lays it perfectly flat enabling it to retain moisture. Regularly equipped with slip share attached with two bolts to landside, where most plows use but one; also equipped with gauge wheel and rolling coulter. One extra share. Right hand style only.

Sattley Royal Frameless Sulky Plow

Right Hand Only

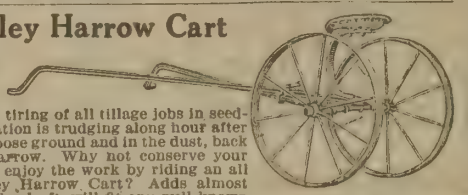
Furnished with Sattley rolling coulter, weed hook and three-horse evener

This is, first of all, a low lift Plow, but it has several advantages over other plows of this type. It is built of steel and malleable iron throughout. There are no bulky or fragile gray iron castings in its entire construction. This not only makes it stronger and more durable, but also materially reduces the weight.

Two very heavy steel bars, which are reinforced by a solid wood block between, form the main frame or support for the plow. To this the heavy beam is attached by means of the large malleable iron saddle casting which can be shifted to any desired point to adjust beam for bottom of different widths cut.

Both the throw out and lifting levers are provided with large coil lift springs, which permit bottom to be raised with ease.

Reliable for work in tough sod and hard ground found in many parts of the west. Extra heavy beam and simple landing lever.



With the Sattley Royal Sulky is included the Sattley rolling coulter, weed hook, and three-horse evener. These plows have soft center steel moldboard and share.

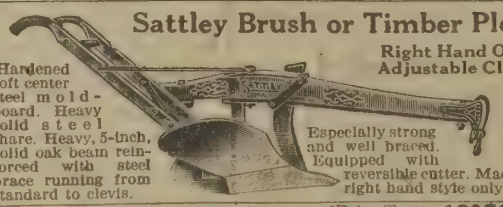
Sattley Harrow Cart

$10.50

The most tiring of all tillage jobs in seedbed preparation is trudging along hour after hour over loose ground and in the dust, back of a peg harrow. Why not conserve your energy and enjoy the work by riding an all steel Sattley Harrow Cart? Adds almost nothing to the draft; will fit any well known make of peg tooth harrow having a wood drawbar.



Automatic lock permits wheels to follow harrow on the turns. Seat high enough to elevate rider above dust zone. Steel wheels, 36 inches high with 3-inch oval tires. Length, 70 inches from front of wheels to evener bolts. Shipping weight, 124 pounds.

5-foot	2-horse
6-foot	3-horse
7-foot	4-horse
8-foot	4-horse
9-foot	4-horse
10-foot	4-horse

For seedbed preparation, no tillage tool surpasses the Disc Harrow, and the Sattley long has been considered one of the best. It pulverizes clods, lifts and aerates the soil, kills weeds and makes better yields certain. Gangs of bumper type relieve bearings of all end thrust. Inner ends of gangs may be raised or lowered to meet different soil conditions. Triangular steel frame with double-bar back provides extreme rigidity. The wide wood bearings are fitted with hard oil cups. Tongue truck relieves horses of tongue whipping and makes harrow run smoothly. With or without steel weight boxes.

Thousands of Farmers Praise the Sattley Sangamo

Balanced Frame—Hammock Seat

Neckyoke and Fenders Included

$36.75 4-Shovel Pin Break

Close Hitch Gangs Easy to Swing

No matter where you live or what kind of soil you have on your farm, we have no hesitancy in recommending the Sattley Sangamo. Every part is made strong enough and of materials that will stand up under the most trying conditions.

By means of the special balance lever on the Sattley Sangamo you can shift the wheels forward or back under the frame until your weight balances perfectly the weight of the tongue and gangs.

The depth of each gang is regulated individually by the long coil spring on the lift arm. You have no lever quadrants to bother about in lifting or lowering the gangs, just a push forward on the suspension bar raises the gangs, a pull back and they return to the exact depth desired.

"I bought one of your Sattley Riding Cultivators this summer and have given it a good trial. I'll say it is the best cultivator I ever rode on. (I have farmed for 32 years.) Adding freight, the Sattley is $10.00 cheaper than the cheapest cultivator and $22.00 less than the best one sold here, but I would not exchange it for the best one in town." W. J. Koeppe, Cambria, Wis.
Printed with Mr. Koeppe's Permission

Notice the unusual length of the gang beam. This is the secret of the Sangamo "easy gang" control. Because the hitch of the gangs is so far forward it is extremely easy to hold the gangs in position when the horses crowd out of line. And the gangs may be set to run level so every shovel penetrates to the same depth. Loosening a set screw enables you to raise or lower the gang head as desired. Telescoping axle permits adjustment of wheel tread from 44 to 54 inches, and the gang heads are likewise adjustable for width. Seat may be moved backward or forward on the frame rails to accommodate any leg length.

The frame is made of heavy square steel tubing; will withstand the most severe strains. Gang beams of I-beam steel specially treated to provide strength and toughness. The high 52-inch wheel makes easy riding and light draft. The wheels are fitted with unusually long, wheel bearing in oil tight, dustproof boxes. Half oval tires mean extra strength. All castings are malleable.

Sattley Reversible—The Harrow

For Gardens, for Orchards, for Vineyards

$27.25 6-Disc

Throws Dirt in or Out

Two-Horse Doubletree Included

Because it is narrow, because it is reversible, and because the gangs may be set wide or close, the Sattley Reversible Disc Harrow is especially adapted for orchard and vineyard cultivation, and for cultivating crops planted in wide rows.

The gangs may be changed quickly to throw the dirt in or out as desired. Each gang is complete in itself and is controlled independently of the other gang by an individual lever. Gangs may be moved in or out easily and quickly, and locked rigidly in position on the back bar of the frame. For hilling or ridging, inner ends of gangs may be raised or lowered.

The discs are spaced approximately 7 inches apart, each gang being fitted with two wood bearings and hard oil grease cups. Sturdiness is an outstanding feature of this harrow. The heavy flat-bar frame forms a complete triangle, the tongue passing through it and clamped solidly in place at the rear of the frame by a steel loop at the base. May be equipped with a tongue truck same as furnished with our regular disc Harrow. See illustration and description in lower left corner of this page.

Sattley New Pivot Axle

Our Finest Cultivator—Costs a Little More, but It Is More Than Worth It

$38.50 4-Shovel Pin Break

Shipped from Springfield, Ill.

The few extra dollars you pay for this Pivot Axle Cultivator will be more than repaid every season you use it. Improved pivot axle—both the wheels and the gangs are connected rigidly direct to a movable gang bar in front. Pressure on either pedal shifts this easy-gliding bar and with it the gangs and wheels. Gangs may be spread or closed instantly without stopping team, by means of special lever within easy reach of driver.

Special lever for balancing cultivator or leveling gangs; each gang individually controlled; gangs always run parallel with every shovel cutting full width; no-wobble, no-twist double beam gangs; fold over seat rail; pivot bearings fitted with hard oil cups; high, 42-inch wheels; long sleeve bearings, removable and replaceable; oval spokes, 12 in each wheel; sturdy adjustable seat for any leg length; telescoping axle for 32 to 44-inch tread; hard oil cups on axle bearings; strength to spare in every part.

With 4-Shovel Gangs

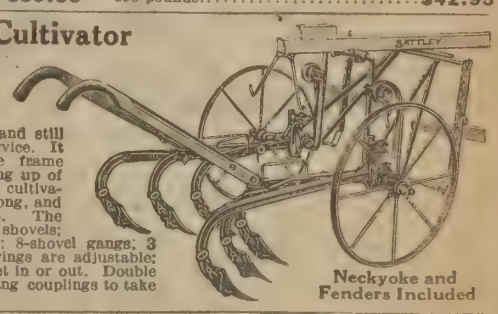
Sattley Gardeners' Reversible Disc Harrow

$22.95



A great convenience to the truck farmer or gardener and a good implement for any farm. Gangs adjust in or out, throwing the drift either way desired, and may be moved in or out along frame bar. Fitted with a handy latch arrangement so adjustments can be made without removing any bolts, unhook draft rod and put into another hole and shift the latch. Bearings have hard maple bushings. Four hard grease cups for bearings. Doubletrees and tongue included. Neckyoke not included.

Sattley Walking Cultivator

Neckyoke and Fenders Included

Some farmers prefer a Walking Cultivator and others use them entirely for the first cultivation. These are specially handy about the garden. Made entirely of steel and malleable; as simple as a cultivator can be built and still combine ease of control and lasting service. It embodies the famous Sattley balance frame feature, eliminating the objectional flying up of the tongue, so common in most walking cultivators. The solid steel beams are extra long, and are fitted with soft-center steel shovels. The 4-shovel gangs have 5 by 10½-inch shovels; 6-shovel gangs, 3½ by 9-inch shovels; 8-shovel gangs, 3 by 7½-inch shovels. The flat lift springs are adjustable; handles may be raised or lowered, or set in or out. Double braces from axles to tongue. Cone gang couplings to take up wear or play. Built to last.

Sattley Oscillating Tongue Truck

$6.50

Take the weight off your horses' necks; make your disc harrow run smoothly and evenly; make turning at the corners easy for your team. May be used on any disc harrow by sawing off the tongue near the tongue braces. Axle is pivoted at center permitting wheels to follow unevenness of ground. Oval shaped tires; dustproof, oil retaining bearings. For slopes or hillsides, our Offset Bracket should be ordered for attaching tongue to prevent tendency to creep downhill. Shipping weights: Harrow truck, 55 pounds; offset bracket, 10 pounds.

Shipped from Springfield, Ill.

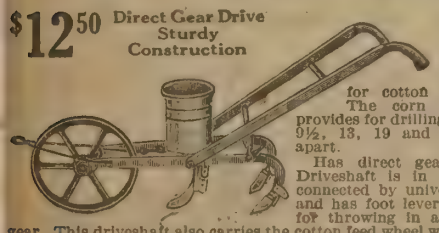
Sattley Potato Digger



$17.50 Shipped from Springfield, Ill.

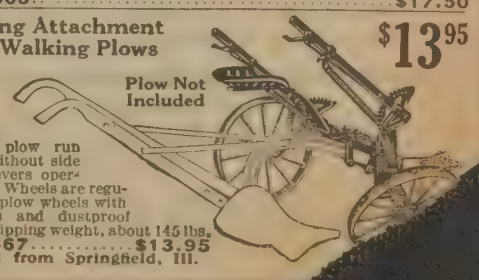
Shakes potatoes free from soil and leaves them clean and sound on surface of the ground. Grate is shaken by large star wheel underneath. Revolving wood spool above a heavy malleable point clears vines and trash from front of shovel. Shaker grate bar of heavy steel; double gauge wheel; 18-inch shovel, shaped to secure best possible penetration. Shipping weight, 146 pounds.
289 F 665..... $17.50

Sattley Corn and Cotton Drill

$12.50 Direct Gear Drive Sturdy Construction

The seed box is large and equipped with plates for cotton and corn. The corn equipment provides for drilling corn 7½, 9½, 13, 19 and 25 inches apart.

Has direct gear drive—Driveshaft is in two parts connected by universal joint and has foot lever on frame for throwing in and out of gear. This driveshaft also carries the cotton feed wheel which claws the cotton seed down from the agitator plate and insures a positive and continuous feed.



The large malleable shoe is pivoted in the frame and has pin break. Covering shovels also have pin break. Machine is compact and very strongly constructed. Shipping weight, 80 pounds.

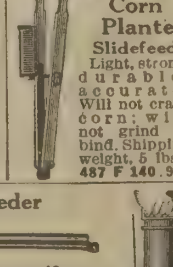
Force Feed End Gate Seeder

$17.85

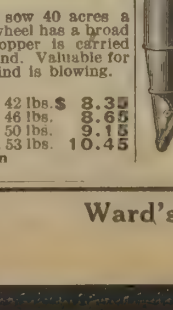


Corrugated roller force feed device driven by sprocket wheels and chain automatically feeds an even flow of seed. Amount of seed can be gauged exactly. Feed roller stops with seeder. Two feed gauges work independently so machine can be set to increase or decrease the cast on either side; a special advantage in wind. Sows same per acre whether horses walk fast or slow. Complete with end board, sprocket and chains. Shipping weights: 90 and 100 pounds.

287 F 1418—

Without grass seed attachment..... $17.85

287 F 1419—With grass seed attachment. 20.60



Shipped from Southern Wisconsin

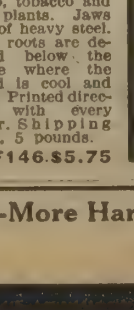
Hand Seeder

An accurate, fast working machine, light and easy to operate. Double feed opening. The bag holds about one-half bushel. Sows grass seed 27 to 36 feet to the round; grain, 36 to 50 feet. Shipping weight, 3½ pounds.

87 F 143 ..... $1.80

Hand Corn Planter

Slidefeed



Light, strong, durable, accurate. Will not crack corn; will not grind or bind. Shipping weight, 5 lbs.

487 F 140..95¢

Potato Planter

Self locking tubular planter. Well balanced, strongly constructed. Tube 35 inches long. Shipping weight, 5 pounds.

487 F 141 ..... $1.40

Lightning Wheelbarrow Seeder

Has single hopper. Sows clover, timothy, alfalfa, Hungarian millet, flax and rape. Double hopper sows the above, also Red Top and Orchard Grass.

Many users sow 40 acres a day. The steel wheel has a broad tire, and the hopper is carried close to the ground. Valuable for seeding when wind is blowing.

487 F 1425—12-foot single hopper. Ship. wt. 42 lbs. $ 8.35

487 F 1426—14-foot single hopper. Ship. wt., 46 lbs. 8.65

487 F 1427—16-foot single hopper. Ship. wt., 50 lbs. 9.15

487 F 1428—16-foot double hopper. Ship. wt., 53 lbs. 10.45

Shipped from Southern Michigan

Plant Setter

Big time saver in setting out cabbage, tomato, tobacco and other plants. Jaws made of heavy steel.

The roots are deposited below the surface where the ground is cool and damp. Printed directions with every planter. Shipping weight, 5 pounds.

487F146.$5.75

Fitted Cultivator Shovels

Fit Standard Cultivators

Best Quality

Equal in quality and construction to any on the market regardless of price. Made from the best grade solid and soft center steel. Equal in every way to original shovels furnished with your cultivator.

Sold in sets—3 by 7½-inch, in sets of 8, complete with backs and **straight** only; 3½ by 8½-inch in sets of 6, **half right and half left.** (do not furnish straight shovels in 3½-inch); 5 by 10½-inch, in sets of 4, one right, one left and two straight.

Bull Tongues. Solid steel. Size, 2½ by 10½ inches.

87 F 169—No. 1 back. Each..... 42¢

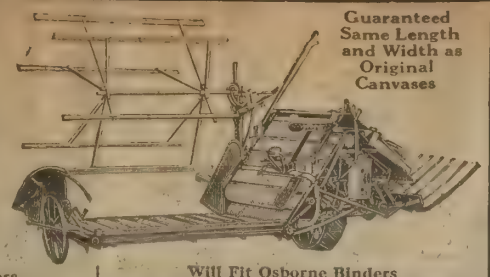
87 F 168—No. 3 back. Each..... 41¢

No. 1 back is a hinged back and will fit any riding cultivator shank, 1⅛ inch or larger.

The No. 3 backs attach to slotted standards, and have long slotted hole so the shovels can be turned either side.

The No. 4 back on 3 by 7½-inch shovels will fit ⅞ or 1 inch shanks on all makes of riding cultivators.

Shipping weights as follows: Set of 5 by 10½, 17 pounds; set of 3½ by 8½, 19 pounds; set of 3 by 7½, 20 pounds. Bull tongues, 2½ pounds each.



Binder Conveyor Canvases

For Every Make of Binder

All duck used in our Binder Canvas is standard weight and construction. We guarantee every canvas to be first class, high grade, and that it will fit your machine and give complete satisfaction. Heavy straps double riveted and stapled. Numbers and sizes correspond with numbers and sizes on the canvas received with your machine. **When ordering be sure to give correct numbers and sizes of canvas, width and length from buckle to last hole in strap, and name of machine.**

There is only one standard size canvas to a number. This canvas is the same width as original canvas furnished with machines. If your measurements do not correspond with any measurements given, we suggest that you measure again to make sure. We can furnish any other standard sizes, but do not make special canvas to order. Shipping weights: 7 to 18 pounds.

Guaranteed Same Length and Width as Original Canvases

SATTLEY Cream Separator

$5.00 Down

10 Months to Pay

Try It for 30 Days

ON your own farm try the SATTLEY for 30 days. t it every day to separate all of the cream you ha At the end of the month figure up your cream profi Then compare them with your profits made during the b month you had before using a separator. All other thi being equal, if your profits haven't increased, send the SAT LEY back to us at our expense.

Almost daily we receive testimonials from users of SATTLEY. They tell us that it saves them money—that i easy to operate and easy to keep clean—that no better cre separator could be had at any price. All of them like SATTLEY. We feel sure that you would too, if you co see it work. That is why we ask you to try it.

A Better Separator for Less Mone

Notice the strong, square base with the well spread out legs on wh the SATTLEY stands. That is the reason the SATTLEY remains solid firm, without any jarring or shaking whatever. The swinging shel at just the right height for your cream can. It can be moved to position desired. On top is the supply tank, shaped and constructe that the milk will not splash out. High enough, but not too high, tank can be filled easily by most anyone.

The same care is used in making every part of the SATTLEY, no ma how small or seemingly unimportant, so that it would be profitable you to use and easy to handle as well. Self oiling of all movable p makes it operate easily and reduces friction, assuring long life to separator. On the back of the handle near the grip, is an indicator tells you how fast the separator is being operated. The arrangemen the sanitary bowl and skimming discs makes it easy to take them clean and put them back again. The spindle is separate and need no removed in order to clean the bowl. There are no corners in which of the milk can accumulate.

Whether you have just a few cows or a large herd, without a s cream separator you are not getting all the cream that you sho The SATTLEY will give it to you. It actually skims to 3-100ths of one cent. No cream is allowed to escape into the skimmed milk pail. E SATTLEY is the same high quality. Each is inspected thorou before it leaves the factory. The inspection certificate is right on it so when the SATTLEY arrives, you know it is ready for immediate u

Built in our own factory, it is standard in every way. Because we b it and sell it to you on our factory to you plan, our prices are lo We don't have to make a large profit on cream separators. We sell o merchandise, also at a small profit, and it is the big volume of busi we do that enables us to sell you the SATTLEY at such a low pric convenient terms.

Try the SATTLEY for Thirty Da

Try the SATTLEY for 30 days. Send your order today. On Page you will find the Easy Payment Order Blank No. 2. Fill it and mail to us with your payment of $5.00. The SATTLEY wil shipped from our warehouse nearest you. When it arrives, put work at once. Compare it with any other cream separator. Use i the next 30 days. At the end of that time if you are not compl satisfied with the SATTLEY, write us and we will send you re shipping instructions and refund your money, including the transpo tion charges you paid.

On the other hand, if you are pleased with the SATTLEY—as w sure you will be—if you are satisfied that you could not get a better arator, even at a higher price on terms not so convenient—then may pay the balance, not in one payment, but in ten equal mon payments. Mail your order today.

Bowl and Spindle

Perfect Balance
No Vibration
Clean Skimming
Easy Running

The spindle enters the bowl to just the right height and spins it like a top. The bowl is therefore kept in perfect balance. This practically eliminates friction at the neck bearing, where we use a special die casting of anti-friction metal, supplied with oil from the gear case. The lower end of the spindle is fitted with a case-hardened steel point resting on a self centering ball bearing.

This keeps the bowl in perfect balance and makes your machine run easy. These are two most important features in any separator.

Bottom Bearing

Self adjusting, ball bearing. A case hardened steel ball resting on a steel disk cushioned on felt. Bowl can be raised or lowered at will.

Bowl Assembly

The SATTLEY full capacity bowl is easily apart and put together. No more parts tha necessary for clean skimming. Each part is structed of good material and heavily tinn prevent rust. A special bowl holder is furn which can be screwed to a convenient tab bench. This holds the bowl securely. A singl with the wrench loosens the bowl nut for remo

All parts easy to wash with our improved washer. Cream screw can be set for any de of cream you desire.

The SATTLEY Cream Separator

Recommended by Thousands of Our Customers

Read These Letters from a few of them

We are constantly receiving letters from customers who have been using the SATTLEY Cream Separators for years, and who express their entire satisfaction with the fine service they give.

No Repairs in Several Years

"I have used a SATTLEY Cream Separator for several years and find it is now in first class condition. I have never bought any new parts in all these years. A man looking at my separator a few days ago made the remark 'How quiet she runs!' The 'quiet' in a separator after she has run several years means something.

H. B. Mason,
Passadumkeag, Me.

Saves Money Every Day

"The SATTLEY Cream Separator I bought of you about three years ago is very efficient in its work and has been in use every day; and while it saved me money in first cost, it also saves me money every day I use it."

W. P. Altman,
Ogilvie Minn.

None Can Equal It

"I have used the SATTLEY Cream Separator nearly a year and think there is no separator that skims as clean, is as sanitary, easily cleaned and as easily operated as the SATTLEY. I will have none but a Ward's SATTLEY.

Edwin Wichtendahl,
West Bend, Ia.

Uses Power Attachment

"I have used a SATTLEY Cream Separator with power attachment for one and a half years, and have found it to be equal to any other separator in every way. Not even a trace of cream left in the milk."

A. H. Boltz,
New Philadelphia, O.

Gets All the Cream

"I think it is as fine a any separator on the market. I have used two other kinds, and if I should need another separator I will buy the SATTLEY. It is easy running and skims cleaner than any separator I have ever used. I have left the milk stand time and again to see if there was any cream on it, but never found any."

John C. Anderson,
Elwell, Mich.

These Letters Printed with Permission of the Writers

SATTLEY Electric Driven Cream Separator

SAVE both time and labor—use electricity to run your Separator. Your farm lighting outfit or any other electrical power will run the Sattley. Just attach cord to light socket, the same as you would for an electric iron, washing machine, or any other electrical household appliance.

With electric drive the closest possible skimming is a certainty, because the bowl is driven always at a uniform speed.

The Sattley Electric is built in the same factory, of the same high grade materials as the hand operated Sattley. It is just the same in every way except that this one has the motor and the other has not. Even the crank is included, so in case you should at any time be without power you can operate the Sattley by hand.

Your Choice of Four Sizes

You can have a Sattley Electric in any one of the same sizes as the hand operated machine. It will be shipped to you on 30 days' trial. In your order state whether you have direct or alternating current, and give voltage. If alternating current, mention phase and cycle. Your electric company will gladly give you this information.

The usual Sattley equipment is included free.

For Farm Power Lighting Outfit

Complete with 32-volt or 110-volt direct current motor, knife switch, fuse plugs, and ten feet of insulated wire

Well Built Highgrade Motor Cool Running

State Voltage and Kind of Current

Be sure to state the voltage of your electric current and whether it is direct or alternating. Also if it is from a 32-volt or 110-volt farm lighting plant, or if it is 110-volt or 220-volt current from a power station. If alternating current, we must know the phase and cycle. With this information we can fit a suitable motor to your machine.

SATTLEY Bench Separator

$28.50 Cash Price

Skims 36 Quarts of Milk in 15 Minutes

Sattley Junior

Owing to its low price, this Sattley is sold for cash only; but under the same guarantee and with the same trial privilege as our larger capacity separators.

Equipment includes cleaning brushes, extra rubber bowl rings, combination bowl wrench and screw driver, separator oil, disc holder for cleaning discs, necessary screws for fastening separator to bench or table, and complete instructions.

The Sattley Junior Separator occupies small space on a table or bench. All the best features of our larger size separators are built into this Sattley, although the supply tank, tinware and base are naturally not the same due to the difference in size. It has the splash oiling system, the bowl with patented distributor, and sanitary discs.

With its bowl that can be removed from the spindle, it is very easy to take apart, clean and put together again. Its gearing is large—much larger than the gearing of most machines of the same capacity. Built in our own factory, it is constructed and tested with the same care as the big machines.

The supply tank is seamless, of non-splash design, with faucet centrally located in the base of the tank, operated by an extension rod as shown in the illustration. This machine actually will skim three gallons of milk in five minutes, or thirty-six gallons each hour. This is unusually big capacity for a bench separator.

Unusually Large Capacity Bench Separator

While this Sattley can be used profitably by anyone, it is suited especially to the requirements of the owners of one, two or three cows who use the cream for the table or for butter making. Hotels, restaurants and summer resorts use it profitably, as it enables them to buy the milk and separate the cream. In this manner they are assured of cream of the best possible quality only. The fresh skimmed milk is used for cooking purposes. The Sattley skims so close it does not allow any of the cream to be wasted. Runs easily too.

If you have only a few cows and do not intend to increase the size of your herd in the near future, send for this Sattley Junior. It will get all the cream for you, and your cream will be clear, sweet and wholesome. Your skim milk will come from the machine still retaining the animal heat, ready for feeding. It takes up very little space and turns so easily that anyone can run it. The parts are simple to wash and keep clean. Instruction book included. Shipping weight, 70 pounds.

187 F 4610 ..... **$28.50**

Power Attachment for Sattley Separator

This Power Drive Attachment was designed purposely for those who have a gasoline engine and wish to use it to drive the cream separator. It can be used also with any other power machine which transmits its power by means of shaft or belt. For use on all Sattley separators but it is especially recommended for power drive on our No. 21 machine.

The power is transmitted by belt to the tight and loose pulley set provided with a belt shifter. Thence from the short counter shaft pulley by an endless belt to the pulley on special extended lower or worm wheel shaft of the separator. The idler pulley belt tightener absorbs automatically by means of a coil spring, all shocks resulting from irregularities of speed which occur with practically every kind of power.

The complete Sattley Drive Outfit consists of power drive frame with set screws, tight and loose pulleys, belt shifter, idler pulley and spring, driven pulley, short leather belt as shown, extended pinion shaft for worm gear—longer than regular so as to extend to take pulley. The crank is left on so the Sattley may be operated by hand if desired. It is necessary to have the power attachment built into the Sattley at the factory. If you have a Sattley and want the power attachment, ship your separator to our factory; but before you ship, write us for instructions.

289 F 4658—Power Attachment for SATTLEY Separator. **State size, number, bowl number, and capacity of separator.** Shipping weight, 30 pounds.
Easy Payment Price **$12.00**

Shipped from Springfield, Ill.

$12.00

Make Your Engine Run Your Separator

Have a Power Attachment Built in at the Factory

The Separator You Should Buy

Of all the Sattley Cream Separators, both hand power and electric, there is one that will meet your needs more satisfactorily than any of the others. Which one that is depends on whether or not you have electric power and the number of cows in your herd.

Don't make the mistake of buying a separator with a capacity that is big enough only to take care of your present needs. Think of what your future requirements will be when you have more cows. Remember that the Sattley you buy now will last for many years; so order the separator that will serve you as well one year from now as it will today.

The Sattley you select will be sent to you on trial so that you may judge its worth from actual experience. You know that Ward's sell only the best quality. You also know that our prices are very low because of the manner in which we buy and sell. Now is your opportunity to benefit by Ward's low prices and easy terms, while at the same time you are getting a cream separator which has no superior.

Remember—your satisfaction is guaranteed. Ordering a Sattley does not mean that you have to buy it. Before you buy you must be completely satisfied. And as you cannot decide until you have tried the Sattley—mail your order today.

Holds 1 Gallon Churns 2 Quarts

$1.35 All metal. Will not break. Churns butter in twelve minutes.

Round churn case made from charcoal plate tin with nickel plated pressed steel gears and metal dasher. Runs easily. Convenient for making butter quickly or remixing butter with milk. Easy to keep clean. Shipping weight, 5 pounds.

487 F 4213.....$1.35

Steel Churn

The strong construction, the light weight and the ease with which it is cleaned, are three features of this Steel Churn which women will appreciate.

Easy to Clean. One turn of thumbscrew releases dasher so that it may be removed quickly and easily for cleaning. Dasher made of fine grain hardwood and attached to steel rod which is heavily tinned to permit easy cleaning. After dasher is removed churn case may be lifted from frame and easily cleaned.

$2.95 Churn case is heavy steel, triple tinned inside and baked enamel finish outside. Legs and standards all steel, firmly riveted together and coated aluminum finish. Gear, wheels and top castings neatly fitted. Lids select hardwood, natural finish. Shipping weights: 9, 13, 15 and 19 pounds.

Superior Cream Separator

The Leader of Dilution Separators

The sudden change of temperature causes cream to rise quickly.

Get more cream from your milk than by the old skimming process — use a Superior Dilution Cream Separator. Separates cream from milk in three to four hours.

Operated by adding an equal quantity of cold water or ice to the milk. Milk is strained into the separator as quickly as possible after milking, while it is warm with natural animal heat and cold water added. As the water mixes with the milk, the cream separates and rises to the top. You always have sweet diluted milk, which is a much better stock food than sour milk.

The deep cone bottom with faucet permits drawing off milk without disturbing cream. Made of extra heavy tin, lock seamed and soldered hardwood legs. Average height, 43 inches. Tank enameled blue outside and decorated. Directions included.

$3.60

Neat in Appearance Easy to Clean—Sanitary

Prices include tank with gauge glasses, reversible cover with strainer, and faucet.

Article Number	Capacity	Shipping Weight	Each

Overshot Hay Stacker

Delivers load to center of stack, and constant pounding tends to bind center so there is no settling afterward excepting at the end, which helps to shape the stack. The lift at the start being almost directly over the load, makes an easy start and, changing as the load rises, keeps the pulley at nearly right angles to the load at all times. Side braces on the arms prevent swaying when load reaches the top. May be adjusted to elevate from 12 to 17 feet in height. A recoil spring gives the pitching effect when discharging load on the stack. Shipping weight, about 800 pounds.

287 F 1506—
Stationary Overshot Stacker.....**$53.20**
Shipped from Huntsville (Northern), Mo.

2-Wheel Buck or Sweep Rake

$22.50

Latest improved design. Large capacity. Rakes clean. Regular 12-foot rake, 11 feet 8 inches across points of teeth. Trussed frame prevents sagging under heavy loads. Sliding seat balances rake and regulates pressure of teeth on ground. Non-springing pivot tongues permit rake to follow unevenness of ground. Easily handled, well balanced, and will stand up under hard wear. Metal pointed teeth. Made of select materials throughout, carefully dried and seasoned. Extra strong, well made steel wheels, 16 inches diameter with 3-inch tires. Shipping weight, 300 pounds.

Sattley Gasoline Engine

$49.95 1½ H.P.

The 1½ horse power Sattley is the size you want for operating your pump jack, churn, washing machine, cream separator, grindstone, fanning mill, or any other light running machinery on your farm. Magneto equipped. Mixing valve requires no complicated adjustments. Water cooled head—an unusual feature in engines of this size and price. It is easy to start, and develops more than rated horse power.

1½ H. P. Gasoline Engine

One and one-half Actual Horse Power at normal speed of 550 revolutions per minute. Bore, 3½ inches. Stroke, 4 inches. Webster Magneto. Pulley: Diameter, 4 inches; width, 4 inches. Crankshaft diameter, 1¼ inches. Flywheels: Diameter, 15½ inches; weight, each, 35 pounds. Water cooled head. Ship. wt., 245 pounds.

5 and 7 H. P. Engines Regularly Equipped with Friction Clutch Pulley

Three Speed

Equipped with Webster Magneto

Shipped from Springfield, Ill., or Jackson, Mich.

WHY spend needless hours of tiresome labor, when a Sattley Engine will do the work and do it at a small expense? Easy to start—even in cold weather—runs steady as a clock—delivers smooth, even power. Attach it to your sheller, corn husker, feed cutter, grinder, fanning mill, saw outfit, or your ensilage cutter! Its tireless energy does the odd jobs while you are doing the more important and money producing tasks. It gives you and your family more time to plan—more time for leisure. Best of all, you can use and test a Sattley right on your own farm—**at our risk.**

Is an engine always better because it costs more? You frequently hear the expression: "The best is always cheapest in the end." Is there any reason why the best should be the highest priced engine on the market? Does the extra money you pay for a high priced engine actually and always go into the quality of the engine? How much of your money goes to pay for needless advertising, extra profits and other unnecessary sales expenses? Remember, we own the Sattley Engine plant and share with you the savings of manufacture, plus the savings of **selling direct by mail.**

Another important point to consider is repair service. Always be sure of your ability to secure repairs whenever wear or accident makes new parts necessary. Montgomery Ward & Co. guarantees always to take care of repairs on Sattley engines; ample provision has been made for carrying stocks of repair parts ready for your needs.

Write, telegraph or telephone us any time and the part you want will be sent you immediately.

See the general features described at the right. The patented Three-Speed Regulator is the simplest and most perfect speed changing device on the market. This is a marked improvement over the common type of governor which can work accurately at only one speed. Simply push the hand wheel in or pull it out; you thus change the speed at will to meet the requirements of the job. The well known Webster magneto makes starting easy. Anyone can run a Sattley. Complete instructions with each engine.

30 Days' Trial Engine Offer

Select the size engine you want and send us your order in the regular way, with your remittance. We will ship the engine with the understanding that it must give you entire satisfaction. Put it to work on your farm for 30 days. Then if you do not agree that the engine is exactly as represented, and that you have saved money by your purchase, write us for return shipping instructions. We will refund original purchase price and freight charges. **Our guarantee is your protection.**

Sattley Throttling Governor Engine

Equipped with Webster Magneto

See the general features described at the right. This is a **real kerosene engine,** designed and built to operate on low priced fuel. No carbon trouble. It will also operate with equal satisfaction on gasoline or a mixture of both fuels in all kinds of weather.

It is a thoroughly dependable engine with plenty of reserve power; simple in construction, and exceptionally easy to operate. With the well known Webster magneto, you are assured of positive ignition and easy starting even in coldest weather. No batteries are needed; no loose connections; no ignition troubles.

We stand back of Sattley engines in every way. Our guarantee protects you fully. The few simple instructions, all that are needed, and a complete list of parts are shipped with each engine.

Consider again our method of distribution. By eliminating all in-between profits we are able to put the best of workmanship and materials into our engines and sell them direct to you through this catalogue at a fair profit for ourselves and at a great saving to you. You get a better engine for less money. Can you think of a single reason why you should not secure your engine direct from the factory or warehouse without paying someone a big commission? A sheet of paper and a two-cent stamp is the only agent you need. Prove our claims on your own farm now—**at our risk.**

The Right Size Engine

Let us help you in the selection of your engine if you have any special problem; just tell us what you wish to do. Get plenty of power.

The 1½ H. P. size will operate your pump jack, separator, churn, washer or grindstone.

The 3 H. P. size is handy for the workshop, or it will run a 10 or 11-inch feed cutter, 4 to 6-inch feed grinder, 2-hole corn sheller, concrete mixer, cider mill, fanning mill or 20-inch saw.

The 5 H. P. size is most popular for general farm work, handling the tougher jobs, as it does, yet is economical of fuel on the lighter work. Power is ample to run a 26-inch saw, 250-watt dynamo, 6 or 8-inch grinder, or 12-inch cutter.

The 7 H. P. we recommend for an 8-inch grinder, 12-inch burr mill, 12-inch ensilage cutter with table, 16-inch cutter with carrier, 2-roll corn husker, 4-hole sheller, or a 30 or 32-inch saw.

On orders for 5 horse power and 7 horse power engines from this catalogue, we will furnish one of our No. 5280 Friction Clutch Pulleys without extra charge.

All Repairs for All Our Farm Equipment Always Ready for Immediate Shipment

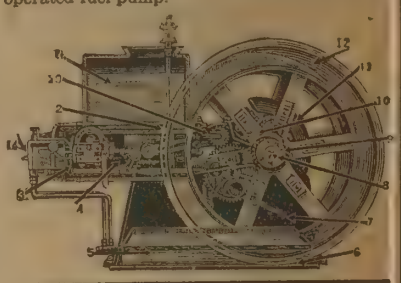
Special Features of Sattley Gasoline and Throttling Governor Engines

The cylinder and base are made separate. If you wish to replace the cylinder at any time, this can be done without changing the base casting.

Three and 5-horse power engine bases are made in one piece. For the 7-horse power engine we use a double base. When this engine is mounted on a truck the lower base may be removed. This base casting is designed to support the engine and withstand the weight and vibration through all the years the engine will be in use. A substantial base of this kind is far superior to wood skids.

All bearings are provided with suitable oil holes or grease cups so they may be properly lubricated. The crankshaft bearings are babbitted with the best grade of babbitt metal we can get. The bearings are made of sufficient length to give the crankshaft plenty of bearing surface.

In addition to these general features, note the special details of construction listed below. Numbers refer to the diagram shown below.



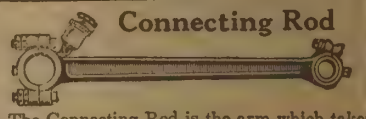
1. Ample Cooling Capacity in every size effectively prevents overheating.
2. Automatic Sight Feed Lubricator supplies oil to piston, cylinder and wrist pin bearings.
3. Webster Oscillator Magneto insures easy starting. No batteries, wiring or short circuits.
4. Large Cylinder Bore and Stroke for every size. Ample power at moderate speeds. Smooth finish insures long life and smooth running.
5. Fuel Tanks Inside Base, Safety First. Completely protected from fire or any damage by the heavy iron base.
6. Heavy Cast Base high enough to support the flywheels clear of the ground.
7. Adjustable Side Rod pull back spring.
8. Extra heavy Crankshaft made of high carbon steel. Ground and polished.
9. Wide Main Bearings adjustable. Wick oiled.
10. Connecting Rod especially designed of I beam section. Wide bearings to take up wear.
11. Heavy, Strong Cast Shield, not thin sheet steel as is sometimes used by engine manufacturers.
12. Large Heavy Flywheels of proper weight and balance, insure smooth steady running without vibration.

Gasoline Engine

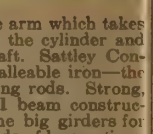
Has Hit and Miss Governor.

Throttling Governor Engine

13. Throttling Governor saves fuel and insures steady, even delivery of power.
14. Kerosene Mixer with a mechanically operated fuel pump.

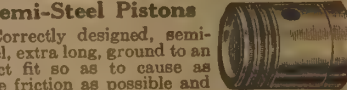


Webster Magneto



Reliable Ignition—a hot spark always ready, hot or cold weather. Economical because no fuel wasted in misfiring. Water, oil and dustproof. With proper care will last many years.

Connecting Rod



The Connecting Rod is the arm which takes the force of the explosion in the cylinder and transmits it to the crankshaft. Sattley Connecting Rod is made of malleable iron—the correct material for connecting rods. Strong, tough and lasting. It is of I beam construction—same form used for the big girders for bridges and for connecting rods of locomotives.

Semi-Steel Pistons

Correctly designed, semi-steel, extra long, ground to an exact fit so as to cause as little friction as possible and still hold compression. Oil grooves are just the right size to lubricate perfectly without waste. Piston rings are fitted accurately to piston grooves, and are dowel pinned into place.

Carbon Steel Crankshaft

Forged from a solid piece of close grained, high tensile strength steel—the best known metal for the purpose; not a weld in it. Strong enough to carry twice the strain expected and then thoroughly heat treated to give it even more tensile strength. Every crankshaft is made according to our chemists' specifications and guaranteed perfect.

The proper Lubricating Oil will make your engine run better. See Page 450

Sattley Power Saw Rig Outfit

$198.00 Complete

You Can Use the Engine All Year Round

Keep your boys busy. Let them earn extra money during slack seasons. One of these Outfits will pay for itself many times over by helping to maintain a steady income the year round. Saw wood for yourself and your neighbors; in addition use the engine separately for countless other jobs on the farm. Saw frame may be detached quickly giving you a most dependable portable power rig. Engine is thoroughly dependable, easy to operate, easy to start, requires almost no attention. For complete description of all Sattley Engines, see Page 570.

Saw frame is of tilting table type, all steel and well braced. Mandrel takes saws with 1⅝-inch arbor hole; 60-pound flywheel. A standard steel cordwood saw is included; 26-inch diameter with 5 H. P. size; 30-inch diameter with 7 H.P. size.

The truck has heavy 5-inch channel steel beams, 8 feet long, and 1⅝ round axle, 62 inches long. Axle is solid steel, further strengthened by 3-inch I-beams with braces to rear axle and to fifth wheel. Front wheels, 24-inch with 4-inch grooved tires; rear wheels, 32 inches in diameter. Complete outfit includes truck, engine with Webster magneto, frame, belt and saw with saw rigs. Neckyoke, singletrees and doubletree not included.

Sattley Engines on Hand Trucks

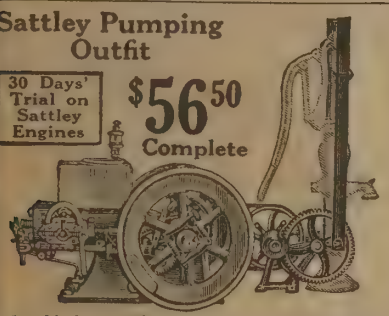
$53.95

A Sattley Engine mounted on a Hand Truck will save you a good deal of hard work, to say nothing of time. And because more work in less time means greater profits, no farm should be without one of these. Decide now to put a Sattley outfit to work on your farm.

The 1½ horse power engine is mounted on a suitable, sturdy steel beam truck. The 3 horse power engine is mounted on a heavy wood beam truck. The whees are 9 inches in diameter, with 2-inch tires. Pipe axles, 1 inch in diameter. Wood beams, 42 by 3½ by 3½ inches. The 5 horse power engine is mounted on a steel channel beam truck with I-beam braced axles; wheels, 14-inch front and 20-inch rear, 2½-inch face.

The front trucks may be swung around and set crosswise to help brace the engine when running. Either kerosene or gasoline engine furnished for the 3 and 5 horse power. Gasoline only for the 1½ horse power.

Engines Described on Page 570



Article Number	Size	Description	Kind of Truck	Shipping Weight	Each

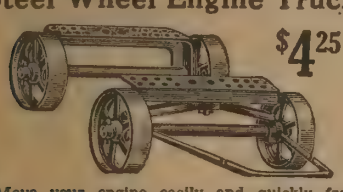
Sattley Pumping Outfit

30 Days' Trial on Sattley Engines

$56.50 Complete



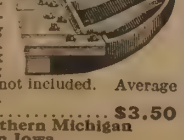
Let this dependable Sattley Engine pump water for you. It is the best hired man you could have and a great labor saver where pumping is done by hand or with windmill. Requires very little gasoline to operate the engine; starts easily even in the coldest weather. Pumping outfit includes a 1½ horse power Sattley Gasoline Engine with Webster Magneto (complete description Page 570), pump jack and 16 feet of 2-inch, 2-ply belting. Pump not included in price. (See Page 537 for prices on pumps.) May be used with almost any type of pump standard having a windmill top. Shipping weight, 290 pounds.

289 F 5054.....**$56.50**

Shipped from Springfield, Ill., or Jackson, Michigan

Steel Wheel Engine Truck

$4.25



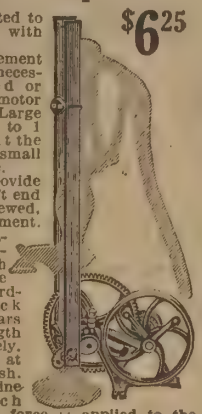
Move your engine easily and quickly from place to place when and where you want it. This heavy Truck has steel bolsters, 16 inches wide. Anchor bolt holes in bolsters located to fit any small engine. Engine base bolted to the bolsters acts as a frame. Wheels, 9 inches in diameter, with 1¾-inch tires. Heavy tubular axle, 1 by 26 inches. Shipping weight, 50 pounds.

189 F 5326.....**$4.25**

289 F 5328—Heavier Truck for engines up to 1000 pounds. Wood cross beams, 22 inches wide; 9-inch front wheels, 14-inch rear wheels. Tires, 3 inches. Ship. weight, 100 pounds. **$6.60**

Shipped from Springfield, Ill.

Stone Boat Head



For moving large stones, farm implements, corn fodder and other farm products. Made of very strong cast iron and well ribbed. Strong enough to resist six times the actual working strain. Bolts and boards not included. Average shipping weight, 60 pounds.

287 F 6314.....**$3.50**

Shipped from Southern Michigan or Eastern Iowa

All Purpose Pump Jack

$6.25

This Jack can be fitted to any pump standard with windmill top.

The clutch arrangement makes belt shifting unnecessary. Can be stopped or started while engine or motor is still running. Large diameter pulley and 5 to 1 gear reduction permit the use of a motor with small pulley or a small engine.

Hard oil cups provide ample lubrication. Shaft end key seated and set screwed, keeps gears in true alignment. Clutch positive in operation. Cross head connects to pump rod with one bolt. Pitmans are made of seasoned hardwood. Whole jack is neatly painted. Gears have great strength and mesh accurately. Gears protected at point where they mesh. The pulley is in direct line with the pump, which means that the driving force is applied to the pump rod without twisting strain.

Lifting capacity, 200 to 250 feet. Strokes: 5, 7½ and 10 inches. Pulley, 13 inches. Shaft, 1⅛ inches. Shipping weight, 100 pounds.

187 F 5266.....**$6.25**

Pump Jack

Double Back Geared for Deep or Shallow Wells

$10.85 An excellent all around Jack to use with gas or oil engines of all sizes. Pulleys make 341 revolutions per minute while pump is making thirty-five strokes. Engine need not be slowed down to put on belt.

Double back geared. Furnished with tight and loose pulleys; back geared, 9¾ to 1. Three different stroke lengths—4½, 7 and 10 inches. Pulleys, 12 inches diameter for 2-inch belt.

This heavy duty pump jack will operate almost any pump with upright standard and windmill top. The gears, castings and upright standards are made unusually heavy throughout, insuring a dependable jack that will give best service for many years.

A Pump Jack like this soon pays for itself in time and labor it saves you. Pump not included. Shipping weight, 95 pounds.

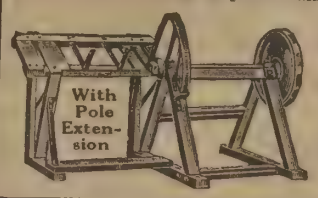
All Repairs for All Our Farm Equipment Always Ready for Immediate Shipment

Tilting Table Wood Saw Frame

$19.50



Made in two styles—for cordwood only, and with attachment for use with long poles. Dry hardwood frame, bolted and braced, extra strong. Cold rolled steel mandrel; diameter, 1½ inches; turned at arbor to fit saws with 1⅜-inch holes; length, 49 inches. Belt pulley, 5 inches with 6-inch face. Heavy iron saw guard. Speed, 750 to 1,000 revolutions per minute. Saw blade is extra. For prices see Page 509.

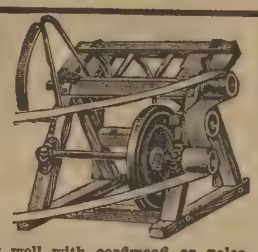
Saw frame 287 F 6433 consists of our standard tilting table frame with 10 by 8-inch pulley and no balance wheel for use with thresher belt or tractor.

If you have a wood lot, or have a neighbor that has one you can make an attractive profit with one of these wood sawing Outfits, and at the same time have a most useful addition to your farm operating equipment.

287 F 6432—With 60-pound balance wheel. Shipping weight, 275 pounds... **$19.50**

287 F 6434—With 95-pound balance wheel. Shipping weight, 310 pounds..... **$19.90**

287 F 6433—With 10 by 8-inch pulley; without balance wheel. Shipping weight, 260 pounds **$19.25**



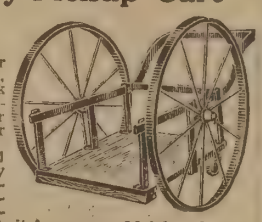
287 F 6436—With pole extension and 60-pound balance wheel. Shipping weight, 300 pounds **$21.00**

287 F 6438—With pole extension and 95-pound balance wheel. Shipping weight, 335 pounds. **$22.95**

Shipped from Western Illinois

Swing Table Saw Frame

$28.95



Works equally well with cordwood or poles. Balance wheel is low down, out of the way of long poles, giving machine steadier motion than if attached to mandrel. Cold rolled steel mandrel; diameter, 1½ inches, turned at arbor to fit saws with 1⅜-inch hole; length, 49 inches. Tightener pulley in center hung on strong bracket box. Diameter of pulleys, 5 inches; 6-inch face. All bearings babbitted. 95-pound balance wheel. Speed per minute, 750 to 1,000 revolutions. Saw blades are extra—see Page 631. Right hand only. Shipping weight, 400 pounds.

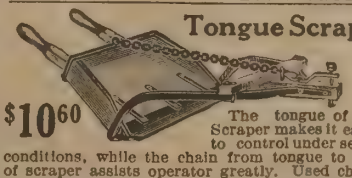
Drag Scraper



Popular contractor style Scraper. Cutting edge is rounded, allowing it to enter ground easily. Double runner scrapers have two runners of hardened steel securely riveted. Double bottom scrapers have an extra bottom of hard steel securely riveted. Bowl is made of 10-gauge high carbon steel. Pressed out of one piece, shaped to fill and clean easily. Heavy steel ball with swivel link on each ball. Handle sockets are steel plates solidly riveted. Handles are smooth hardwood. You can find many uses for one of these scrapers. Use them to improve your roads and have good roads, despite wet weather.

All our scraper capacities are actual and do not include dirt heaped in front.

Get All the Feed Value From Your Grain By Grinding

Corn and Cob Crusher and Feed Grinder

$23.50

Shipped from Central Iowa

Grinds Corn on Cob, Shelled Corn, Kaffir Corn, Millo Maize, Wheat, Oats, Barley, Rye and Other Grain, Separately or Mixed

A big capacity, fast grinding Mill. Puts grain in right condition to get most nutriment possible from it. Frame is extra heavy casting, designed to withstand six times working strain. Heavy angle steel legs with cross braces. Extra long bearings lined with long wearing babbitt. Large oil wells. Heavy steel main shaft, 1¼ inches on the No. 1 mill and 1½ inches on the No. 2 mill.

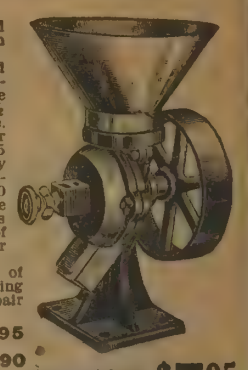
Spiral, concave cob breakers of hard chilled iron bolted to the frame. Cob crushers secured to shaft by safety break pin. Breakers start work; crushers complete grinding.

No. 1 Mill should be operated with from 4 to 7 horse power; No. 2 with 7 to 12 horse power; running at 400 to 700 revolutions per minute, according to power.

No. 1 will grind from 10 to 35 bushels and No. 2 from 20 to 60 bushels per hour, depending on the power, speed, kind of grain and its condition, whether dry or damp, and also whether grinding fine or coarse.

The **Crowfoot Burrs** used in this mill will outgrind and outwear ordinary burrs and are especially good for oats because they cut up the hulls.

Prices include balance wheel, two sets of burrs and lag screws for fastening. If so ordered we will fit 8-inch mill with 8 by 6-inch or 12 by 6-inch pulley; and 10-inch mill with 10 by 6-inch, 14 by 6-inch or 16 by 6-inch pulley for use with Fordson Tractor.



When ordering burrs, give numbers of old ones.

287 F 3032—5-foot Double Sacking Elevator. Ship. weight, 75 pounds..**$16.80**

Mill for Grinding Small Grain

Such as Wheat, Rye, Oats and Corn

Here is one of the most popular Feed Mills made for grinding all kinds of grain such as shelled corn, oats and rye.

Frame is cast in one piece and is solid and strong; lag screws are included. Bearings are long and lined with high grade babbitt. The Crowfoot burrs are 5½ inches in diameter, ground perfectly true. These burrs can easily be adjusted for fine or coarse grinding. Capacity, from 5 to 20 bushels per hour, depending entirely on the power, kind of grain and its condition. Should be run from 200 to 600 revolutions per minute with 1½ horse power or larger engine. Pulley is 12 inches in diameter, with 3-inch face. Flow of grain to burrs is regulated by opening or closing a slide in bottom of hopper.

Furnished complete with two pairs of burrs, one coarse and one fine. Shipping weights: Mill, 62 pounds; burrs, per pair 3¼ pounds.

287 F 3000.....**$7.95**
287 F 3001—Extra Burrs. Fine. Per pair.....**.90**
287 F 3002—Extra Burrs. Coarse. Per pair.....**.90**

Shipped from Central Iowa **$7.95**

Always state numbers on old burrs when ordering new ones.

Corn on Cob Crusher and Feed Mill

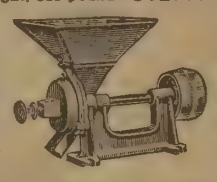
$19.95

Shipped from Easton, Pa.

To save freight for customers in the East, we have secured this Mill which is shipped from our factory in Pennsylvania. Grinds all kinds of grain into fine nutritious and easily digested meal for either stock or poultry. Ear corn is broken into pieces about the size of hazelnuts and then burrs reduce the pieces to fine meal.

Two sets of 7½-inch burrs included; burrs made of best white iron. Capacity, 8 to 15 bushels per hour with 3 to 6 horse power; feed regulated according to power. Speed, 600 to 800 revolutions per minute. Pulley, 8 inches diameter with 5-inch face. Shipping weights: Mill, 165 pounds; burrs, per pair, 4 pounds.

287 F 3047.....**$19.95**
287 F 3048—Extra Burrs; fine. Per pair.....**.90**
287 F 3049—Extra Burrs; coarse. Per pair.....**.90**



Grain Grinder for Feed, Meal and Flour

$12.40 Without Bolting Attachment

Grinds from 6 to 20 bushels per hour, depending on the quality of grain and fineness of grinding. Requires from 1½ to 4 horse power. With bolting attachment will grind flour or meal fine enough for family use. Burrs 5½ inches, adjustable for fine or coarse grinding. An extra set of Crowfoot burrs also included. Regular pulley, 7 inches in diameter with 4-inch face. Can furnish 12 by 3-inch pulley in place of regular pulley on request. Speed required, 200 to 600 revolutions per minute.

287 F 3003—With legs, lag screws, balance wheel and pulley, without bolting attachment. Ship. weight, 115 pounds..**$12.40**

287 F 3004—Mill complete with bolting attachment. Shipping weight, 125 pounds..**$14.75**
287 F 3012—Mill without legs or balance wheel and without bolting attachment. Shipping weight, 75 pounds..**$9.95**
287 F 3016—Set of legs only for grinder, with lag screws. Shipping weight, per set, 20 pounds. Per set.....**$1.05**
287 F 3018—Balance wheel only. Shipping weight, 20 pounds...**1.40**
287 F 3006—Extra Burrs, fine or coarse. **State which style wanted.** Also give numbers on old burrs. Shipping weight, per pair, 3¼ pounds. Per pair.....**90¢**

Shipped from Central Iowa

Big-Four Sweep Mill

Triple Geared

$38.50

Shipped from Central Iowa

Grinds ear corn rapidly, either coarse or fine, also other small grains.

Burrs make three revolutions to each round of the horses.

Diameter of burrs, 16 inches; height, 3½ inches; made of white metal so hard that with ordinary care set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition and team making 3½ revolutions per minute, will grind 12 to 20 bushels per hour. A hand lever at top allows tightening and loosening of burrs when hopper is full of grain. Made with coarse burrs for shelled corn and cob corn, and fine burrs for shelled corn and small grains. Coarse burrs furnished unless otherwise ordered. Shipping weights: mill, 600 pounds; burrs, 40 pounds.

287 F 3050—Complete mill with sweep, wood platform and one pair burrs.....**$38.50**
287 F 3052—Coarse Burrs. Per pair **4.20**
287 F 3054—Fine Burrs. Per pair **4.20**

When ordering burrs for old mills, give number or marks on your old burrs.

Plain Mill on Box

Not geared. Burrs, 16½ inches in diameter. Mounted on box, not on legs. Capacity 5 to 8 bushels dry corn per hour. Fine or coarse burrs. Coarse burrs shipped unless otherwise ordered. Ship. weights: Mill, 270 pounds; burrs, 40 pounds.

287 F 3056—Sweep Mill on box...**$23.50**
287 F 3068—Fine Burrs. Per pair **4.20**
287 F 3069—Coarse Burrs. Per pair **4.20**

Buckeye Corn Sheller

Usual Retail Price $17.50—$18.50

$10.95

Entire Top of Sheller Hinged So That Working Parts Can Be Inspected and Adjusted

There are two reasons why you should buy the Buckeye Corn Sheller—its exceptionally low price and the high quality.

The present Buckeye is practically the same as Mr. Stone's old Montgomery Ward & Co. sheller mentioned below, and is one of the very best shellers of this type that we know of today. At $10.95 for such a standard, high grade sheller no one can afford to shell corn by hand.

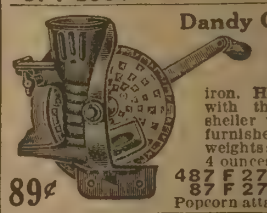
A few minutes' work and you have enough shelled corn for your poultry or to grind and mix with stock feed. Every spring your Buckeye sheller will be handy when there are bushels of seed corn to be shelled. A heavy flywheel makes it easy to operate. Shells clean without cracking kernels. Pressure of rag iron regulated by an adjustable spring so any size ears can be shelled. Fan cleans shelled corn. Frame, well seasoned hardwood. Cold rolled steel shaft; all bearings carefully fitted. Capacity, 10 to 20 bushels per hour.

287 F 2736—Complete with fan and feed table. Ship. wt., 120 pounds**$10.95**
287 F 2734—8-inch Pulley for power. Shipping weight, 12 pounds.....**90¢**

Shipped from Southern Wisconsin

H. T. ("Ham") Stone, Edgerton, Mo., says his Sheller, bought over 43 years ago, is good for another 20 or 30 years.

Wilson Family Grist Mill



Every country home needs one of these little Grist Mills with removable hard metal burrs which are ground true and can be adjusted to grind to any degree of fineness. Heavy balance wheel makes it run easy. Will grind corn, wheat, rye, peas, salt, etc. Screws or bolts not included.

Shipping weights: Mill, 24 pounds; burrs, per pair, 3 pounds.

487 F 2932.....**$3.25**
87 F 2934—Extra Burrs. Per pair. **.75**

Dandy Corn Sheller

89¢

Adjustable to large or small ears of corn. It is made of cast iron. Has spring tension with thumb nut, large sheller wheel. No bolts furnished. Shipping weights: 10 pounds and 4 ounces.

487 F 2700.....**89¢**
87 F 2701—Popcorn attachment....**10¢**

Neverfail Corn Sheller

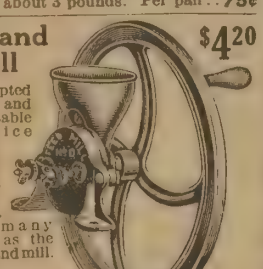
$1.48

Will deposit the corn in barrel or box on which it is mounted, and throw cobs outside. Made of heavy cast iron. Sheller with butting and tipping attachment. Shipping weight, 18 pounds.

487 F 2704 $1.48

Stand Grist Mill

$2.25



Adjustable to grind fine or coarse. Grinds small grains, corn, wheat, oats; also coffee, salt, dry bones, dry shells, etc. Size 1, suitable for kitchen use grinding feed, cracking corn, etc. Size 2 has larger burrs, and heavier balance wheel, giving much greater capacity. Four screws for attaching to table or bench.

487 F 2950—Size No. 1. Weight, 25 pounds **$2.25**
487 F 2951—Size No. 2. Weight, 50 pounds **$4.10**
87 F 2953—Size No. 1 Extra Burrs. Ship. weight, per pair, about 2 pounds. Per pair..**55¢**
87 F 2954—Size No. 2 Extra Burrs. Ship. weight, per pair, about 3 pounds. Per pair..**75¢**

Wilson Hand Grist Mill

$4.20

Especially adapted for grinding flour and corn meal for table use: wheat, rice and cracking corn and other grains for feeding purposes. Genuine Wilson Hand Grist Mill with a reputation of many years standing as the highest type of hand mill.

Grinding Burrs are extra hard metal ground true on emery wheels and will give long service; adjustable for fine and coarse grinding. Large hopper, steel shaft and heavy balance wheel. No screws or bolts included. Shipping weight, 29 pounds.

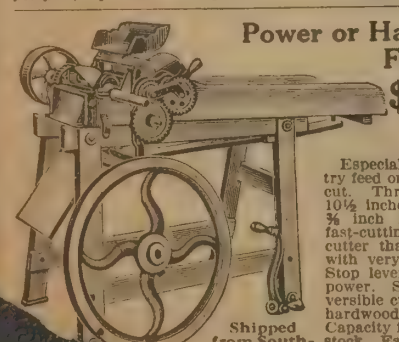
487 F 2936.....**$4.20**
87 F 2938—Extra Burrs. Shipping weight, per pair, 2 pounds. Per pair.....**90¢**

Two-Hole Hand or Power Corn Sheller

$26.90

Hand or Power Sheller for general farm use. Frame is heavy hardwood, firmly fastened together. Shaft is heavy cold-rolled steel, and runs in iron bearings, bored through and bolted. Shelling wheels geared high to give good capacity. Feed spout directly over shelling wheel. Rag iron and springs adjustable to any size corn. Cob-carrier separates shelled corn from cobs, delivering the cobs at a distance from the foot of the sheller. The belt driven fan forces a strong blast of air through the falling shelled corn, which carries off all chaff, pieces of husk or bits of cob, so only clean corn is delivered to the basket or other container placed beneath the sheller.

When run by power the pulley on balance wheel shaft should make 300 revolutions per minute. Can be operated with any small engine. Capacity, 20 to 30 bushels per hour. Shipping weight, 250 pounds.



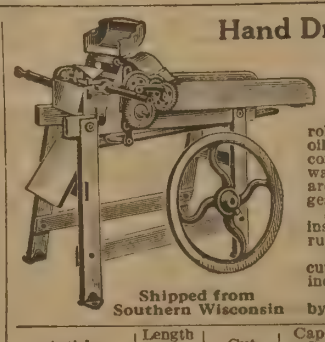
Complete with cob-carrier, fan, feed table, crank and 8-inch pulley.

287 F 2742.....**$26.90**

Shipped from Southern Wisconsin

Power or Hand Driven Feed Cutter

$37.50



Shipped from Southern Wis.

Especially adapted for poultry feed on account of its fine cut. Three knives, length, 10½ inches. Cuts ⅛, ¼, or ⅜ inch lengths. Powerful fast-cutting feed and ensilage cutter that can be operated with very light safety lever. Stop lever pulley to run by power. Safety flywheel, reversible cutting bars. Heavy hardwood bolted Frame. Capacity for 10 to 20 head of stock. Easy to run by hand, when a small amount of feed

Has sliding cone gear for changing length of cut. 1 er required at 300 to 400 revolutions per minute. ulley, 10 inches; face, 3 inches. Capacity per hour, 0 pounds; green fodder, 1200 to 2400 pounds. Shipping weight, 300 pounds.

.....**$37.50**

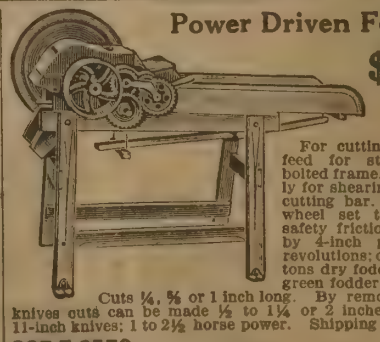
Hand Driven Feed Cutter

Shipped from Southern Wisconsin

Has heavy balance wheel which, with the shearing cut of knives make the machine very light running. Frame heavy hardwood, strongly bolted. Shaft is heavy, cold-rolled steel. The two knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed rolls are large and driven by expansion gearing.

Safety lever stops feed roll instantly while the machine is running.

When both knives are used the cuts on smaller machine are ¼ inch, ⅜ inch or 1 inch in length.



Cuts can be made twice as long by removing one of the knives.

$24.95 Ward's Clipper Windmill

Name of Your Farm Stenciled on Vane Free, if So Ordered

There is great satisfaction in owning a Ward's Clipper Windmill because of its easy, quiet running, and its heavy construction. These windmills do not squeak and clatter. They work quietly always, and in perfect balance because they are made right and are equipped with ball bearings in the turntable.

The fan wheel is made up in 6 sections in all sizes except the 6-foot which has 4 sections. All mills have 4 sails to each section. Each section is rigidly supported by heavy anchor steel braces. The vane is made of heavy galvanized sheet steel and heavy steel bracing. An effective spring governor holds the wheel at the proper angle to develop only the required velocity for work in heavy winds causing it to face the lighter winds full. The mills are back-geared 2½ to 1 giving them great power, yet operating in the average wind at just the right speed for pumping. When locked out of wind, an effective brake holds wheel from turning.

The pull out wire passes through a swivel in the pump rod connection so mill may turn with the wind without entangling the wire.

When specified we can supply mast fittings with mill instead of wood or steel tower caps. Cap for wood tower is furnished unless otherwise specified; if for steel tower, state whether 3 or 4 post.

Windmill Tower

Made in two styles or weights, each properly proportioned for mills they are designed to support. Cross girts for every 10-foot section; last set close to ground just above anchor post joint. Each side of each 10-foot section has two rods which cross each other near the center. These can be tightened so each pair bears some tension, making towers rigid and firm. Diagonal cross rods, from corner post to corner post, in every 10-foot section also, for squaring towers. Pull-out lever attached to left post when mill and tower are ordered together. **Note the weights of our towers, indicating the heavy construction, strength and rigidity.**

High Grade Wagon and Truck Scales

Ball Bearing Pitless Scale **$103.50**

Ball Bearing Pit Scale **$63.00**

All Scales set up and carefully tested before shipment. Made of best materials throughout. Guaranteed against defects due to workmanship or material. Sealed to U. S. standard weight.

The Pitless Scale is preferred wherever it is possible to use it. It sets above the surface and is the most economical type of scale because there is no need for a pit, wall, frame or joists. Easily and quickly set and may be moved about with less trouble than other types.

Built on the five-lever principle—two pipe levers, one at each end of the scale, and two arm levers connecting the pipe levers; arm levers carry weight to cross lever which transfers it to beam. Cross lever is thus independent of motion of platform. In addition, all other levers are stationary so that jars of loads or other vibrations do not affect them, which insures accuracy.

Hardened steel ball bearings take the hard wear off the knife edges. Frame is made of steel channels with heavy I-beam joists. Standard compound beam; iron and brass highly polished; main bar weighs by 200 pounds; lower bar by 2½ pounds to 200 pounds, and 5 pounds to 2000 pounds. Hardwood beam box, well constructed, nicely painted and fitted with lock and key. Building plans and directions with each scale. **Platform not included.**

If it is necessary to have your platform level with the surrounding ground, or if it is impossible to build approaches for any reason, you should order a Pit Scale. We furnish all working parts, standard full capacity beam and beam box. Platform and timbers not included.

Entire weight is carried on the foundations in the bottom of the pit. Therefore the wall and frame do not have to be nearly as heavy construction as is necessary with scales that hang from the frame. Frame and floor the same for all sizes; joists and bearing plank vary according to capacity.

This scale also has 5 levers, differently arranged and is strong enough to carry more than rated capacity. Has standard compound beam. Setting up does not require an expert; simply follow the plain instructions included. **Platform and timbers not included.**

Concrete Batch Mixer

$28.75

The use of Portland cement for building work of every kind has become very general. Sand, gravel or crushed stone are available almost everywhere and, with the addition of cement, it is both easy and economical to put in your own foundations, walks, granaries and feeding pens. A machine of this kind will mix the concrete much more thoroughly than is possible by hand. You will also save in time and strength. At the extremely low price that we are asking for this mixer you can not well afford to be without one if you have any concrete work to do.

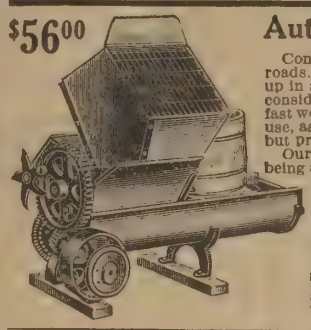
A big advantage is that the mixer can be tilted either way, so it can be set conveniently with respect to the sand pile and wheelbarrow has plenty of room. It is a fast worker also; running at full capacity, you can mix a wheelbarrow load of 3 cubic feet every minute. This would keep three men busy wheeling sand, cement and gravel, and taking the mixed concrete away. You can complete your concrete jobs very quickly. If you do n t wish to run the machine at full capacity, you can regulate the speed to suit yourself.

If you choose, you can work alone with the machine, turning it by hand, and mix small batches of concrete at your convenience. At the same time this mixer is large enough to start a contracting business in a small way. This offers a big opportunity for spare time work in any farming community or village.

Being light in weight, the mixer can be moved easily. If necessary, the drum can be taken from the frame by merely loosening a few bolts. Construction is simple; only a few wearing parts. We are rarely called upon to supply a new part for one of our machines, even though we have been selling them for several years and thousands are in use.

Shipped from Eastern Iowa

Loads or Unloads from Either Side



Strongly constructed throughout so as to withstand hard service. Frame is strong angle steel; heavy steel drum. Cone shaped to give best results; three blades inside give perfect mix. Drum is 22 inches deep; top diameter, 18 inches; bottom diameter, 22 inches. Shoveling height, 38 inches. Yoke is held in frame by bearings which bolt securely to the frame casting. Perfectly balanced so that cone can be tilted easily with full load.

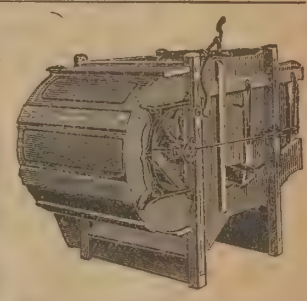
Pulley is 16 inches in diameter with 3-inch face, and should be run 150 to 200 revolutions per minute. Can be operated with 1½ horse power engine. Gear ratio is 5¼ to 1. Bearings have hard oil cups with pulley. Crank is included so mixer can be run by hand when desired. Shipping weight, 240 pounds.

287 F 5862.....**$28.75**

Automatic Continuous Concrete Mixer

$56.00

Concrete is in great demand for building foundations, sidewalks and roads. For this reason a profitable contracting business can be worked up in almost every neighborhood. Or, if you are a farmer you can save considerable money by doing your own concrete work with one of these fast working Automatic Concrete Mixers. It is the best size for individual use, as well as for the man who wishes to develop a contracting business but prefers to start in a small way.



Our automatic mixer has a capacity of about 2½ cubic feet, the drum being about four feet long. Mixing is done by a revolving worm. Equipment includes a 12-inch pulley with a 3-inch face. Should be operated at approximately 200 revolutions per minute. A simple clutch provides for throwing in and out of gear.

Above the main drum is mounted an extra drum which has two gear driven worms. These worms force the sand and gravel in a steady stream into the main drum below. Capacity of sand hopper 2 cubic feet; cement hopper holds two bags of cement. You can get almost any mixture you want—from 2½ to 1 up to 8 to 1. Shipping weight, 350 pounds.

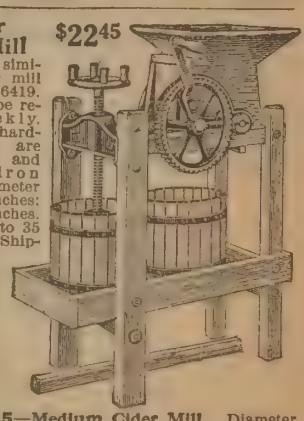
Shipped from Southern Wisconsin

Senior Cider Mill

$39.25

This cider Mill is of more than average capacity. It is of durable construction and has a capacity of 50 to 60 bushels, or 125 to 150 gallons per day. The wood cylinder with its sharp steel pins crushes the fruit quickly and thoroughly. Two cranks—one on each side—make it easy for two boys to keep the mill in motion.



The heavy hardwood frame is strongly bolted. Large size hopper, force feed. Press tubs with hardwood slats and well set bands. Diameter of tubs, 14 inches; height, 13½ inches. You will find the senior cider mill very satisfactory. It will pay for itself in a very short time. Shipping weights: Mill, 330 lbs.; clamp pulley for belt power, 10 lbs.

287 F 6419.....**$39.25**
Camp Pulley, 10 by 4 inches. Extra.....**1.85**

Fruit Trees-Berry Plants-Grape Vines

All Strong, Hardy Stock—Freshly Dug

In response to many requests, we are offering a larger line of Nursery Stock this season. We have spared no effort to provide our customers with the best stock grown in the United States. We have absolute faith in it ourselves, and you will have the same confidence once you have tried it. When you buy nursery stock from Montgomery Ward & Co., you not only save money but you get quality that is not excelled anywhere.

We have selected heavy bearing and hardy varieties of fruit trees, berry plants and grape vines, the fruits of which are in big demand commercially. Enjoy some of nature's luxuries and obtain another source of income. Reduce the cost of living. Save money by buying your stock here.

Safe Delivery Guaranteed

In ordering nursery stock, as well as other things purchased from Montgomery Ward & Co., you run no risk. We guarantee safe delivery—if stock is damaged we will replace it or refund your money. Everything will be labeled and true to name. Everything must be satisfactory to you in every respect.

It costs so little to make the home surroundings attractive. Sometimes it needs only a few bushes here, a few plants there, and a tree in the background to make more beautiful the already attractive natural scenery. Any improvement of your property naturally adds to the value. No matter whether you are interested in beautifying the home place or wish to work into commercial growing, we can take care of your requirements. No order is too large.

Plan to plant early—and send your orders early. Send your orders in even before the season; shipments will then be made at the time best suited to your locality, and you will be sure to have your stock early.

If order is received before stock is available we will ship as soon as possible but never later than planting date for your locality.

Important! We take every precaution to protect our nursery stock in transit. Our Nurseries keep accurate information covering weather and growing conditions in every locality. Shipment is made when the weather in your vicinity is favorable and when similar good conditions exist in the territories where nurseries are located.

All our trees, plants and shrubbery are shipped direct from our Nurseries, located at points indicated

Apple Trees

All trees branched. Guaranteed healthy not infected with root, gall, aphis or any other disease. Hardy, long lived and less subject to blight.

Summer Varieties

Yellow Transparent. Large, finely flavored and juicy. Ripens around July 1.

Winter Varieties

Jonathan. Medium size. For cooking or eating. Flesh tinted red.

Grimes Golden. Medium golden yellow. Conical shaped. Spicy.

Delicious. Large, firm, dark red. Delightful aroma. Good shipper.

Staymen's Winesap. Largest of family. Dark red. Early bearing.

York. Large, irregular shaped. Red striped. Fine for baking.

Minkler. Medium. Pale greenish yellow, splashed with red.

Other Varieties. Wealthy, Rome Beauty, Winesap, Baldwin, McIntosh Red, M. B. Twig, Black Bendavis, King David, Winter Banana, Golden Russet.

Crabapples. Whitney and Transcendent. **State variety wanted.**

Plum Trees

Plums are equally desirable for canning, preserving or drying. The trees occupy but little room in the orchard or garden and begin bearing in two years.

Abundance. Large, showy fruit. Beautiful, rich, bright cherry color. Flesh, light yellow, sweet and juicy. Early bearing.

Burbank. Large, mottled red and yellow. Flesh, deep yellow and of very sweet and peculiar but agreeable flavor.

Wickson. Probably the most beautiful of all plum trees. Fruit, deep red; flesh, firm, yellow and of very good quality.

German Prune. Purple or blue in color. Juicy and rich. Brings best price on market. Hardy and productive.

Waneta. Combines best points of native and Japanese plums. Averages two inches in diameter. Good red color. We particularly recommend it. **State variety wanted.**

Strawberry Plants

Heavy White Rooted Plants Give High Yields

When you order Strawberry Plants from us, your order is filled with plants that have grown on new soil in western Michigan where climatic conditions are most favorable. For best results, strawberry plants must have healthy, vigorous roots. You will find no better plants than those we deliver to you. Everbearing varieties planted in spring yield big crops first year but for best results blossoms should be kept picked off until July 1. Standard varieties do not bear first year. Whether you want a small garden patch or wish to plant large fields we can fill your needs.

Howard No. 17. Large handsome, highly flavored berry of rich glossy red that maintains size and quality for a long season.

Premier. Beautiful large berries; red clear through. Extra early. Among the best for shipping.

Dr. Burrill. Ripens early and continues for a long period. Classed as mid-season. Deep red. Lighter than Senator Dunlap.

Senator Dunlap. Best known. Dark red, shading to deep scarlet. For many years the most popular for table use and canning.

Gibson. Medium early, extremely productive. Fruit rich red and reaches the market in good condition. Good canning berry.

Aroma. One of the best late varieties. Large bright red berries are firm, of high quality and keep well in shipping. Very popular.

Brandywine. Exceptionally fine for canning and shipping. Plants endure dry weather better than some varieties.

Eaton. Thrifty grower that bears heavy crop of dark red berries of finest flavor. Excellent for table use or the market.

Bun Special. One of the recent introductions. Heavy yielder of very large, bright red berries that delight everyone.

Everbearing Strawberries

Progressive. Everbearing plants that produce very large crops of beautiful berries of medium to large size. Fine for fall.

Champion. Recently introduced and held by some to be even finer than Progressives. Plants, very hardy. Fruit, high quality, dark red and of good size.

Peach Trees

The comparative ease of cultivation, their freedom from disease, the short period before they come into bearing, together with the persistent demand for the tasty fruit, makes growing of peaches very profitable.

Mayflower. Earliest of all peaches. Gloriously red all over. Juicy, fine flavored. Medium size. Good shipper.

Bell of Georgia. Very large, white freestone peach with red cheek. Trees grow quickly. Hardy; prolific.

Elberta. The leader of all peaches; most popular commercial variety. Yellow; freestone; large juicy fruit.

Mammoth Heath Cling. One of the sweetest and most luscious of peaches. Favorite for canning and preserving.

Other Varieties. Redbird, Carman, Early Elberta, J. H. Hale, Rochester, Fitzgerald, and Crawford's L.

Grape Vines

Grapes are in great demand and have unquestioned health giving qualities. If present indications may be taken as a guide, those who start vineyard now should make much money for several years. Grapes will grow almost anywhere and with good care and favorable conditions will yield as much as eight tons of fruit to the acre. We list the most valuable commercial values.

Concord. Black, luscious fruit that ships well. Hardy, healthy, productive vines. Universal.

Moore's Early. Popular black grape. Ripens two or three weeks earlier than Concord.

Worden. Large black grape. Ripens ten days earlier than the Con of which it is a seedling. Delicious flavor.

Brighton. Large broad clusters of fruit that are reddish purple; thin and pulp of sprightly favor.

Delaware. Pink fruit of fine, delicate flavor. Bunches are sm Finest quality for table. Ripens same time as Concord.

Agawam. Vine a strong grower. Fruit in large bunches of re amber color. Skin is thick and pulp has aromatic sweet taste.

Niagara. Leading white grape for home or market. Bunches very l of fruit of tough skin that carries them well. Tender and sweet.

Diamond. Bears sweet and rich flavored grapes, greenish whi first, becoming yellowish at full maturity. Very productive.

Hedges-Shrubs

Make Your Home Surroundings Pleasing and Cheerful

Hedges serve a double purpose, for they are useful both as an ornamental border at the side of the lawn or as a fence around the garden or cattle yard. By planting a hedge you save the cost of a permanent fence, and at the same time have an abundance of green foliage to help beautify the surroundings. Hedges are becoming extremely popular, and most owners of well kept lawns now point with pride to a neatly trimmed or flowering hedge. We recommend setting hedge plants one foot apart.

California Privet. Bright smooth green foliage. Half evergreen; stands severe pruning. Not hardy in northern sections.

Amoor River North Privet. Similar to California privet, but hardier and foliage not so lustrous. A very fast and upright grower. Forms a solid even green wall and is easily trimmed. When properly sheared will give a very pleasing effect.

Shipping weights: Each, 4 oz. 50 plants, 6 pounds; 100 plants, 10 lbs.

Number	Name	Size	Each	50 Plants	100 Plants

California Privet $4.40 A Hundred

Shipped from Central Illinois

Shrubs are attractive when planted either in groups or as continuous borders. They require little care and grow in size and beauty every year. Especially are they fine for breaking straight lines at the house or screening unsightly corners. We offer two popular varieties

Spirea Van Houttei. Bridal Wreath. Graceful, with long drooping sprays thickly studded with handsome, pure white flowers. One of the finest and most beautiful of the Spireas. Gives fountain of white flowers early in the spring. Foliage is beautiful, with dark green leaves with incised borders, pale bluish green beneath, lasting until late autumn. Grows to 6 feet, is hardy and often planted in borders or singly.

Hydrangea, P. G. A showy shrub; favorite Hydrangea. One of the most magnificent of shrubs for landscape purposes. Large white flowers in late summer; turn pink and remain until late fall. Hardy in all sections. Very attractive from July to November. Flowers grow very large after severe pruning in the spring. Attains a height of 5 feet. Splendid effects can be obtained by planting in masses along driveways or in groups among other shrubs.

Shipping weights: Each, 2 pounds; 12 plants, 10 pounds.

Gladiolus

Whether you grow only a few flowers or many, you will find great pleasure in the beautiful blooms of the Gladiolus. No flower is easier to grow and by planting at various periods from early Spring to midsummer, you can have a succession of bloom. Long spikes can be cut when the first flower opens, and other buds on the spike will develop in water and thus last for several days.

America. Delicate pink. Lavender tint.
Panama. One of the largest and finest pinks. Blooms wide open and waxlike.
Peace. Large white flower with delicate lilac feathering on lower petals.
Mrs. Francis King. Brilliant vermilion scarlet on a long spike.
Schwaben. Clear canary yellow shading to sulphur. Touch of red in throat.
Mrs. Frank Pendleton. Light pink. Blotch of carmine in throat.
L'Immaculee. Pure white on long spike.
Evelyn Kirtland. Rosy pink, darker edges fading to shell pink in throat.
Halley. Delicate salmon pink with large creamy blotch.
Prince of Wales. Choicest of salmon varieties.
Autumn Queen. Cream yellow with upper petals suffused with lovely pink.
War.—Deep, brilliant red. Large.

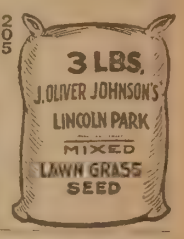
Lawn Grass Seed

1 Pound, 22¢
3 Pounds, 60¢
10 Pounds, $1.85

Do you want a beautiful lawn—one that will win the admiration of all your neighbors? If so, you must use seed of proper germination and of absolute purity. After exhaustive tests, we recommend and guarantee the Lincoln Park brand.

In planting grass seed, bear in mind two things. Your lawn will not do well if you plant the seed too sparingly. For heavy sod, about 70 pounds should be sown to the acre. This will make a thick soft turf. One pound covers a plot 15 by 15 feet. Be sure to seed heavy enough for best results.



Also grass seed must be given sufficient time to germinate. While the Lincoln Park seed will germinate quicker than most seeds, it requires a little time. Planted evenly and sufficient quantity, it produces a rich green, velvety lawn in a comparatively short time. The best time to seed is early spring.

87 F 2370—1-pound package ..... $ .22
87 F 2371—3-pound sack ..... .60
87 F 2372—10-pound sack 1.85

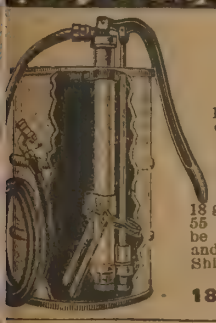
White Clover Seed

Used to great extent in lawn mixtures, and also used for covering bare spots in lawns, or for sowing where ground has a tendency to be damp. White clover not only adds to the beauty of a lawn, but it is helpful in keeping out dandelions and other weeds. It grows well in poor soil, forming a close dense mat, and will stand close clipping.

87 F 2375—1-pound package ..... 80¢

Roses

Two years old. All field grown. Shipping weights: Each, ½ pound; per dozen, 5 pounds.



287 F 2340—Hardy Climbing Roses.
Crimson Rambler. Strong rapid grower with handsome shining foliage; bright crimson, semi-double flowers in abundance.
Dorothy Perkins. Same strong growing habit as Crimson Rambler. Flowers large, double, sweetly scented and of a beautiful shell pink.
Excelsa. Clusters very large and blood red. Similar to Dorothy Perkins except for color.
287 F 2341—Hybrid Perpetual.
American Beauty. Everblooming. Flowers very large, double and deep rose color. The most popular rose grown.
Paul Neyron. Deep rose color; good foliage. Largest rose grown.
Frau Karl Druschki. Pure paper-white, large and free flowering.
General Jacqueminot.—Brilliant crimson, large and very fine.
287 F 2342—Hybrid Teas.
Gruss an Teplitz. Dark rich crimson, shading to fiery red. Very showy and handsome. Blooms during whole growing season.
Radiance. Bright pink, reverse petals carmine. Very good.
Lady Hillingdon. Beautiful apricot yellow shaded to orange.
Kaiserin Augusta Victoria. Soft pearly white, shading to creamy yellow.
Killarney. Brilliant, sparkling pink. Very hardy.

State variety wanted.

F 6623 ..... $1.20

Phosphate Rock

Corn belt soils need phosphorus. The best yield per acre is made possible by adding to the soil that element, phosphorus, which usually is lacking. The inexpensive form in which to buy this element is Phosphate Rock. Experimental Stations highly recommend the use of this low priced plant food and it is easily applied.

Phosphate rock enriches the soil not only because of the plant food it contains but also by making the plant food already in the soil more readily available for the use of growing plants. For an increase in crop yields use phosphate.

For prices and information send for free circular.

Humogerm

Get greater production per acre by using Humogerm—a leguminous culture of nitrogen to replenish worn out soil. Humogerm treated roots will deposit 150 to 200 pounds of nitrogen to the acre.

Wheelbarrow Sprayers

$10.95
6070

The handiest outfit for orchard, truck garden, vineyard, greenhouse, nursery. Goes easily through narrow openings and between narrow row crops. Its many everyday uses make this all purpose outfit one of the most important tools on a farm. Spray trees, bushes, vines, potatoes, garden crops. Whitewash trees, barns, pens, coops, fences, cellars. Spray lice oil on hogs, fly oil on cattle, spray stock dip, disinfect stables, sheds, yards and poultry houses. There is need for a Wheelbarrow Sprayer almost every day. Both of these outfits will do all that work for you, and they are built to last for many years. When not being used for spraying, the pump may be removed and the tank with the wheelbarrow used for carrying stock feed and water. Considering the increased crops, it is cheaper to spray than not to spray. You will find a wheelbarrow sprayer the handiest outfit. Order one of these today.

Power Spray Outfit

It pays to spray, and it pays to own a big capacity Spray Outfit when time is valuable.

Two men can work with this sprayer at the same time as it will supply two spray nozzles at from 100 to 200 pounds pressure when operating 150 revolutions per minute.

Specifications. All brass cylinder pump 2¼ inches in diameter by 4½-inch stroke, with brass ball valves and removable brass valve seats. Large cast iron chamber. Adjustable ball brass relief valve and 200-pound pressure gauge. Mounted on pump jack, which is equipped with 10-inch drive pulley, 4-inch face. Equipment includes 20 feet of ½ inch high pressure hose and couplings, 6 feet of suction hose with strainer, 4 feet of relief valve hose and 4 feet of spray pipe with large spray nozzle. Fitted with a newly improved agitator which keeps liquids stirred and is adjustable for different height barrels or tanks. Shipping weight, about 160 pounds.

187 F 6072..... **$41.95**

Power Spray Gun

Uses the entire capacity of any power spray pump, and does away with need of towers and poles. Spray may be adjusted to reach top of trees or to a very broad spray sufficient to cover an entire tree, or can be shut off entirely within a half turn of the handle. Length, 20 inches; ¾ inch hose coupling. Shipping weight, 4 pounds.

87 F 6005..... **$4.95**

Barrel Spray Pump

$12.95

Barrel Not Included

Provided with combination base for easily and quickly attaching to either top or side of any length barrel. Powerful leverage makes it easily capable of developing from 150 to 250 pounds pressure without tiresome pumping.

The air chamber—2¼-inch steel boiler tubing 32 inches long, insures a continuous uniform spray. The cylinder is made of heavy seamless brass tubing 2 inches in diameter. The valves are solid brass balls, easily accessible, and no sediment will clog them. Pump plunger submerged—requires no priming.

Paddle agitator keeps liquid thoroughly mixed. Exceptionally well made. Is not affected by spray mixtures and will not corrode or rust.

A splendid Pump for spraying vineyards, shrubbery, all insecticides, whitewash and cold water paints. Full directions sent with each sprayer for operating. Outfit includes 15 feet [illegible] hose and nozzle. Shipping weight, 12 pounds.

$12.95

[illegible]-foot length Hose. Shipping weight, 3 pounds.

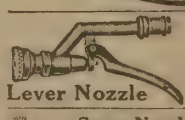
$3.75

Barrel Spray Outfit

$29.75

Low down high pressure hand pump Spraying Outfit. For cold water painting and whitewashing.

Mounted on runners or wheels. Easily transported with one horse. The pump is double acting, with 3-inch brass valve seats, brass piston rod and packing nut. Tested to a pressure of 150 pounds.



Has galvanized steel mechanical agitator with dashers that actually churn the solution at the bottom of barrel, so that there is no danger of sediment settling. Capacity of barrel, about 48 gallons.

Sled and truck framed in and bolted together. Barrel is bound to frame at both ends with strong iron bands. Mounted on runners. Complete with 20 feet of hose; spray, sprinkler and solid stream nozzles; 10-foot extension pipe, with brass handle, stop-cock. Shipping weight, 260 pounds.

287 F 6086—Complete..... **$29.75**
287 F 6088—Outfit mounted on trucks instead of runners, for transporting by hand or with one horse. Otherwise exactly the same as above. Shipping weight, 375 pounds..... **$37.65**

Shipped from Northern Indiana

Lever Nozzle

Works automatically with hand and fingers. Will not clog. Made of brass. Fits ½ inch hose. Shipping weight, 12 ounces.

87 F 6040..... **98¢**

Funnel Strainer

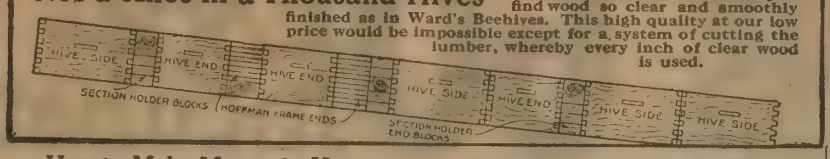
Beekeepers! Save Money Here

Sections $1.17 per 100

A No. 1 first quality; white, glossy polished. Made of Wisconsin second growth basswood, smoothly polished and free from defects. Plain (no beeway) or scalloped styles. V groove cut perfect so the sections will fold up easily without breaking; square; tight at the corners.



Sections sold only in quantities listed. Packed in heavy weight corrugated paper, insuring safe delivery.

When sections are run through the mill, a small percentage are slightly dark in color or water stained. These are No. 2 or "B" grade sections. Where the high quality No. 1 sections are not required, these will serve just as well. **Be sure to order the proper style and size for your hives.** Shipping weights: 100 sections, 8 pounds; 500 sections, 35 pounds.

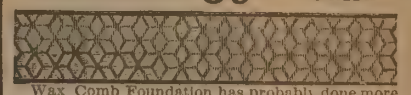
Not a Knot in a Thousand Hives

Only in good furniture will you find wood so clear and smoothly finished as in Ward's Beehives. This high quality at our low price would be impossible except for a system of cutting the lumber, whereby every inch of clear wood is used.

How to Make Money in Honey

Fourteen million dollars were paid last year for honey. More honey will be needed this year. Student, teacher, minister, farmer, clerk—anyone can keep bees. Bees paid this author's way through college. In this new book he tells you how you can put bees to work making honey and money for you. Send for copy today.



87 F 5708—Postpaid.....10¢

Why Ward's Prices Are Lower

The only difference between the Bee Goods you will receive from us and similar goods purchased elsewhere, is that our prices are much lower. By placing contracts with the manufacturers for many carloads to be built during the dull season, we effect a big saving which we are passing along to you—as shown by the low prices on this page.

There are no better hives. Why pay more?

Foundation 59¢ Pound

Wax Comb Foundation has probably done more to make beekeeping practical than any one other thing. It also makes beekeeping profitable when you consider that the bees expend energy equivalent to seven pounds of honey in producing one pound of wax. Help your bees by giving them plenty of foundation. Use full sheets—they will respond by devoting all their energy to producing honey. Ours is the New Process Foundation with perfect cells, easily worked by the bees. Clear in color. Medium brood used in brood frames. Thin super used in extracting frames and as starters in frames and sections. For best results use full sheets and wire all frames. Order by grade and size. Packed in paper boxes, insuring safe delivery. Not sold in less than 1 lb. lots. Ship. weights: 2 and 6¼ lbs.

Medium brood, 7⅞ by 16¾ inches; 7 to 8 sheets per pound.

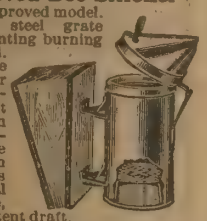
Live Bees by Express

A two-pound package of Bees, with a queen, shipped by express, provides a very satisfactory way of getting started.



Our Bees are three banded leather colored Italians. The queen is selected for size and color, but has not been tested. Specify when you want your bees to arrive. Bees and queens will be shipped when weather conditions in your locality favor a satisfactory start. Bees must be fed until the first honey flow. Orders will be shipped from apiaries in Alabama, Florida or Texas. Later orders from northern points.

Bees guaranteed to be pure bred and free from disease. We will replace any loss in transit providing express receipt bearing notation of damage is returned promptly to us.

Complete directions for transferring bees and queen from shipping cage to your hive pasted on package.

Little Setting Hen 60 Egg Incubator

Improved for 1924

$4.85

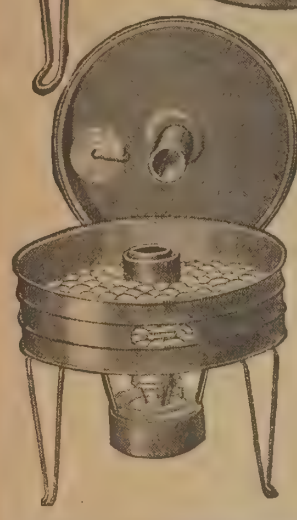
AN exceptional offer. Think of getting an all metal self regulating incubator, with 60-egg capacity, at such a low price. Another example of how quantity production in our factory saves you money.

While the Little Setting Hen Incubator was designed purposely for those who do not raise a great many chicks, it also is desirable for special hatches on poultry farms of any size. Even though you have a large incubator, you will find the Little Setting Hen Incubator useful. It is easy to operate—wife, son, daughter, anyone can operate it successfully.

Enameled attractive battleship gray. Has side window for seeing interior of egg chamber and for reading thermometer. Hot air heat—double walls and top with dead air space acting as insulation. Heating pipes entirely covered. Wafer thermostat with easily adjusted regulator. Galvanized steel lamp bowl, 18 by 15½ inches high. Thermometer, egg tester, and complete directions included with each machine. Shipping weight, 18 pounds.

487 F 3710 ..... **$4.85**

ROBERT JOOS
Buyer, Poultry Supplies



For twenty-five years I have been connected with the poultry industry. I know its possibilities and what equipment is necessary. On these pages you will find listed Supplies that should be in every poultry yard. I know it is good equipment, built right and modern in every way; and our prices are so low that you will save many dollars by using our equipment. I would like to have you notice especially our incubating and brooding equipment, so you can see how much we can save you on a high grade Incubator and Brooder.

Poultry raising offers to the man or woman with limited means, wonderful opportunities for a good livelihood. Conditions this year are favorable for a big poultry year.

I want to be of service to you, and would consider it a pleasure to assist you in any of your poultry problems. Your letter addressed to me personally will have my prompt attention.

ROBERT JOOS.

Little Mother Hover 60 Chick Size $3.15

Shipped from Western Illinois

Nothing is so important to the poultry man as an Incubator. Four very essential factors are necessary for a good incubator. First, good construction; second, positive self regulation; third, uniform distribution of heat; fourth, proper circulation of fresh air. Our Dependable Incubators embody these essentials, together with other features, making them without doubt as good hatching machines as can be bought anywhere. They will, if operated according to instructions, positively hatch every hatchable egg. Inexperienced poultry raisers will find no difficulty in operating this machine. It is easily regulate and requires little attention, even unde varying climatic conditions.

What more can you ask from an incubator Our prices are low—so much lower tha any other first grade incubator that exper enced poultry men wonder how we can do The answer is quantity production in ou own modern equipped factory. Why, then pay more for your incubator when you ca not buy a better one at any price?

Remember, too! Ward's guarantee goe with every incubator:—"Satisfaction Gua anteed or Your Money Back."

Double Walls. Outer wall of 1 inch well seasoned redwood; inner wall of ½ inch redwood; heat retaining insulation between. Bottom made of kiln dried, matched Georgia pine. Double ceiling, well seasoned Georgia pine running opposite to each other, with dead air space between.

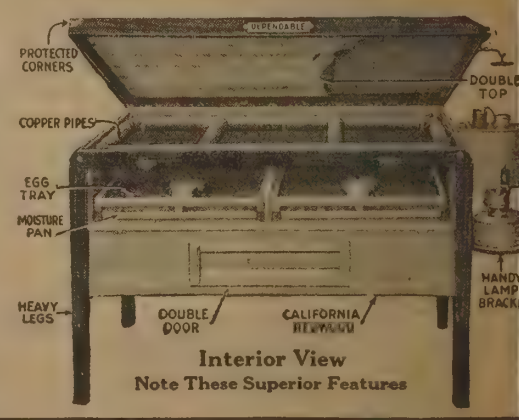
Hot Water Heat. Superior to hot air in many ways, chiefly because it insures a more even temperature in any room and under all weather conditions. Solid copper pipes cover heating area completely, giving thorough circulation of hot water throughout egg chamber; 2-inch pipes in two smaller sizes, 2½-inch pipes in larger sizes.

Regulation. The heat in the egg chamber is regulated automatically by a durable yet positive regulator, operated by a sensitive double wafer thermostat.

Ventilation. Free circulation of fresh air largely accounts for the strong, vigorous chicks hatched by the Dependable. Air is taken in from the bottom and distributed throughout the egg chamber by means of deflectors; but no cold air comes in direct contact with the eggs. Intake may be partly closed during severe weather.

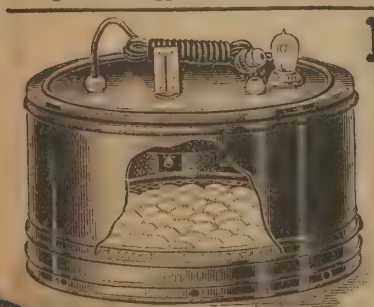
Moisture. Galvanized sheet steel pan ¾ inch deep, covers almost the entire bottom of compartment. With this system of moisture supply, Dependable Incubators will hatch successfully anywhere under almost any conditions. These pans also catch all dirt or refuse from hatching trays, and are easily cleaned.

Specially Designed Door. The large redwood door is 1 inch thick, substantially hung on heavy hinges, and has a small window 3 by 15 inches on which is hung a small solid door which can be opened to see the thermometer without opening the incubator. This keeps egg chamber in total darkness.



Finish. Rich mahogany; aluminum coating on heater jacket. Dependable Incubators are attractive as well as efficient and dependable.

Egg Trays. The 150-egg size has one tray; 250-egg size, two trays; 380 and 500-egg size, two egg chambers with four trays. This makes the egg trays in the larger sizes as convenient to handle as those in the smaller sizes.



The larger sizes are equipped with double wick burners. Corners are protected. Instruction book, thermometer and egg tester with every machine. Lamp sets on an adjustable bracket, which makes it easy to remove for refilling. The impractical nursery tray has been entirely done away with. Experience has proved that many chicks have been injured and chilled by the old fashioned nursery tray. In the improved Dependable, the chicks are kept on the hatching tray until they are perfectly dry.

We have added the 500-egg capacity size to our line this year. This should prove a popular size with poultry men who are in the commercial chick business, or those wishing to do custom hatching.

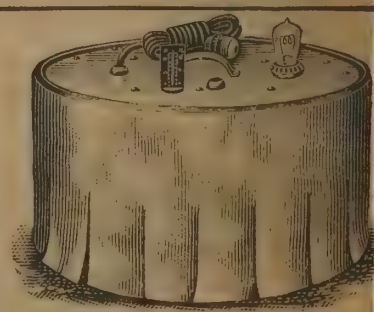
Note: We can furnish you with Mammoth Incubators, with capacities from 1200 to 12,000 eggs. Prices on application.

Interior View
Note These Superior Features

ubator can be used on alternating or direct 110 or 32 voltage. **Be sure to state anted.** Fully equipped for operat- electric connecting cord. After ns included with each incu- ly and successfully oper-

Electric Incubator

$7.95 50-Egg Size



Heating units are in roof and slip into spring slips. They are interchangeable. These cartridge heat units give out an even, gentle heat, and are arranged so that they distribute the heat equally throughout the egg chamber. In no part of egg chamber does the heat vary. The current switches automatically from the heat unit to small electric bulb on top, thus saving the platinum contact point. Thermometer is on inside of incubator, but it extends outside where it can be read easily. Insulation throughout the entire incubator is extra heavy, assuring a low operating cost. Quickly regulated—fireproof. Appearance is very attractive. Shipping weight, 25 pounds.

487 F 3743—110 voltage **$7.95**
487 F 3745— 32 voltage **7.95**

Write for Prices on Larger Size Electric Incubators and Hovers

Electric Hover

50-Chick Size $7.25

This Electric Hover is heated with the same kind of heating unit as the electric incubator. The mechanical features of this hover are as nearly perfect as they can be made. It furnishes the chicks with a steady, odorless heat which can be regulated to any degree desired. The top is heavily insulated, so that all of the electricity burned is used for heating the hover and none of it escapes. The side curtains are cotton flannel, which keep in heat and prevent drafts. Every hover is inspected before shipment and can be depended upon as absolutely fireproof. Shipping weight, 20 pounds.

487 F 3747—110 voltage.. **$7.25**
487 F 3749— 32 voltage.. **7.25**

The Electric Hover, just like the Electri Incubator, can be used on alternating or d rect current, 110 or 32 voltage. **Be sure t state which is wanted.** Complete with ele tric connecting cord and instructions.

Burns Coal

Big losses of chicks are caused by the use of improper brooding equipment. After the chickens are hatched, you must use the right kind of Brooder to raise them. Don't shorten their lives by compelling them to live in the unsanitary, old time, stuffy brooder. Buy a New Colony Stove Brooder. It offers your chicks ideal brooder conditions at a low cost for operating. Saves time and all worry. Remember, it is as safe as a heating stove and needs less attention.

No Crowding. The large diameter of the Hover as compared with most brooders of like capacity, has a double advantage. It provides ample room for the chicks, gives them comfort and avoids crowding.

Sanitary. Affords plenty of fresh air and light—developing more healthy and robust chicks than does the old fashioned, stuffy wooden brooder.

Canopy Spreads Heat. The design and position of the large, galvanized steel canopy spreads the heat uniformly over the backs of the chicks—nature's own way of hovering.

Even Heat. The heat control is entirely automatic and distinctly positive, insuring an even temperature and avoiding all sudden changes.

Adjustable Canopy. By means of a cord the canopy may be raised or lowered for cleaning. Cord operates through pulleys for ease and convenience.

Stove. The stove is designed especially for this brooder. It is neatly constructed and none but the best of materials are used. The upper part of the stove is a magazine for fuel and is sufficiently large so that one filling will operate the stove for twenty-four hours. Fuel feeds down into the fire pot automatically, requiring no attention on the part of the operator. Grates will last indefinitely and are easily accessible for cleaning.

We recommend this brooder because it costs so little to operate. It burns either hard or soft coal. Hard coal naturally gives the best results; but where this is not obtainable, soft coal may be used. Pipe not included. Use 4-inch stove or gutter pipe.

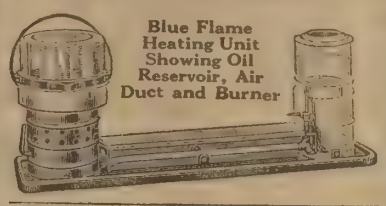
Happy Home Blue Flame Colony Brooder

$10.95

Perfect Oil Control

No Odor



Safe Sanitary

This Happy Home Brooder should not be confused with the old type oil burning equipment The Happy Home burns no wicks, but generates gas from kerosene, which in turn is burned with an intensely hot blue flame, generating a remarkable volume of heat from a small quantity of fuel.

The specially designed burner makes this heater as easy to handle and just as safe as the old style, and eliminates wicks which require trimming if they are to give the kind of service you demand.

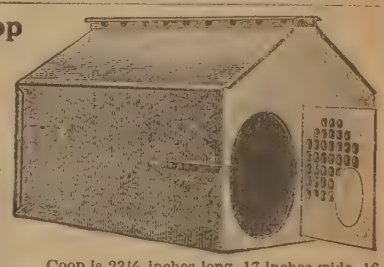
Air Duct. The air is drawn through the perforated plate underneath the fuel bottle. Passing through this long duct, it is superheated before entering the burner, which not only gives a more even heat, but a greater volume of heat from the same amount of fuel.

Blue Flame Heating Unit Showing Oil Reservoir, Air Duct and Burner

Valveless and Positive Oil Level. Another important feature. A varying oil level makes it extremely difficult to control the flame. As soon as the flame begins to burn, it sucks up an increasing amount of oil and rises higher and higher.

The Blue Flame Burner overcomes this trouble by maintaining a constant oil level at all times. The height of flame is determined by the depth the burner is lowered into the oil. The flame does not exert the slightest influence on the oil level. This assures perfect heat control.

Oil Container. All glass, with wide mouth which makes filling easy. Automatic valve cap covers the opening, preventing splashing and spilling of oil when turning reservoir over. Glass container fits down snugly in sub-tank, which is made of special metal, keeping out all dirt and making it easily cleaned



Asbestos Fiber Woven Ring. This ring is made from pure asbestos fiber, interwoven around fine brass wires, making it practically indestructible. It is non-burnable, never requires trimming; and no matter how often the stove burns dry, it will continue to give service.

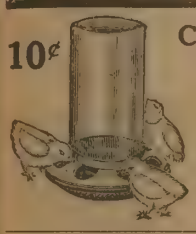
Sanitary Steel Brood Coop

Protects Your Hens and Chicks from Rats and Other Night Prowlers
Helps to Prevent Vermin
$1.45 Each In Lots of 6



One of the best steel Brood Coops money can buy. It is made entirely of heavy galvanized sheet steel, which makes it sufficiently heavy so it is not easily toppled or blown over, and at the same time is strong enough to last many years. It is sanitary and verminproof. Small ventilator openings in the door, together with the sheltered ventilator openings along the top, provide a constant circulation of pure air through the coop. Metal door has a small opening, with slide for entrance and exit of chicks when desired to keep hen confined.

Coop is 23¼ inches long, 17 inches wide, 16 inches high. Shipping weight: One coop, 18 pounds; 6 coops, about 75 pounds.

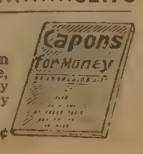
No-Slip Caponizing Set

$2.75

Capons Bring High Prices



The firm, well flavored meat of the capon is a delicacy that is growing in demand constantly, You should have a No-Slip Caponizing Set and be prepared to take care of your local demand. This set has been designed for us by an authority on caponizing, and in practical use it has proved to have many advantages over old style sets. The instruments are of improved design and are easier and quicker to work with. The tools are strongly made of the best quality steel, highly polished, and are easy to keep clean and sanitary.

The complete set consists of a set of hooks. An elevator of special design prevents any chance of slipping. Instruction book showing every detail of the work, as well as full instructions on how to prepare the birds and how to take care of them, is included with each set.

With such tools as these, caponizing requires no expert skill. With a little practice you will have no difficulty in doing the work. It takes only a few minutes on each bird—and you will be well repaid by the higher prices you get for them. Increase your profits by caponizing the young roosters you intend to market. Shipping weight, per set, 8 ounces.

87 F 3826—Complete set.....**$2.75**

Round Steel Brood Coop

Many poultrymen prefer the round steel Brood Coop, which is made entirely of heavy sheet steel, thoroughly galvanized to prevent rust and resist weather The round silolike design of this coop makes it most attractive. It is thoroughly sanitary, and is rainproof and verminproof. The sliding door has ventilator openings, as also has the cupola, giving the hen and chicks plenty of fresh air in the most stuffy weather. Sliding door is also provided with a chick opening which may be regulated as desired. Handle on top for carrying. Ship. weights: one coop, 19 lbs.; 6 coops, 89 lbs.

187 F 3756—1 coop.....**$ 1.95**
187 F 3758—6 coops in crate.....**10.50**

Improved Oat Sprouter

$1.15

Sprouted Oats Make Hens Lay
Develop Chicks
Save Feed

Green food is just as valuable to the poultryman as is good silage to the stockman or dairyman. Laying hens as well as growing chicks should have green food at all times. Sprouted oats provide an excellent green food for hens, and aid in increasing egg production. For the chicks they provide tender green food that is easily digested and keeps them in the best of condition because it is a natural tonic

You can grow a large supply of tender green oat sprouts quickly with this outfit. Oats soaked for twenty-four hours, then placed in the pans and sprinkled daily, will sprout quickly and supply green food for your poultry. The large size will grow sufficient oats to feed 100 hens. Made entirely of heavy galvanized steel. The upper trays are perforated for draining, the lower tray is a drip pan. Shipping weights: 8 and 15 pounds.

87 F 3764—With four trays.....**$1.15**
487 F 3765—With eight trays.....**2.25**

Thermodrink Fountain

Keeps Water Warm or Cold

Hens must drink plenty of water to lay eggs—in winter, warm water is best; in summer, cool water. These changes in temperature may be made by the use of this fountain. In winter fill with steaming hot water, then pour out some and add enough cold water. Our Thermodrink will keep water from freezing during the coldest days. Also popular as a summer fountain, as cool water stays cool. **$2.15**

Made of galvanized sheet steel, double walled, with heavy insulation. Cone top keeps chickens off. Has good bail for carrying. Shipping weights: 18, 24 and 27 pounds.

Make a Truck of Your Ford Roadster

$7.98

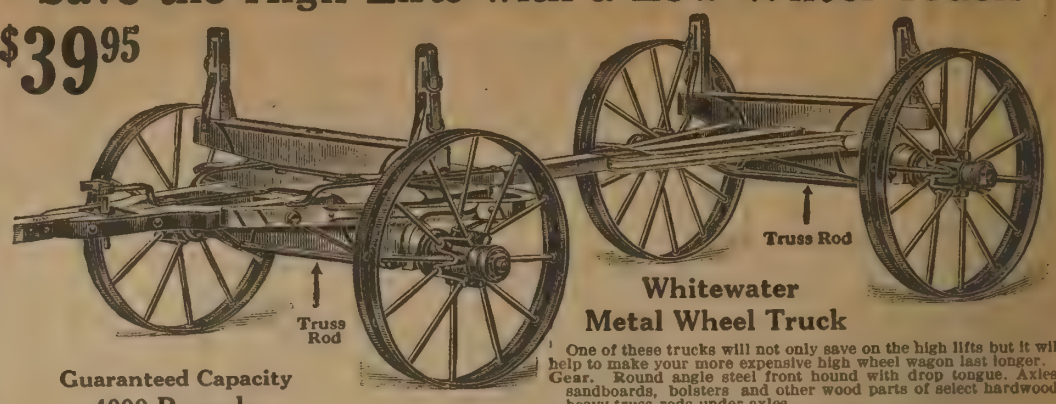
60-Inch Box

Make your Ford roadster do double duty—use it for pleasure and for work. You can haul large loads quickly with this outfit, at small expense. Attached by removing four bolts holding turtle back, and fastening with four long bolts furnished with body. Regular roadster body can be replaced quickly.

Solidly built of 1 inch hardwood, dressed. Size outside, 34 by 60 inches; 8 inches deep inside; 4¼-inch flareboards, attached to panel and bottom of body by two heavy steel box straps. Box rod brace across front. End gate ironed; heavy strap hinges. Painted glossy black. Shipped taken apart to save you freight. Shipping weight, 125 pounds.

287 F 7162 ..... **$7.98**

Shipped from Indiana or Northern Illinois



Truck Body Irons

Complete set of Irons for the construction of a body similar to the one shown above. Instructions include drawings showing how to cut lumber and assemble body; also a pattern so side boards can easily be cut to fit body curve back of seat. All necessary nuts, bolts, washers and screws included. Everything in the box except the lumber. Shipping weight, per set, 17 pounds.

87 F 7999—Set of Irons only..... **$3.25**

Save the High Lifts with a Low Wheel Truck

$39.95

Guaranteed Capacity 4000 Pounds

When you buy a Truck you want one that will carry all your loads and give you long continuous service. This is the biggest value we have ever offered our customers in a steel wheel farm truck. It is built specially for general all around farm work, and is strong where strength is needed. Note particularly the truss rods under the axles; these give the truck sufficient strength for general hauling and enable it to carry up to full rated capacity. Building these trucks in large quantities, we are able to reduce the cost of production, and give our customers this strong, sturdy, well made truck at the lowest possible price.

Whitewater Metal Wheel Truck

One of these trucks will not only save on the high lifts but it will help to make your more expensive high wheel wagon last longer.

Gear. Round angle steel front hound with drop tongue. Axles, sandboards, bolsters and other wood parts of select hardwood; heavy truss rods under axles.
Skeins. 3¼ by 10 inches; cast, standard pattern.
Wheels. Black; 28-inch front, 32-inch rear.
Tires. 4 by ⅜ inches, grooved.
Track. Narrow; 4 feet 8 inches.
Painting. Gears, red.
Capacity, 4000 pounds.
Shipping weight, about 550 pounds.

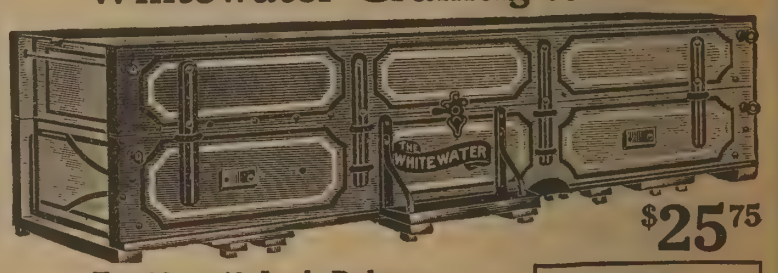
Whitewater Wood Wheel Farm Truck

$54.75

Guaranteed Capacity 4000 Pounds



This wood wheel Truck has the same carrying capacity as the steel wheel truck shown above, and is practically the same construction except the wheels. Note the heavy axles and the truss rods—providing extra strength. The spokes have full shoulders at both rim and hub; the tires being put on hot to draw spokes, hubs and rims into a solid unit that will stand up well under the hardest kind of usage. All other parts of ample size and strength for long hard service.

Gear. Round angle steel front hound with drop tongue. Axles, sandboards, bolsters, reach, tongue and other wood parts of select hardwood.
Skeins. 3¼ by 10 inches; cast, standard pattern.
Wheels. Height, 36 and 42 inches. Oak hubs, spokes and rims.
Tires. 3 by ⅜ inches.
Track. Narrow; 4 feet 8 inches center to center of tires.
Painting. Gear and wheels orange striped.
Capacity, 4000 pounds.
Shipping weight, about 650 pounds.

Whitewater Graintight Box

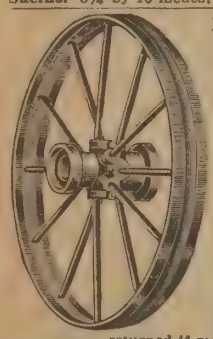
$25.75

For 38 or 42-Inch Bolster

We have yet to find a Wagon Box which is better built, better ironed, or made of better materials.

The life of a wagon box depends almost entirely upon the strength and durability of the foundation.

The floor of this box is seasoned hard white pine, tongued and grooved, with all joints drawn tight; double bottom over front and rear bolster. Seven hardwood cross beams support the floor, and wear plates protect the sides from the bolster stakes. Sides made of tough, thoroughly seasoned gumwood, entirely free from knots. Endgate patented Comstock type—can be removed without releasing rods. Tops of sides and ends are ironed. Box fastener on outside; anti-spreader chain on inside. Painted a dark deep green, attractively ornamented, then varnished. Size, 10½ feet long by 26 inches deep. One of these boxes, together with either a steel wheel or a wood wheel truck, will make you an excellent low priced farm wagon for all your lighter hauling jobs. Ship. wt., 330 pounds.



287 F 7676—For bolsters 38 inches between stakes. **$25.75**
287 F 7679—For bolsters 42 inches between stakes. **26.95**
For 10-inch tip-top box, add..... 7.95
For spring seat with high back, add... 6.45

Shipped from Indiana or Western Illinois

Graintight

When you buy a Whitewater Wagon Box you need never worry about losing grain on the way to market. This box is graintight; notice that a cleat completely covers the joint between the box and top boards.

For Farm Wagons and Trucks

Capacity, 4000 pounds per set offour.

Number and size of spokes, also hub pattern, vary according to size of skein or axle. We recommend ⅜ inch tires for general farm use, and ½ inch for gravel or stone roads.

Grooved tires are stronger, and are shipped unless plain tires are ordered.

Prices are per wheel.

Wheels are made specially to order, and therefore can not be returned if made according to your specifications. Shipments are usually made in 10 to 15 days after receipt of order.

How to Measure and Order Wheels

If you send us correct measurements, we guarantee wheels to fit perfectly.

Send all measurements indicated at left. Measure from skeins only—not from your old wheels. Give exact sizes. Factory will allow for play. If you have no calipers, cut a piece of cardboard as shown to fit over part to be measured, then measure across slot. Do not measure around the skein; and be sure to measure from side to side of spindle—not from top to bottom, as skeins are often badly worn on the under side. Measure both front and rear axles.

Special! Complete Set (4) Steel Wheels With Cast Skeins for Farm Trucks

The cheapest and best way to re-equip your old truck with steel wheels is to buy them in sets complete with skeins. New wheels and new skeins run easier and fit perfectly, the same as on a new wagon.

Article Number	Size Tire,	Front Wheel	Rear Wheel	Size Skein	Ship. Wt. Per Set	Set of 4

Sarven Pattern Buggy and Light Wagon Wheels

Extra grade Wheels—not common repair wheels. Will more than repay their cost by the extra service you will receive. Complete with round edge tires, set ready for use. Made of tough, close grained hickory. Rims are screwed on side of each spoke to prevent splitting; extended malleable iron flange; tires bolted between spokes. We can furnish any standard size from 34 to 48 inches high. Usually rear wheels are ordered 4 inches higher than front wheels.

Important! Read this before ordering wheels.

Sarven Pattern Wheels are furnished in the white only; oil finished—not painted or varnished. Wheels are without boxes, and we do not set axle boxes in hubs. **Be sure to state height wanted and length and outside diameter of boxing. Wheels are not mallable.**

Steel Storage Tank

$29.95 Made of No. 20 gauge galvanized steel. Riveted and soldered seams. Tanks are all set up in the shop and as much work is finished as possible. All holes are punched. Shipped taken apart but you seldom need to put together more than two joints. Solder and rivets, also instructions with each, so it is simple and easy to set them up. On the larger sizes we do not recommend less than No. 18 gauge; see extras for heavier tanks in center of this page. Note also extras on this page for covers and connections.

Climax Cast Iron Hog Trough

These Troughs are so strong a wagon driven over one would cause no damage. They never wear out and are easy to keep clean on account of the smooth surface. Buy them for real economy, particularly for use outside. Shipping weights: 25, 58 and 78 pounds.

Article Number	Length	Each
187 F 3380	2 feet	$1.25
287 F 3381	4 feet	3.95
287 F 3382	6 feet	4.95

The 4 and 6-foot troughs shipped from Southern Michigan or Western Illinois

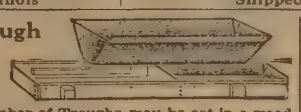
Smoke House

A practical Smoker for home use as it is easily operated, uses but little fuel, requires hardly any attention, and is safe and fireproof.

It gives meat that full flavored taste because of thorough circulation of the smoke; long travel also cools the smoke and avoids possibility of overheating meat.

Outer casing, fire chamber and smoke pipe are heavy galvanized iron. Four 2 by 2-inch posts and set of hooks to hang meat on included. Use for storage after smoking; all ventilators screened.

May be set in any convenient place and connected to any ordinary chimney so surplus smoke can escape. Shipping weights: 113 and 135 pounds.



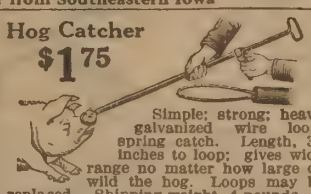
287F3363—Three-hog size $19.75

287 F 3364—Five-hog size..... 22.50

Shipped from Southeastern Iowa

Stock Feed Trough

46¢ Each In Lots of 6



Designed so any number of Troughs may be set in a wood frame, making a continuous trough for feeding hogs, cattle, horses and sheep at lowest possible cost. Pressed out of a solid piece of galvanized steel; absolutely watertight without solder or rivets. Sides tapered and ends flared out slightly for easy cleaning. Sides reinforced by a triangle bead; bead also carries the load when set in frame. Size, 24 by 12 by 5½ inches. Directions with each package. May be shipped by parcel post. Shipping weight of six, 36 pounds.

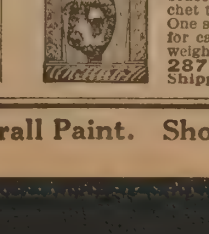
187 F 3369—6 troughs $2.76

Hog Catcher

$1.75

Simple; strong; heavy galvanized wire loop; spring catch. Length, 36 inches to loop; gives wide range no matter how large or wild the hog. Loops may be replaced. Shipping weight, 4 pounds.

87 F 3386.....$1.75



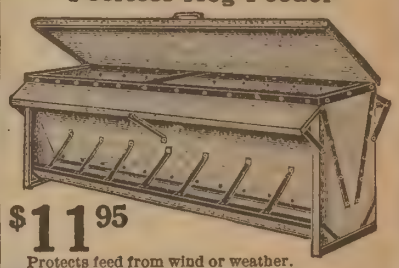
87 F 3387—Extra Loops. Shipping weight, 4 ounces. Each.....25¢

$1.79 Genuine Dewey Automatic Stock Fountain

Easily attached to barrel or tank and held in place by one bolt and strong lock nut on the pipe. The body is made of cast iron with double drinking chamber. The float ball is made of brass and will not rust. Float enclosed within covered chamber outside the barrel, open at the top, leaving it easy to get at, but well protected. Shipping weight, 14 pounds.

487 F 3306.....$1.79

$6.50 Holdfast Hog Catcher



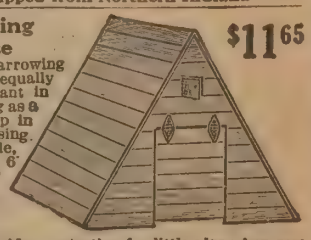
A strong, light and simple device for catching and holding hogs. One pull of lever holds any size hog. Lever locks at any point desired. May readily be attached to barn door, or post of gateway or corral. Pine, steel braced. Hand lever with ratchet to open or close stanchion. One size only. Frequently used for cattle dehorning. Shipping weight, 42 pounds.

287 F 3376.....$6.50

Shipped from Cent. Illinois

Peerless Hog Feeder

$11.95



Protects feed from wind or weather. Made of 20-gauge galvanized steel reinforced with angle iron. One compartment full length; distributes feed evenly. Hogs feed from both sides; bars keep hogs from rooting feed out or crowding along in trough. Practically no waste.

Ward's All Purpose Breeching Harness

Trace Hang Up Hooks

In most convenient position. Can not unhook by accident. Wide leather safe adds to appearance of harness and comfort of horse.

Three-Ply Traces

Heavy and of choice harness leather. Each stitch locked inside of trace—can not pull out. Wide leather liner in trace carrier means double wear and better appearance.

Folded Breeching

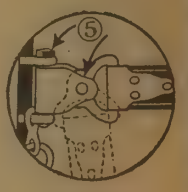
Quick, easy adjustment. Patent buckle absolutely smooth on both sides. Comfortable for horse. Nothing to catch tail or lines. Heavy folded breeching with wide layer gives strength to spare.

For 1⅛-Inch by 18-Foot Lines Instead of 1-Inch by 18-Foot With Any Harness on This Page, 60¢ Extra

$49.95

Shipped from Central Illinois

All Harness on This Page Sold without Collars



Ring Crown Bridle

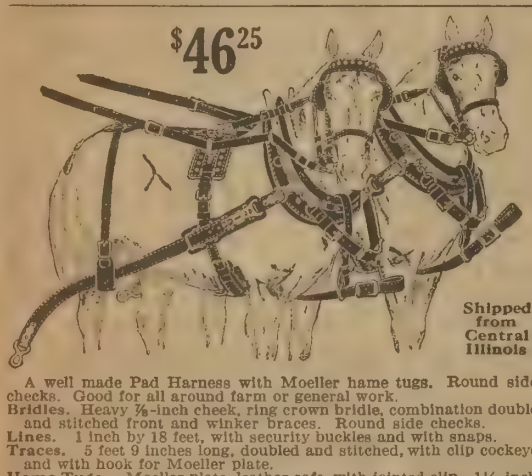
Fits any shape head without twist or bind to any strap. Weight of bridle carried on extra wide 1⅝-inch crown, means greatest possible comfort to the horse.

Jointed Clip Connection

Always a straight pull on the traces; never any twist regardless of height of singletree. Jointed clip connection provides free movement up and down and side to side.

Long Spread Straps

With Adams wood roller. Roller is easily removed to put in line. Line can not twist; roller takes all wear. Every harness shown on this page has these spreaders.



This Harness was designed by our harness experts from suggestions made by our customers. A harness that may be used for any type of work. It is suitable for farm use, heavy hauling, or any kind of heavy work. All our harness is constructed in our own factory by men who understand thoroughly the making of harness. All leather and all other supplies used in our harness are selected carefully so we may be able to give our customers high grade harness at very low prices.

Bridles. Heavy, ⅞-inch cheek, with nose band and adjustable bit strap; wide folded adjustable crown; double and stitched combination front and winker brace, sensible blinds, round reins with gag swivels and check up straps.

You will find roomy comfort in Ward's long wearing Work Clothes. See Page 227

Ward's Wear More Harness

New Patented Crown Ring

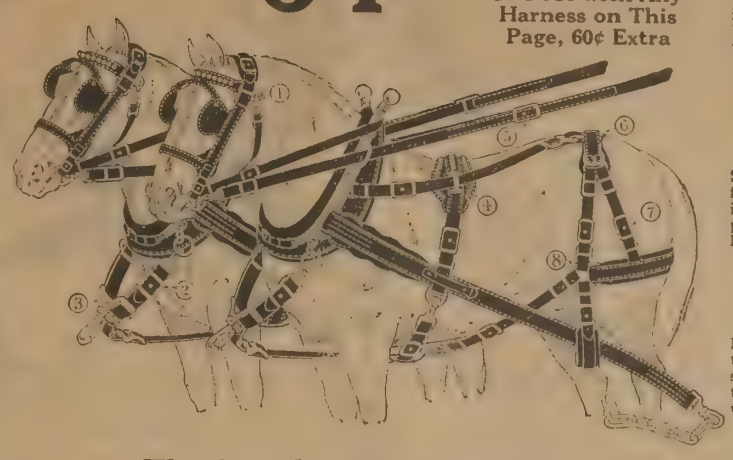
The patented Crown Ring enables us to use an adjustable crown piece. The heavy snap on the throat latch makes hitching easier and faster.

New Patented Breast Strap Buckle and Snap

The heavy Buckle on the Breast Strap also holds the snap firmly in place. The buckle spreads the strain over full width of the breast strap.

New Patented Breast Strap Roller Snap

The heavy combination Breast Strap Snap and Slide works easily on the breast strap, and also holds the martingale—doing away with the collar strap. Makes a very durable combination.



New Patented Back Strap Loop

The heavy Back Strap Loop is fastened firmly to the back pad by the layer. A loop on the other end holds the 1¼-inch market straps.

$64.50

For 1⅛-Inch by 18-Foot Lines Instead of 1-Inch by 18-Foot with Any Harness on This Page, 60¢ Extra

The Metal to Metal Feature Gives Longer Wear

Collars Not Included with Any Harness on This Page

New Patented Line Buckle

The patented Line Buckle eliminates all of the pull on the buckle tongue. This way it prevents the buckle from breaking and the line from tearing.

New Patented Back and Hip Strap Ring

The heavy Back and Hip Strap Ring prevents the straps from tearing apart. Each strap is protected from wear by the patented buckle and wear loop.

New Patented Hip Strap Buckle

The patented Hip Strap Buckle makes adjustment of the hip straps easy. All the strain is taken from the buckle tongue and spread the full width of strap.

New Patented Breeching Ring

The breeching, hip straps, lazy straps and trace carriers are all protected from wear on the breeching ring by the patented Buckles and Wear Loops.

This Harness represents the latest and best in design and workmanship. It is not an experiment, but represents the ideas of expert harness makers carefully worked out and put to severe test before being offered to our customers. Each part was carefully tested before it was adopted. Every single place where there is friction we have reinforced this harness with Metal Wear Loops. These loops by preventing the leather from wearing away, give the harness longer life. Every part is made so as to give the longest wear possible. This harness is made for those who want the best. You will save money by using this harness.

Heavy Wear-More Harness

Bridles. Heavy, ⅞ inch cheeks, doubled and stitched nose band, heavy double and stitched combination front and winker braces, ⅞ inch center checks.
Lines. 1 inch by 20 feet; outside check lines doubled and stitched about 30 inches.

Ward's Metal to Metal Harness

$62.50

Shipped from Central Illinois

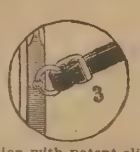
Wears Longer

All Points of Wear Protected

Ward's Metal to Metal Harness was made to meet the requirements of those who wanted an iron to iron harness for practical farm use. This harness is made of the best grade harness leather by expert makers. Before we offered this harness to our customers we tested it carefully so as to be sure that each part was right. Every place where the leather rubbed against metal, we placed metal wear loops to protect the leather. This makes the harness give much longer service. All the parts of this harness are made heavy so that it will stand the strain of heavy hauling or farm use.

The Breast Strap Snap and Slide is heavy and well made. The Martingale is attached firmly to the snap.

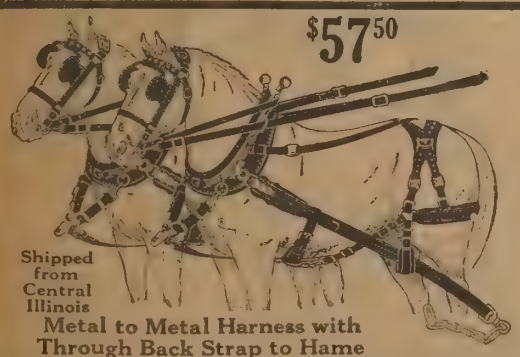
Heavy metal Trace Carrier firmly attached to crossed back straps and hip straps with special wear loops.



The heavy traces are attached to the hames by Concord Clips to bolt to hames Allows for up and down movement of the traces.

The breeching, hip straps, lazy straps and trace carriers are all reinforced at the breeching ring with metal wear loops.

The back straps are attached to the hames by special Wear Loops, preventing wear on the straps.



The Hip Strap Loop is sewed under the layer on the breeching, thus lessening the chances of ripping.

Bridles. Heavy, ⅞ inch cheek with nose band and bit strap, wide adjustable crown, doubled and stitched combination front and winker brace, sensible blinds, flat side checks.
Lines. 1 inch by 18 feet, outside check lines doubled and stitched about 30 inches.

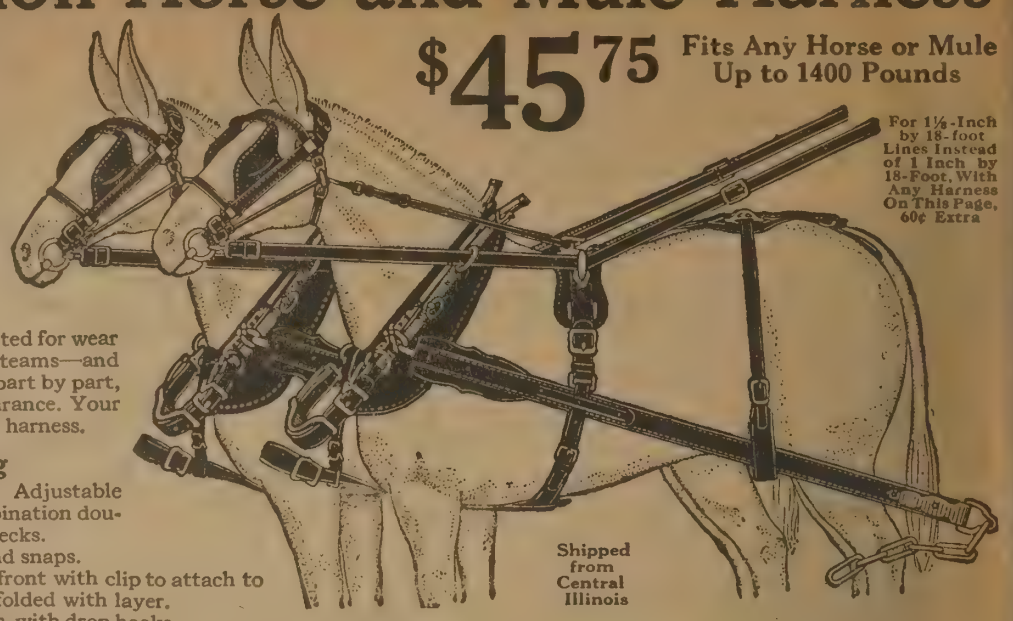
Five million homes save by buying from Ward's. We guarantee prompt delivery



Ward's Combination Horse and Mule Harness

IT is a waste of time to repair old, wornout Harness. You fix one place today and it gives way in another tomorrow. And have you not noticed, it is when you are in a rush to get the hay in ahead of a shower, or on similar occasions, that the breaks occur?

There is no need to bother with such harness when you can get this new, high grade set at such a low price. It will pay for itself in one season by the time and trouble it will save. Then you can look forward to many years when you will never get a late morning start or waste time during work hours making harness repairs. And best of all, you will never need worry about getting out of tight places with your load.

This harness is made in our own factory, by the best harness makers we can find. Nothing but the best work harness leather is used. Every thread, every strap and every metal part is selected for wear and strength. It will stand the hardest pulls of strong, honest teams—and more. Just read the specifications below. Compare this harness, part by part, with other harness at much higher prices. Notice its fine appearance. Your team will look 100 per cent better when dressed up in this new harness.

Our Leader Side Backer Harness

Side Backer Harness has become very popular in the hilly sections of the country, or in work that requires much backing. The heavy 1½-inch side backers take all the strain in backing, which in other types of harness is placed on martingale.
Bridles. Heavy ⅞ inch cheeks with noseband and bit straps; wide adjustable crown; double and stitched combination front and winker brace; sensible blinds; flat reins to check over hames.
Lines. 1 inch by 18 feet, patent buckles and snaps.
Traces. Heavy 3 ply (1½-inch, two-row stitched or 1¾-inch three-row stitched); 6 feet long with wide safe in front; jointed clip for bolt hames; 6-link heel chains clipped on, bellybands folded with layer and filler.
Pads. 4½ inches wide, heavy doubled and stitched with solid brass bridges and spots; 1¼-inch reversed skirts with patent buckle.
Back and Hips. 1⅛-inch backstraps to hames with wear leather, 1 inch hip straps to buckle into breeching up tugs.
Breeching. Heavy folded. with leather filler and 1⅛-inch layer; trace carriers with wide liners and ⅞ inch billets; heavy 1½-inch side backers with patent buckles and spring snaps.
Hames. Oiled Concord; bolt style; fit 20 to 22-inch collars.
Spreaders. ¾ inch, with Adams wood rollers.
Trimming. Japanned (black), with brass spots.
For horses up to 1600 pounds. Ship. weight, per set, 85 lbs.

Army Halter

$1.00 Sewed and Riveted Heavy Black Leather

A Halter that usually sells for $2.50 It is made of strong, well tanned black harness leather. Each part is carefully cut and sewed to stand the hard wear of army use. All laps are riveted and sewed. Made of 1¼-inch straps.

It is wise to buy a number of these halters at this price, as it is practically impossible to make a halter of this quality at the price at which we are selling them. All these halters are absolutely new merchandise. They come in their original packing. Don't use an old halter. Order a number of these low priced halters now. Shipping weight, 2 pounds.

Our Standard Sweat and Collar Pads

Protect Your Horses

Prevents Collar and Back Sores

Yellow Sweat Pad

The construction of this Sweat Pad reveals excellent wearing qualities. It fits the horse's neck snugly thus preventing the natural movement of the collar from causing irritation. You will be entirely satisfied with this pad. It is our most popular sweat pad, made of the highest quality cotton covering, old gold in color, stuffed with a composite stuffing. Is 5-row quilted and fastens with 4 hooks. Has a 12-inch draft. Made of the best grade of material and the workmanship is of the best.

Order sweat pads one inch longer than horse's collar. Shipping weight, about 2½ pounds.

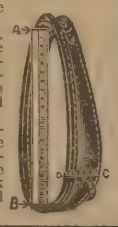
Ward's Collars

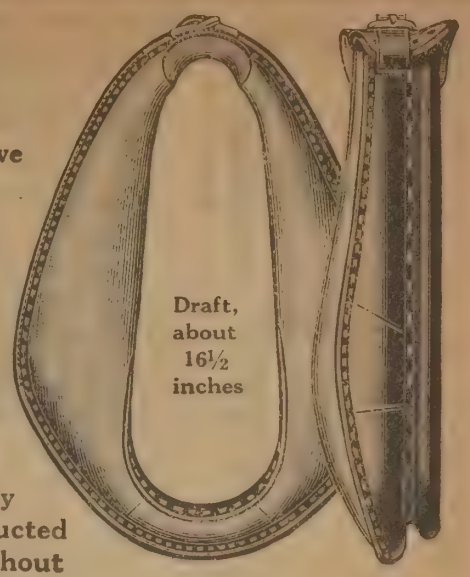
All the men who make Horse Collars for Ward's are experts. Many have spent practically their whole life in this work. They understand thoroughly every detail of collar making. The stuffing must be correctly placed so the collar will not become hard or lumpy. Materials must be chosen carefully so as to give the collar a smooth, long wearing surface.



Experienced buyers purchase the materials so as to get the best quality, and at the same time take advantage of the best prices. Our big factory has been enlarged so the capacity is about tripled. With our efficient organization we can give you the best collars possible for your money.

Users of our collars tell us that their horses have gone through many seasons without the slightest sign of sore shoulders. Ward's Collars are made for service—at money saving prices.

How to Order Collars



The size of a Collar is the length in inches from A to B as shown in the illustration. **Be sure to state exact size wanted.** Our collars are accurately patterned and guaranteed to fit if the right size is ordered. Measure from the old collar if possible.

At the top of each description we give the draft of the collar. This is the circumference at D and C. Order wide draft collars for heavy work and for horses having broad shoulders.

$3.55

Will Give Long and Satisfactory Service

Strongly Constructed Throughout

Leather Back and Rim

A good Collar at a low price. The price should not be taken as an indication of the quality of the collar. Our collars are made to give good service. Ward's Four-Size Collars

$6.60 17 to 20-Inch

Shaped to fit the Shoulder Needs no Breaking In

Thong Sewed

Instantly Adjustable to Four Different Sizes

The Greatest Collar Improvement Ever Made

SEE HOW simple it is! Nothing complicated. Simply change the pegs on the collar pad from one set of holes to another. Shorten or lengthen the collar any time, anywhere. Nothing could be more practical.

The sole leather pad is reinforced on top with two sheets of drawn steel through which the pegs are riveted. Nothing but smooth leather under the pad—no rivets to work loose and dig into flesh. The pad is flexible, easily bent to fit any neck. The face, back and rim are stitched together to form the broad, flexible four-size bands across the top so each collar fits thick or thin necks without binding or looseness.

Better Made Collars

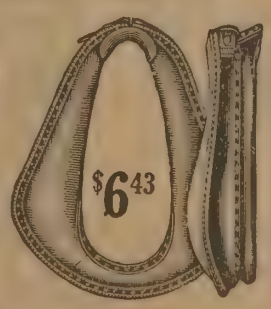
Double reinforced at the throat—four layers of leather at this point. Reinforcing wear leathers at hame chafes. Outer seams thong stitched and machine sewed. Rim seam thong stitched. Heavily padded with clean, fine cut rye straw and shaped to fit the shoulder from the very start—no breaking in. Padding stops at top of draft; collar can not sweeny because there is no pressure at upper neck—just a snug fit.

How could we make it better!

Choose from three different qualities and five different size ranges.

1 **Buff and Black.** Back and rim of buffed leather, known by harness men as buckskin strap leather, noted for wear. Face of good quality smooth black leather. A good, low priced collar!

2 **Black and Russet.** Back and rim of heavy black collar leather of select quality. Face of heavy select russet collar leather. A splendid collar for farm work and general teaming.



3 **All Russet Leather.** Face, back and rim of extra heavy choice russet collar leather, very smooth. No better collar made! Wears like iron. Built for those who want the best because it's cheapest in the long run. Stands hard usage.

30 Days' Trial

Here is the offer that proves our confidence in the Four-Size collar. Order today one or as many as you need. See how perfectly they fit the shoulders. See how comfortably they rest on the horses' necks. See why they can not gall, and why sweat pads are never needed. **Use them for 30 days!** Then—if you want to—send them back at our expense and we will refund your money.

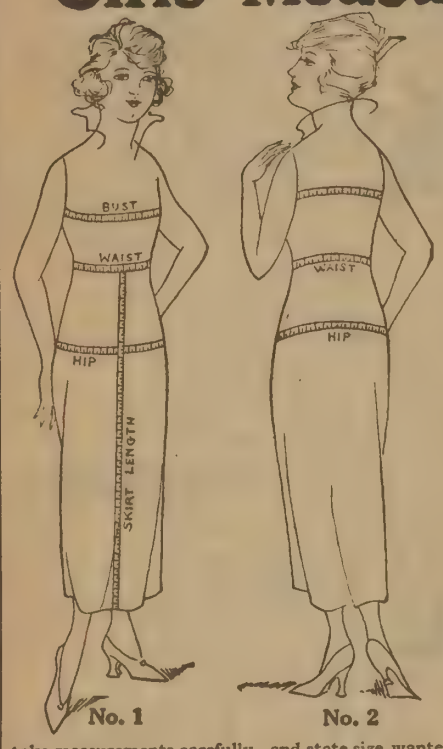
$3.65



Always State Size Wanted

A Few Simple Measurements Enable Us To Fill Your Orders for Clothing Quickly and Correctly

Have someone take your measurements for you. Do not endeavor to measure yourself. Do not have the tape measure drawn too tightly; just enough to fit comfortably. Be sure it does not slip out of position while measurements are being taken.

Be sure to send us correct figures, plainly written.

Women's, Misses' and Girls' Measurements

No. 1 No. 2

Bust: Have the tape measure placed around the fullest part of bust, well up under the arms, over shirtwaist or dress. Do not take this measurement too tight and do not allow tape measure to slip down in back. Make no allowance whatever. See No. 1.

Waist: Have the tape measure placed around the waist at smallest part of waist over your corset. See No. 1 and No. 2.

Hips: Have the tape measure placed around the hips about 7 inches below your natural waist line over your skirt. Do not allow tape measure to slip up or down. See No. 1 and No. 2.

Front Length of Skirt: Have this measurement taken by placing tape measure at natural waist line in front and continue down to whatever length skirt is desired. See No. 1.

Length of Dress: Measure from collar seam straight down back to bottom of hem.

Girls' Sizes in Years:

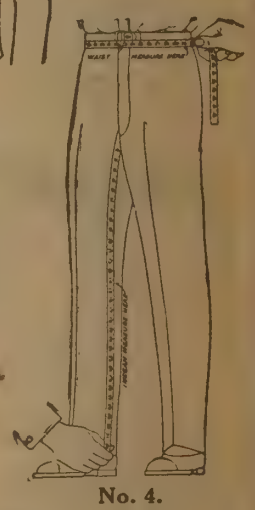
To find your daughter's correct size, take measurements carefully—and state size wanted as shown in table:

Sizes, years	7	8	10	12	14
Average bust measure, inches	30	31	32	33	34
Average length, inches	27	28	32	36	42

Men's, Young Men's and Youths' Measurements

Chest: Have the tape measure placed all around the body over chest close up under the arms and over shoulder blades in the back. Have measurements taken over vest as illustrated in No. 3. When ordering suits, **state height and weight.**

Sleeve: Place hand and arm in position as illustrated in the top picture. Have tape measure placed on center seam in back and continue around elbow to wrist for the length wanted.



No. 3

When Ordering Be Careful to Send Us All Information Asked in Catalogue Descriptions

Waist: Have the tape measure placed all around your waist just above hips. See first measurement illustrated in No. 4.

Inseam: Have tape measure placed close up in crotch and continue down the leg to the desired length as shown in No. 4. The above measurements should be taken over trousers and tape measure should not be drawn too tightly. When ordering trousers or overalls, state waist and inseam measurements, **also height and weight.**

No. 4.

Boys' Sizes in Years:

Sizes, years	5	6	7	8	9
Chest, inches	24	24¾	25½	26¼	27
Sizes, years	10	11	12	13	14
Chest, inches	27¾	28½	29¼	30	30¾
Sizes, years		15	16	17	18
Chest, inches		31½	32¼	33	34

Give Sizes As Follows When Ordering

Blouses: State bust measure.

Girls' Coats: Order by age only. See description.

Misses' and Juniors' Coats: State age and bust measure. See description.

Women's Coats: State bust measure.

Girls' Dresses: State age. Order by age only, corresponding to 30 to 34-inch bust measure. See description.

Junior Misses' Dresses: Order by age only, corresponding to 33 to 39-inch bust measure. See description.

Women's and Misses' Dresses: State bust, waist, hip measures and back length from back of neck to bottom of hem.

House Dresses, Kimonos and Aprons: State bust measure.

Women's Sweaters: Add 2 or 3 inches to bust measure taken over dress. Even number sizes only, 34 to 46.

Underwear, Knit and Muslin: For Union Suits, Vests and Shirts, state bust measure. Drawers, waist measure.

Back Lace Corsets: Take waist measure tightly over corset and subtract 2 inches to allow for the lacing.

Front Lace Corsets and Topless Corsets: Take waist measure tightly over corset and subtract 1 inch.

Misses' and Women's Skirts: State waist and hip measure, also front length.

Misses' and Women's Raincoats: State bust measure.

Girls' Raincoats: State age usually taken for. See description.

Boys' Coats: State age and chest measure.

Boys' Mackinaws: State age and chest measure.

Boys' Overalls: State age; also height and weight.

Boys' Overall Jackets: State age; also height and weight.

Men's Sweaters: Add 2 or 3 inches to chest measure taken close up under the arms over shirt, or state one size larger than coat size. Sweater sizes run in even numbers, 34 to 46.

Shirts: See each description.

How to Measure for Gloves

Draw tape measure around over the knuckles (as shown in picture to the left) not too tight, and not including the thumb. To this measurement add ¼ inch for dress gloves and ½ inch for work gloves, which gives your correct size. Women's unlined kid glove sizes: 5½, 5¾, 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8. Women's silk fabric and lined glove sizes: 5½, 6, 6½, 7, 7½, ...ss glove sizes: 7, 7½, 8, ... Men's work glove sizes: ...½, 11. Children's ...ure to state if

For Babies' Bonnets

Measure the head as illustrated by placing tape measure around the head and face, beginning at the arrow point shown in picture, which is on the neck just below the ear and continues around the face to point on opposite side. This shows size of bonnet to order.

Every Article Shown in This Catalogue Is Listed on the Blue Pages, 301 to 312

How to Measure for Hats and Caps

For Children, Boys and Men

Measure as shown and compare the number of inches your head measures with this scale of hat sizes, and send us the hat size you wear.

Children's hat sizes: 6⅛ to 6¾. Boys' hat sizes: 6½ to 7. Men's hat sizes: 6¾ to 7¾.

Head Measure Size	Corresponding Hat Size	Head Measure Size	Corresponding Hat Size
19 inches	6⅛	21⅝ inches	7
19⅜ inches	6¼	22 inches	7⅛
19¾ inches	6⅜	22⅜ inches	7¼
20⅛ inches	6½	22¾ inches	7⅜
20½ inches	6⅝	23⅛ inches	7½
20⅞ inches	6¾	23½ inches	7⅝
21¼ inches	6⅞	23⅞ inches	7¾

Three Big Bargains for You

Oak Dining Chairs

$1.68 Each

When we first saw these Chairs we knew at once they belonged on this page of Special Feature Bargains. And these chairs are bargains—good value all the way through. You will wonder how we can afford to sell them at this low price. Just because they were such good value, we bought them in large quantities to supply our thousands of customers. And, of course, big orders mean lower costs and bigger savings. These chairs are strongly made throughout of Solid Oak well seasoned, and finished Golden or Fumed Brown. Full box seat and graceful panel back. Continuous back posts make the chairs extra solid and sturdy. Seat is 15½ by 14¼ inches. Height of back from seat, 21 inches. Shipping weight, each, 12 lbs.

166 F 3093—Golden Oak, Each..... $ 1.68
Set of 6..... 9.98
166 F 3094—Fumed Brown, Each..... 1.73
Set of 6..... 10.28

48-Piece Set $3.85 First Quality

Service for 12 Persons

A bargain you will enjoy three times a day. Pure white embossed Dinner Ware—every piece first quality, and just the pieces you need for everyday use.

12 Dinner Plates — 12 Teacups
12 Sauce Dishes — 12 Tea Saucers

Think of it! All the dinner ware you need to set a table for twelve persons, at a cost of less than four dollars. A good grade of pure white semi-porcelain, famous for its wearing qualities. Safe delivery guaranteed. If any pieces are broken in shipment, we will replace them without cost to you. Shipping weight, per set, 45 pounds.

450 F 117—48-Piece Set..... $3.85

Genuine Oak Rocker-Special $3.98 Fumed Brown

Dull Fumed Brown or Golden Oak

This big Rocker with its wide, roomy seat, comfortable back and broad arms, is truly representative of the values in this catalogue. Only because we buy in great quantities and sell to you at one small profit, can we offer such money saving values.

The modified Mission design makes this rocker especially desirable as an extra rocker, because it will look so well with your other furnishings. It has all the rugged strength of Mission furniture, with added grace and comfort. The shaped seat is unusually comfortable and is strongly braced. The four-panel back and three-panel arm supports emphasize the Mission design. Well made of solid oak, strong and sturdy. May be had in either Golden Oak or rich Fumed Brown Oak. The roomy seat is 20½ by 18½ inches. Back is 23 inches high from seat. Shipped taken apart to save you freight. Shipping weight, about 25 pounds.

166 F 900—Golden Oak..... $3.96
166 F 901—Fumed Brown..... 3.98

These bargains are typical of the big values you will find on every page of this book

Buy Your Poultry Needs from Ward's

$23.80 250 Egg Size
287 F 3739

Improved 1924 Model

Ward's Dependable Incubator

There is no reason why you should pay more than $23.80 for a high grade Incubator holding 250 eggs. Ward's Dependable will do the work of any high priced machine; and it has many features found in no other incubator selling under $50. Like everything else we sell, we absolutely guarantee it.

Hot Water Heat Means Uniform Heat

Made in our own factory, the **Dependable** has the features that poultry men know all good incubators should have. Finished in mahogany, with heavy hardware and brass corners. Heat in the egg chamber is always uniform, easily controlled and self regulating—kept in by double walls, properly insulated. **Heated by hot water,** which everyone knows is better than hot air because it does not cool off so quickly.

Practically No Attention Required

Egg trays of improved construction, easy to clean and keep clean. Fresh air circulates freely at all times. A heavy door keeps the egg chamber dark. Moisture pans are galvanized steel and one inch deep to provide plenty of moisture so chicks will not stick to shells. Four sizes—150, 250, 380 and 500-egg capacity. We have built an incubator which, when operated with just ordinary care, will hatch every hatchable egg. What more could you ask for—at any price?

Why You Should Buy It

1. Hot water heating system.
2. Absolutely uniform heat.
3. Temperature self regulating.
4. Positive air circulation.
5. Requires less attention.
6. Hatches every hatchable egg.
7. Attractive mahogany finish.
8. Heavy hardware and brass corners.
9. Solid copper pipes.
10. Egg trays easily handled.
11. Large egg capacity.
12. Priced at a big saving to you.

Details and Prices for All Sizes of the Dependable on Page 578

Little Setting Hen Incubator 60 Egg Size

Only **$4.85**

Less Than Is Usually Asked for Incubators Holding Only 50 Eggs

May Be Sent by Mail

Our customers tell us that the Little Setting Hen hatches a larger percentage of eggs, and with less attention than many of the high priced incubators.

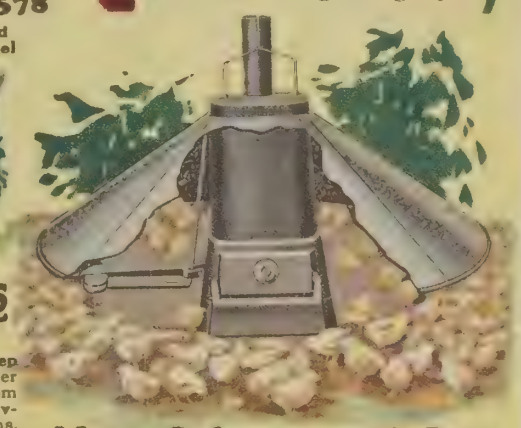
Specially made in our own factory for poultry men who operate on a smaller scale, or for special hatches on big poultry farms.

Sturdy and strong, holds 60 eggs, and built on the same hatching principles as big incubators. Interior of heavy galvanized steel instead of light tin so commonly used in small incubators. Double walled and insulated to get full use of the uniform heat, which comes from an oil lamp suspended from the bottom. Heat can be easily regulated. Thermometer clearly seen at all times through glass window at side without opening lid. Has removable wire screen egg tray. Battleship gray enamel finish. Size, 18½ by 16 inches high. Shipping weight, 18 pounds.

487 F 3950 ..... $4.85

Improved 1924 Model

Little Mother Hover 60 Chick Size $3.15



Increase your poultry profits. Keep your hens laying; let Little Mother Hover raise your chicks. Made from heavy galvanized steel with removable cotton flannel side curtains. Lamp is encased in galvanized steel, sets in center, takes air draft from top through pipes. Safe, comfortable and sanitary. No smoke or gases. Plenty of fresh air. Sizes, 17 by 9 inches high. Shipping weight, 12 pounds.

487 F 3951 ..... $3.15

Special Offer $7.50 for Both

Little Setting Hen and Little Mother Hover

We recommend that the two be used together. Ship. weight, 30 lbs.
487 F 3952—Little Setting Hen and Little Mother Hover .. $7.50

New Colony Stove Brooder 500-Chick Size $13.50

187 F 3943

We manufacture this high grade Brooder in our own modern factory, and sell it at a price just about half what is usually asked in retail stores (the 500 chick size retails regularly at $20 to $25). No better brooder made. Gives plenty of room and fresh air, with very little attention required. Stove burns hard or soft coal, needs filling only once a day and the temperature is self regulating. Simple, safe and sanitary. Extra large diameter of hover avoids crowding. Adjustable canopy of galvanized steel is designed to spread heat uniformly over backs of chicks.

For Complete Details and Prices, see Page 579

Perfect Poultry Fencing

Heavier Than Regular Poultry Netting

Lowest Price Since 1915

Keeps in Small Chickens

Less Than 2¢ a Running Foot

Months ago, when steel prices were at a very low point, we contracted for this Fencing. There have since been three advances in steel prices, but we are still giving our customers the benefit of the big saving we made on this purchase.

We offer this standard, popular Poultry Fencing made out of openhearth steel wire, fully galvanized, for less than 2c a running foot—one-third less than is usually asked for poultry netting, and our lowest price since 1915.

Heavier than poultry netting, it will last longer, is easier to put up and costs much less. Put up like a stock fence. With posts placed about one rod apart, it will stretch stiff and straight. Does not require top and bottom boards. Mesh is close enough at bottom to keep in small chickens. Continuous upright stays placed 4½ inches apart, firmly interlocked with line wires so it will not spread. Top and bottom wires 13 gauge. Stay and line wires 18 gauge. Height of meshes, 1½ inches at bottom widening to 5 inches at top.

Article Number	Height Inches	Stays Spaced	No. Line Wires	Ship. Wt. 10 Rods	Price
284 F 5307	48	4½ inches	21	37 pounds	32¢ per rod
284 F 5308	58	4½ inches	24	43 pounds	38¢ per rod
284 F 5309	72	4½ inches	27	50 pounds	43¢ per rod

Sold only in full bales of 10 and 20 rods. Shipped from Northern Illinois

Montgomery Ward & Co. Chicago, Illinois
Satisfaction Guaranteed or Your Money Back

Tourists' Supplies

Montgomery Ward & Co. is perhaps the largest single distributor of Campers' and Tourists' Supplies in the world. We buy in very large quantities, direct from manufacturers. We are able to sell to you at prices which bring you substantial cash savings.

Khaki Auto Tent
$11.25

Easy to Put Up

With this fine Tent on your running board, you do not need to worry about hotel bills when you are touring. You can go where you please and stop whenever you feel like it. In a few minutes time and with scarcely any effort your tent is up. You have an ideal shelter—**and your car is right where you can watch it.** Front flap is stretched over top of car and fastened to the wheels on opposite side. Tent is then stretched and the corners tied to stakes or trees. No fussing with poles or a lot of stakes—it is up in a jiffy. To use it as an open front shelter tent, simply use jointed poles instead of fastening tent to your car. This tent, made of all khaki watershed duck, will protect you from the heaviest showers. It is full 7 by 7 feet, with a 3-foot back wall, and is 6½ feet high in front. Furnished complete ready to set up, with guy ropes and stakes. Shipping weight, 15 pounds.

460 FC 9512—All khaki watershed tent **$11.25**
460 FC 9511—Same as above, except made of all white mildew proof duck..... **$9.85**
460 FC 9524—6½-foot 3-piece jointed Wood Poles, with galvanized ferrules. Ship. wt., 6 lbs. Per pair.. **$1.48**

Khaki Top Tent
$12.95
7 by 7 ft. Size

Full Size Hammock
$2.98

This big, roomy, comfortable hammock with its large lay back pillow, will appeal to all campers and tourists. Very well made from close, basket woven cotton yarn in a pleasing color combination of tan, brown and green. Strong ropes with wood spreaders support the hammock and keep it in shape. Fringed valance 8 inches wide. Size of bed about 33 by 78 inches. Every family should have a good hammock at this low price.
460 FC 9644..... **$2.98**
Postage, 8¢ extra

Ward's "Kul-Dri" Never-Leak Tent

When you go camping or touring, you want a Tent that will be comfortably cool and at the same time thoroughly waterproof. This tent is selected by many old time campers and woodsmen because it has so many good features. Khaki duck waterproofed top means a snug, dry tent in rainy weather. No fly top is needed. Sun's rays do not penetrate this top, so the tent is unusually cool. Side walls allow circulation of air, and you can keep tent closed, yet be comfortable on summer nights. Another important feature of this fine tent is the wide eaves to keep rain from running down the side walls. This means a dry tent at all times.

All points of strain are heavily reinforced with double thicknesses of duck, and strongly sewed seams guard against ripping. The guy ropes are attached to iron dee rings to prevent tearing top. A fine tent, well made in every way, with top of heavy khaki duck, about 10 ounces in weight per yard after waterproofing. Complete with poles, guy ropes and stakes. Fully guaranteed.

Article Number	Actual Size	Height of Wall	Height of Pole	Shipping Weight	Each
160 FC 9563	7 by 7 feet	3 feet	6½ feet	35 pounds	$12.95
160 FC 9566	8 by 10 feet	3 feet	7 feet	50 pounds	17.95
160 FC 9568	9½ by 11⅓ feet	3 feet	7 feet	60 pounds	22.35
160 FC 9569	11⅓ by 14 feet	3½ feet	8 feet	100 pounds	29.85

Camp Cook Stove

$4.95

The largest order for Camp Stoves we ever placed has brought the cost down to "rock bottom." Made according to our own design. Large enough for practically all outdoor cooking. Case is 15 by 8½ by 5 inches. Sliding top can be used as a windshield. Either one or both burners may be used as desired, as they have separate controls. Burns gasoline under pressure, giving a hot blue gas flame. Brass tank is fastened to one end of case—no leaky joints. Absolutely safe. Tank is 3 inches in diameter; has large safety filling cap. The strong metal case is supplied with carrying handle on the side. Shipping weight, 18 pounds.
560 FC 8958—Complete..... **$4.95**

Camp Fire Grub Stake

$1.75

All Metal
No Clamps
No Tools
Racks Adjustable

Cooking Utensils Not Included

The fun of cooking over an open fire with the convenience of a kitchen range. Easy to use; can be set up in one minute. Simply push the pointed end in the ground. Metal racks for frying pan and coffee pot—grate for broiling meats. Racks easily raised or lowered. No set screws or clamps. Shipped in compact fiber box that fits under auto seat or in bottom of canoe. Height, set up, 26 inches. Shipping weight, 8 pounds.
560 FC 8870—Stake and racks. **$1.75**

Strong Folding Camp Cot

$2.98

Folded Size
38 by 5 by 7¼ Inches

There is no reason why you should sleep on the hard ground when you can buy comfortable Folding Cots like these for so little money. Our order was placed many months in advance when business was slack and enabled the maker to keep his factory running at full speed. In return he made us a very low price, of which we are giving you the full benefit. They are well made of canvas duck with hardwood frame and legs. Strong iron enameled straps reinforce legs. Folds into small space so you can pack it in your car. You will want several to start your trip. Size, open, 6½ feet by 25 inches; folded, 38 by 5 by 7¼ inches. Shipping weight, 20 pounds.
560 FC 9675..... **$2.98**
